Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah terdapat bukti yang obyektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Penurunan nilai atas aset keuangan atau kelompok aset keuangan dianggap telah terjadi, jika dan hanya jika, terdapat bukti yang obyektif mengenai penurunan nilai sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset tersebut (peristiwa kerugian), dan peristiwa kerugian tersebut berdampak pada estimasi arus kas masa depan aset keuangan atau kelompok aset keuangan yang dapat diestimasi secara andal.

Bukti penurunan nilai dapat meliputi indikasi pihak peminjam atau kelompok peminjam mengalami kesulitan keuangan signifikan, wanprestasi atau tunggakan pembayaran bunga atau pokok, terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya dan pada saat data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang, seperti meningkatnya tunggakan atau kondisi ekonomi yang berkorelasi dengan wanprestasi.

Impairment

*The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (an incurred loss event) and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.*

*Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and when observable data indicates that there is a measurable decrease in estimated future cash flows, such as increase in arrears or economic conditions that correlate with defaults.*

Penurunan Nilai (lanjutan)

- Aset Keuangan yang Dicatat pada Biaya Perolehan Diamortisasi

Untuk pinjaman yang diberikan dan piutang yang dicatat pada biaya perolehan yang diamortisasi, Kelompok Usaha pertama kali secara individual menentukan bahwa terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang signifikan secara individual, atau secara kolektif untuk aset keuangan yang tidak signifikan secara individual. Jika Kelompok Usaha menentukan tidak terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang dinilai secara individual, terlepas aset keuangan tersebut signifikan atau tidak, maka Kelompok Usaha memasukkan aset tersebut ke dalam kelompok aset keuangan yang memiliki karakteristik risiko kredit yang sejenis dan menilai penurunan nilai kelompok tersebut secara kolektif. Aset yang penurunan nilainya dinilai secara individual dan untuk itu kerugian penurunan nilai diakui atau tetap diakui, tidak termasuk dalam penilaian atau penurunan nilai secara kolektif.

Jika terdapat bukti objektif bahwa kerugian penurunan nilai telah terjadi, jumlah kerugian tersebut diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit di masa mendatang yang belum terjadi). Nilai kini estimasi arus kas masa datang didiskonto menggunakan SBE awal dari aset keuangan tersebut. Jika pinjaman yang diberikan atau piutang memiliki suku bunga variabel, tingkat diskonto untuk mengukur kerugian penurunan nilai adalah SBE terkini.

Impairment (continued)

- Financial Assets Carried at Amortized Cost

*For loans and receivables carried at amortized cost, the Group first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment for impairment.*

*When there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan or receivable has a variable interest rate, the discount rate for measuring impairment loss is the current EIR.*

Penurunan Nilai (lanjutan)

- Aset Keuangan yang Dicatat pada Biaya Perolehan Diamortisasi (lanjutan)

Nilai tercatat aset keuangan dikurangi melalui penggunaan akun cadangan dan jumlah kerugian tersebut diakui secara langsung dalam laba rugi. Penghasilan bunga terus diakui atas nilai tercatat yang telah dikurangi tersebut berdasarkan suku bunga yang digunakan untuk mendiskontokan arus kas masa depan dengan tujuan untuk mengukur kerugian penurunan nilai. Pinjaman yang diberikan dan piutang beserta dengan cadangan terkait dihapuskan jika tidak terdapat kemungkinan yang realistis atas pemulihan di masa mendatang dan seluruh agunan, jika ada, sudah direalisasi atau ditransfer kepada Kelompok Usaha.

Jika, dalam tahun berikutnya, nilai estimasi kerugian penurunan nilai aset keuangan bertambah atau berkurang yang dikarenakan peristiwa yang terjadi setelah penurunan nilai diakui, maka kerugian penurunan nilai yang sebelumnya diakui ditambahkan atau dikurangi (dipulihkan) dengan menyesuaikan akun cadangan. Pemulihan tersebut tidak boleh mengakibatkan nilai tercatat aset keuangan melebihi biaya perolehan diamortisasi yang seharusnya jika penurunan nilai tidak diakui pada tanggal pemulihan dilakukan. Jika penghapusan nantinya terpulihkan, jumlah pemulihan aset keuangan diakui pada laba rugi.

Impairment (continued)

- Financial Assets Carried at Amortized Cost (continued)

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is directly recognized in profit or loss. Interest income continues to be accrued on the reduced carrying amount based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Loans and receivables, together with the associated allowance, are written off when there is no realistic prospect of future recovery and all collateral, if any, has been realized or has been transferred to the Group.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of events occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment was reversed. If a future write-off is later recovered, the recovery is recognized in profit or loss.

Pengukuran Setelah Pengakuan Awal

• Utang

Liabilitas untuk utang usaha dan utang lain-lain lancar dan beban akrual dinyatakan sebesar jumlah tercatat (jumlah nosional), yang kurang lebih sebesar nilai wajarnya.

• Utang dan Pinjaman Jangka Panjang yang Dikenakan Bunga

Setelah pengakuan awal, utang dan pinjaman jangka panjang yang dikenakan bunga diukur dengan biaya perolehan diamortisasi dengan menggunakan metode SBE. Pada tanggal pelaporan, biaya bunga yang masih harus dibayar dicatat secara terpisah dari pokok pinjaman terkait dalam bagian liabilitas jangka pendek. Keuntungan dan kerugian diakui dalam laba rugi ketika liabilitas dihentikan pengakuannya serta melalui proses amortisasi menggunakan metode SBE.

Biaya perolehan diamortisasi dihitung dengan mempertimbangkan setiap diskonto atau premium atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE. Amortisasi SBE dicatat sebagai biaya keuangan dalam laba rugi.

Penghentian Pengakuan

Suatu liabilitas keuangan dihentikan pengakuannya pada saat kewajiban yang ditetapkan dalam kontrak dihentikan atau dibatalkan atau kadaluwarsa.

Ketika sebuah liabilitas keuangan ditukar dengan liabilitas keuangan lain dari pemberi pinjaman yang sama atas persyaratan yang secara substansial berbeda, atau bila persyaratan dari liabilitas keuangan tersebut secara substansial dimodifikasi, pertukaran atau modifikasi persyaratan tersebut dicatat sebagai penghentian pengakuan liabilitas keuangan awal dan pengakuan liabilitas keuangan baru, dan selisih antara nilai tercatat masing-masing liabilitas keuangan tersebut diakui dalam laba rugi.

Subsequent Measurement

• Payables

*Liabilities for trade and other payables and accrued expenses are stated at carrying amounts (nominal amounts).*

• Long-term Interest-Bearing Loans and Borrowings

*Subsequent to initial recognition, long-term interest-bearing loans and borrowings are measured at amortized cost using the EIR method. At the reporting dates, accrued interest is recorded separately from the associated borrowings in the current liabilities section. Gains and losses are recognized in the profit or loss when the liabilities are derecognized as well as through the amortization process using the EIR method.*

*Amortized costs are calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is recorded as a finance cost in profit or loss.*

Derecognition

*A financial liability is derecognized when the obligation under the contract is discharged or cancelled or has expired.*

*When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.*

Beban pajak penghasilan merupakan jumlah dari pajak penghasilan badan yang terutang saat ini dan pajak tangguhan.

Pajak kini

Aset dan liabilitas pajak kini untuk tahun berjalan dan lalu diukur sebesar jumlah yang diharapkan dapat diestitisi dari atau dibayarkan kepada otoritas perpajakan. Tarif pajak dan peraturan pajak yang digunakan untuk menghitung jumlah tersebut adalah yang telah berlaku pada tanggal pelaporan.

Penghasilan kena pajak berbeda dengan laba yang dilaporkan dalam laba atau rugi karena penghasilan kena pajak tidak termasuk bagian dari penghasilan atau beban yang dikenakan pajak atau dikurangkan di tahun-tahun yang berbeda, dan juga tidak termasuk bagian-bagian yang tidak dikenakan pajak atau tidak dapat dikurangkan.

Pajak penghasilan kini diakui dalam laba rugi, kecuali pajak yang berkaitan dengan bagian yang diakui di luar laba rugi, baik pada penghasilan komprehensif lain atau langsung pada ekuitas. Manajemen secara periodik melakukan evaluasi atas posisi yang diambil dalam pelaporan pajak sehubungan dengan situasi di mana peraturan pajak terkait menjadi subyek interpretasi dan menetapkan provisi bila diperlukan.

Koreksi terhadap liabilitas perpajakan dicatat saat surat ketetapan pajak diterima atau apabila dilakukan banding, ketika hasil banding sudah diputuskan.

Kekurangan/kelebihan pembayaran pajak penghasilan disajikan sebagai bagian dari "Beban Pajak Kini" dalam laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian. Kelompok Usaha juga menyajikan bunga/denda, jika ada, sebagai bagian dari "Beban Pajak Kini".

Pajak tangguhan

**w. Penentuan Nilai Wajar (lanjutan)**

Nilai wajar aset dan liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Kelompok Usaha menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan *input* yang dapat diobservasi yang relevan dan meminimalkan penggunaan *input* yang tidak dapat diobservasi.

Semua aset dan liabilitas yang nilai wajarnya diukur atau diungkapkan dalam laporan keuangan konsolidasian dikelompokkan dalam hierarki nilai wajar, sebagaimana dijelaskan di bawah ini, berdasarkan tingkatan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.
- Level 2 - teknik penilaian dimana tingkat level *input* terendah yang signifikan terhadap pengukuran nilai wajar dapat diobservasi baik secara langsung atau tidak langsung.
- Level 3 - teknik penilaian dimana tingkat level *input* terendah yang signifikan terhadap pengukuran nilai wajar tidak dapat diobservasi baik secara langsung atau tidak langsung.

Untuk aset dan liabilitas yang diukur secara berulang dalam laporan keuangan konsolidasian, Kelompok Usaha menentukan apakah perpindahan antar level hierarki telah terjadi dengan melakukan evaluasi pengelompokan (berdasarkan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara menyeluruh) pada setiap akhir periode pelaporan.

Komite penilai Kelompok Usaha menentukan kebijakan dan prosedur untuk menentukan pengukuran nilai wajar yang berulang. Komite penilai ini terdiri dari *Superintendent General Accounting & Fixed Assets, Manager Financial Accounting, General Manager Accounting* dan *Direktur Keuangan*.

YANG SIGNIFIKAN (lanjutan)**

**Pertimbangan**

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Kelompok Usaha yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Klasifikasi Aset dan Liabilitas Keuangan

Kelompok Usaha menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan bila definisi yang ditetapkan PSAK 55 (Revisi 2014) dipenuhi. Dengan demikian, aset dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Kelompok Usaha seperti diungkapkan pada Catatan 2.

Penentuan Mata Uang Fungsional

Mata uang fungsional adalah mata uang dari lingkungan ekonomi primer dimana Kelompok Usaha beroperasi. Manajemen mempertimbangkan mata uang yang paling mempengaruhi penghasilan dan beban dari jasa yang diberikan serta mempertimbangkan indikator lainnya dalam menentukan mata uang yang paling tepat menggambarkan pengaruh ekonomi dari transaksi, kejadian dan kondisi yang mendasari.

Alokasi Harga Beli dan Penurunan Nilai Goodwill

Akuntansi akuisisi mensyaratkan penggunaan estimasi akuntansi secara ekstensif dalam mengalokasikan harga beli kepada nilai pasar wajar aset dan liabilitas yang diakuisisi, termasuk aset tak berwujud. Akuisisi bisnis tertentu oleh Kelompok Usaha menimbulkan goodwill. Sesuai PSAK 22 (Revisi 2010), "Kombinasi Bisnis", goodwill tidak diamortisasi dan diuji bagi penurunan nilai setiap tahunnya. Nilai tercatat goodwill pada tanggal 31 Desember 2018 sebesar Rp583 dicatat di akun Aset Tidak Lancar Lainnya pada Laporan Posisi Keuangan Konsolidasian (Catatan 13).

Pengujian penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai. Dalam hal ini, goodwill diuji untuk penurunan nilai setiap tahunnya dan jika terdapat indikasi penurunan nilai. Manajemen harus menggunakan pertimbangan dalam mengestimasi jumlah terpulihkan dan menentukan adanya indikasi penurunan nilai.

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Judgments**

The following judgments are made by management in the process of applying those of the Group's accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

Classification of Financial Assets and Financial Liabilities

The Group determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definitions set out in PSAK 55 (Revised 2014). Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Group's accounting policies disclosed in Note 2.

Determination of Functional Currency

The functional currency is the currency of the primary economic environment in which the Group operates. Management considered the currency that mainly influences the revenue and cost of rendering services and other indicators in determining the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

Purchase Price Allocation and Goodwill Impairment

Acquisition accounting requires extensive use of accounting estimates to allocate purchase prices to the fair market values of the assets and liabilities purchased, including intangible assets. Certain business acquisitions of the Group have resulted in goodwill. Under PSAK 22 (Revised 2010), "Business Combinations", such goodwill is not amortized and is subject to annual impairment testing. The carrying amount of the Company's goodwill as of December 31, 2018 amounted Rp583 was recorded as Other Non-Current Assets in the Consolidated Statement of Financial Position (Note 13).

An impairment test is performed when certain impairment indicators are present. In the case of goodwill, such assets are subject to impairment testing on annual basis and whenever there is an indication of impairment. Management has to use its judgment in estimating the recoverable value and determining if there is any indication of impairment.

**Estimasi dan Asumsi**

Asumsi utama masa depan dan sumber utama estimasi ketidakpastian lain pada tanggal pelaporan yang memiliki risiko signifikan bagi penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk tahun berikutnya diungkapkan di bawah ini. Kelompok Usaha mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun. Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi di luar kendali Kelompok Usaha. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

Cadangan atas Penurunan Nilai Piutang Usaha

a. Evaluasi Individual

Kelompok Usaha mengevaluasi akun tertentu jika terdapat informasi bahwa pelanggan yang bersangkutan tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Kelompok Usaha mempertimbangkan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga dan faktor pasar yang telah diketahui, untuk mencatat provisi spesifik atas jumlah piutang pelanggan guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah cadangan atas penurunan nilai piutang usaha.

b. Evaluasi Kolektif

Bila Kelompok Usaha memutuskan bahwa tidak terdapat bukti obyektif atas penurunan nilai pada evaluasi individual atas piutang usaha, baik yang nilainya signifikan maupun tidak, Kelompok Usaha menyertakannya dalam kelompok piutang usaha dengan risiko kredit yang serupa karakteristiknya dan melakukan evaluasi kolektif atas penurunan nilai. Karakteristik yang dipilih mempengaruhi estimasi arus kas masa depan atas kelompok piutang usaha tersebut karena merupakan indikasi bagi kemampuan pelanggan untuk melunasi jumlah terutang.

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and Assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are disclosed below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions relating to future developments may change as a result of market changes or circumstances beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Allowance for Impairment of Trade Receivables

a. Individual Assessment

The Group evaluates specific accounts where it has information that certain customers are unable to meet their financial obligations. In these cases, the Group exercises its judgment, based on the available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific provisions for customers against amounts due in an effort to reduce the receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted if additional information received affects the amounts of allowance for impairment of trade receivables.

b. Collective Assessment

If the Group determines that no objective evidence of impairment exists for an individually assessed trade receivables, whether significant or not, the Group includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. The characteristics chosen are relevant to the estimation of future cash flows for groups of such trade receivables by being indicative of the customers' ability to settle in full amounts due.

Biaya perolehan aset tetap, kecuali tanah, disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya dengan memperhitungkan taksiran nilai residu sebesar persentase tertentu dari nilai tercatat, kecuali untuk prasarana tanah yang tidak diperhitungkan nilai residunya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara 2 sampai dengan 20 tahun. Ini adalah umur yang secara umum diharapkan dalam industri di mana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

Employee Benefits (continued)

*While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's results or significant changes in the Group's assumptions may materially affect its estimated liabilities for employee benefits and long-term employee benefits expense.*

*The carrying amounts of the Group's long-term employee benefits liability as of December 31, 2018 and 2017 amounted to Rp292,852 and Rp313,969. Further details are disclosed in Note 33.*

Depreciation and Impairment of Fixed Assets

*The costs of fixed assets, except land, are depreciated on a straight-line basis over their estimated useful lives after taking into account the residual values at a certain percentage of the carrying values, except for land improvements which have no residual value. Management estimates the useful lives of such fixed assets to be from 2 to 20 years. These are common life expectancies applied in the industries where the Group conducts its businesses. Changes in the expected level of usage and technological developments could affect the economic useful lives and the residual values of these assets, necessitating revision of future depreciation charges.*

*Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.*

*The net carrying amounts of the Group's fixed assets as of December 31, 2018 and 2017 amounted to Rp4,206,297 and Rp4,287,247, respectively. Further details are disclosed in Note 11.*

Income Tax

*Significant judgment is involved in determining the provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain in the ordinary course of business. The Group recognizes liabilities for expected corporate income tax issues based on estimates as to whether additional corporate income tax will be due.*

**Piutang Plasma**

Piutang plasma timbul dari penjualan tambak udang, pakan udang, benur, obat-obatan dan bahan kimia, listrik dan air, serta perlengkapan tambak lainnya kepada plasma. Piutang plasma juga termasuk pemberian pinjaman oleh Perusahaan dan CPB kepada plasma untuk biaya hidup, revitalisasi tambak dan operasional plasma.

Pembiayaan untuk budi daya udang ini diperoleh dari pinjaman bank. Plasma berkewajiban untuk menjual seluruh hasil panen udang pada Perusahaan dan CPB.

Hasil panen tersebut akan digunakan untuk melunasi kewajiban (pokok dan bunga) kepada bank terlebih dahulu dan sisanya digunakan untuk melunasi utang kepada Perusahaan dan CPB. Satu periode masa budi daya udang memerlukan waktu berkisar antara 4 sampai dengan 6 bulan.

Perusahaan dan CPB juga memberikan pinjaman kepada plasma untuk membayar angsuran pinjaman dan beban bunga yang timbul dari pinjaman bank karena hasil panen belum cukup untuk membiayai pengeluaran-pengeluaran tersebut diatas. Pinjaman tersebut akan dilunasi oleh masing-masing plasma pada saat hasil panen mereka sudah menghasilkan arus kas neto yang positif.

**Farmers Receivables**

Farmers receivables arose from sales of shrimp ponds, shrimp feeds, shrimp fries, medicines and chemical goods, electricity and water, and other shrimp ponds supplies to farmers. Farmers receivables also include loans given by the Company and CPB to farmers for their cost of living, shrimp farms revitalization and operations.

The financing of these shrimp farmings are provided by the bank. The farmers are obliged to sell all the harvest to the Company and CPB.

The proceeds from harvests shall be used to repay the obligations (principal and interest) to the banks first and the remaining will be used to settle amounts due to the Company and CPB. One cycle of shrimp farming is about 4 to 6 months.

The Company and CPB also provide loan to farmers to repay loan installments and its interest charges to banks, since the result from the harvests are still not sufficient to cover the above mentioned expenditures. This loan will be repaid by each farmer once their harvest are already providing positive net cash flows.

**5. PIUTANG USAHA (lanjutan)**

**Piutang Plasma (lanjutan)**

Efektif 17 Oktober 2016, CPB dan plasma telah setuju untuk mengakhiri Skema Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR) dan plasma akan menjalankan Skema Operasi Budidaya Mandiri. Akibat perubahan ini CPB telah mencadangkan seluruh piutang plasma.

Pada tanggal 1 Mei 2017, Perusahaan memutuskan untuk mengubah pola budidaya di lokasi Wachyuni Mandira (WM) menjadi pola budidaya ekstensif dengan kepadatan yang rendah. Hal ini berdasarkan pengamatan Perusahaan yang menunjukkan sebagian besar petambak plasma di WM mengalami kerugian panen sehingga tidak dapat mengembalikan modal kerja kepada Perusahaan. Akibat perubahan ini, Perusahaan telah mencadangkan seluruh piutang usaha plasma kecuali piutang usaha plasma yang baru terjadi setelah perubahan pola budidaya karena plasma dianggap masih mempunyai kemampuan untuk membayar.

Pada tahun 2018, Perusahaan memutuskan untuk menghapus piutang usaha tidak lancar plasma di lokasi WM dan penghapusan ini telah didaftarkan di Pengadilan Negeri Tanjung Karang pada tanggal 21 Agustus 2018.

Pada tahun 2017, Perusahaan memutuskan untuk menghapus piutang usaha tidak lancar plasma di lokasi AWS dan penghapusan ini telah didaftarkan di Pengadilan Negeri Menggala pada tanggal 5 Desember 2017.

Analisa umur piutang usaha berdasarkan tanggal faktur adalah sebagai berikut:

**5. TRADE RECEIVABLES (continued)**

**Farmers Receivables (continued)**

Effective October 17, 2016, CPB and the farmers agreed to end "Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR)" Scheme and the farmers will continue operating under "Operasi Budidaya Mandiri" Scheme. Due to this change, CPB has provided full allowance for farmers' trade receivables.

On May 1, 2017, the Company decided to change shrimp farming scheme located at Wachyuni Mandira (WM) to extensive shrimp farming with low density parameters. This decision was based on the Company's analysis that most farmers in WM incurred operational losses, as a result, they cannot return the working capital to the Company. Due to this change, the Company has provided full allowance for farmers' trade receivables except for new farmers' trade receivables occurred after the changes of farming scheme since farmers are considered still have the ability to pay.

In 2018, the Company decided to write-off farmers non-current trade receivables located in WM and this write-off have been already registered in Tanjung Karang Court on August 21, 2018.

In 2017, the Company decided to write-off farmers non-current trade receivables located in AWS and this write-off have been already registered in Menggala Court on December 5, 2017.

**38. NILAI WAJAR DARI INSTRUMEN KEUANGAN  
(lanjutan)**

**Hierarki Nilai Wajar**

Aset dan liabilitas keuangan diklasifikasikan secara keseluruhan berdasarkan tingkat terendah dari masukan (*input*) yang signifikan terhadap pengukuran nilai wajar. Penilaian dampak signifikan dari suatu input tertentu terhadap pengukuran nilai wajar membutuhkan pertimbangan dan dapat mempengaruhi penilaian dari aset dan liabilitas yang diukur dan penempatannya dalam hierarki nilai wajar.

Bukti terbaik dari nilai wajar adalah harga yang dikuotasikan (*quoted prices*) dalam sebuah pasar yang aktif. Jika pasar untuk sebuah instrumen keuangan tidak aktif, entitas menetapkan nilai wajar dengan menggunakan metode penilaian. Tujuan dari penggunaan metode penilaian adalah untuk menetapkan harga transaksi yang terbentuk pada tanggal pengukuran dalam sebuah transaksi pertukaran yang wajar dengan pertimbangan bisnis normal.

Metode penilaian termasuk penggunaan harga dalam transaksi pasar yang wajar (*arm's length*) terakhir antara pihak-pihak yang memahami dan berkeinginan, jika tersedia, referensi kepada nilai wajar terkini dari instrumen lain yang secara substansial sama, analisa arus kas yang didiskontokan.

Jika terdapat metode penilaian yang biasa digunakan oleh para peserta pasar untuk menentukan harga dari instrumen dan metode tersebut telah didemonstrasikan untuk menyediakan estimasi yang andal atas harga yang diperoleh dari transaksi pasar yang aktual, entitas harus menggunakan metode tersebut. Metode penilaian yang dipilih membuat penggunaan maksimum dari input pasar dan bergantung sedikit mungkin atas input yang spesifik untuk entitas (*entity-specific input*). Metode tersebut memperhitungkan semua faktor yang akan dipertimbangkan oleh peserta pasar dalam menentukan sebuah harga dan selaras dengan metode ekonomis untuk penilaian sebuah instrumen keuangan.

**38. FAIR VALUE OF FINANCIAL INSTRUMENTS  
(continued)**

**Fair Value Hierarchy**

*Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The assessment of the significance of a particular input to the fair value measurements requires judgement, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.*

*The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.*

*Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis.*

*If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.*

**Risiko Kredit (lanjutan)**

Kelompok Usaha menetapkan sejumlah kebijakan sebelum memberikan kredit kepada pelanggan baru, antara lain dengan melakukan survei atas pelanggan tersebut dan memberikan kredit limit yang terbatas. Kesepakatan dengan pelanggan ini dituangkan dalam suatu surat yang disebut KUL (Kondisi Untuk Langganan) dan Surat Perjanjian Jual Beli. Kelompok Usaha juga menetapkan kebijakan jangka waktu kredit yang relatif pendek, yaitu 30 sampai dengan 60 hari. Peningkatan kredit limit dan perpanjangan jangka waktu kredit akan diberikan setelah melalui proses verifikasi. Atas piutang yang telah jatuh tempo, akan dipantau secara terus menerus dan sedapat mungkin akan dimintakan jaminan dan menghentikan penyaluran kredit kepada pelanggan tersebut dan hanya melakukan transaksi penjualan secara kas. Tergantung pada penilaian Kelompok Usaha, cadangan khusus mungkin dibuat jika piutang dianggap tidak tertagih.

Kolektabilitas piutang plasma tergantung dari keberhasilan panen dari plasma yang bersangkutan. Kelompok Usaha selalu memonitor kinerja plasma dan kolektabilitas dari pelanggannya untuk memastikan agar kerugian yang mungkin timbul dari tidak terbayarnya kredit yang diberikan menjadi seminimal mungkin.

Berikut ini adalah risiko kredit Kelompok Usaha berdasarkan evaluasi penurunan nilai pada tanggal 31 Desember 2018 dan 2017:

**Credit Risk (continued)**

The Group has adopted a number of policies prior to providing credit to new customers, such as customer surveys and setting of strict credit limits. The agreement with customers is outlined in a document entitled KUL (Conditions for Customer) and Sales and Purchase Agreements. The Group also sets a credit period which is relatively short, from 30 up to 60 days. Raising of the credit limit and extension of the credit term are only provided after a process of verification. Overdue receivables are monitored continuously and where possible collateral is sought with termination of customer credit and restriction to cash basis transactions being other possible measures. Depending on the evaluation of the Group, an allowance may be provided if receivables are deemed uncollectible.

Collectability of the farmers receivables depend on the success of farmers' harvesting. The Group always monitors farmers' performance and collection from each customer to ensure that loss possibility from the uncollectible credit given is as minimum as possible.

The following table sets out the Group's credit risk based on evaluation of impairment as of December 31, 2018 and 2017:

Dalam mengelola risiko likuiditas, manajemen selalu menjaga tingkat kas dan setara kas yang dianggap memadai untuk membiayai operasional Kelompok Usaha, sedangkan untuk mengatasi dampak dari fluktuasi arus kas, diatasi dengan ketersediaan fasilitas utang bank.

The following table sets out the Group's credit risk based on evaluation of impairment as of December 31, 2018 and 2017: (continued)

**Liquidity Risk**

Liquidity risk is the risk that occurs when the cash flows position indicates that short-term revenue is insufficient to cover short-term expenditure.

The liquidity requirements of the Group have historically arisen from the need for investment funding and capital expenditure, while operational expenses can be met from the Group's cash flows. In handling liquidity risk, management always maintains cash and cash equivalents at adequate levels to finance the operations of the Group, while the effects of cash flow fluctuation can be overcome by the availability of bank loan facilities.

The Group evaluates its cash flow projections regularly including the long-term maturity schedule and continuously assesses the condition of financial markets for opportunities to pursue fund raising initiatives, either through bank loans or the capital market.

**• Risiko Harga Komoditas**

Kelompok Usaha terkena dampak risiko harga komoditas akibat beberapa faktor, antara lain cuaca, kebijakan pemerintah, tingkat permintaan dan penawaran pasar dan lingkungan ekonomi global.

Dampak tersebut terutama timbul karena sebagian besar bahan baku produksi pakan udang dan ikan yaitu bungkil kacang kedelai, tepung terigu, tepung ikan, tepung tulang dan jagung merupakan barang komoditas. Kebijakan manajemen untuk mengurangi risiko ini adalah dengan menggunakan formula yang memungkinkan untuk menggunakan bahan baku pengganti bahan baku komoditas tanpa mengurangi kualitas produk yang dihasilkan dan mengalihkan kenaikan harga kepada pelanggan.

Di samping itu, Kelompok Usaha secara terus menerus mengawasi tingkat persediaan yang optimal dengan cara melakukan kontrak pembelian pada saat harga murah dengan mengacu kepada rencana produksi dan kebutuhan bahan baku untuk mengurangi risiko biaya bahan baku terhadap fluktuasi harga komoditas.

Untuk tahun yang berakhir pada tanggal 31 Desember 2018 dan 2017, kebijakan Kelompok Usaha adalah untuk tidak melakukan lindung nilai atas instrumen keuangannya.

Laporan No. 01976/2.1032/AU.1/01/1563-1/1/IX/2020 (lanjutan)

#### Tanggung jawab auditor (lanjutan)

Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Prosedur yang dipilih bergantung pada pertimbangan auditor, termasuk penilaian atas risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan. Dalam melakukan penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal entitas. Suatu audit juga mencakup pengevaluasian atas ketepatan kebijakan akuntansi yang digunakan dan kewajaran estimasi akuntansi yang dibuat oleh manajemen, serta pengevaluasian atas penyajian laporan keuangan secara keseluruhan.

Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

#### Opini

#### Independent Auditors' Report (continued)

Report No. 01976/2.1032/AU.1/01/1563-1/1/IX/2020 (continued)

#### Auditors' responsibility (continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of PT Central Proteina Prima Tbk, and its subsidiaries as of December 31, 2019, and their consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

**Laporan Auditor Independen (lanjutan)**

Laporan No. 01976/2.1032/AU.1/01/1563-  
1/1/IX/2020 (lanjutan)

**Penekanan suatu hal**

Seperti yang didiskusikan pada Catatan 41 atas laporan keuangan konsolidasian terlampir, Kelompok Usaha mengalami rugi bersih konsolidasian sebesar Rp348.863 juta untuk tahun yang berakhir pada tanggal 31 Desember 2019, melaporkan saldo akumulasi kerugian konsolidasian sebesar Rp6.735.273 juta pada tanggal 31 Desember 2019, dan total liabilitas jangka pendek konsolidasiannya melebihi total aset lancar konsolidasiannya sebesar Rp3.502.949 juta pada tanggal tersebut. Selanjutnya, pada tahun 2019, Blue Ocean Resources Pte. Ltd., entitas anak, tidak mampu melakukan pembayaran atas cicilan pokok semesteran dan akrual biaya bunga dari utang obligasi yang telah jatuh tempo pada tanggal 30 Juni 2019 dan 31 Desember 2019. Sebagai tambahan, Perusahaan dan entitas anak tertentu tidak dapat memenuhi persyaratan rasio keuangan atau ketentuan pembatasan lainnya yang diwajibkan dalam perjanjian utang bank tertentu pada tanggal 31 Desember 2019. Kondisi tersebut, bersama dengan hal-hal lain sebagaimana dijelaskan dalam Catatan 41, mengindikasikan adanya suatu ketidakpastian material yang dapat menyebabkan keraguan signifikan atas kemampuan Kelompok Usaha untuk mempertahankan kelangsungan usahanya. Opini kami tidak dimodifikasi sehubungan dengan hal tersebut.

**Independent Auditors' Report (continued)**

Report No. 01976/2.1032/AU.1/01/1563-  
1/1/IX/2020 (continued)

**Emphasis of matter**

As discussed in Note 41 to the accompanying consolidated financial statements, the Group incurred consolidated net loss of Rp348,863 million for the year ended December 31, 2019, reported a consolidated deficit of Rp6,735,273 million as of December 31, 2019, and that its consolidated total current liabilities exceeded its consolidated total current assets by Rp3,502,949 million as of such date. Furthermore, in 2019, Blue Ocean Resources Pte. Ltd., a subsidiary, was not able to pay the semi-annual principal installments and interest expense accruals of its bonds payable which were due on June 30, 2019 and December 31, 2019. In addition, the Company and its certain subsidiaries were not able to meet certain required financial ratios and covenants as stated in certain bank loan agreements as of December 31, 2019. These conditions, along with other matters as set forth in Note 41, indicate the existence of a material uncertainty that may casts significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of such matter.

- ISAK 34 "Ketidakpastian dalam Perlakuan Pajak Penghasilan" (lanjutan)

Interpretasi ini secara khusus membahas hal-hal berikut: (lanjutan)

- Bagaimana entitas menentukan laba pajak/rugi pajak, dasar pengenaan pajak, rugi pajak yang belum digunakan, kredit pajak yang belum digunakan dan tarif pajak
- Bagaimana entitas mempertimbangkan perubahan fakta dan keadaan terkait

Kelompok Usaha menentukan apakah akan mempertimbangkan masing-masing perlakuan pajak yang tidak pasti secara terpisah atau bersama-sama dengan satu atau lebih perlakuan pajak tidak pasti lainnya dan menggunakan pendekatan yang dapat memprediksi penyelesaian ketidakpastian tersebut dengan lebih baik.

- Amandemen PSAK 24 "Imbalan Kerja: Amandemen, Kurtailmen atau Penyelesaian Program"

Amandemen PSAK 24 mengatur akuntansi ketika amandemen, pembatasan, atau penyelesaian program terjadi dalam periode pelaporan, maka entitas diharuskan untuk menentukan biaya jasa kini untuk sisa periode setelah amandemen, pengurangan atau penyelesaian program menggunakan asumsi aktuarial yang digunakan untuk mengukur kembali liabilitas (aset) imbalan pasti neto yang mencerminkan manfaat yang ditawarkan berdasarkan program dan aset program setelah peristiwa tersebut.

Kelompok Usaha juga diharuskan untuk menentukan bunga neto untuk sisa periode setelah amandemen, pembatasan atau penyelesaian program dengan menggunakan liabilitas imbalan pasti (aset) yang mencerminkan manfaat yang ditawarkan di dalam program dan aset program setelah peristiwa tersebut, dan tingkat diskonto yang digunakan untuk mengukur kembali liabilitas (aset) imbalan pasti neto.

- ISAK 34 "Uncertainty over Income Tax Treatments" (continued)

The interpretation specifically addresses the following: (continued)

- How an entity determines taxable profit/tax loss, tax bases, unused tax losses, unused tax credits and tax rate
- How an entity considers changes in facts and circumstances

The Group determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

- Amendments to PSAK 24 "Employee Benefits: Plan Amendment, Curtailment or Settlement"

The amendments to PSAK 24 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period, an entity is required to determine the current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event.

The Group is also required to determine the net interest for the remainder of the period after the plan amendment, curtailment or settlement using the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event, and the discount rate used to remeasure that net defined benefit liability (asset).

**a. Dasar Penyusunan Laporan Keuangan  
Konsolidasian dan Perubahan Kebijakan  
Akuntansi (lanjutan)**

Perubahan Kebijakan Akuntansi (lanjutan)

- Amandemen PSAK 46 "Pajak Penghasilan"

Amandemen ini mengklarifikasi bahwa konsekuensi pajak penghasilan dari dividen lebih terkait langsung dengan transaksi atau peristiwa masa lalu yang menghasilkan laba yang dapat dibagikan daripada distribusi kepada pemilik. Dengan demikian, entitas mengakui konsekuensi dari pajak penghasilan atas dividen dalam laba rugi, penghasilan komprehensif lain atau ekuitas sesuai dengan pengakuan awal atas transaksi atau peristiwa masa lalu terkait.

**b. Prinsip-prinsip Konsolidasian**

Laporan keuangan konsolidasian meliputi laporan keuangan Perusahaan dan entitas anaknya seperti disebutkan pada Catatan 1d.

Pengendalian diperoleh ketika Kelompok Usaha terekspos, atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan *investee* dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas *investee*.

Dengan demikian, Kelompok Usaha mengendalikan *investee* jika, dan hanya jika, Kelompok Usaha memiliki seluruh hal berikut ini:

- a. Kekuasaan atas *investee*, yaitu hak yang ada saat ini yang memberi investor kemampuan kini untuk mengarahkan aktivitas relevan dari *investee*;
- b. Eksposur atau hak atas imbal hasil variabel dari keterlibatan Kelompok Usaha dengan *investee*; dan
- c. Kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi imbal hasil Kelompok Usaha.

Changes of Accounting Policies (continued)

- Amendments to PSAK 46 "Income Taxes"

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognises the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where it originally recognised those past transactions or events.

**b. Principles of Consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as described in Note 1d.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the *investee* and has the ability to affect those returns through its power over the *investee*.

Specifically, the Group controls an *investee* if, and only if, the Group has all of the following:

- a. Power over the *investee* that is existing rights that give the Group current ability to direct the relevant activities of the *investee*;
- b. Exposure, or rights, to variable return from its involvement with the *investee*; and
- c. The ability to use its power over the *investee* to affect the Group's returns.

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Umumnya, ada dugaan bahwa mayoritas hak suara menghasilkan kontrol. Untuk mendukung anggapan ini dan bila Kelompok Usaha memiliki kurang dari mayoritas hak suara atau hak serupa dari investee, Kelompok Usaha mempertimbangkan semua fakta dan keadaan yang relevan dalam menilai apakah ia memiliki kuasa atas investee, termasuk:

- a. pengaturan kontraktual dengan pemegang hak suara lainnya dari *investee*;
- b. hak-hak yang timbul dari pengaturan kontraktual lain; dan
- c. hak suara yang dimiliki Kelompok Usaha dan hak suara potensial.

Kelompok Usaha menilai kembali apakah mengendalikan *investee* jika fakta dan keadaan mengindikasikan bahwa terdapat perubahan dalam satu atau lebih dari tiga elemen pengendalian. Konsolidasi atas entitas anak dimulai sejak tanggal Kelompok Usaha memperoleh pengendalian atas entitas anak dan berakhir ketika Kelompok Usaha kehilangan pengendalian atas entitas anak. Aset, liabilitas, penghasilan dan beban anak perusahaan yang diakuisisi selama periode berjalan termasuk dalam laporan keuangan konsolidasian sejak tanggal Kelompok Usaha memperoleh kendali sampai dengan tanggal Kelompok Usaha tidak lagi mengendalikan anak perusahaan.

Laba rugi dan setiap komponen dari penghasilan komprehensif lain ("OCI") diatribusikan kepada pemilik entitas induk dari Kelompok Usaha dan kepentingan nonpengendali ("KNP"), meskipun hal tersebut mengakibatkan KNP memiliki saldo defisit. Bila dipandang perlu, penyesuaian dilakukan terhadap laporan keuangan entitas anak untuk diselaraskan dengan kebijakan akuntansi Kelompok Usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lain dalam keadaan yang serupa. Jika anggota Kelompok Usaha menggunakan kebijakan akuntansi yang berbeda untuk transaksi dan peristiwa dalam keadaan yang serupa, maka penyesuaian dilakukan atas laporan keuangannya dalam penyusunan laporan keuangan konsolidasian.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**b. Principles of Consolidation (continued)**

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting, or similar, rights of an investee, it considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- a. the contractual arrangement(s) with the other vote holders of the investee;
- b. rights arising from other contractual arrangements; and
- c. the Group's voting rights and potential voting rights.

The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interest ("NCI"), even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses different accounting policies for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in preparing the consolidated financial statements.

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Seluruh saldo dan transaksi antar perusahaan yang material, termasuk laba atau rugi yang belum direalisasi, jika ada, dieliminasi untuk mencerminkan posisi keuangan dan hasil operasi Kelompok Usaha sebagai satu kesatuan usaha.

Entitas-entitas anak dikonsolidasi secara penuh sejak tanggal akuisisi, yaitu tanggal Perusahaan memperoleh pengendalian, sampai dengan tanggal entitas induk kehilangan pengendalian. Pengendalian dianggap ada ketika Perusahaan memiliki secara langsung atau tidak langsung melalui entitas anak, lebih dari setengah kekuasaan suara entitas.

Perubahan dalam bagian kepemilikan Kelompok Usaha pada suatu entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Bila kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha menghentikan pengakuan atas aset (termasuk *goodwill*), liabilitas dan komponen lain dari ekuitas terkait, dan selisihnya diakui pada laba rugi. Bagian dari investasi yang tersisa diakui pada nilai wajar.

Jika kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha:

- menghentikan pengakuan aset (termasuk setiap *goodwill*) dan liabilitas entitas anak Perusahaan;
- menghentikan pengakuan jumlah tercatat setiap KNP;
- menghentikan pengakuan akumulasi selisih penjabaran yang dicatat di ekuitas, bila ada;
- mengakui nilai wajar pembayaran yang diterima;
- mengakui setiap sisa investasi pada nilai wajarnya;
- mengakui setiap perbedaan yang dihasilkan sebagai keuntungan atau kerugian dalam laba rugi; dan
- mereklasifikasi bagian induk atas komponen yang sebelumnya diakui sebagai pendapatan komprehensif lainnya ke laba rugi, atau mengalihkan secara langsung ke saldo laba, sebagaimana mestinya.

**b. Principles of Consolidation (continued)**

*All significant intercompany account balances and transactions, including any unrealized profit or loss, have been eliminated to reflect the financial position and results of operations of the Group as a single business entity.*

*Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtained control until the date of such control ceases. Control is presumed to exist if the Company owns directly or indirectly through subsidiaries more than half of the voting power of an entity.*

*Changes in the Group's ownership interest in a subsidiary that do not result in loss of control are accounted for as equity transactions. If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, NCI and other components of equity, while the difference is recognized in the profit or loss. Any investment retained is recognized at fair value.*

*If it loses control over a subsidiary, the Group:*

- *derecognizes the assets (including goodwill) and liabilities of the subsidiary;*
- *derecognizes the carrying amount of any NCI;*
- *derecognizes the cumulative translation differences recorded in equity, if any;*
- *recognizes the fair value of the consideration received;*
- *recognizes the fair value of any investment retained;*
- *recognizes any surplus or deficit in profit or loss; and*
- *reclassifies the parent's share of components previously recognized as other comprehensive income to profit or loss or retained earnings, as appropriate.*

KNP mencerminkan bagian atas laba atau rugi dan aset neto dari entitas anak yang tidak dapat diatribusikan secara langsung maupun tidak langsung oleh Perusahaan, yang masing-masing disajikan dalam laporan laba rugi komprehensif konsolidasian dan dalam ekuitas pada laporan posisi keuangan konsolidasian, terpisah dari bagian yang dapat diatribusikan kepada pemilik entitas induk.

Untuk tujuan konsolidasi, laporan keuangan entitas anak yang mata uang fungsionalnya adalah selain Rupiah dijabarkan ke dalam Rupiah dengan menggunakan:

<b>Akun/Accounts</b>	<b>Kurs/Exchange Rate</b>
Aset dan liabilitas/ <i>Assets and liabilities</i>	Kurs rata-rata pembelian dan penjualan Bank Indonesia pada akhir periode pelaporan/ <i>Average buying and selling exchange rate of Bank Indonesia at end of reporting period</i>
Pendapatan dan beban/ <i>Revenues and expenses</i>	Rata-rata tertimbang dari kurs tengah Bank Indonesia selama periode dalam laporan laba rugi dan penghasilan komprehensif lain/ <i>Weighted-average middle rate of Bank Indonesia during the period of statement of profit or loss and other comprehensive income</i>

**c. Kombinasi Bisnis**

Kombinasi bisnis dicatat dengan menggunakan metode akuisisi. Biaya perolehan dari sebuah akuisisi disajikan pada nilai agregat imbalan yang dialihkan, disajikan pada nilai wajar pada tanggal akuisisi, dan jumlah setiap KNP pada pihak yang diakuisisi. Untuk setiap kombinasi bisnis, pihak pengakuisisi mengukur KNP pada entitas yang diakuisisi baik pada nilai wajar ataupun pada proporsi kepemilikan KNP atas aset neto yang teridentifikasi dari entitas yang diakuisisi. Biaya-biaya akuisisi yang timbul dibebankan langsung dan disertakan dalam beban administrasi.

Ketika melakukan akuisisi atas sebuah bisnis, Kelompok Usaha mengklasifikasikan dan menentukan aset keuangan yang diperoleh dan liabilitas keuangan yang diambil alih berdasarkan pada persyaratan kontraktual, kondisi ekonomi dan kondisi terkait lain yang ada pada tanggal akuisisi.

*For consolidation purposes, the financial statements of subsidiaries with functional currencies other than Rupiah are translated into Rupiah using the following:*

**c. Business Combination**

*Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition-date fair value, and the amount of any NCI in the acquiree. For each business combination, the acquirer measures the NCI in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Transaction costs incurred are directly expensed and included in administrative expenses.*

**c. Kombinasi Bisnis (lanjutan)**

Jika proses akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, maka Kelompok Usaha melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangan konsolidasiannya. Selama periode pengukuran, Kelompok Usaha menyesuaikan secara retrospektif jumlah sementara yang diakui pada tanggal akuisisi untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, telah berdampak pada pengukuran jumlah yang diakui pada tanggal tersebut.

Periode pengukuran berakhir segera setelah Kelompok Usaha menerima informasi yang dicari tentang fakta dan keadaan yang ada pada tanggal akuisisi atau mempelajari bahwa informasi lebih tidak dapat diperoleh. Namun demikian, periode pengukuran tidak boleh melebihi satu tahun dari tanggal akuisisi.

Dalam suatu kombinasi bisnis yang dilakukan secara bertahap, pihak pengakuisisi mengukur kembali kepentingan ekuitas yang dimiliki sebelumnya pada pihak yang diakuisisi pada nilai wajar tanggal akuisisi dan mengakui keuntungan atau kerugian yang dihasilkan dalam laba rugi.

Imbalan kontinjensi yang akan dialihkan oleh pihak pengakuisisi akan diakui pada nilai wajar pada tanggal akuisisi. Imbalan kontinjensi yang diklasifikasikan sebagai ekuitas tidak diukur kembali dan penyelesaian selanjutnya adalah diperhitungkan dalam ekuitas. Imbalan kontinjensi yang diklasifikasikan sebagai aset atau liabilitas yaitu instrumen keuangan dan dalam lingkup PSAK 55: "Instrumen Keuangan: Pengakuan dan Pengukuran", diukur pada nilai wajar dengan perubahan nilai wajar yang diakui dalam laba rugi sesuai dengan PSAK 55. Imbalan kontinjensi lain yang tidak termasuk dalam PSAK 55 diukur sebesar nilai wajar pada setiap tanggal pelaporan dengan perubahan nilai wajar yang diakui pada laba rugi.

**c. Business Combination (continued)**

*When the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, the Group shall retrospectively adjust the provisional amounts recognised at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognised as of that date.*

*The measurement period ends as soon as the Group receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.*

*If the business combination is carried out in stages, the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.*

*Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PSAK 55: "Financial Instruments: Recognition and Measurement", is measured at fair value with the changes in fair value recognized in the statement of profit or loss in accordance with PSAK 55. Other contingent consideration that is not within the scope of PSAK 55 is measured at fair value at each reporting date with changes in fair value recognized in profit or loss.*

*Goodwill* awalnya diukur dengan biaya perolehan yang merupakan selisih lebih nilai agregat dari pertimbangan yang ditransfer dan jumlah yang diakui untuk KNP dan kepentingan sebelumnya yang dimiliki atas aset dan liabilitas yang dapat diidentifikasi yang dapat diidentifikasi. Jika nilai wajar aset bersih yang diakuisisi melebihi pertimbangan agregat yang ditransfer, Kelompok Usaha akan menilai ulang apakah telah mengidentifikasi dengan benar semua aset yang diperoleh dan semua liabilitas diasumsikan dan menelaah prosedur yang digunakan untuk mengukur jumlah yang akan diakui pada tanggal akuisisi. Jika penilaian kembali tersebut masih menghasilkan selisih antara nilai wajar aktiva bersih yang diperoleh dengan pertimbangan agregat yang ditransfer, maka keuntungan tersebut diakui dalam laba rugi.

Setelah pengakuan awal, *goodwill* diukur pada jumlah tercatat dikurangi akumulasi kerugian penurunan nilai. Untuk tujuan pengujian penurunan nilai, *goodwill* yang diperoleh dari suatu kombinasi bisnis, sejak tanggal akuisisi dialokasikan kepada setiap Unit Penghasil Kas ("UPK") dari Kelompok Usaha yang diharapkan akan bermanfaat dari sinergi kombinasi tersebut, terlepas dari apakah aset atau liabilitas lain dari pihak yang diakuisisi ditetapkan atas UPK tersebut.

Jika *goodwill* telah dialokasikan pada suatu UPK dan operasi tertentu atas UPK tersebut dihentikan, maka *goodwill* yang diasosiasikan dengan operasi yang dihentikan tersebut termasuk dalam jumlah tercatat operasi tersebut ketika menentukan keuntungan atau kerugian dari pelepasan. *Goodwill* yang dilepaskan tersebut diukur berdasarkan nilai relatif operasi yang dihentikan terhadap bagian dari dan porsi UPK yang ditahan.

**d. Klasifikasi Lancar dan Tidak Lancar**

Kelompok usaha menyajikan aset dan liabilitas dalam laporan posisi keuangan konsolidasian berdasarkan klasifikasi lancar/tidak lancar. Suatu aset disajikan lancar bila:

- i) akan direalisasi, dijual atau dikonsumsi dalam siklus operasi normal,
- ii) untuk diperdagangkan,

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**c. Business Combination (continued)**

*Goodwill* is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI and any previous interest held over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's Cash-Generating Units ("CGU") that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those CGUs.

Where goodwill has been allocated to a CGU and part of the operation within that CGU is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

**d. Current and Non-current Classification**

The Group presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

**g. Transaksi Restrukturisasi Entitas  
Sepengendali**

Pengalihan bisnis antara entitas sepengendali tidak mengakibatkan perubahan substansi ekonomi kepemilikan atas bisnis yang dialihkan dan tidak dapat menimbulkan laba atau rugi bagi kelompok usaha secara keseluruhan ataupun bagi entitas individual dalam kelompok usaha tersebut. Kombinasi bisnis entitas sepengendali dicatat dengan menggunakan metode penyatuan kepentingan, dimana selisih antara jumlah imbalan yang dialihkan dengan jumlah tercatat aset neto entitas yang diakuisisi diakui sebagai bagian dari akun "Tambahkan Modal Disetor" pada laporan posisi keuangan konsolidasian.

Dalam menerapkan metode penyatuan kepemilikan tersebut, unsur-unsur laporan keuangan dari entitas yang bergabung disajikan seolah-olah penggabungan tersebut telah terjadi sejak awal periode entitas yang bergabung berada dalam kesepengendalian. Saldo selisih nilai transaksi restrukturisasi entitas sepengendali berdasarkan PSAK 38 (Revisi 2004) "Akuntansi Restrukturisasi Entitas Sepengendali" pada tanggal awal penerapan PSAK 38 (Revisi 2012) direklasifikasi ke pos tambahan modal disetor di bagian ekuitas.

**h. Persediaan**

Persediaan dinyatakan sebesar nilai terendah antara biaya perolehan dan nilai realisasi bersih. Nilai realisasi bersih adalah taksiran harga jual dalam kegiatan usaha normal setelah dikurangi dengan estimasi biaya penyelesaian dan estimasi biaya yang diperlukan untuk melaksanakan penjualan. Biaya perolehan ditentukan dengan metode rata-rata tertimbang.

Kelompok Usaha menetapkan penyisihan untuk nilai realisasi neto persediaan berdasarkan hasil penelaahan berkala atas kondisi fisik dan nilai realisasi neto persediaan.

*The Group provides allowance for net realisable value of inventories based on periodic reviews of the physical conditions and net realisable values of the inventories.*

Setelah pengakuan awal, aset tetap, kecuali tanah, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomis sebagai berikut:

	Tahun/Year
Prasarana tanah dan bangunan	5 - 20
Bangunan	10 - 20
Mesin dan peralatan	5 - 20
Peralatan transportasi	2 - 10
Peralatan dan perabotan kantor	5
Instalasi listrik dan air	5 - 10
Peralatan laboratorium	5

Jumlah tercatat komponen dari suatu aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat sudah tidak ada lagi manfaat ekonomis masa depan yang diekspektasikan dari penggunaan maupun pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset tersebut (ditentukan sebesar selisih antara jumlah hasil pelepasan neto dan jumlah tercatatnya) dimasukkan ke dalam laba rugi untuk tahun penghentian pengakuan tersebut dilakukan.

Nilai residu, umur manfaat dan metode penyusutan aset dievaluasi setiap akhir tahun dan disesuaikan secara prospektif, jika diperlukan.

Kelompok Usaha memilih untuk menggunakan model revaluasi atas tanah karena Kelompok Usaha meyakini bahwa model revaluasi lebih mencerminkan nilai dari tanah tersebut.

Setelah pengakuan awal, Kelompok Usaha menggunakan model revaluasi dimana tanah diukur pada nilai wajar pada tanggal revaluasi dikurangi akumulasi rugi penurunan nilai berikutnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**I. Fixed Assets (continued)**

Subsequent to initial recognition, fixed assets, except for land, are carried at cost less any accumulated depreciation and impairment losses.

Depreciation of fixed assets starts when it is available for use and is computed using the straight-line method based on the estimated useful life of the assets as follows:

	Tahun/Year
Land and building improvements	5 - 20
Buildings	10 - 20
Machinery and equipment	5 - 20
Transportation equipment	2 - 10
Furniture, fixtures and office equipment	5
Electrical and water installation	5 - 10
Laboratory equipment	5

The carrying amount of an item of fixed asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is directly included in the profit or loss for the year in which the item is derecognized.

The assets' residual values, useful lives and depreciation method are reviewed at each year end and adjusted prospectively, if necessary.

The Group uses revaluation method for its land since the Group believes that revaluation model provides more relevant value of the land.

After initial recognition, the Group uses the revaluation model, whereby land is measured at fair value at the date of the revaluation less any subsequent accumulated impairment losses.

**I. Aset Tetap (lanjutan)**

Surplus revaluasi terakumulasi dalam ekuitas pada bagian penghasilan komprehensif lain. Namun, kenaikan tersebut diakui dalam laba rugi hingga sebesar jumlah penurunan nilai aset yang sama akibat revaluasi yang pernah diakui sebelumnya dalam laba rugi. Defisit revaluasi diakui dalam laba rugi. Namun penurunan nilai tersebut diakui dalam surplus revaluasi aset tetap sepanjang tidak melebihi saldo surplus revaluasi untuk aset tersebut.

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Bangunan (HGB) yang dikeluarkan ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi. Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah ditangguhkan dan diamortisasi yang lebih pendek antara umur hukum hak atas tanah dan umur ekonomi tanah, dan disajikan sebagai aset tak berwujud pada laporan posisi keuangan konsolidasian.

Aset tetap dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai dikerjakan dan siap untuk digunakan. Aset tetap dalam penyelesaian tidak disusutkan karena sampai memenuhi syarat pengakuan sebagai aset tetap seperti diungkapkan di atas.

Beban pemeliharaan dan perbaikan dibebankan pada laba rugi pada saat terjadinya. Beban pemugaran dan penambahan dalam jumlah besar dikapitalisasi kepada jumlah tercatat aset tetap terkait bila besar kemungkinan bagi Kelompok Usaha manfaat ekonomi masa depan menjadi lebih besar dari standar kinerja awal yang ditetapkan sebelumnya dan disusutkan sepanjang sisa masa manfaat aset tetap terkait.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**I. Fixed Assets (continued)**

*A revaluation surplus is accumulated in equity under other comprehensive income. However, the increase is recognized in profit and loss to the extent that it reverses a revaluation deficit of the same asset previously recognized in profit or loss. A revaluation deficit is recognized in profit or loss. However, the decrease shall be recognized in the revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.*

*Legal cost of land rights in the form of Building Usage Rights (HGB) incurred when the land was acquired initially are recognized as part of the cost of the land under "Fixed Assets" account and not amortized. The extension or the legal renewal costs of land rights were deferred and amortised over the shorter between the land rights' legal life and the economic life of the land and presented as intangible assets in the consolidated statement of financial position.*

*Constructions in progress are stated at cost, including capitalized borrowing costs and other charges incurred in connection with the financing of said assets. The accumulated costs will be reclassified to the appropriate "Fixed Assets" account when the construction is completed and ready for use. Assets under construction are not depreciated until they fulfill criteria for recognition as fixed assets as disclosed above.*

*Repairs and maintenance are taken to the profit or loss when incurred. The cost of major renovation and restoration is included in the carrying amount of the related fixed assets when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group, and is depreciated over the remaining useful life of the related asset.*

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
PENTING (lanjutan)**

**m. Sewa**

Kelompok Usaha mengklasifikasikan sewa berdasarkan sejauh mana risiko dan manfaat yang terkait dengan kepemilikan aset sewaan berada pada *lessor* atau *lessee*, dan pada substansi transaksi daripada bentuk kontraknya.

Suatu sewa diklasifikasikan sebagai sewa pembiayaan jika sewa tersebut mengalihkan secara substansi seluruh risiko dan manfaat yang terkait dengan kepemilikan aset sewa pembiayaan. Sewa tersebut dikapitalisasi sebesar nilai wajar aset sewa pembiayaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa minimum harus dipisahkan antara bagian yang merupakan biaya keuangan dan bagian yang merupakan pelunasan liabilitas, sedemikian rupa sehingga menghasilkan suatu tingkat suku bunga periodik yang konstan atas saldo liabilitas. Biaya keuangan dibebankan langsung ke laba rugi.

Jika terdapat kepastian yang memadai bahwa *lessee* akan mendapatkan hak kepemilikan pada akhir masa sewa, aset sewa pembiayaan disusutkan selama estimasi masa manfaat aset tersebut. Jika tidak terdapat kepastian tersebut, maka aset sewa pembiayaan disusutkan selama periode yang lebih pendek antara umur manfaat aset sewa pembiayaan atau masa sewa.

Sewa di mana Kelompok Usaha tidak mengalihkan secara substansi seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi.

**n. Penurunan Nilai Aset Non-keuangan**

Pada setiap akhir periode pelaporan, Kelompok Usaha menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian tahunan penurunan nilai aset (yaitu aset takberwujud dengan umur manfaat tidak terbatas, aset takberwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis) diperlukan, maka Kelompok Usaha membuat estimasi formal jumlah terpulihkan aset tersebut.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**m. Leases**

*The Group classifies leases based on the extent to which risks and rewards incidental to the ownership of a leased asset are vested in the lessor or the lessee, and based on the substance of the transaction rather than the form of the contract.*

*A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the leased assets. Such leases are capitalized at the fair value of the leased property or at the present value of minimum lease payments if the present value is lower than the fair value. Minimum lease payments are apportioned between the finance costs and reduction of the lease liability so as to achieve a constant rate of periodic interest on the remaining balance of liability. Finance costs are charged directly to profit or loss.*

*If there is a reasonable certainty that the lessee will obtain ownership by the end of the lease term, leased assets are depreciated over the estimated useful lives of the asset. In the absence of such certainty, those assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.*

*Leases where the Group does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases.*

**n. Impairment of Non-financial Assets**

*The Group will assess at each annual reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset (i.e., an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination) is required, the Group makes a formal estimate of the asset's recoverable amount.*

**n. Penurunan Nilai Aset Non-keuangan  
(lanjutan)**

Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau UPK dikurangi biaya untuk menjual dengan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain. Jika nilai tercatat aset atau UPK lebih besar daripada jumlah terpulihkannya, maka aset tersebut dipertimbangkan mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar jumlah terpulihkannya.

Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset. Dalam menentukan nilai wajar dikurangi biaya untuk menjual, digunakan harga penawaran pasar terakhir, jika tersedia. Jika tidak terdapat transaksi tersebut, Kelompok Usaha menggunakan model penilaian yang sesuai untuk menentukan nilai wajar aset. Perhitungan-perhitungan ini dikuatkan oleh pengali penilaian atau indikator nilai wajar yang tersedia.

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laba rugi sesuai dengan kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

Penilaian dilakukan pada akhir setiap periode pelaporan tahunan untuk menentukan apakah terdapat indikasi bahwa rugi penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset atau UPK tersebut. Kerugian penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* dibalik hanya jika terdapat perubahan asumsi-asumsi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui.

Pembalikan tersebut dibatasi sehingga jumlah tercatat aset tidak melebihi jumlah terpulihkannya maupun jumlah tercatat, neto setelah penyusutan, seandainya tidak ada rugi penurunan nilai yang telah diakui untuk aset tersebut pada tahun sebelumnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**n. Impairment of Non-financial Assets  
(continued)**

*An asset's recoverable amount is the higher of the asset's or CGU's fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.*

*In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if information on such is available. If no such transactions can be identified, the Group uses an appropriate valuation model to determine the fair value of the assets. These calculations are corroborated by valuation multiples or other available fair value indicators.*

*Impairment losses of continuing operations, if any, are recognized in profit or loss under expense categories that are consistent with the functions of the impaired assets.*

*An assessment is made at each annual reporting period as to whether there is any indication that previously recognized impairment losses recognized for an asset other than goodwill may no longer exist or may have decreased. If such indication exists, the Group estimates asset's or CGU's recoverable amount. A previously recognized impairment loss for an asset other than goodwill is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized.*

*The reversal is limited, so that the carrying amount of the assets does not exceed its recoverable amount or the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.*

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
PENTING (lanjutan)**

**n. Penurunan Nilai Aset Non-keuangan (lanjutan)**

Pembalikan rugi penurunan nilai diakui dalam laba rugi. Setelah pembalikan tersebut, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan jumlah tercatat aset yang direvisi, dikurangi nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

*Goodwill* diuji untuk penurunan nilai setiap tahun (pada tanggal 31 Desember) dan ketika terdapat suatu indikasi bahwa nilai tercatatnya mengalami penurunan nilai. Penurunan nilai bagi *goodwill* ditetapkan dengan menentukan jumlah terpulihkan tiap UPK (atau kelompok UPK) dimana *goodwill* terkait. Jika jumlah terpulihkan UPK kurang dari jumlah tercatatnya, rugi penurunan nilai diakui. Rugi penurunan nilai terkait *goodwill* tidak dapat dibalik pada periode berikutnya.

Kecuali seperti disebutkan pada Catatan 11 dan 27, manajemen berpendapat bahwa tidak ada indikasi penurunan nilai pada aset tetap, properti investasi dan aset non-keuangan tidak lancar lainnya yang disajikan dalam laporan posisi keuangan konsolidasian pada tanggal 31 Desember 2019.

**o. Pengakuan Penghasilan dan Beban**

Penghasilan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh oleh Kelompok Usaha dan jumlahnya dapat diukur secara andal tanpa memperhitungkan kapan pembayaran dilakukan. Penghasilan diukur pada nilai wajar pembayaran yang diterima, tidak termasuk diskon, rabat, dan Pajak Pertambahan Nilai (PPN). Kelompok Usaha telah menyimpulkan bahwa ini bertindak sebagai prinsipal dalam semua pengaturan pendapatannya. Kriteria spesifik berikut juga harus dipenuhi sebelum penghasilan diakui:

Penjualan Barang

Penghasilan dari penjualan ke luar negeri (ekspor) diakui pada saat pengapalan barang kepada pelanggan (*f.o.b. shipping point*), sedangkan penghasilan dari penjualan dalam negeri (domestik) diakui pada saat penyerahan barang kepada pelanggan. Penghasilan dari penjualan karung bekas dan bahan baku dicatat sebesar hasil penjualan neto dikurangi dengan biaya-biaya yang dikeluarkan, dan disajikan sebagai "Penghasilan Operasi Lain" dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**n. Impairment of Non-financial Assets  
(continued)**

*Reversal of an impairment loss is recognized in profit or loss. After such a reversal, the depreciation charge on said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.*

*Goodwill is tested for impairment annually (as of December 31) and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU is less than the carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.*

*Except as described in Notes 11 and 27, management believes that there is no indication of impairment in values for fixed assets, investment properties and other non-current non-financial assets presented in the consolidated statement of financial position as of December 31, 2019.*

**o. Revenue and Expense Recognition**

*Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and Value-Added Tax (VAT). The Group has concluded that it is acting as principal in all of its revenue arrangements. The following specific recognition criteria must also be met before revenue is recognized:*

Sale of Goods

*Revenue from export sales is recognized upon shipment of the goods to the customers (f.o.b. shipping point), and revenue from domestic sales is recognized upon delivery of the goods to the customers. Income from sales of used sacks and raw materials are recognized net of the related expenses incurred, and is presented as "Other Operating Income" in the consolidated statement of profit or loss and other comprehensive income.*

(lanjutan)**

Penghasilan dan Beban Bunga

Untuk semua instrumen keuangan yang diukur pada biaya perolehan diamortisasi, penghasilan atau biaya bunga dicatat dengan menggunakan metode Suku Bunga Efektif (SBE), yaitu suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari instrumen keuangan, atau jika lebih tepat, digunakan periode yang lebih singkat, untuk nilai tercatat neto dari aset keuangan atau liabilitas keuangan.

Beban

Beban diakui pada saat terjadinya (dasar akrual).

**p. Imbalan Kerja**

Beban atas pemberian imbalan dalam program imbalan manfaat pasti ditentukan dengan metode *Projected Unit Credit*.

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain, terdiri dari:

- i. Keuntungan atau kerugian aktuarial;
- ii. Imbal hasil atas aset program, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset);
- iii. Setiap perubahan dampak batas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya.

Biaya jasa lalu diakui pada laba rugi pada tanggal yang lebih awal antara:

- Tanggal amandemen atau kurtailmen program; dan
- Tanggal pada saat Kelompok Usaha mengakui biaya restrukturisasi terkait.

Kelompok Usaha mencatat penyisihan imbalan kerja jangka panjang kepada karyawan-karyawan sesuai dengan Undang-undang Ketenagakerjaan No. 13/2003 (Undang-undang Tenaga Kerja).

**o. Revenue and Expense Recognition  
(continued)**

Interest Income and Expense

For all financial instruments measured at amortized cost, interest income or expense is recorded using the Effective Interest Rate (EIR), which is the rate that precisely discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

Expense

Expenses are recognized when incurred (accrual basis).

**p. Employee Benefits**

The cost of providing benefits under the defined benefits plan is determined using the *Projected Unit Credit* method.

Remeasurement on net defined benefit liability (asset), recognized as other comprehensive income, consists of:

- i. Actuarial gain and losses;
- ii. Return on program asset, excluding the amounts included in net interest on benefits liability (asset);
- iii. Every change in asset ceiling, excluding the amounts included in net interest on benefits liability (asset).

Remeasurement on net defined benefits liability (asset), recognized as other comprehensive income will not be reclassified to profit or loss in the next periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

The Group made additional provision for long-term employee benefits to qualified employees under Labor Law No. 13/2003 (the Labor Law).

**q. Instrumen Keuangan**

Instrumen keuangan adalah setiap kontrak yang memberikan aset keuangan bagi satu entitas dan liabilitas keuangan atau ekuitas bagi entitas lain. Kelompok Usaha menerapkan PSAK 50 (Revisi 2014), "Instrumen Keuangan: Penyajian", PSAK 55 (Revisi 2014), "Instrumen Keuangan: Pengakuan dan Pengukuran", dan PSAK 60 (Revisi 2014), "Instrumen Keuangan: Pengungkapan".

**i. Aset Keuangan**

Pengakuan dan Pengukuran Awal

Aset keuangan diklasifikasikan sebagai salah satu dari aset keuangan yang diukur pada nilai wajar melalui laba rugi, pinjaman yang diberikan dan piutang, investasi dimiliki hingga jatuh tempo, dan aset keuangan tersedia untuk dijual, mana yang sesuai. Kelompok Usaha menetapkan klasifikasi aset keuangan setelah pengakuan awal dan, jika diperbolehkan dan sesuai, akan melakukan evaluasi atas klasifikasi ini pada setiap akhir tahun keuangan.

Pada saat pengakuan awalnya, aset keuangan diukur pada nilai wajar. Aset keuangan yang tidak diukur pada nilai wajar melalui laporan laba rugi, diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung.

Aset keuangan Kelompok Usaha mencakup kas dan setara kas, piutang usaha lancar, piutang lain-lain - pihak ketiga, piutang usaha tidak lancar - pihak ketiga, aset keuangan yang dibatasi penggunaannya dan piutang pihak berelasi non - usaha diklasifikasikan sebagai pinjaman yang diberikan dan piutang.

Aset keuangan tersedia untuk dijual/  
Available-For-Sale ("AFS")

Aset keuangan AFS adalah aset keuangan non derivatif yang ditetapkan sebagai tersedia untuk dijual atau yang tidak diklasifikasikan dalam dua kategori sebelumnya. Setelah pengukuran awal, aset keuangan AFS diukur dengan nilai wajar dengan keuntungan atau kerugian yang belum terealisasi diakui dalam ekuitas sampai investasi tersebut dihentikan pengakuannya.

**q. Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Group adopted PSAK 50 (Revised 2014), "Financial Instruments: Presentation", PSAK 55 (Revised 2014), "Financial Instruments: Recognition and Measurement", and PSAK 60 (Revised 2014), "Financial Instruments: Disclosures".

**i. Financial Assets**

Initial Recognition and Measurement

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate. The Group determines the classification of its financial assets at initial recognition and, where allowed and appropriate, evaluates this designation at each financial year end.

When financial assets are initially recognized, they are measured at fair value. Financial assets that are not measured at fair value through profit or loss, are measured at fair value with the addition of directly attributable transaction costs.

The Group's financial assets including cash and cash equivalents, current trade receivables, other receivables - third parties, non-current trade receivables - third parties, restricted financial assets and due from related parties are classified as loans and receivables.

Available-For-Sale ("AFS") financial assets

AFS financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the two preceding categories. After initial measurement, AFS financial assets are measured at fair value with unrealized gains or losses recognized in the equity until the investment is derecognized.

Pada saat itu, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas akan direklasifikasi ke laba atau rugi sebagai penyesuaian reklasifikasi.

Kelompok Usaha memiliki penyertaan saham yang nilai wajarnya tidak tersedia dengan kepemilikan modal kurang dari 20%. Penyertaan ini dinyatakan sebesar biaya perolehan.

Pengukuran Setelah Pengakuan Awal

Pinjaman yang diberikan dan piutang adalah aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan dan tidak memiliki kuotasi di pasar aktif. Setelah pengakuan awal, aset tersebut dicatat pada biaya perolehan diamortisasi dengan menggunakan metode SBE, dan keuntungan atau kerugian terkait diakui pada laba rugi ketika pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, atau melalui proses amortisasi.

Penyisihan atas jumlah yang tak tertagih dicatat bila ada bukti yang objektif bahwa Kelompok Usaha tidak akan menagih piutang tersebut. Piutang tidak tertagih dihapuskan pada saat diidentifikasi. Rincian lebih lanjut tentang kebijakan akuntansi untuk penurunan nilai aset keuangan diungkapkan dalam catatan di bawah ini.

Penghentian Pengakuan

Aset keuangan (atau, jika ada bagian dari aset keuangan atau bagian dari kelompok aset keuangan sejenis) terutama dihentikan pengakuannya (yaitu, dihapus dari laporan posisi keuangan konsolidasian Kelompok Usaha) ketika:

At that time, the cumulative gain or loss previously recognized in the equity is reclassified to profit or loss as a reclassification adjustment.

The Group has investments in shares that do not have readily determinable fair value in which the ownership interest is less than 20%. These investments are carried at cost.

Subsequent Measurement

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, such assets are carried at amortized cost using the effective EIR method, and the related gains or losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

An allowance is made for uncollectible amounts when there is objective evidence that the Group will not be able to collect the receivables. Bad debts are written off when identified. Further details on the accounting policy for impairment of financial assets are disclosed below in this note.

Derecognition

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated financial statement of financial position) when:

Ketika Kelompok Usaha mentransfer hak untuk menerima arus kas yang berasal dari aset keuangan atau mengadakan kesepakatan penyerahan, atau tidak mentransfer maupun tidak mempertahankan secara substansi seluruh risiko dan manfaat atas aset keuangan tersebut namun telah mentransfer pengendalian atas aset keuangan tersebut, maka suatu aset keuangan baru diakui oleh Kelompok Usaha sebesar keterlibatannya yang berkelanjutan dengan aset keuangan tersebut.

Keterlibatan berkelanjutan yang berbentuk pemberian jaminan atas aset yang ditransfer diukur sebesar jumlah terendah antara nilai tercatat aset yang ditransfer dan nilai maksimal pembayaran yang diterima yang mungkin harus dibayar kembali oleh Kelompok Usaha.

*When the Group has transferred its rights to receive cash flows from a financial asset or has entered into a pass-through arrangement, or has neither transferred nor retained substantially all the risks and rewards of the financial asset but has transferred control of the financial asset, a new financial asset is recognized to the extent of the Group's continuing involvement in the asset.*

Dalam hal ini, Kelompok Usaha juga mengakui liabilitas terkait. Aset yang ditransfer diukur atas dasar yang merefleksikan hak dan kewajiban Kelompok Usaha yang ditahan.

Pada saat penghentian pengakuan atas aset keuangan secara keseluruhan, maka selisih antara nilai tercatat dan jumlah dari (i) pembayaran yang diterima, termasuk aset baru yang diperoleh dikurangi dengan liabilitas baru yang ditanggung; dan (ii) keuntungan atau kerugian kumulatif yang telah diakui secara langsung dalam ekuitas, harus diakui pada laba rugi.

Penurunan Nilai

Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah terdapat bukti yang obyektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Penurunan nilai atas aset keuangan atau kelompok aset keuangan dianggap telah terjadi, jika dan hanya jika, terdapat bukti yang obyektif mengenai penurunan nilai sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset tersebut (peristiwa kerugian), dan peristiwa kerugian tersebut berdampak pada estimasi arus kas masa depan aset keuangan atau kelompok aset keuangan yang dapat diestimasi secara andal.

Bukti penurunan nilai dapat meliputi indikasi pihak peminjam atau kelompok peminjam mengalami kesulitan keuangan signifikan, wanprestasi atau tunggakan pembayaran bunga atau pokok, terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya dan pada saat data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang, seperti meningkatnya tunggakan atau kondisi ekonomi yang berkorelasi dengan wanprestasi.

*In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.*

*On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of (i) the consideration received, including any new asset obtained less any new liability assumed; and (ii) any cumulative gain or loss that has been recognized directly in equity, is recognized in the profit or loss.*

Impairment

*The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (an incurred loss event) and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.*

*Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and when observable data indicates that there is a measurable decrease in estimated future cash flows, such as increase in arrears or economic conditions that correlate with defaults.*

Penurunan Nilai (lanjutan)

- Aset Keuangan yang Dicatat pada Biaya Perolehan Diamortisasi

Untuk pinjaman yang diberikan dan piutang yang dicatat pada biaya perolehan yang diamortisasi, Kelompok Usaha pertama kali secara individual menentukan bahwa terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang signifikan secara individual, atau secara kolektif untuk aset keuangan yang tidak signifikan secara individual. Jika Kelompok Usaha menentukan tidak terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang dinilai secara individual, terlepas aset keuangan tersebut signifikan atau tidak, maka Kelompok Usaha memasukkan aset tersebut ke dalam kelompok aset keuangan yang memiliki karakteristik risiko kredit yang sejenis dan menilai penurunan nilai kelompok tersebut secara kolektif. Aset yang penurunan nilainya dinilai secara individual dan untuk itu kerugian penurunan nilai diakui atau tetap diakui, tidak termasuk dalam penilaian atau penurunan nilai secara kolektif.

Jika terdapat bukti objektif bahwa kerugian penurunan nilai telah terjadi, jumlah kerugian tersebut diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit di masa mendatang yang belum terjadi). Nilai kini estimasi arus kas masa datang didiskonto menggunakan SBE awal dari aset keuangan tersebut. Jika pinjaman yang diberikan atau piutang memiliki suku bunga variabel, tingkat diskonto untuk mengukur kerugian penurunan nilai adalah SBE terkini.

Impairment (continued)

- Financial Assets Carried at Amortized Cost

*For loans and receivables carried at amortized cost, the Group first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment for impairment.*

*When there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan or receivable has a variable interest rate, the discount rate for measuring impairment loss is the current EIR.*

Penurunan Nilai (lanjutan)

Nilai tercatat aset keuangan dikurangi melalui penggunaan akun cadangan dan jumlah kerugian tersebut diakui secara langsung dalam laba rugi. Penghasilan bunga terus diakui atas nilai tercatat yang telah dikurangi tersebut berdasarkan suku bunga yang digunakan untuk mendiskontokan arus kas masa depan dengan tujuan untuk mengukur kerugian penurunan nilai. Pinjaman yang diberikan dan piutang beserta dengan cadangan terkait dihapuskan jika tidak terdapat kemungkinan yang realistis atas pemulihan di masa mendatang dan seluruh agunan, jika ada, sudah direalisasi atau ditransfer kepada Kelompok Usaha.

Jika, dalam tahun berikutnya, nilai estimasi kerugian penurunan nilai aset keuangan bertambah atau berkurang yang dikarenakan peristiwa yang terjadi setelah penurunan nilai diakui, maka kerugian penurunan nilai yang sebelumnya diakui ditambahkan atau dikurangi (dipulihkan) dengan menyesuaikan akun cadangan. Pemulihan tersebut tidak boleh mengakibatkan nilai tercatat aset keuangan melebihi biaya perolehan diamortisasi yang seharusnya jika penurunan nilai tidak diakui pada tanggal pemulihan dilakukan. Jika penghapusan nantinya terpulihkan, jumlah pemulihan aset keuangan diakui pada laba rugi.

Impairment (continued)

- Financial Assets Carried at Amortized Cost (continued)

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is directly recognized in profit or loss. Interest income continues to be accrued on the reduced carrying amount based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Loans and receivables, together with the associated allowance, are written off when there is no realistic prospect of future recovery and all collateral, if any, has been realized or has been transferred to the Group.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of events occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment was reversed. If a future write-off is later recovered, the recovery is recognized in profit or loss.

Pengukuran Setelah Pengakuan Awal

• Utang

Liabilitas untuk utang usaha dan utang lain-lain lancar dan beban akrual dinyatakan sebesar jumlah tercatat (jumlah nosional), yang kurang lebih sebesar nilai wajarnya.

• Utang dan Pinjaman Jangka Panjang yang Dikenakan Bunga

Setelah pengakuan awal, utang dan pinjaman jangka panjang yang dikenakan bunga diukur dengan biaya perolehan diamortisasi dengan menggunakan metode SBE. Pada tanggal pelaporan, biaya bunga yang masih harus dibayar dicatat secara terpisah dari pokok pinjaman terkait dalam bagian liabilitas jangka pendek. Keuntungan dan kerugian diakui dalam laba rugi ketika liabilitas dihentikan pengakuannya serta melalui proses amortisasi menggunakan metode SBE.

Biaya perolehan diamortisasi dihitung dengan mempertimbangkan setiap diskonto atau premium atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE. Amortisasi SBE dicatat sebagai biaya keuangan dalam laba rugi.

Penghentian Pengakuan

Suatu liabilitas keuangan dihentikan pengakuannya pada saat kewajiban yang ditetapkan dalam kontrak dihentikan atau dibatalkan atau kadaluwarsa.

Ketika sebuah liabilitas keuangan ditukar dengan liabilitas keuangan lain dari pemberi pinjaman yang sama atas persyaratan yang secara substansial berbeda, atau bila persyaratan dari liabilitas keuangan tersebut secara substansial dimodifikasi, pertukaran atau modifikasi persyaratan tersebut dicatat sebagai penghentian pengakuan liabilitas keuangan awal dan pengakuan liabilitas keuangan baru, dan selisih antara nilai tercatat masing-masing liabilitas keuangan tersebut diakui dalam laba rugi.

• Long-term Interest-Bearing Loans and Borrowings

*Subsequent to initial recognition, long-term interest-bearing loans and borrowings are measured at amortized cost using the EIR method. At the reporting dates, accrued interest is recorded separately from the associated borrowings in the current liabilities section. Gains and losses are recognized in the profit or loss when the liabilities are derecognized as well as through the amortization process using the EIR method.*

*Amortized costs are calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is recorded as a finance cost in profit or loss.*

Derecognition

*A financial liability is derecognized when the obligation under the contract is discharged or cancelled or has expired.*

*When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.*

**w. Penentuan Nilai Wajar**

Kelompok Usaha mengukur instrumen keuangan, aset biologis, aset tetap - tanah dan properti investasi - tanah dengan nilai wajar pada masing-masing tanggal pelaporan. Kelompok Usaha juga mengukur jumlah terpulihkan dari UPK tertentu berdasarkan nilai wajar dikurangi biaya pelepasan (*Fair Value Less Cost of Disposal* atau ("FVLCD")).

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar berdasarkan asumsi bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- di pasar utama untuk aset dan liabilitas tersebut; atau
- dalam hal tidak terdapat pasar utama, maka pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Kelompok Usaha harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan tersebut.

Nilai wajar aset dan liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar dari suatu aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomi dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut pada penggunaan tertinggi dan terbaiknya.

Kelompok Usaha menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan *input* yang dapat diobservasi yang relevan dan meminimalkan penggunaan *input* yang tidak dapat diobservasi.

**w. Determination of Fair Value**

*The Group measures financial instruments, biological assets, fixed asset - land, and investment property - land at fair value at each reporting date. It also measures certain recoverable amounts of the CGU using Fair Value Less Cost of Disposal ("FVLCD").*

*Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:*

- *in the principal market for the asset or liability; or*
- *in the absence of a principal market, in the most advantageous market for the asset or liability.*

*The principal or the most advantageous market must be accessible by the Group.*

*The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.*

*A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.*

*The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.*

**w. Penentuan Nilai Wajar (lanjutan)**

Semua aset dan liabilitas yang nilai wajarnya diukur atau diungkapkan dalam laporan keuangan konsolidasian dikelompokkan dalam hierarki nilai wajar berdasarkan tingkatan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan sebagai berikut:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.
- Level 2 - teknik penilaian dimana tingkat level *input* terendah yang signifikan terhadap pengukuran nilai wajar dapat diobservasi baik secara langsung atau tidak langsung.
- Level 3 - teknik penilaian dimana tingkat level *input* terendah yang signifikan terhadap pengukuran nilai wajar tidak dapat diobservasi baik secara langsung atau tidak langsung.

Untuk aset dan liabilitas yang diukur secara berulang dalam laporan keuangan konsolidasian, Kelompok Usaha menentukan apakah perpindahan antar level hierarki telah terjadi dengan melakukan evaluasi pengelompokan (berdasarkan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara menyeluruh) pada setiap akhir periode pelaporan.

Komite Penilaian Kelompok Usaha menentukan kebijakan dan prosedur untuk menentukan pengukuran nilai wajar yang berulang. Komite Penilaian ini terdiri dari *Manager Accounting, Financial Controller* dan Direktur Keuangan.

Penilai eksternal terlibat dalam penilaian aset signifikan yaitu tanah. Keterlibatan penilai eksternal ditentukan secara tahunan oleh Komite Penilaian setelah berdiskusi dan disetujui oleh Komite Audit Perusahaan. Pemilihan didasarkan pada pengetahuan atas pasar, reputasi, independensi dan apakah standar profesional dijaga. Komite Penilaian memutuskan, setelah berdiskusi dengan penilai eksternal Kelompok Usaha, teknik penilaian dan masukan yang sesuai yang digunakan dalam setiap kondisi.

*All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:*

- *Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.*
- *Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.*
- *Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly unobservable.*

*For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.*

*The Group's Valuation Committee determines the policies and procedures for recurring fair value measurement. The Valuation Committee comprises of Accounting Manager, Financial Controller and Finance Director.*

*External valuers are involved for valuation of significant assets, such as land. Involvement of external valuers is decided upon annually by the Valuation Committee after discussion with and approval by the Company's Audit Committee. **3. SIGNIFICANT ACCOUNTING JUDGMENTS,

Imbalan Kerja

Penentuan liabilitas dan biaya imbalan kerja jangka panjang Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Keuntungan atau kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial diakui secara langsung pada laporan posisi keuangan konsolidasian dengan debit atau kredit ke saldo laba melalui penghasilan komprehensif lainnya dalam tahun terjadinya.

Walaupun Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas diestimasi atas imbalan kerja dan beban imbalan kerja jangka panjang.

Nilai tercatat atas liabilitas imbalan kerja jangka panjang Kelompok Usaha pada tanggal 31 Desember 2019 dan 2018 masing-masing sebesar Rp288.505 dan Rp292.852. Penjelasan lebih rinci diungkapkan dalam Catatan 33.

Penyusutan dan Penurunan Nilai Aset Tetap

Biaya perolehan aset tetap, kecuali tanah, disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya dengan memperhitungkan taksiran nilai residu sebesar persentase tertentu dari nilai tercatat, kecuali untuk prasarana tanah yang tidak diperhitungkan nilai residunya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara 2 sampai dengan 20 tahun. Ini adalah umur yang secara umum diharapkan dalam industri di mana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

Penelaahan atas penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai aset tertentu. Penentuan nilai wajar aset membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut.

Employee Benefits

The determination of the Group's obligations and long-term employee benefits expense is dependent on its selection of certain assumptions used by independent actuary in calculating such amounts. Those assumptions include discount rates, future annual salary increase, annual employee turnover rate, disability rate, retirement age and mortality rate. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the consolidated financial position with a corresponding debit or credit to retained earnings through other comprehensive income the year in which they occur.

While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's results or significant changes in the Group's assumptions may materially affect its estimated liabilities for employee benefits and long-term employee benefits expense.

The carrying amounts of the Group's long-term employee benefits liability as of December 31, 2019 and 2018 amounted to Rp288,505 and Rp292,852, respectively. Further details are disclosed in Note 33.

Depreciation and Impairment of Fixed Assets

The costs of fixed assets, except land, are depreciated on a straight-line basis over their estimated useful lives after taking into account the residual values at a certain percentage of the carrying values, except for land improvements which have no residual value. Management estimates the useful lives of such fixed assets to be from 2 to 20 years. These are common life expectancies applied in the industries where the Group conducts its businesses. Changes in the expected level of usage and technological developments could affect the economic useful lives and the residual values of these assets, necessitating revision of future depreciation charges.

Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

**Piutang Plasma (lanjutan)**

Hasil panen tersebut akan digunakan untuk melunasi kewajiban (pokok dan bunga) kepada bank terlebih dahulu dan sisanya digunakan untuk melunasi utang kepada Perusahaan dan CPB. Satu periode masa budi daya udang memerlukan waktu berkisar antara 4 sampai dengan 6 bulan.

Perusahaan dan CPB juga memberikan pinjaman kepada plasma untuk membayar angsuran pinjaman dan beban bunga yang timbul dari pinjaman bank karena hasil panen belum cukup untuk membiayai pengeluaran-pengeluaran tersebut diatas. Pinjaman tersebut akan dilunasi oleh masing-masing plasma pada saat hasil panen mereka sudah menghasilkan arus kas neto yang positif.

Efektif 17 Oktober 2016, CPB dan plasma telah setuju untuk mengakhiri Skema Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR) dan plasma akan menjalankan Skema Operasi Budidaya Mandiri. Akibat perubahan ini CPB telah mencadangkan seluruh piutang plasma.

**5. TRADE RECEIVABLES (continued)**

**Farmers Receivables (continued)**

The proceeds from harvests shall be used to repay the obligations (principal and interest) to the banks first and the remaining will be used to settle amounts due to the Company and CPB. One cycle of shrimp farming is about 4 to 6 months.

The Company and CPB also provide loan to farmers to repay loan installments and its interest charges to banks, since the result from the harvests are still not sufficient to cover the above-mentioned expenditures. This loan will be repaid by each farmer once their harvests are already providing positive net cash flows.

Effective October 17, 2016, CPB and the farmers agreed to end "Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR)" Scheme and the farmers will continue operating under "Operasi Budidaya Mandiri" Scheme. Due to this change, CPB has provided full allowance for farmers' trade receivables.

**38. NILAI WAJAR DARI INSTRUMEN KEUANGAN  
(lanjutan)**

- Utang obligasi

Utang obligasi disajikan dalam biaya perolehan diamortisasi dengan menggunakan metode SBE. Biaya perolehan diamortisasi ditentukan dengan memperhitungkan diskonto atau premi atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE.

**Hierarki Nilai Wajar**

Aset dan liabilitas keuangan diklasifikasikan secara keseluruhan berdasarkan tingkat terendah dari masukan (*input*) yang signifikan terhadap pengukuran nilai wajar. Penilaian dampak signifikan dari suatu *input* tertentu terhadap pengukuran nilai wajar membutuhkan pertimbangan dan dapat mempengaruhi penilaian dari aset dan liabilitas yang diukur dan penempatannya dalam hierarki nilai wajar.

Bukti terbaik dari nilai wajar adalah harga yang dikuotasikan (*quoted prices*) dalam sebuah pasar yang aktif. Jika pasar untuk sebuah instrumen keuangan tidak aktif, entitas menetapkan nilai wajar dengan menggunakan metode penilaian. Tujuan dari penggunaan metode penilaian adalah untuk menetapkan harga transaksi yang terbentuk pada tanggal pengukuran dalam sebuah transaksi pertukaran yang wajar dengan pertimbangan bisnis normal.

Metode penilaian termasuk penggunaan harga dalam transaksi pasar yang wajar (*arm's length*) terakhir antara pihak-pihak yang memahami dan berkeinginan, jika tersedia, referensi kepada nilai wajar terkini dari instrumen lain yang secara substansial sama, analisa arus kas yang didiskontokan.

**38. FAIR VALUE OF FINANCIAL INSTRUMENTS  
(continued)**

- Bonds payable

The bonds payable are carried at amortized costs using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the EIR.

**Fair Value Hierarchy**

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The assessment of the significance of a particular input to the fair value measurements requires judgement, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis.

**38. NILAI WAJAR DARI INSTRUMEN KEUANGAN  
(lanjutan)**

**Hierarki Nilai Wajar (lanjutan)**

Jika terdapat metode penilaian yang biasa digunakan oleh para peserta pasar untuk menentukan harga dari instrumen dan metode tersebut telah didemonstrasikan untuk menyediakan estimasi yang andal atas harga yang diperoleh dari transaksi pasar yang aktual, entitas harus menggunakan metode tersebut. Metode penilaian yang dipilih membuat penggunaan maksimum dari input pasar dan bergantung sedikit mungkin atas input yang spesifik untuk entitas (*entity-specific input*). Metode tersebut memperhitungkan semua faktor yang akan dipertimbangkan oleh peserta pasar dalam menentukan sebuah harga dan selaras dengan metode ekonomis untuk penilaian sebuah instrumen keuangan.

Secara berkala, Kelompok Usaha menelaah metode penilaian dan mengujinya untuk validitas dengan menggunakan harga dari transaksi pasar terkini yang dapat diobservasi untuk instrumen yang sama (yaitu tanpa modifikasi dan pengemasan kembali) atau berdasarkan data pasar yang tersedia dan dapat diobservasi.

Hierarki nilai wajar Kelompok Usaha pada tanggal 31 Desember 2019 dan 2018 adalah sebagai berikut:

	<b>Total Total</b>	<b>Level 1/ Level 1</b>	<b>Level 2/ Level 2</b>	<b>Level 3/ Level 3</b>

**38. FAIR VALUE OF FINANCIAL INSTRUMENTS  
(continued)**

**Fair Value Hierarchy (continued)**

If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.

Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on any available observable market data.

The Group's fair values hierarchy as of December 31, 2019 and 2018 is as follows:

**39. TUJUAN DAN KEBIJAKAN MANAJEMEN  
RISIKO KEUANGAN**

**a. Manajemen Risiko**

Risiko utama dari instrumen keuangan Kelompok Usaha adalah risiko kredit, risiko likuiditas, risiko pasar (termasuk risiko nilai tukar mata uang asing dan risiko harga komoditas) dan risiko suku bunga. Penelaahan Direksi dan kebijakan yang disetujui untuk mengelola risiko-risiko dirangkum sebagai berikut:

**Risiko Kredit**

Risiko kredit timbul sebagai akibat dari penjualan produk kepada pelanggan. Kelompok Usaha mengelola dan mengendalikan risiko ini dengan menetapkan batasan risiko yang dapat diterima dan memantau eksposur terkait dengan batasan-batasan tersebut.

Risiko kredit adalah risiko bahwa Kelompok Usaha akan mengalami kerugian yang timbul dari pelanggan, klien atau pihak lawan yang gagal memenuhi kewajiban kontraktual mereka. Tidak ada risiko kredit yang terpusat secara signifikan.

Kelompok Usaha menetapkan sejumlah kebijakan sebelum memberikan kredit kepada pelanggan baru, antara lain dengan melakukan survei atas pelanggan tersebut dan memberikan kredit limit yang terbatas. Kesepakatan dengan pelanggan ini dituangkan dalam suatu surat yang disebut KUL (Kondisi Untuk Langgan) dan Surat Perjanjian Jual Beli. Kelompok Usaha juga menetapkan kebijakan jangka waktu kredit yang relatif pendek, yaitu 30 sampai dengan 60 hari. Peningkatan kredit limit dan perpanjangan jangka waktu kredit akan diberikan setelah melalui proses verifikasi. Atas piutang yang telah jatuh tempo, akan dipantau secara terus menerus dan sedapat mungkin akan dimintakan jaminan dan menghentikan penyaluran kredit kepada pelanggan tersebut dan hanya melakukan transaksi penjualan secara kas. Tergantung pada penilaian Kelompok Usaha, cadangan khusus mungkin dibuat jika piutang dianggap tidak tertagih.

**39. FINANCIAL RISK MANAGEMENT OBJECTIVES  
AND POLICIES**

*The Group has adopted several policies before providing credit to new customers, such as customer surveys and setting of strict credit limits. The agreement with customers is outlined in a document entitled KUL (Conditions for Customer) and Sales and Purchase Agreements. The Group also establishes a policy for a relatively short credit period, which is 30 to 60 days. The increase in the credit limit and the extension of the credit period will only be provided after passes the verification process. Overdue receivables are monitored continuously and where possible collateral is sought with termination of customer credit and restriction to cash basis transactions being other possible measures. Depending on the evaluation of the Group, specific provisions may be provided if receivables are deemed uncollectible.*

The collectability of the farmers' receivables depends on the success of farmers' harvesting. The Group always monitors farmers' performance and collection from each customer to ensure that loss possibility from the uncollectible credit given is as minimum as possible.

The following table sets out the Group's credit risk based on evaluation of impairment as of December 31, 2019 and 2018:

**Liquidity Risk**

Liquidity risk is the risk that occurs when the cash flows position indicates that short-term revenue is insufficient to cover short-term expenditure.

The liquidity requirements of the Group have historically arisen from the need for investment funding and capital expenditure, while operational expenses can be met from the Group's cash flows. In handling liquidity risk, management always maintains cash and cash equivalents at adequate levels to finance the operations of the Group, while the effects of cash flow fluctuation can be overcome by the availability of bank loan facilities.

**41. KELANGSUNGAN USAHA (lanjutan)**

Sampai dengan tanggal laporan keuangan konsolidasian ini diselesaikan dan diotorisasi untuk diterbitkan, Kelompok Usaha masih dalam proses negosiasi dengan beberapa pemegang obligasi terkait proposal restrukturisasi utang obligasi dan pembiayaan untuk restrukturisasi utang obligasi tersebut. Kelompok Usaha juga perlu untuk memperpanjang jangka waktu fasilitas utang bank jangka pendeknya ketika telah habis sesuai dengan proyeksi keuangan yang telah disiapkan.

**42. TAMBAHAN INFORMASI ARUS KAS**

**41. GOING CONCERN (continued)**

As of the date the consolidated financial statements were completed and authorized for issuance, the Group is still in negotiation process with several bondholders in relation with restructuring proposal of the bonds payable and financing for the bonds payables restructuring. The Group will also need to further extend its short-term bank loan facilities when they fall due in accordance with its prepared financial projection.

Since the Group has not been able to execute all of the above actions and plans due to several factors which are beyond its control, these matters may significantly affect the Group's financial conditions and performance and therefore, indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.

The consolidated financial statements of the Group have been prepared assuming that the Group will continue as a going concern entity which assume that assets will be realized and liabilities will be settled within the normal course of the business. The consolidated financial statements do not include any adjustments that might result from these uncertainties.

**43. STANDAR AKUNTANSI YANG TELAH  
DITERBITKAN NAMUN BELUM BERLAKU  
EFEKTIF (lanjutan)**

PSAK No. 72: Pendapatan dari Kontrak dengan  
Pelanggan, berlaku efektif 1 Januari 2020.

PSAK No. 73: Sewa, berlaku efektif 1 Januari 2020.

PSAK ini menetapkan prinsip pengakuan, pengukuran, penyajian, dan pengungkapan atas sewa dengan memperkenalkan model akuntansi tunggal dengan mensyaratkan untuk mengakui aset hak-guna (*right-of-use assets*) dan liabilitas sewa. Terdapat 2 pengecualian opsional dalam pengakuan aset dan liabilitas sewa, yakni untuk: (i) sewa jangka-pendek dan (ii) sewa yang aset dasarnya (*underlying assets*) bernilai-rendah.

Amandemen PSAK 1 dan PSAK 25: Definisi

Amandemen ini mengklarifikasi definisi material dengan tujuan menyelaraskan definisi yang digunakan dalam kerangka kerja konseptual dan beberapa PSAK terkait. Selain itu, juga memberikan panduan yang lebih jelas mengenai definisi material dalam konteks pengurangan pengungkapan yang berlebihan karena perubahan ambang batas definisi material.

Amandemen PSAK 22: Definisi Bisnis, berlaku

**43. ACCOUNTING STANDARDS ISSUED BUT NOT  
YET EFFECTIVE (continued)**

PSAK No. 72: Revenue from Contracts with  
Customers, effective January 1, 2020.

This accounting standard requires the Group to apply 5-step model in recognizing revenue. The Group will be required to identify performance obligation promised in each contract with the customer, including any variable consideration, and only recognize revenue in accordance with the determined/allocated transactions price upon satisfaction of the performance obligation.

PSAK No. 73: Leases, effective January 1, 2020.

This PSAK establishes the principles of recognition, measurement, presentation, and disclosure of the lease by introducing a single accounting model, with the requirement to recognize the right-of-use assets and liability of the lease; there are 2 optional exclusions in the recognition of the lease assets and liabilities: (i) short-term lease and (ii) lease with low-value underlying assets.

Amendments to PSAK 1 and PSAK 25: Definition  
of Material, effective January 1, 2020.

This amendments clarify the definition of material with aim of harmonizing the definitions used in the conceptual framework and some relevant PSAKs. In addition, it also provides clearer guidance regarding the definition of material in the context of reducing over disclosure due to changes in the threshold of the material definition.

Amendments to PSAK 22: Definition of Business,  
effective from January 1, 2021

This amendments were issued to help entities determine whether an acquired set of activities and assets is a business or not. They clarify the minimum requirements for a business, remove the assessment of whether market participants are capable of replacing any missing elements, add guidance to help entities assess whether an acquired process is substantive, narrow the definitions of a business and of outputs, and introduce an optional fair value concentration test.

Until the date these consolidated financial statements were authorized for issuance, the management is still evaluating the potential impact of these new and revised standards to the Group's consolidated financial statements.

**44. PERISTIWA SETELAH PERIODE PELAPORAN**

**a. Dampak Covid-19**

Operasi Kelompok Usaha telah dan mungkin terus dipengaruhi oleh penyebaran virus Covid-19. Dampak virus Covid-19 terhadap ekonomi global dan Indonesia termasuk dampak terhadap pertumbuhan ekonomi, penurunan pasar modal, peningkatan risiko kredit, depresiasi nilai tukar mata uang asing dan gangguan operasi bisnis. Dampak masa depan dari virus Covid-19 terhadap Indonesia dan Kelompok Usaha masih belum dapat ditentukan saat ini. Peningkatan jumlah infeksi Covid-19 yang signifikan atau penyebaran yang berkepanjangan dapat mempengaruhi Indonesia dan Kelompok Usaha.

Wabah Covid-19 dinyatakan oleh Organisasi Kesehatan Dunia (WHO) sebagai pandemi pada 11 Maret 2020. Presiden Republik Indonesia menyatakan darurat kesehatan di Indonesia dan menerbitkan Peraturan Pemerintah No. 21/2020 mengenai pembatasan sosial skala besar pada 31 Maret 2020. Telah terjadi penurunan Indeks Harga Saham Gabungan (IHSG), Indeks Harga Obligasi Gabungan (ICBI), dan nilai tukar mata uang Rupiah terhadap mata uang asing yang sebagian disebabkan oleh dampak virus Covid-19. Perubahan nilai tukar mata uang Rupiah terhadap Dolar Amerika Serikat berpengaruh terhadap kenaikan nilai pembelian bahan baku dan nilai utang Kelompok Usaha dalam mata uang Dolar Amerika Serikat.

Sampai dengan tanggal laporan keuangan konsolidasian diselesaikan dan diotorisasi untuk diterbitkan oleh Direksi Perusahaan, Kelompok Usaha telah menyelaraskan kegiatan usahanya dengan peraturan pemerintah dengan memberlakukan kebijakan bekerja dari rumah untuk karyawan non-lapangan, dan menerapkan protokol kesehatan sesuai dengan peraturan yang berlaku di daerah dimana Kelompok Usaha beroperasi. Untuk melindungi dampak kenaikan nilai tukar mata uang Rupiah, Kelompok Usaha melakukan pembayaran atas pembelian bahan baku impor dengan menggunakan Dolar Amerika Serikat hasil penjualan ekspor udang beku. Apabila jumlah Dolar Amerika Serikat yang berasal dari penjualan ekspor udang beku tidak mencukupi untuk melakukan pembayaran, Kelompok Usaha akan melakukan kontrak *forward* untuk lindung nilai pembelian bahan baku impor dan/atau menaikkan harga jual produk.

The changes in the Rupiah exchange rates against the United States Dollar have an effect on the increase of purchase value of raw materials and the value of the Group's liabilities in United States Dollars.*

*Until the date the consolidated financial statements were completed and authorized for issuance by the Company's Board of Directors, the Group has aligned its business operation with the government regulation by enforcing a work from home policy for non-fields employees, and implement health protocols in accordance with applicable regulations in area where the Group operates. In order to protect the impact of the increase in the Rupiah exchange rates, the Group made payments for purchase of imported raw materials using United States Dollars from the sale of exported frozen shrimp. Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Dalam melakukan penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal entitas. Report No. 00239/2.1032/AU.1/10/1563-2/1/III/2021 (continued)

**Auditors' responsibility (continued)**

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the accompanying interim consolidated financial statements present fairly, in all material respects, the interim consolidated financial position of PT Central Proteina Prima Tbk. and its subsidiaries as of October 31, 2020, and their interim consolidated financial performance and cash flows for the ten-month period then ended, in accordance with Indonesian Financial Accounting Standards.

Laporan No. 00239/2.1032/AU.1/10/1563-2/1/III/2021 (lanjutan)

**Penekanan suatu hal**

Seperti yang didiskusikan pada Catatan 41 atas laporan keuangan konsolidasian interim terlampir, Kelompok Usaha melaporkan saldo kerugian konsolidasian sebesar Rp6.752.638 juta pada tanggal 31 Oktober 2020, dan total liabilitas jangka pendek konsolidasiannya melebihi total aset lancar konsolidasiannya sebesar Rp3.503.904 juta pada tanggal tersebut. Selanjutnya, pada tahun 2019 dan 2020, Blue Ocean Resources Pte. Ltd., entitas anak, tidak mampu melakukan pembayaran atas cicilan pokok semesteran dan akrual biaya bunga dari utang obligasi yang telah jatuh tempo pada tanggal 30 Juni 2019, 31 Desember 2019, 30 Juni 2020, dan 31 Desember 2020. Sebagai tambahan, Perusahaan dan entitas anak tertentu belum dapat memenuhi persyaratan rasio keuangan atau ketentuan pembatasan lainnya yang diwajibkan dalam perjanjian utang bank tertentu pada tanggal 31 Oktober 2020. Kondisi tersebut, bersama dengan hal-hal lain sebagaimana dijelaskan dalam Catatan 41, mengindikasikan adanya suatu ketidakpastian material yang dapat menyebabkan keraguan signifikan atas kemampuan Kelompok Usaha untuk mempertahankan kelangsungan usahanya. Opini kami tidak dimodifikasi sehubungan dengan hal tersebut.

**Independent Auditors' Report (continued)**

Report No. 00239/2.1032/AU.1/10/1563-2/1/III/2021 (continued)

**Emphasis of matter**

*As discussed in Note 41 to the accompanying consolidated interim financial statements, the Group reported a consolidated deficit of Rp6,752,638 million as of October 31, 2020, and that its consolidated total current liabilities exceeded its consolidated total current assets by Rp3,503,904 million as of such date. Furthermore, in 2019 and 2020, Blue Ocean Resources Pte. Ltd., a subsidiary, was not able to pay the semi-annual principal installments and interest expense accruals of its bonds payable which were due on June 30, 2019, December 31, 2019, June 30, 2020, and December 31, 2020. In addition, the Company and its certain subsidiaries were not able to meet certain required financial ratios and covenants as stated in certain bank loan agreements as of October 31, 2020. These conditions, along with other matters as set forth in Note 41, indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of such matter.*

PSAK 71: Instrumen Keuangan

PSAK 71: Instrumen Keuangan menggantikan PSAK 55: Instrumen Keuangan: Pengakuan dan Pengukuran untuk periode tahunan yang dimulai pada atau setelah 1 Januari 2020, yang menggabungkan ketiga aspek akuntansi untuk instrumen keuangan: klasifikasi dan pengukuran; penurunan nilai; dan akuntansi lindung nilai.

Kelompok Usaha tidak menyajikan kembali informasi komparatif, yang tetap disajikan sesuai PSAK 55. Terdapat dampak signifikan dalam penerapan PSAK 71 yang telah diterapkan yang diakui secara langsung dalam laba ditahan dan komponen ekuitas lainnya.

Sifat dari efek adopsi PSAK 71 pada tanggal 1 Januari 2020 meliputi klasifikasi dan pengukuran, dan penurunan nilai.

Klasifikasi dan Pengukuran

Berdasarkan PSAK 71, instrumen utang selanjutnya diukur pada nilai wajar melalui laba rugi ("FVPL"), biaya perolehan diamortisasi, nilai wajar melalui penghasilan komprehensif lain ("FVOCI"). Klasifikasi tersebut berdasarkan pada dua kriteria: (1) model bisnis Kelompok Usaha dari pengelolaan aset; dan (2) apakah arus kas kontraktual instrument hanya mewakili "pembayaran pokok dan bunga ("SPPI")" dari jumlah pokok terutang.

Changes of Accounting Policies

The Group made first time adoption of all the new and revised standards effective for the periods beginning on January 1, 2020, including the following new standards that have affected the consolidated financial statements of the Group:

PSAK 71: Financial Instruments

PSAK 71: Financial Instruments replaces PSAK 55: Financial Instruments: Recognition and Measurements for annual periods beginning on or after January 1, 2020, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group has not restated the comparative information, which continues to be reported under PSAK 55. There was significant impact from the adoption of PSAK 71 that was recognized directly in retained earnings and other components of equity.

The nature of the effect of adoption PSAK 71 as at January 1, 2020 include classification and measurement, and impairment.

Classification and Measurement

Under PSAK 71, debt instruments are subsequently measured at fair value through profit or loss ("FVPL"), amortized costs, or fair value through other comprehensive income ("FVOCI"). The classification is based on two criteria: (1) the Group's business model from managing the assets; and (2) whether the instruments' contractual cash flows represent "solely payments of principal and interest ("SPPI")" on the principal amount outstanding.

Klasifikasi dan Pengukuran (lanjutan)

Penilaian model bisnis Kelompok Usaha dilakukan pada tanggal penerapan awal, yakni 1 Januari 2020. Penilaian apakah arus kas kontraktual atas instrumen utang hanya terdiri dari pokok dan bunga dibuat berdasarkan fakta dan keadaan pada saat pengakuan awal aset.

Persyaratan klasifikasi dan pengukuran PSAK 71 tidak memiliki pengaruh yang signifikan bagi Kelompok Usaha. Kelompok Usaha terus mengukur pada nilai wajar seluruh aset keuangan yang sebelumnya dimiliki pada nilai wajar berdasarkan PSAK 55.

Piutang usaha dan piutang lain-lain yang diklasifikasikan sebagai pinjaman dan piutang pada tanggal 31 Desember 2019 dimiliki untuk mengumpulkan arus kas kontraktual dan menimbulkan arus kas yang hanya mewakili pembayaran pokok dan bunga. Hal ini diklasifikasikan dan diukur sebagai instrumen utang pada biaya perolehan mulai 1 Januari 2020.

Kelompok Usaha tidak menetapkan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi. Tidak ada perubahan dalam klasifikasi dan pengukuran atas liabilitas keuangan Kelompok Usaha.

Pada saat penerapan PSAK 71, Kelompok Usaha mengklasifikasikan investasi pada saham sebagai aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain. Kelompok Usaha mengukur investasi pada saham pada nilai wajar dengan menggunakan metode diskonto arus kas dan mengakui penurunan nilai sebesar Rp11.284 yang dicatat pada akun Komponen Ekuitas Lainnya dan mengakui aset pajak tangguhan sebesar Rp2.821.

Classification and Measurement (continued)

The assessment of the Group's business model was made as of the date of initial application, January 1, 2020. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of PSAK 71 did not have a significant impact to the Group. The Group continued measuring at fair value all financial assets previously held at fair value under PSAK 55.

Trade receivables and other receivables classified as loans and receivables as at December 31, 2019 are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are classified and measured as debt instruments at amortized cost beginning January 1, 2020.

The Group has not designated any financial liabilities as at fair value through profit or loss. There are no changes in classification and measurement for the Group's financial liabilities.

Upon adoption PSAK 71, the Group classified investment in shares as financial assets measured at fair value through other comprehensive income. The Group measures investment in shares using discounted cashflows method and recognized decrease in value amounted to Rp11,284 which recorded in Other Equity Components account and recognized deferred tax assets amounted to Rp2,821.

Penurunan Nilai

Penerapan PSAK 71 telah secara fundamental mengubah akuntansi untuk kerugian penurunan nilai atas aset keuangan dengan mengganti pendekatan kerugian yang terjadi dalam PSAK 55 dengan pendekatan kerugian kredit ekspektasian ("KKE"). PSAK 71 mengharuskan Kelompok Usaha untuk mengakui penyisihan atas KKE untuk seluruh instrumen utang yang tidak dimiliki pada nilai wajar melalui laba rugi dan aset kontrak.

Saat penerapan PSAK 71, Kelompok Usaha mengakui tambahan penurunan nilai atas piutang usaha dan piutang pihak berelasi non-usaha Kelompok Usaha sebesar Rp23.878 dan aset pajak tangguhan sebesar Rp5.970 dan mencatat selisih atas jurnal tersebut diatas ke akun laba di tahan dan kepentingan nonpengendali ("KNP") masing-masing sebesar Rp17.904 dan Rp4.

PSAK 72: Pendapatan dari Kontrak dengan Pelanggan

PSAK 72 menggantikan PSAK 34: Kontrak Konstruksi, PSAK 23: Pendapatan dan Interpretasi terkait dan berlaku, dengan pengecualian terbatas, untuk semua pendapatan yang timbul dari kontrak dengan pelanggan. PSAK 72 menetapkan model lima langkah untuk memperhitungkan pendapatan yang timbul dari kontrak dengan pelanggan dan mensyaratkan bahwa pendapatan diakui pada jumlah yang mencerminkan imbalan yang diperkirakan menjadi hak entitas dalam pertukaran dengan barang atau jasa kepada pelanggan.

Model lima langkah analisis sebagai berikut:

- Step 1: Identifikasi kontrak dengan pelanggan.
- Step 2: Identifikasi kewajiban pelaksanaan dalam kontrak.
- Step 3: Menetapkan harga transaksi
- Step 4: Alokasi harga transaksi ke setiap kewajiban pelaksanaan.
- Step 5: Pengakuan pendapatan ketika kewajiban pelaksanaan telah dipenuhi

Impairment

The adoption of PSAK 71 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing PSAK 55's incurred loss approach with a forward-looking expected credit loss ("ECL") approach. PSAK 71 requires the Group to recognize an allowance for ECLs for all debt instruments not held at fair value through profit or loss and contract assets.

Upon adoption of PSAK 71 the Group did recognized additional impairment on the Group's trade receivables and due from related parties amounted to Rp23,878 and deferred tax assets amounted to Rp5,970 and charged differences from the above journal to retained earnings and non-controlling interest ("NCI") amounting to Rp17,904 and Rp4, respectively.

PSAK 72: Revenue from Contracts with Customers

PSAK 72 supersedes PSAK 34: Construction Contracts, PSAK 23: Revenue and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. PSAK 72 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The five-step model is as follows:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations.
- Step 5: Recognize revenue when (or as) each performance obligation is satisfied.

PSAK 72: Pendapatan dari Kontrak dengan  
Pelanggan (lanjutan)

PSAK 72 mengharuskan entitas untuk melakukan pertimbangan, dengan mempertimbangkan semua fakta dan keadaan yang relevan ketika menerapkan setiap langkah model untuk membuat kontrak dengan pelanggan mereka. Standar ini juga menetapkan akuntansi untuk biaya tambahan untuk memperoleh kontrak dan biaya yang terkait langsung dengan pemenuhan kontrak. Selain itu, standar tersebut membutuhkan pengungkapan yang ekstensif.

Kelompok Usaha telah menilai dan menyimpulkan bahwa dampak atas penerapan PSAK 72 tidak material terhadap laporan keuangan konsolidasian interim.

PSAK 73: Sewa

PSAK 73 menggantikan PSAK 30: Sewa, ISAK 8: Penentuan apakah suatu Perjanjian mengandung suatu Sewa, ISAK 23: Sewa Operasi-Insentif dan ISAK 24: Evaluasi Substansi Beberapa Transaksi yang Melibatkan Suatu Bentuk Legal Sewa. Standar tersebut menetapkan prinsip-prinsip untuk pengakuan, pengukuran, penyajian, dan pengungkapan sewa dan mengharuskan penyewa untuk mengakui sebagian besar sewa di laporan posisi keuangan.

Akuntansi *lessor* berdasarkan PSAK 73 secara substansial tidak berubah dari PSAK 30. *Lessor* akan terus mengklasifikasikan sewa sebagai sewa operasi atau keuangan dengan menggunakan prinsip yang sama seperti dalam PSAK 30. Oleh karena itu, PSAK 73 tidak berdampak pada sewa di mana Kelompok Usaha adalah *lessor*.

Kelompok Usaha menerapkan PSAK 73 menggunakan metode penerapan retrospektif yang dimodifikasi dengan tanggal penerapan awal 1 Januari 2020. Berdasarkan metode ini, standar diterapkan secara retrospektif dengan efek kumulatif dari penerapan awal standar yang diakui pada tanggal penerapan awal.

PSAK 72: Revenue from Contracts with  
Customers (continued)

PSAK 72 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group has assessed and concluded that the impact on the application of PSAK 72 is not material to the interim consolidated financial statements.

PSAK 73: Leases

PSAK 73 supersedes PSAK 30: Leases, ISAK 8: Determining whether an Arrangement contains a Lease, ISAK 23: Operating Leases-Incentives and ISAK 24: Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the statement of financial position.

Lessor accounting under PSAK 73 is substantially unchanged from PSAK 30. Lessors will continue to classify leases as either operating or finance leases using similar principles as in PSAK 30. Therefore, PSAK 73 did not have an impact for leases where the Group is the lessor.

The Group adopted PSAK 73 using the modified retrospective method of adoption with the date of initial application of January 1, 2020. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

PSAK 73: Sewa (lanjutan)

Kelompok Usaha memilih untuk menggunakan cara praktis transisi yang tersedia untuk tidak menilai kembali apakah suatu kontrak adalah, atau berisi sewa pada tanggal 1 Januari 2020. Sebaliknya, Kelompok Usaha menerapkan standar hanya untuk kontrak yang sebelumnya diidentifikasi sebagai sewa dalam penerapan PSAK 30 dan ISAK 8 pada tanggal penerapan awal.

Setelah penerapan PSAK 73, Kelompok Usaha menerapkan pendekatan pengakuan dan pengukuran tunggal untuk semua sewa kecuali untuk sewa jangka pendek dan sewa atas aset bernilai rendah. Lihat Catatan 2m Sewa untuk kebijakan akuntansi yang dimulai pada 1 Januari 2020. Standar ini mengatur persyaratan transisi khusus dan cara praktis yang tersedia, yang telah diterapkan oleh Kelompok Usaha.

Kelompok usaha menerapkan PSAK 73 menggunakan pendekatan retrospektif modifikasi.

Pada saat penerapan PSAK 73, untuk sewa yang sebelumnya diklasifikasikan sebagai sewa operasi pada tanggal 1 Januari 2020, Kelompok Usaha: (i) mengakui aset hak guna usaha, aset pajak tangguhan, liabilitas sewa, liabilitas jangka panjang lainnya dan selisih kurs masing-masing sebesar Rp86.752, Rp714, Rp81.882, Rp1.065 dan Rp22 (ii) mereklasifikasi dari biaya dibayar dimuka, biaya akrual dan akun aset tetap masing-masing sebesar Rp6.738, Rp1 dan Rp338 ke akun aset hak guna usaha, dan (iii) mencatat selisih atas jurnal tersebut diatas ke akun laba di tahan dan KNP masing-masing sebesar Rp2.195 dan Rp1.

PSAK 73: Leases (continued)

The Group elected to use the transition practical expedient to not reassess whether a contract is, or contains a lease at January 1, 2020. Instead, the Group applied the standard only to contracts that were previously identified as leases applying PSAK 30 and ISAK 8 at the date of initial application.

Upon adoption of PSAK 73, the Group applied a single recognition and measurement approach for all leases except for short-term leases and leases of low-value assets. Refer to Note 2m Leases for the accounting policy beginning January 1, 2020. The standard provides specific transition requirements and practical expedients, which have been applied by the Group.

The Group adopted PSAK 73 using modified retrospective approach.

On the adoption of PSAK 73, for leases that previously classified as operating lease as of January 1, 2020, the Group: (i) recognized rights of use assets, deferred tax assets, lease liabilities, other non-current liabilities and foreign exchange amounted to Rp86,752, Rp714, Rp81,882, Rp1,065 and Rp22, respectively, (ii) reclassify from prepaid expenses, accrued expense and fixed assets to rights of use assets amounted to Rp6,738, Rp1 and Rp338, respectively, and (iii) charged differences from the above journal to retained earnings and NCI amounting to Rp2,195 and Rp1, respectively.

Penyewa yang membuat pemilihan ini memperhitungkan setiap perubahan dalam pembayaran sewa yang dihasilkan dari konsesi sewa terkait Covid-19 dengan cara yang sama akan menjelaskan perubahan berdasarkan PSAK 73, jika perubahan tersebut bukan merupakan modifikasi sewa. Amandemen tersebut berlaku untuk periode pelaporan tahunan yang dimulai pada atau setelah 1 Juni 2020. Penerapan lebih dini diizinkan. Amendments to PSAK 73: Covid-19 Related  
Rent Concessions (continued)

As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification.

A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under PSAK 73, if the change were not a lease modification. The amendment applies to annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. This amendment had no impact on the interim consolidated financial statements of the Group.

Amendments to PSAK 1 and PSAK 25:  
Definition of Material

The amendments provide a new definition of material that states, "information is material if omitting, misstating, or obscuring, it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity".

These amendments clarify the definition of material with aim of harmonizing the definitions used in the conceptual framework and some relevant PSAKs. In addition, it also provides clearer guidance regarding the definition of material in the context of reducing over disclosure due to changes in the threshold of the material definition.

Pelunasan dengan Kompensasi Negatif

Berdasarkan PSAK 71, instrumen utang dapat diukur pada biaya perolehan diamortisasi atau pada nilai wajar melalui pendapatan komprehensif lain, asalkan arus kas kontraktual adalah hanya pembayaran pokok dan bunga dari jumlah pokok terutang (kriteria SPPI) dan instrumen tersebut diadakan dalam model bisnis yang sesuai untuk klasifikasi tersebut. Amandemen PSAK 71 mengklarifikasi bahwa aset keuangan memenuhi kriteria SPPI terlepas dari peristiwa atau keadaan yang menyebabkan penghentian kontrak lebih awal dan terlepas dari pihak mana yang membayar atau menerima kompensasi yang wajar untuk penghentian kontrak lebih awal. Amandemen ini tidak berdampak pada laporan keuangan interim Kelompok Usaha.

**b. Prinsip-prinsip Konsolidasian**

Laporan keuangan konsolidasian meliputi laporan keuangan Perusahaan dan entitas anaknya seperti disebutkan pada Catatan 1d.

Pengendalian diperoleh ketika Kelompok Usaha terekspos, atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan *investee* dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas *investee*.

Dengan demikian, Kelompok Usaha mengendalikan *investee* jika, dan hanya jika, Kelompok Usaha memiliki seluruh hal berikut ini:

- a. Kekuasaan atas *investee*, yaitu hak yang ada saat ini yang memberi investor kemampuan kini untuk mengarahkan aktivitas relevan dari *investee*;
- b. Eksposur atau hak atas imbal hasil variabel dari keterlibatan Kelompok Usaha dengan *investee*; dan

Amendments to PSAK 71: Prepayment  
Features with Negative Compensation

Under PSAK 71, a debt instrument can be measured at amortized cost or at fair value through other comprehensive income, provided that the contractual cash flows are solely payments of principal and interest on the principal amount outstanding (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PSAK 71 clarify that a financial asset passes the SPPI criterion regardless of an event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. These amendments had no impact on the interim financial statements of the Group.

**b. Principles of Consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as described in Note 1d.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has all of the following:

- a. Power over the investee that is existing rights that give the Group current ability to direct the relevant activities of the investee;
- b. Exposure, or rights, to variable return from its involvement with the investee; and
- c. The ability to use its power over the investee to affect the Group's returns.

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Umumnya, ada dugaan bahwa mayoritas hak suara menghasikan kontrol. Untuk mendukung anggapan ini dan bila Kelompok Usaha memiliki kurang dari mayoritas hak suara atau hak serupa dari *investee*, Kelompok Usaha mempertimbangkan semua fakta dan keadaan yang relevan dalam menilai apakah ia memiliki kuasa atas *investee*, termasuk:

- a. pengaturan kontraktual dengan pemegang hak suara lainnya dari *investee*;
- b. hak-hak yang timbul dari pengaturan kontraktual lain; dan
- c. hak suara yang dimiliki Kelompok Usaha dan hak suara potensial.

Kelompok Usaha menilai kembali apakah mengendalikan *investee* jika fakta dan keadaan mengindikasikan bahwa terdapat perubahan dalam satu atau lebih dari tiga elemen pengendalian. Konsolidasi atas entitas anak dimulai sejak tanggal Kelompok Usaha memperoleh pengendalian atas entitas anak dan berakhir ketika Kelompok Usaha kehilangan pengendalian atas entitas anak. Aset, liabilitas, penghasilan dan beban anak perusahaan yang diakuisisi selama periode berjalan termasuk dalam laporan keuangan konsolidasian sejak tanggal Kelompok Usaha memperoleh kendali sampai dengan tanggal Kelompok Usaha tidak lagi mengendalikan anak perusahaan.

Laba rugi dan setiap komponen dari penghasilan komprehensif lain ("OCI") diatribusikan kepada pemilik entitas induk dari Kelompok Usaha dan kepentingan nonpengendali ("KNP"), meskipun hal tersebut mengakibatkan KNP memiliki saldo defisit. Bila dipandang perlu, penyesuaian dilakukan terhadap laporan keuangan entitas anak untuk diselaraskan dengan kebijakan akuntansi Kelompok Usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lain dalam keadaan yang serupa. Jika anggota Kelompok Usaha menggunakan kebijakan akuntansi yang berbeda untuk transaksi dan peristiwa dalam keadaan yang serupa, maka penyesuaian dilakukan atas laporan keuangannya dalam penyusunan laporan keuangan konsolidasian.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**b. Principles of Consolidation (continued)**

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting, or similar, rights of an *investee*, it considers all relevant facts and circumstances in assessing whether it has power over an *investee*, including:

- a. the contractual arrangement(s) with the other vote holders of the *investee*;
- b. rights arising from other contractual arrangements; and
- c. the Group's voting rights and potential voting rights.

The Group reassesses whether it controls an *investee* if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interest ("NCI"), even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses different accounting policies for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in preparing the consolidated financial statements.

(lanjutan)**

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Seluruh saldo dan transaksi antar perusahaan yang signifikan, termasuk laba atau rugi yang belum direalisasi, jika ada, dieliminasi untuk mencerminkan posisi keuangan dan hasil operasi Kelompok Usaha sebagai satu kesatuan usaha.

Entitas-entitas anak dikonsolidasi secara penuh sejak tanggal akuisisi, yaitu tanggal Perusahaan memperoleh pengendalian, sampai dengan tanggal entitas induk kehilangan pengendalian. Pengendalian dianggap ada ketika Perusahaan memiliki secara langsung atau tidak langsung melalui entitas anak, lebih dari setengah kekuasaan suara entitas.

Perubahan dalam bagian kepemilikan Kelompok Usaha pada suatu entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Bila kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha menghentikan pengakuan atas aset (termasuk *goodwill*), liabilitas, kepentingan nonpengendali ("KNP") dan komponen lain dari ekuitas terkait, dan selisihnya diakui pada laba rugi. Bagian dari investasi yang tersisa diakui pada nilai wajar.

Jika kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha:

- menghentikan pengakuan aset (termasuk setiap *goodwill*) dan liabilitas entitas anak Perusahaan;
- menghentikan pengakuan jumlah tercatat setiap KNP;
- menghentikan pengakuan akumulasi selisih penjabaran yang dicatat di ekuitas, bila ada;
- mengakui nilai wajar pembayaran yang diterima;
- mengakui setiap sisa investasi pada nilai wajarnya;
- mengakui setiap perbedaan yang dihasilkan sebagai keuntungan atau kerugian dalam laba rugi; dan
- mereklasifikasi bagian induk atas komponen yang sebelumnya diakui sebagai pendapatan komprehensif lainnya ke laba rugi, atau mengalihkan secara langsung ke saldo laba, sebagaimana mestinya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**b. Principles of Consolidation (continued)**

*All material intercompany account balances and transactions, including any unrealized profit or loss, have been eliminated to reflect the financial position and results of operations of the Group as a single business entity.*

*Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtained control until the date of such control ceases. Control is presumed to exist if the Company owns directly or indirectly through subsidiaries more than half of the voting power of an entity.*

*Changes in the Group's ownership interest in a subsidiary that do not result in loss of control are accounted for as equity transactions. If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest ("NCI") and other components of equity, while the difference is recognized in the profit or loss. Any investment retained is recognized at fair value.*

*If it loses control over a subsidiary, the Group:*

- *derecognizes the assets (including goodwill) and liabilities of the subsidiary;*
- *derecognizes the carrying amount of any NCI;*
- *derecognizes the cumulative translation differences recorded in equity, if any;*
- *recognizes the fair value of the consideration received;*
- *recognizes the fair value of any investment retained;*
- *recognizes any surplus or deficit in profit or loss; and*
- *reclassifies the parent's share of components previously recognized as other comprehensive income to profit or loss or retained earnings, as appropriate.*

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

KNP mencerminkan bagian atas laba atau rugi dan aset neto dari entitas anak yang tidak dapat diatribusikan secara langsung maupun tidak langsung oleh Perusahaan, yang masing-masing disajikan dalam laporan laba rugi komprehensif konsolidasian dan dalam ekuitas pada laporan posisi keuangan konsolidasian, terpisah dari bagian yang dapat diatribusikan kepada pemilik entitas induk.

Untuk tujuan konsolidasi, laporan keuangan entitas anak yang mata uang fungsionalnya adalah selain Rupiah dijabarkan ke dalam Rupiah dengan menggunakan:

**Akun/Accounts**

Aset dan liabilitas/  
Assets and liabilities

Pendapatan dan beban/  
Revenues and expenses

**Kurs/Exchange Rate**

Kurs rata-rata pembelian dan penjualan Bank Indonesia pada akhir periode pelaporan/  
Average buying and selling exchange rate of Bank Indonesia at end of reporting period

Rata-rata tertimbang dari kurs tengah Bank Indonesia selama periode dalam laporan laba rugi dan penghasilan komprehensif lain/ Weighted-average middle rate of Bank Indonesia during the period of statement of profit or loss and other comprehensive income

**c. Kombinasi Bisnis**

Kombinasi bisnis dicatat dengan menggunakan metode akuisisi. Biaya perolehan dari sebuah akuisisi disajikan pada nilai agregat imbalan yang dialihkan, disajikan pada nilai wajar pada tanggal akuisisi, dan jumlah setiap KNP pada pihak yang diakuisisi. Untuk setiap kombinasi bisnis, pihak pengakuisisi mengukur KNP pada entitas yang diakuisisi baik pada nilai wajar ataupun pada proporsi kepemilikan KNP atas aset neto yang teridentifikasi dari entitas yang diakuisisi. Biaya-biaya akuisisi yang timbul dibebankan langsung dan disertakan dalam beban administrasi.

Ketika melakukan akuisisi atas sebuah bisnis, Kelompok Usaha mengklasifikasikan dan menentukan aset keuangan yang diperoleh dan liabilitas keuangan yang diambil alih berdasarkan pada persyaratan kontraktual, kondisi ekonomi dan kondisi terkait lain yang ada pada tanggal akuisisi.

**b. Principles of Consolidation (continued)**

NCI reflects the portion of the profit or loss and net assets of the subsidiaries that is not directly or indirectly attributable to the Company, which are presented in the consolidated statements of comprehensive income and under the equity section of the consolidated statement of financial position, respectively, separately from the portion attributable to owners of the parent entity.

For consolidation purposes, the financial statements of subsidiaries with functional currencies other than Rupiah are translated into Rupiah using the following:

**c. Business Combination**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition-date fair value, and the amount of any NCI in the acquiree. For each business combination, the acquirer measures the NCI in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Transaction costs incurred are directly expensed and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

**c. Kombinasi Bisnis (lanjutan)**

Jika proses akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, maka Kelompok Usaha melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangan konsolidasiannya. Selama periode pengukuran, Kelompok Usaha menyesuaikan secara retrospektif jumlah sementara yang diakui pada tanggal akuisisi untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, telah berdampak pada pengukuran jumlah yang diakui pada tanggal tersebut.

Periode pengukuran berakhir segera setelah Kelompok Usaha menerima informasi yang dicari tentang fakta dan keadaan yang ada pada tanggal akuisisi atau mempelajari bahwa informasi lebih tidak dapat diperoleh. Namun demikian, periode pengukuran tidak boleh melebihi satu tahun dari tanggal akuisisi.

Dalam suatu kombinasi bisnis yang dilakukan secara bertahap, pihak pengakuisisi mengukur kembali kepentingan ekuitas yang dimiliki sebelumnya pada pihak yang diakuisisi pada nilai wajar tanggal akuisisi dan mengakui keuntungan atau kerugian yang dihasilkan dalam laba rugi.

Imbalan kontinjensi yang akan dialihkan oleh pihak pengakuisisi akan diakui pada nilai wajar pada tanggal akuisisi. Imbalan kontinjensi yang diklasifikasikan sebagai ekuitas tidak diukur kembali dan penyelesaian selanjutnya adalah diperhitungkan dalam ekuitas. Imbalan kontinjensi yang diklasifikasikan sebagai aset atau liabilitas yaitu instrumen keuangan dan dalam lingkup PSAK 55: "Instrumen Keuangan: Pengakuan dan Pengukuran", diukur pada nilai wajar dengan perubahan nilai wajar yang diakui dalam laba rugi sesuai dengan PSAK 55. Imbalan kontinjensi lain yang tidak termasuk dalam PSAK 55 diukur sebesar nilai wajar pada setiap tanggal pelaporan dengan perubahan nilai wajar yang diakui pada laba rugi.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**c. Business Combination (continued)**

*When the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, the Group shall retrospectively adjust the provisional amounts recognised at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date.*

*The measurement period ends as soon as the Group receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.*

*If the business combination is carried out in stages, the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.*

*Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as equity is not re-measured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PSAK 55: "Financial Instruments: Recognition and Measurement", is measured at fair value with the changes in fair value recognized in the statement of profit or loss in accordance with PSAK 55. Other contingent consideration that is not within the scope of PSAK 55 is measured at fair value at each reporting date with changes in fair value recognized in profit or loss.*

**c. Kombinasi Bisnis (lanjutan)**

*Goodwill* awalnya diukur dengan biaya perolehan yang merupakan selisih lebih nilai agregat dari pertimbangan yang ditransfer dan jumlah yang diakui untuk KNP dan kepentingan sebelumnya yang dimiliki atas identifikasi aset yang diperoleh dan liabilitas yang dapat diasumsikan. Jika nilai wajar aset bersih yang diperoleh melebihi pertimbangan agregat yang ditransfer, Kelompok Usaha akan menilai ulang apakah telah mengidentifikasi dengan benar semua aset yang diperoleh dan semua liabilitas diasumsikan dan menelaah prosedur yang digunakan untuk mengukur jumlah yang akan diakui pada tanggal akuisisi. Jika penilaian kembali tersebut masih menghasilkan selisih antara nilai wajar aktiva bersih yang diperoleh dengan pertimbangan agregat yang ditransfer, maka keuntungan tersebut diakui dalam laba rugi.

Setelah pengakuan awal, *goodwill* diukur pada jumlah tercatat dikurangi akumulasi kerugian penurunan nilai. Untuk tujuan pengujian penurunan nilai, *goodwill* yang diperoleh dari suatu kombinasi bisnis, sejak tanggal akuisisi dialokasikan kepada setiap Unit Penghasil Kas ("UPK") dari Kelompok Usaha yang diharapkan akan bermanfaat dari sinergi kombinasi tersebut, terlepas dari apakah aset atau liabilitas lain dari pihak yang diakuisisi ditetapkan atas UPK tersebut.

Jika *goodwill* telah dialokasikan pada suatu UPK dan operasi tertentu atas UPK tersebut dihentikan, maka *goodwill* yang diasosiasikan dengan operasi yang dihentikan tersebut termasuk dalam jumlah tercatat operasi tersebut ketika menentukan keuntungan atau kerugian dari pelepasan. *Goodwill* yang dilepaskan tersebut diukur berdasarkan nilai relatif operasi yang dihentikan terhadap bagian dari dan porsi UPK yang ditahan.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**c. Business Combination (continued)**

*Goodwill* is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI and any previous interest held over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, *goodwill* is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, *goodwill* acquired in a business combination is, from the acquisition date, allocated to each of the Group's Cash-Generating Units ("CGU") that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those CGUs.

Where *goodwill* has been allocated to a CGU and part of the operation within that CGU is disposed of, the *goodwill* associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. *Goodwill* disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

**I. Aset Tetap (lanjutan)**

Setelah pengakuan awal, aset tetap, kecuali tanah, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomis sebagai berikut:

	<b>Tahun/Year</b>
Prasarana tanah dan bangunan	5 - 20
Bangunan	10 - 20
Mesin dan peralatan	5 - 20
Peralatan transportasi	2 - 10
Peralatan dan perabotan kantor	5
Instalasi listrik dan air	5 - 10
Peralatan laboratorium	5

Jumlah tercatat komponen dari suatu aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat sudah tidak ada lagi manfaat ekonomis masa depan yang diekspektasikan dari penggunaan maupun pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset tersebut (ditentukan sebesar selisih antara jumlah hasil pelepasan neto dan jumlah tercatatnya) dimasukkan ke dalam laba rugi untuk tahun penghentian pengakuan tersebut dilakukan.

Nilai residu, umur manfaat dan metode penyusutan aset dievaluasi setiap akhir tahun dan disesuaikan secara prospektif, jika diperlukan.

Kelompok Usaha memilih untuk menggunakan model revaluasi atas tanah karena Kelompok Usaha meyakini bahwa model revaluasi lebih mencerminkan nilai dari tanah tersebut.

Setelah pengakuan awal, Kelompok Usaha menggunakan model revaluasi dimana tanah diukur pada nilai wajar pada tanggal revaluasi dikurangi akumulasi rugi penurunan nilai berikutnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**I. Fixed Assets (continued)**

Subsequent to initial recognition, fixed assets, except for land, are carried at cost less any accumulated depreciation and impairment losses.

Depreciation of fixed assets starts when it is available for use and is computed using the straight-line method based on the estimated useful life of the assets as follows:

	<b>Tahun/Year</b>
Land and building improvements	5 - 20
Buildings	10 - 20
Machinery and equipment	5 - 20
Transportation equipment	2 - 10
Furniture, fixtures and office equipment	5
Electrical and water installation	5 - 10
Laboratory equipment	5

The carrying amount of an item of fixed asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is directly included in the profit or loss for the year in which the item is derecognized.

The assets' residual values, useful lives and depreciation method are reviewed at each year end and adjusted prospectively, if necessary.

The Group uses revaluation method for its land since the Group believes that revaluation model provides more relevant value of the land.

After initial recognition, the Group uses the revaluation model, whereby land is measured at fair value at the date of the revaluation less any subsequent accumulated impairment losses.

**I. Aset Tetap (lanjutan)**

Surplus revaluasi terakumulasi dalam ekuitas pada bagian komponen ekuitas lainnya. Namun, kenaikan tersebut diakui dalam laba rugi hingga sebesar jumlah penurunan nilai aset yang sama akibat revaluasi yang pernah diakui sebelumnya dalam laba rugi. Defisit revaluasi diakui dalam laba rugi. Namun penurunan nilai tersebut diakui dalam surplus revaluasi aset tetap sepanjang tidak melebihi saldo surplus revaluasi untuk aset tersebut.

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Bangunan ("HGB") yang dikeluarkan ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi. Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah ditangguhkan dan diamortisasi yang lebih pendek antara umur hukum hak atas tanah dan umur ekonomi tanah, dan disajikan sebagai aset tak berwujud pada laporan posisi keuangan konsolidasian.

Aset tetap dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai dikerjakan dan siap untuk digunakan. Aset tetap dalam penyelesaian tidak disusutkan karena sampai memenuhi syarat pengakuan sebagai aset tetap seperti diungkapkan di atas.

Beban pemeliharaan dan perbaikan dibebankan pada laba rugi pada saat terjadinya. Beban pemugaran dan penambahan dalam jumlah besar dikapitalisasi kepada jumlah tercatat aset tetap terkait bila besar kemungkinan bagi Kelompok Usaha manfaat ekonomi masa depan menjadi lebih besar dari standar kinerja awal yang ditetapkan sebelumnya dan disusutkan sepanjang sisa masa manfaat aset tetap terkait.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**I. Fixed Assets (continued)**

*A revaluation surplus is accumulated in equity under other equity components. However, the increase is recognized in profit and loss to the extent that it reverses a revaluation deficit of the same asset previously recognized in profit or loss. A revaluation deficit is recognized in profit or loss. However, the decrease shall be recognized in the revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.*

*Legal cost of land rights in the form of Building Usage Rights ("HGB") incurred when the land was acquired initially are recognized as part of the cost of the land under "Fixed Assets" account and not amortized. The extension or the legal renewal costs of land rights were deferred and amortised over the shorter between the land rights' legal life and the economic life of the land and presented as intangible assets in the consolidated statement of financial position.*

*Constructions in progress are stated at cost, including capitalized borrowing costs and other charges incurred in connection with the financing of said assets. The accumulated costs will be reclassified to the appropriate "Fixed Assets" account when the construction is completed and ready for use. Assets under construction are not depreciated until they fulfill criteria for recognition as fixed assets as disclosed above.*

*Repairs and maintenance are taken to the profit or loss when incurred. The cost of major renovation and restoration is included in the carrying amount of the related fixed assets when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group, and is depreciated over the remaining useful life of the related asset.*

PENTING (lanjutan)**

**m. Sewa**

**Efektif pada atau Setelah 1 Januari 2020**

Kelompok Usaha menentukan pada permulaan kontrak apakah suatu kontrak adalah sewa, atau mengandung sewa, dengan menilai apakah kontrak mengalihkan hak untuk mengendalikan penggunaan suatu aset teridentifikasi untuk suatu jangka waktu yang ditukar dengan pembayaran.

**Aset hak guna**

Kelompok Usaha mengakui aset hak guna pada tanggal dimulainya sewa (tanggal aset dasar tersedia untuk digunakan). Aset hak guna diukur pada biaya perolehan, dikurangi akumulasi penyusutan dan rugi penurunan nilai, dan disesuaikan untuk setiap pengukuran kembali liabilitas sewa. Biaya aset hak guna termasuk jumlah liabilitas sewa yang diakui, biaya langsung awal yang dikeluarkan, dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai dikurangi insentif sewa yang diterima.

**Liabilitas Sewa - sebagai lessee**

Pada tanggal permulaan sewa, Kelompok Usaha mengakui liabilitas sewa diukur dari nilai sekarang dari pembayaran sewa yang akan dilakukan selama periode sewa. Pembayaran sewa meliputi pembayaran tetap (meliputi substansi pembayaran tetap) dikurangi suatu piutang insentif sewa, pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar atas garansi nilai residu.

Dalam menghitung nilai sekarang dari pembayaran sewa, Kelompok Usaha menggunakan suku bunga pinjaman inkremental pada saat tanggal permulaan sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan dengan mudah. Setelah tanggal permulaan, jumlah liabilitas sewa ditingkatkan untuk merefleksikan pertambahan bunga dan dikurangi untuk pembayaran sewa yang dilakukan. Sebagai tambahan, nilai tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan masa sewa, perubahan pembayaran sewa (misalnya, perubahan pembayaran sewa masa depan sebagai akibat dari perubahan indeks atau suku bunga yang digunakan untuk menentukan pembayaran sewa) atau perubahan dalam penilaian opsi untuk membeli aset mendasar tersebut.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**m. Leases**

**Effective on or After January 1, 2020**

The Group determines at contract inception whether a contract is, or contains, a lease by assessing whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**Right of use assets**

The Group recognises right of use assets at the commencement date of the lease (the date the underlying asset is available for use). Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

**Lease Liabilities - as lessee**

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of the lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments (for example, change in the future lease payments as a result of changes in the index or interest rate used to determine those payments) or a change in the assessment of an option to purchase the underlying asset.

PENTING (lanjutan)**

**m. Sewa (lanjutan)**

**Efektif pada atau Setelah 1 Januari 2020  
(lanjutan)**

**Sewa Jangka Pendek dan Sewa atas Aset  
Bernilai Rendah**

Kelompok Usaha menerapkan pengecualian pengakuan sewa jangka pendek untuk sewa jangka pendek (yaitu, sewa yang memiliki jangka waktu sewa 12 bulan atau kurang dari tanggal penerapan awal dan tidak mengandung opsi pembelian). Ini juga berlaku untuk pengecualian pengakuan aset bernilai rendah. Pembayaran sewa untuk sewa jangka pendek dan sewa untuk aset bernilai rendah diakui sebagai beban dengan dasar garis lurus selama masa sewa.

**Efektif Sebelum 1 Januari 2020**

Penentuan apakah suatu perjanjian merupakan, atau mengandung, sewa, adalah berdasarkan substansi dari perjanjian tersebut pada penetapan awal. Perjanjian dievaluasi apakah pemenuhannya tergantung kepada penggunaan aset atau aset-aset tertentu secara spesifik atau perjanjian mengalihkan hak untuk menggunakan aset atau aset-aset, walaupun hak tersebut tidak secara eksplisit disebutkan dalam perjanjian.

**Sewa Operasi - sebagai lessee**

Suatu sewa diklasifikasikan sebagai sewa operasi jika sewa tidak mengalihkan secara substansi seluruh risiko dan manfaat yang terkait dengan kepemilikan aset. Dengan demikian, pembayaran sewa diakui pada laba atau rugi dengan dasar garis lurus (*straight-line basis*) selama masa sewa.

**n. Penurunan Nilai Aset Non-keuangan**

Pada setiap akhir periode pelaporan, Kelompok Usaha menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian tahunan penurunan nilai aset (yaitu aset takberwujud dengan umur manfaat tidak terbatas, aset takberwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis) diperlukan, maka Kelompok Usaha membuat estimasi formal jumlah terpulihkan aset tersebut.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**m. Leases (continued)**

**Effective on or After January 1, 2020  
(continued)**

**Short-term Leases and Leases of Low-value  
Assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the leases of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on the straight-line basis over the lease term.

**Effective Before January 1, 2020**

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date. The arrangement is assessed for whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

**Operating Lease - as lessee**

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of the leased asset. Accordingly, the related lease payments are recognized in profit or loss on a straight-line basis over the lease term.

**n. Impairment of Non-financial Assets**

The Group will assess at each annual reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset (i.e., an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination) is required, the Group makes a formal estimate of the asset's recoverable amount.

**n. Penurunan Nilai Aset Non-keuangan  
(lanjutan)**

Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau UPK dikurangi biaya untuk menjual dengan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain. Jika nilai tercatat aset atau UPK lebih besar daripada jumlah terpulihkannya, maka aset tersebut dipertimbangkan mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar jumlah terpulihkannya.

Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset. Dalam menentukan nilai wajar dikurangi biaya untuk menjual, digunakan harga penawaran pasar terakhir, jika tersedia. Jika tidak terdapat transaksi tersebut, Kelompok Usaha menggunakan model penilaian yang sesuai untuk menentukan nilai wajar aset. Perhitungan-perhitungan ini dikuatkan oleh pengali penilaian atau indikator nilai wajar yang tersedia.

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laba rugi sesuai dengan kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

Penilaian dilakukan pada akhir setiap periode pelaporan tahunan untuk menentukan apakah terdapat indikasi bahwa rugi penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset atau UPK tersebut. Kerugian penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* dibalik hanya jika terdapat perubahan asumsi-asumsi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui.

Pembalikan tersebut dibatasi sehingga jumlah tercatat aset tidak melebihi jumlah terpulihkannya maupun jumlah tercatat, neto setelah penyusutan, seandainya tidak ada rugi penurunan nilai yang telah diakui untuk aset tersebut pada tahun sebelumnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**n. Impairment of Non-financial Assets  
(continued)**

*An asset's recoverable amount is the higher of the asset's or CGU's fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.*

*In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if information on such is available. If no such transactions can be identified, the Group uses an appropriate valuation model to determine the fair value of the assets. These calculations are corroborated by valuation multiples or other available fair value indicators.*

*Impairment losses of continuing operations, if any, are recognized in profit or loss under expense categories that are consistent with the functions of the impaired assets.*

*An assessment is made at each annual reporting period as to whether there is any indication that previously recognized impairment losses recognized for an asset other than goodwill may no longer exist or may have decreased. If such indication exists, the Group estimates asset's or CGU's recoverable amount. A previously recognized impairment loss for an asset other than goodwill is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized.*

*The reversal is limited, so that the carrying amount of the assets does not exceed its recoverable amount or the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.*

**n. Penurunan Nilai Aset Non-  
keuangan (lanjutan)**

Pembalikan rugi penurunan nilai diakui dalam laba rugi. Setelah pembalikan tersebut, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan jumlah tercatat aset yang direvisi, dikurangi nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

*Goodwill* diuji untuk penurunan nilai setiap tahun (pada tanggal 31 Desember) dan ketika terdapat suatu indikasi bahwa nilai tercatatnya mengalami penurunan nilai. Penurunan nilai bagi *goodwill* ditetapkan dengan menentukan jumlah terpulihkan tiap UPK (atau kelompok UPK) dimana *goodwill* terkait. Jika jumlah terpulihkan UPK kurang dari jumlah tercatatnya, rugi penurunan nilai diakui. Rugi penurunan nilai terkait *goodwill* tidak dapat dibalik pada periode berikutnya.

Manajemen berpendapat bahwa tidak ada indikasi penurunan nilai pada aset tetap, properti investasi dan aset non-keuangan tidak lancar lainnya yang disajikan dalam laporan posisi keuangan konsolidasian pada tanggal 31 Oktober 2020.

**Efektif Sebelum 1 Januari 2020**

Investasi pada saham dengan persentase kepemilikan kurang dari 20% dicatat sebesar biaya perolehan dan disajikan sebagai bagian dari akun "Aset Tidak Lancar Lainnya".

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**n. Impairment of Non-financial Assets  
(continued)**

Reversal of an impairment loss is recognized in profit or loss. After such a reversal, the depreciation charge on said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

*Goodwill* is tested for impairment annually (as of December 31) and when circumstances indicate that the carrying value may be impaired. Impairment is determined for *goodwill* by assessing the recoverable amount of each CGU (or group of CGUs) to which the *goodwill* relates. Where the recoverable amount of the CGU is less than the carrying amount, an impairment loss is recognized. Impairment losses relating to *goodwill* cannot be reversed in future periods.

Management believes that there is no indication of impairment in values for fixed assets, investment properties and other non-current non-financial assets presented in the consolidated statement of financial position as of October 31, 2020.

**p. Revenue and Expense Recognition**

**Efektif pada atau Setelah 1 Januari 2020**

**Effective on or After January 1, 2020**

Pada tanggal 1 Januari 2020, Kelompok Usaha menerapkan PSAK 72: Pendapatan dari Kontrak dengan Pelanggan, yang mensyaratkan pengakuan pendapatan untuk memenuhi 5 (lima) langkah analisis sebagai berikut:

On January 1, 2020, the Group implements PSAK 72: Revenue from Contracts with Customers, which requires revenue recognition to fulfill 5 (five) steps of assessment as follows:

1. Identifikasi kontrak dengan pelanggan.
2. Identifikasi kewajiban pelaksanaan dalam kontrak. Kewajiban pelaksanaan merupakan janji-janji dalam kontrak untuk menyerahkan barang atau jasa yang memiliki karakteristik berbeda ke pelanggan.
3. Menetapkan harga transaksi, setelah dikurangi diskon, retur, insentif penjualan dan pajak pertambahan nilai, yang berhak diperoleh suatu entitas sebagai kompensasi atas diteruskannya barang atau jasa yang dijanjikan di kontrak.
4. Alokasi harga transaksi ke setiap kewajiban pelaksanaan dengan menggunakan dasar harga jual berdiri sendiri relatif dari setiap barang atau jasa berbeda yang dijanjikan di kontrak. Ketika tidak dapat diamati secara langsung, harga jual berdiri sendiri relatif diperkirakan berdasarkan biaya yang diharapkan ditambah margin.
5. Pengakuan pendapatan ketika kewajiban pelaksanaan telah dipenuhi dengan menyerahkan barang atau jasa yang dijanjikan ke pelanggan (ketika pelanggan telah memiliki kendali atas barang atau jasa tersebut).

1. Identify contract(s) with a customer.
2. Identify the performance obligations in the contract. Performance obligations are promises in a contract to transfer to a customer goods or services that are distinct.
3. Determine the transaction price, net of discounts, returns, sales incentives and value added tax, which an entity expects to be entitled in exchange for transferring the promised goods or services to a customer.
4. Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods or services promised in the contract. When these are not directly observable, the relative standalone selling price are estimated based on expected cost plus margin.
5. Recognise revenue when performance obligation is satisfied by transferring a promised goods or services to a customer (which is when the customer obtains control of those goods or services).

Pendapatan diakui ketika Kelompok Usaha memenuhi kewajiban pelaksanaan dengan mengalihkan barang atau jasa yang dijanjikan kepada pelanggan, yaitu ketika pelanggan memperoleh pengendalian atas barang atau jasa tersebut. Kewajiban pelaksanaan dapat dipenuhi pada waktu tertentu. Jumlah pendapatan yang diakui adalah jumlah yang dialokasikan untuk kewajiban pelaksanaan yang dipenuhi.

Revenue is recognized when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

**Beban**

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh oleh Kelompok Usaha dan jumlahnya dapat diukur secara andal tanpa memperhitungkan kapan pembayaran dilakukan. Pendapatan diukur pada nilai wajar pembayaran yang diterima, tidak termasuk diskon, rabat dan PPN. Kelompok Usaha menilai pengaturan pendapatannya terhadap kriteria tertentu untuk menentukan apakah ia bertindak sebagai prinsipal atau agen. Kelompok Usaha telah menyimpulkan bahwa ini bertindak sebagai prinsipal dalam semua pengaturan pendapatannya.

Kriteria spesifik berikut juga harus dipenuhi sebelum pendapatan diakui:

**Penjualan Barang**

Pendapatan dari penjualan yang timbul dari pengiriman fisik produk-produk Kelompok Usaha diakui bila risiko dan manfaat yang signifikan telah dipindahkan kepada pembeli, yang pada umumnya bersamaan waktunya dengan pengiriman dan penerimaannya.

**Pendapatan dan Beban Bunga**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING

**p. Revenue and Expense Recognition  
(continued)**

**Effective Before January 1, 2020**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, rebates and VAT. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in all of its revenue arrangement.

The following specific recognition criteria must also be met before revenue is recognized:

**Sale of Goods**

Revenue from sales arising from physical delivery of the Group's products are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with their delivery and acceptance.

**Interest Income and Expense**

For all financial instruments measured at amortised cost, interest income or expense is recorded using the Effective Interest Rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

**Expense**

Expenses are recognized when incurred (accrual basis).

**q. Employee Benefits**

The cost of providing benefits under the defined benefits plan is determined using the *Projected Unit Credit* method.

Klasifikasi aset keuangan pada pengakuan awal tergantung pada karakteristik arus kas kontraktual aset keuangan dan model bisnis Kelompok Usaha untuk mengelolanya. Dengan pengecualian piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau yang mana Kelompok Usaha telah menerapkan kebijaksanaan praktisnya, Kelompok Usaha pada awalnya mengukur aset keuangan pada nilai wajarnya ditambah biaya transaksi.

Piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau yang mana Kelompok Usaha telah menerapkan kebijaksanaan praktis diukur pada harga transaksi yang ditentukan berdasarkan PSAK 72.

Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PSAK 72.

Agar aset keuangan diklasifikasikan dan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui OCI, aset keuangan harus menghasilkan arus kas yang mewakili SPPI dari jumlah pokok terutang. Penilaian ini disebut sebagai tes SPPI dan dilakukan pada tingkat instrumen.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are represent SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Model bisnis Kelompok Usaha untuk mengelola aset keuangan mengacu pada bagaimana Kelompok Usaha mengelola aset keuangannya untuk menghasilkan arus kas. Model bisnis menentukan apakah arus kas akan dihasilkan dari pengumpulan arus kas kontraktual, penjualan aset keuangan, atau keduanya.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam jangka waktu yang ditetapkan oleh regulasi atau konvensi di pasar (perdagangan reguler) diakui pada tanggal perdagangan, yaitu tanggal Kelompok Usaha berkomitmen untuk membeli atau menjual aset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

- Aset keuangan pada nilai wajar melalui laba rugi

**Aset keuangan pada biaya perolehan diamortisasi (instrumen utang)**

Kategori ini adalah yang paling relevan dengan Kelompok Usaha. Kelompok Usaha mengukur aset keuangan yang diukur dengan biaya perolehan diamortisasi jika kedua kondisi berikut terpenuhi:

- Aset keuangan dimiliki dalam model bisnis dengan tujuan untuk memiliki aset keuangan untuk mengumpulkan arus kas kontraktual;
- Persyaratan kontraktual dari aset keuangan menimbulkan arus kas pada tanggal tertentu yang hanya merupakan pembayaran pokok dan bunga dari jumlah pokok terutang.

Aset keuangan yang diukur dengan biaya perolehan diamortisasi selanjutnya diukur dengan menggunakan metode suku bunga efektif ("SBE") dan mengalami penurunan nilai. Keuntungan dan kerugian diakui dalam laporan laba rugi konsolidasian pada saat aset dihentikan pengakuannya, dimodifikasi atau rusak.

Aset keuangan Kelompok Usaha pada biaya perolehan diamortisasi termasuk piutang usaha, piutang lain-lain - pihak ketiga dan piutang pihak berelasi non-usaha.

- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

**Financial assets at amortized cost (debt instruments)**

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognized in consolidated profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes trade receivables, other receivables - third parties and due from related parties.

Klasifikasi ditentukan berdasarkan instrumen per instrumen.

Keuntungan dan kerugian dari aset keuangan ini tidak pernah didaur ulang ke dalam laba rugi. Dividen diakui sebagai pendapatan lain-lain pada laporan laba rugi ketika pembayaran telah ditetapkan, kecuali jika Kelompok Usaha mendapatkan keuntungan dari pembayaran tersebut sebagai pemulihan dari bagian biaya investasi. Instrumen ekuitas yang ditetapkan pada nilai wajar melalui OCI tidak tunduk pada penilaian penurunan nilai.

The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such payments as a recovery of part cost of investment. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated financial statement of financial position) when:

- Kelompok Usaha telah mengalihkan haknya untuk menerima arus kas dari aset atau telah mengasumsikan kewajiban untuk membayar arus kas yang diterima secara penuh tanpa penundaan material kepada pihak ketiga berdasarkan pengaturan 'pass-through'; dan salah satu (a) Kelompok Usaha telah mengalihkan secara substansial semua risiko dan manfaat aset, atau (b) Kelompok Usaha tidak mengalihkan atau memiliki secara substansial seluruh risiko dan manfaat aset, tetapi telah mengalihkan pengendalian aset.

Ketika Kelompok Usaha telah mengalihkan haknya untuk menerima arus kas dari aset atau telah menandatangani perjanjian *pass-through*, Kelompok Usaha mengevaluasi apakah, dan sejauh mana, telah mempertahankan risiko dan manfaat kepemilikan.

Ketika Kelompok Usaha tidak mengalihkan atau mempertahankan secara substansial seluruh risiko dan manfaat dari aset, atau mengalihkan pengendalian atas aset, Kelompok Usaha terus mengakui aset yang ditransfer tersebut sejauh keterlibatannya secara berkelanjutan. Dalam kasus tersebut, Kelompok Usaha juga mengakui liabilitas terkait. Aset alihan dan liabilitas terkait diukur atas dasar yang mencerminkan hak dan kewajiban yang dimiliki Kelompok Usaha. Keterlibatan berkelanjutan dalam bentuk jaminan atas aset yang ditransfer diukur pada nilai yang lebih rendah dari nilai tercatat asli aset dan jumlah maksimum imbalan yang mungkin diminta untuk dibayar kembali oleh Kelompok Usaha.

- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

**Penurunan Nilai**

Kelompok Usaha mengakui penyisihan kerugian kredit ekspektasian ("KKE") untuk semua instrumen utang yang tidak dimiliki pada nilai wajar melalui laporan laba rugi. KKE didasarkan pada perbedaan antara arus kas kontraktual yang jatuh tempo sesuai dengan kontrak dan semua arus kas yang diharapkan akan diterima Kelompok Usaha, didiskontokan dengan perkiraan suku bunga efektif awal. Arus kas yang diharapkan akan mencakup arus kas dari penjualan agunan yang dimiliki atau peningkatan kredit lainnya yang merupakan bagian integral dari persyaratan kontraktual.

KKE dikenali dalam dua tahap. Untuk eksposur kredit yang belum ada peningkatan risiko kredit yang signifikan sejak pengakuan awal, KKE disediakan untuk kerugian kredit yang diakibatkan oleh peristiwa gagal bayar yang mungkin terjadi dalam 12 bulan ke depan (KKE 12 bulan). Untuk eksposur kredit yang telah terjadi peningkatan risiko kredit yang signifikan sejak pengakuan awal, penyisihan kerugian diperlukan untuk kerugian kredit yang diperkirakan selama sisa umur eksposur, terlepas dari waktu *default* (KKE seumur hidup).

Untuk piutang dagang dan aset kontrak, Kelompok Usaha menerapkan pendekatan yang disederhanakan dalam menghitung KKE. Oleh karena itu, Kelompok Usaha tidak melacak perubahan dalam risiko kredit, tetapi mengakui penyisihan kerugian berdasarkan KKE seumur hidup pada setiap tanggal pelaporan. Kelompok Usaha telah menetapkan matriks provisi berdasarkan pengalaman kerugian kredit historisnya, yang disesuaikan dengan faktor-faktor berurusan ke depan yang spesifik untuk debitur dan lingkungan ekonomi.

**Impairment**

The Group recognizes an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Untuk instrumen utang dengan nilai wajar melalui OCI, Kelompok Usaha menerapkan penyederhanaan risiko kredit rendah. Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah instrumen utang tersebut dianggap memiliki risiko kredit rendah dengan menggunakan semua informasi yang wajar dan dapat didukung yang tersedia tanpa biaya atau upaya yang tidak semestinya. Dalam melakukan evaluasi tersebut, Kelompok Usaha menilai kembali peringkat kredit internal dari instrumen utang tersebut. Selain itu, Kelompok Usaha mempertimbangkan bahwa telah terjadi peningkatan risiko kredit yang signifikan jika pembayaran kontraktual telah jatuh tempo lebih dari 120 hari.

Kelompok Usaha menganggap aset keuangan gagal bayar ketika pembayaran kontraktual telah lewat 120 hari. Namun, dalam kasus tertentu, Kelompok Usaha juga dapat mempertimbangkan aset keuangan mengalami gagal bayar ketika informasi internal atau eksternal menunjukkan bahwa Kelompok Usaha tidak mungkin menerima jumlah kontraktual yang terutang secara penuh sebelum memperhitungkan setiap peningkatan kredit yang dimiliki oleh Kelompok Usaha.

Aset keuangan dihapuskan jika tidak ada ekspektasi yang wajar untuk memulihkan arus kas kontraktual.

Klasifikasi ini tergantung dari tujuan perolehan aset keuangan tersebut. Manajemen menentukan klasifikasi aset keuangan tersebut pada saat awal pengakuannya.

For debt instruments at fair value through OCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 120 days past due.

The Group considers a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**Effective Before January 1, 2020**

**i. Financial Assets**

Before January 1, 2020, the Group classified its financial assets into these categories: (a) financial assets measured at fair value through profit or loss, (b) loans and receivables, (c) financial assets held to maturity, and (d) financial assets available for sale. This classification depends on the purpose of acquiring such financial assets. Management determines the classification of such financial assets at the time of its initial recognition.

Pinjaman yang diberikan dan piutang adalah aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan yang tidak memiliki kuotasi di pasar aktif. Setelah pengakuan awal, PSAK No. 55 mensyaratkan aset tersebut dicatat pada biaya perolehan diamortisasi dengan menggunakan metode SBE.

Dalam hal ini, Kelompok Usaha juga mengakui liabilitas terkait. Aset yang ditransfer diukur atas dasar yang merefleksikan hak dan kewajiban Kelompok Usaha yang ditahan.

Pada saat penghentian pengakuan atas aset keuangan secara keseluruhan, maka selisih antara nilai tercatat dan jumlah dari (i) pembayaran yang diterima, termasuk aset baru yang diperoleh dikurangi dengan liabilitas baru yang ditanggung; dan (ii) keuntungan atau kerugian kumulatif yang telah diakui secara langsung dalam ekuitas, harus diakui pada laba rugi.

Penurunan Nilai

Aset keuangan, selain aset keuangan yang diukur pada nilai wajar melalui laba rugi, dievaluasi terhadap indikator penurunan nilai pada setiap akhir periode pelaporan. Aset keuangan diturunkan nilainya bila terdapat bukti objektif, sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset keuangan, dan peristiwa yang merugikan tersebut berdampak pada estimasi arus kas masa depan atas aset keuangan yang dapat diestimasi secara andal.

Penerapan PSAK 71 "Instrumen Keuangan" telah mengubah metode perhitungan kerugian penurunan nilai dari pendekatan kerugian yang telah terjadi (*incurred loss*) sesuai PSAK 55 "Instrumen Keuangan Pengakuan dan Pengukuran" dengan pendekatan KKE. Perusahaan menerapkan pendekatan yang disederhanakan (*simplified*) dalam menghitung kerugian kredit ekspektasian yaitu kerugian kredit ekspektasian sepanjang umur (*lifetime*).

Untuk aset keuangan yang diukur pada biaya perolehan diamortisasi, jumlah kerugian penurunan nilai merupakan selisih antara jumlah tercatat aset keuangan dengan nilai kini dari estimasi arus kas masa depan yang didiskontokan menggunakan suku bunga efektif awal dari aset keuangan.

Jumlah tercatat aset keuangan tersebut dikurangi dengan kerugian penurunan nilai secara langsung atas seluruh aset keuangan, kecuali piutang yang jumlah tercatatnya dikurangi melalui penggunaan akun cadangan piutang. Jika piutang tidak tertagih, piutang tersebut dihapuskan melalui akun cadangan piutang. Pemulihan kemudian dari jumlah yang sebelumnya telah dihapuskan dikreditkan terhadap akun cadangan. **Impairment (continued)**

Before January 1, 2020, evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and when observable data indicates that there is a measurable decrease in estimated future cash flows, such as increase in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of receivables, where the carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

*Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.*

**x. Determination of Fair Value**

*The Group measures financial instruments, biological assets, fixed asset - land, and investment property - land at fair value at each reporting date. It also measures certain recoverable amounts of the CGU using Fair Value Less Cost of Disposal ("FVLCD").*

**x. Penentuan Nilai Wajar (lanjutan)**

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar berdasarkan asumsi bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- di pasar utama untuk aset dan/atau liabilitas tersebut; atau
- dalam hal tidak terdapat pasar utama, maka pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Kelompok Usaha harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan tersebut.

Nilai wajar aset dan liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar dari suatu aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomi dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut pada penggunaan tertinggi dan terbaiknya.

Kelompok Usaha menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan *input* yang dapat diobservasi yang relevan dan meminimalkan penggunaan *input* yang tidak dapat diobservasi.

Semua aset dan liabilitas yang nilai wajarnya diukur atau diungkapkan dalam laporan keuangan konsolidasian dikelompokkan dalam hierarki nilai wajar berdasarkan tingkatan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan sebagai berikut:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.

**x. Determination of Fair Value (continued)**

*Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:*

- *in the principal market for the asset and/or liability; or*
- *in the absence of a principal market, in the most advantageous market for the asset or liability.*

*The principal or the most advantageous market must be accessible by the Group.*

*The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.*

*A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.*

*The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.*

*All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:*

- *Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.*

**x. Penentuan Nilai Wajar (lanjutan)**

Pada setiap tanggal pelaporan, Komite Penilaian menganalisa pergerakan dari nilai aset yang memerlukan pengukuran atau pengevaluasian kembali sesuai kebijakan Kelompok Usaha. Untuk analisa ini, Komite Penilaian melakukan verifikasi atas masukan utama yang dipakai dalam penilaian terakhir dan mencocokkan dengan kontrak dan dokumen relevan lain.

Komite Penilaian, bersama dengan penilai eksternal Kelompok Usaha, juga membandingkan setiap perubahan nilai wajar setiap aset dengan sumber eksternal yang relevan untuk menentukan apakah perubahan tersebut wajar.

Untuk tujuan penentuan pengungkapan nilai wajar, Kelompok Usaha menentukan kelompok aset dan liabilitas berdasarkan sifat, karakteristik dan risiko dari aset dan liabilitas dan level dari hierarki nilai wajar yang dijelaskan di atas.

**3. PERTIMBANGAN, ESTIMASI DAN ASUMSI  
YANG SIGNIFIKAN**

Penyusunan laporan keuangan konsolidasian Kelompok Usaha mengharuskan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah yang dilaporkan atas penghasilan, beban, aset dan liabilitas dan pengungkapan atas liabilitas kontijensi, pada akhir periode pelaporan. Ketidakpastian mengenai asumsi dan estimasi tersebut dapat mengakibatkan penyesuaian material terhadap nilai tercatat aset dan liabilitas yang terpengaruh pada periode pelaporan berikutnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**x. Determination of Fair Value (continued)**

At each reporting date, the Valuation Committee analyses the movements in the values of assets which are required to be re-measured or reassessed as per the Group's accounting policies. For this analysis, the Valuation Committee verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Valuation Committee, in conjunction with the Group's external valuers, also compares each the changes in the fair value of each asset with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS**

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Uncertainty for these assumptions and estimates could result in outcomes that may require material adjustments to the carrying amounts of the assets and liabilities affected in future reporting periods.

Cadangan atas Penurunan Nilai Piutang

Kelompok Usaha mengevaluasi akun tertentu jika terdapat informasi bahwa pelanggan yang bersangkutan tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Kelompok Usaha mempertimbangkan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga dan faktor pasar yang telah diketahui, untuk mencatat provisi spesifik atas jumlah piutang pelanggan guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah penyisihan atas kerugian kredit ekspektasian ("KKE") piutang.

Nilai tercatat dari piutang usaha Kelompok Usaha sebelum penyisihan atas penurunan nilai pada tanggal 31 Oktober 2020 dan 31 Desember 2019 masing-masing sebesar Rp1.772.008 dan Rp1.713.098. Penjelasan lebih rinci diungkapkan dalam Catatan 5.

Nilai tercatat dari piutang lain-lain - pihak ketiga Kelompok Usaha sebelum cadangan kerugian penurunan nilai pada tanggal 31 Oktober 2020 dan 31 Desember 2019 masing-masing sebesar Rp84.604 dan Rp596.575. Penjelasan lebih rinci diungkapkan dalam Catatan 6.

Aset biologis

Kelompok Usaha mengadopsi pendekatan pasar dengan menerapkan perkiraan volume produk dengan perkiraan harga pasar yang berlaku pada tanggal pelaporan berdasarkan nilai sekarang dari arus kas masa depan bersih yang diharapkan untuk mengukur nilai wajar dari induk udang, benih udang dan ikan.

Jumlah perubahan dalam nilai wajar dari aset biologis ini akan berbeda jika ada perubahan pada *input* yang digunakan, dan akan mempengaruhi laba rugi Kelompok Usaha dan ekuitas. Nilai tercatat dari aset biologis Kelompok Usaha pada tanggal 31 Oktober 2020 dan 31 Desember 2019 masing-masing sebesar Rp26.599 dan Rp17.074. Penjelasan lebih rinci diungkapkan dalam Catatan 8.

Allowance for Impairment of Receivables

The Group evaluates specific accounts where it has information that certain customers are unable to meet their financial obligations. In these cases, the Group exercises its judgment, based on the available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific provisions for customers against amounts due in an effort to reduce the receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted if additional information received affects the amounts of allowance for expected credit losses ("ECL") of receivable.

The carrying amount of the Group's trade receivables before allowance for impairment as of October 31, 2020 and December 31, 2019 amounted to Rp1,772,008 and Rp1,713,098, respectively. Further details are disclosed in Note 5.

The carrying amount of the Group's other receivables - third parties before allowance for impairment as of October 31, 2020 and December 31, 2019 amounted to Rp84,604 and Rp596,575, respectively. Further details are disclosed in Note 6.

Biological assets

The Group adopts market approach by applying the estimated product volume with the estimated market value at the reporting date based on the present value of net future cash flows that are expected to measure the fair value of shrimp broodstock, shrimp and fish fries.

The amount of changes in fair values of these biological assets would differ if there are changes to the inputs used, and would affect the Group's profit or loss and equity. The carrying amount of the Group's biological assets as of October 31, 2020 and December 31, 2019 amounted to Rp26,599 and Rp17,074, respectively. Further details are disclosed in Note 8.

Imbalan Kerja

Penentuan liabilitas dan biaya imbalan kerja jangka panjang Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Keuntungan atau kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial diakui secara langsung pada laporan posisi keuangan konsolidasian dengan debit atau kredit ke saldo laba melalui penghasilan komprehensif lainnya dalam tahun terjadinya.

Walaupun Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas diestimasi atas imbalan kerja dan beban imbalan kerja jangka panjang.

Nilai tercatat atas liabilitas imbalan kerja jangka panjang Kelompok Usaha pada tanggal 31 Oktober 2020 dan 31 Desember 2019 masing-masing sebesar Rp285.679 dan Rp288.505. Penjelasan lebih rinci diungkapkan dalam Catatan 33.

Penyusutan dan Penurunan Nilai Aset Tetap

Biaya perolehan aset tetap, kecuali tanah, disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya dengan memperhitungkan taksiran nilai residu sebesar persentase tertentu dari nilai tercatat, kecuali untuk prasarana tanah yang tidak diperhitungkan nilai residunya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara 2 sampai dengan 20 tahun. Ini adalah umur yang secara umum diharapkan dalam industri di mana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

Penelaahan atas penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai aset tertentu. Penentuan nilai wajar aset membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut.

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and Assumptions (continued)**

Employee Benefits

The determination of the Group's obligations and long-term employee benefits expense is dependent on its selection of certain assumptions used by independent actuary in calculating such amounts. Those assumptions include discount rates, future annual salary increase, annual employee turnover rate, disability rate, retirement age and mortality rate. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income the year in which they occur.

While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's results or significant changes in the Group's assumptions may materially affect its estimated liabilities for employee benefits and long-term employee benefits expense.

The carrying amounts of the Group's long-term employee benefits liability as of October 31, 2020 and December 31, 2019 amounted to Rp285,679 and Rp288,505, respectively. Further details are disclosed in Note 33.

Depreciation and Impairment of Fixed Assets

The costs of fixed assets, except land, are depreciated on a straight-line basis over their estimated useful lives after taking into account the residual values at a certain percentage of the carrying values, except for land improvements which have no residual value. Management estimates the useful lives of such fixed assets to be from 2 to 20 years. These are common life expectancies applied in the industries where the Group conducts its businesses. Changes in the expected level of usage and technological developments could affect the economic useful lives and the residual values of these assets, necessitating revision of future depreciation charges.

Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

Fair Value of Land and Building

Fixed assets - land and investment properties' land and buildings are measured at fair value. In estimating the fair value of land and building, the Group engaged a third-party qualified appraiser to perform the valuation. **3. PERTIMBANGAN, ESTIMASI DAN ASUMSI  
YANG SIGNIFIKAN (lanjutan)**

**Estimasi dan Asumsi (lanjutan)**

Sewa - Estimasi tingkat suku bunga inkremental

Kelompok Usaha tidak dapat menentukan secara langsung tingkat bunga implisit dalam sewa, oleh karena itu, Kelompok Usaha menggunakan suku bunga inkremental (IBR) untuk mengukur liabilitas sewa. IBR adalah tingkat bunga yang harus dibayar oleh Kelompok Usaha untuk meminjam, dengan jangka waktu serta jaminan serupa, dana yang diperlukan untuk memperoleh aset dengan nilai yang serupa dengan nilai aset hak pakai dalam lingkungan ekonomi yang serupa. Oleh karena itu, IBR mencerminkan apa yang 'harus dibayar' oleh Kelompok Usaha, dimana diperlukan suatu estimasi ketika tingkat bunga yang dapat diobservasi tidak tersedia (seperti ketika anak perusahaan yang tidak memiliki transaksi pembiayaan) atau ketika tingkat bunga tersebut perlu disesuaikan untuk mencerminkan syarat dan ketentuan sewa (misalnya, ketika sewa tidak dalam mata uang fungsional anak perusahaan). Kelompok Usaha mengestimasi IBR menggunakan input yang dapat diamati (seperti suku bunga pasar) jika tersedia dan diharuskan untuk membuat estimasi spesifik entitas tertentu (seperti peringkat kredit dari anak perusahaan itu sendiri).

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and Assumptions (continued)**

Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

**5. PIUTANG USAHA (lanjutan)**

**Piutang Plasma**

Piutang plasma timbul dari penjualan tambak udang, pakan udang, benur, obat-obatan dan bahan kimia, listrik dan air, serta perlengkapan tambak lainnya kepada plasma. Piutang plasma juga termasuk pemberian pinjaman oleh Perusahaan dan CPB kepada plasma untuk biaya hidup, revitalisasi tambak dan operasional plasma.

Pembiayaan untuk budi daya udang ini diperoleh dari pinjaman bank. Plasma berkewajiban untuk menjual seluruh hasil panen udang pada Perusahaan dan CPB.

Hasil panen tersebut akan digunakan untuk melunasi kewajiban (pokok dan bunga) kepada bank terlebih dahulu dan sisanya digunakan untuk melunasi utang kepada Perusahaan dan CPB. Satu periode masa budi daya udang memerlukan waktu berkisar antara 4 sampai dengan 6 bulan.

Perusahaan dan CPB juga memberikan pinjaman kepada plasma untuk membayar angsuran pinjaman dan beban bunga yang timbul dari pinjaman bank karena hasil panen belum cukup untuk membiayai pengeluaran-pengeluaran tersebut diatas. Pinjaman tersebut akan dilunasi oleh masing-masing plasma pada saat hasil panen mereka sudah menghasilkan arus kas neto yang positif.

Efektif 17 Oktober 2016, CPB dan plasma telah setuju untuk mengakhiri Skema Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR) dan plasma akan menjalankan Skema Operasi Budidaya Mandiri. Akibat perubahan ini CPB telah mencadangkan seluruh piutang plasma.

**5. TRADE RECEIVABLES (continued)**

**Farmers Receivables**

Farmers receivables arose from sales of shrimp ponds, shrimp feeds, shrimp fries, medicines and chemical goods, electricity and water, and other shrimp ponds supplies to farmers. Farmers receivables also include loans given by the Company and CPB to farmers for their cost of living, shrimp farms revitalization and operations.

The financing of these shrimp farmings are provided by banks. The farmers are obliged to sell all the harvest to the Company and CPB.

The proceeds from harvests shall be used to repay the obligations (principal and interest) to the banks first and the remaining will be used to settle amounts due to the Company and CPB. One cycle of shrimp farming is about 4 to 6 months.

The Company and CPB also provide loan to farmers to repay loan installments and its interest charges to banks, since the result from the harvests are still not sufficient to cover the above-mentioned expenditures. This loan will be repaid by each farmer once their harvests are already providing positive net cash flows.

Effective October 17, 2016, CPB and the farmers agreed to end "Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR)" Scheme and the farmers will continue operating under "Operasi Budidaya Mandiri" Scheme. Due to this change, CPB has provided full allowance for farmers' trade receivables.

The aging analysis of trade receivables based on due date is as follows:

**38. NILAI WAJAR DARI INSTRUMEN KEUANGAN  
(lanjutan)**

Pada tanggal 31 Oktober 2020 dan 31 Desember 2019, nilai tercatat instrumen keuangan yang disajikan dalam laporan posisi keuangan konsolidasian kurang lebih sebesar nilai wajarnya sebagai berikut: (lanjutan)

- **Investasi pada saham**  
Nilai wajar investasi pada saham ditentukan dengan menggunakan pendekatan pendapatan (*income approach*) berdasarkan metode arus kas terdiskonto selama masing-masing 10 tahun dan 5 tahun, ditambah nilai terminal setelah periode tersebut.
- **Utang obligasi**  
Utang obligasi disajikan dalam biaya perolehan diamortisasi dengan menggunakan metode SBE. Biaya perolehan diamortisasi ditentukan dengan memperhitungkan diskonto atau premi atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE.

**Hierarki Nilai Wajar**

Aset dan liabilitas keuangan diklasifikasikan secara keseluruhan berdasarkan tingkat terendah dari masukan (*input*) yang signifikan terhadap pengukuran nilai wajar. Penilaian dampak signifikan dari suatu *input* tertentu terhadap pengukuran nilai wajar membutuhkan pertimbangan dan dapat mempengaruhi penilaian dari aset dan liabilitas yang diukur dan penempatannya dalam hierarki nilai wajar.

Bukti terbaik dari nilai wajar adalah harga yang dikuotasikan (*quoted prices*) dalam sebuah pasar yang aktif. Jika pasar untuk sebuah instrumen keuangan tidak aktif, entitas menetapkan nilai wajar dengan menggunakan metode penilaian. Tujuan dari penggunaan metode penilaian adalah untuk menetapkan harga transaksi yang terbentuk pada tanggal pengukuran dalam sebuah transaksi pertukaran yang wajar dengan pertimbangan bisnis normal.

Metode penilaian termasuk penggunaan harga dalam transaksi pasar yang wajar (*arm's length*) terakhir antara pihak-pihak yang memahami dan berkeinginan, jika tersedia, referensi kepada nilai wajar terkini dari instrumen lain yang secara substansial sama, analisa arus kas yang didiskontokan.

**38. FAIR VALUE OF FINANCIAL INSTRUMENTS  
(continued)**

As of October 31, 2020 and December 31, 2019, the carrying values of financial instruments presented in the consolidated statement of financial position approximate their fair value as follows: (continued)

- **Investment in shares**  
The fair value of investment in shares was estimated using income approach based on discounted cash flows for 10 years and 5 years, respectively, plus terminal value after the forecast period.
- **Bonds payable**  
The bonds payable are carried at amortized costs using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the EIR.

**Fair Value Hierarchy**

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The assessment of the significance of a particular input to the fair value measurements requires judgement, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis.

**Hierarki Nilai Wajar (lanjutan)**

Jika terdapat metode penilaian yang biasa digunakan oleh para peserta pasar untuk menentukan harga dari instrumen dan metode tersebut telah didemonstrasikan untuk menyediakan estimasi yang andal atas harga yang diperoleh dari transaksi pasar yang aktual, entitas harus menggunakan metode tersebut. Metode penilaian yang dipilih membuat penggunaan maksimum dari input pasar dan bergantung sedikit mungkin atas input yang spesifik untuk entitas (*entity-specific input*). Metode tersebut memperhitungkan semua faktor yang akan dipertimbangkan oleh peserta pasar dalam menentukan sebuah harga dan selaras dengan metode ekonomis untuk penilaian sebuah instrumen keuangan.

Secara berkala, Kelompok Usaha menelaah metode penilaian dan mengujinya untuk validitas dengan menggunakan harga dari transaksi pasar terkini yang dapat diobservasi untuk instrumen yang sama (yaitu tanpa modifikasi dan pengemasan kembali) atau berdasarkan data pasar yang tersedia dan dapat diobservasi.

**Fair Value Hierarchy (continued)**

If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.

Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on any available observable market data.

The Group's fair values hierarchy as of October 31, 2020 and December 31, 2019 is as follows:

Kesepakatan dengan pelanggan ini dituangkan dalam suatu surat yang disebut KUL (Kondisi Untuk Langganan) dan Surat Perjanjian Jual Beli. The following table sets out the Group's credit risk based on evaluation of impairment as of October 31, 2020 and December 31, 2019:

**Liquidity Risk**

Liquidity risk is the risk that occurs when the cash flows position indicates that short-term revenue is insufficient to cover short-term expenditure.

The liquidity requirements of the Group have historically arisen from the need for investment funding and capital expenditure, while operational expenses can be met from the Group's cash flows. In handling liquidity risk, management always maintains cash and cash equivalents at adequate levels to finance the operations of the Group, while the effects of cash flow fluctuation can be overcome by the availability of bank loan facilities.

The Group evaluates its cash flow projections regularly including the long-term maturity schedule and continuously assesses the condition of financial markets for opportunities to pursue fund raising initiatives, either through bank loans or the capital market.

Berdasarkan proyeksi keuangan yang disiapkan oleh Kelompok Usaha, Kelompok Usaha mengasumsikan proposal restrukturisasi akan disetujui oleh pemegang obligasi, mendapatkan pembiayaan untuk melaksanakan restrukturisasi utang obligasi serta mendapatkan persetujuan perpanjangan kembali atas kewajiban utang bank jangka pendek. Keberhasilan mendapatkan persetujuan pemegang obligasi atas proposal restrukturisasi, mendapatkan pembiayaan untuk pelaksanaan restrukturisasi utang obligasi serta persetujuan perpanjangan kembali atas kewajiban utang bank jangka pendek akan mempengaruhi kemampuan Kelompok Usaha untuk memenuhi kewajibannya.

Sampai dengan tanggal laporan keuangan konsolidasian interim ini diselesaikan dan diotorisasi untuk diterbitkan, Kelompok Usaha masih dalam proses negosiasi dengan beberapa pemegang obligasi terkait proposal restrukturisasi utang obligasi dan pembiayaan untuk restrukturisasi utang obligasi tersebut. Kelompok Usaha juga perlu untuk memperpanjang jangka waktu fasilitas utang bank jangka pendeknya ketika telah habis sesuai dengan proyeksi keuangan yang telah disiapkan.

Oleh karena Kelompok Usaha belum dapat melaksanakan semua aksi dan rencana tersebut diatas akibat adanya beberapa faktor yang berada diluar kuasa Kelompok Usaha, hal-hal ini dapat mempengaruhi secara signifikan kondisi keuangan dan kinerja Kelompok Usaha, sehingga mengindikasikan adanya suatu ketidakpastian material yang dapat menyebabkan keraguan signifikan atas kemampuan Kelompok Usaha untuk mempertahankan kelangsungan usahanya.

Laporan keuangan konsolidasian interim Kelompok Usaha telah disusun berdasarkan asumsi Kelompok Usaha dapat mempertahankan kelangsungan usahanya sebagai entitas, dimana diasumsikan aset akan direalisasikan dan kewajiban akan diselesaikan dalam transaksi bisnis normal. Laporan keuangan konsolidasian interim tidak termasuk penyesuaian yang berasal dari ketidakpastian-ketidakpastian.

**41. GOING CONCERN (continued)**

*Based on the financial projection prepared by the Group, the Group assumed that the restructuring proposal will be approved by the bondholders, will be able to obtain financing for the bonds payable restructuring, and will be able to obtain approval for extension of its short-term bank loans. The success of obtaining approvals from the bondholders on the restructuring proposal, obtaining financing for the bonds payable restructuring, and extension on its short-term bank loans will affect the Group's ability to fulfill its obligation.*

*As of the date these interim consolidated financial statements were completed and authorized for issuance, the Group is still in negotiation process with several bondholders in relation with restructuring proposal of the bonds payable and financing for the bonds payables restructuring. The Group will also need to further extend its short-term bank loan facilities when they fall due in accordance with its prepared financial projection.*

*Since the Group has not been able to execute all of the above actions and plans due to several factors which are beyond its control, these matters may significantly affect the Group's financial conditions and performance and therefore, indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.*

*The interim consolidated financial statements of the Group have been prepared assuming that the Group will continue as a going concern entity which assume that assets will be realized and liabilities will be settled within the normal course of the business. The interim consolidated financial statements do not include any adjustments that might result from these uncertainties.*

Basis Presentation of the Consolidated Financial Statements

The consolidated financial statements have been prepared in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements of Financial Accounting Standards ("PSAK") and Interpretations to Financial Accounting Standards ("ISAK") issued by the Financial Accounting Standards Board of the Indonesian Institute of Accountants ("DSAK") and the Regulations and Guidelines on Financial Statement Presentation and Disclosures issued by Financial Services Authority ("OJK"). These policies have been consistently applied to all years presented, unless otherwise stated.

The consolidated financial statements have been prepared in accordance with PSAK 1: "Presentation of Financial Statements". The consolidated financial statements have been prepared on the accrual basis, except for the consolidated statement of cash flows, using the historical cost basis of accounting, except for certain accounts which are measured on the basis described in the related accounting policies for those accounts.

The consolidated statement of cash flows, which have been prepared using the direct method, presents receipts and disbursements of cash and cash equivalents classified into operating, investing and financing activities.

The financial reporting period of the Group is January 1 to December 31.

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the relevant entity operates (the functional currency). The consolidated financial statements are presented in Rupiah, which is the Company's and certain subsidiaries' functional currency and the Group's presentation currency.

Perubahan Kebijakan Akuntansi

Kelompok Usaha melakukan penerapan pertama kali atas seluruh standar baru dan revisi yang berlaku efektif untuk periode yang dimulai pada 1 Januari 2020, termasuk standar baru berikut ini yang mempengaruhi laporan keuangan konsolidasian Kelompok Usaha:

PSAK 71: Instrumen Keuangan

PSAK 71: Instrumen Keuangan menggantikan PSAK 55: Instrumen Keuangan: Pengakuan dan Pengukuran untuk periode tahunan yang dimulai pada atau setelah 1 Januari 2020, yang menggabungkan ketiga aspek akuntansi untuk instrumen keuangan: klasifikasi dan pengukuran; penurunan nilai; dan akuntansi lindung nilai.

Kelompok Usaha tidak menyajikan kembali informasi komparatif, yang tetap disajikan sesuai PSAK 55. Terdapat dampak signifikan dalam penerapan PSAK 71 yang telah diterapkan yang diakui secara langsung dalam laba ditahan dan komponen ekuitas lainnya.

Sifat dari efek adopsi PSAK 71 pada tanggal 1 Januari 2020 meliputi klasifikasi dan pengukuran, dan penurunan nilai.

Klasifikasi dan Pengukuran

Berdasarkan PSAK 71, instrumen utang selanjutnya diukur pada nilai wajar melalui laba rugi ("FVPL"), biaya perolehan diamortisasi, nilai wajar melalui penghasilan komprehensif lain ("FVOCI"). Klasifikasi tersebut berdasarkan pada dua kriteria: (1) model bisnis Kelompok Usaha dari pengelolaan aset; dan (2) apakah arus kas kontraktual instrument hanya mewakili "pembayaran pokok dan bunga ("SPPI)" dari jumlah pokok terutang.

Changes of Accounting Policies

The Group made first time adoption of all the new and revised standards effective for the periods beginning on January 1, 2020, including the following new standards that have affected the consolidated financial statements of the Group:

PSAK 71: Financial Instruments

PSAK 71: Financial Instruments replaces PSAK 55: Financial Instruments: Recognition and Measurements for annual periods beginning on or after January 1, 2020, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group has not restated the comparative information, which continues to be reported under PSAK 55. There was significant impact from the adoption of PSAK 71 that was recognized directly in retained earnings and other components of equity.

The nature of the effect of adoption PSAK 71 as at January 1, 2020 include classification and measurement, and impairment.

Classification and Measurement

Under PSAK 71, debt instruments are subsequently measured at fair value through profit or loss ("FVPL"), amortized costs, or fair value through other comprehensive income ("FVOCI"). The classification is based on two criteria: (1) the Group's business model from managing the assets; and (2) whether the instruments' contractual cash flows represent "solely payments of principal and interest ("SPPI)" on the principal amount outstanding.

Klasifikasi dan Pengukuran (lanjutan)

Penilaian model bisnis Kelompok Usaha dilakukan pada tanggal penerapan awal, yakni 1 Januari 2020. Penilaian apakah arus kas kontraktual atas instrumen utang hanya terdiri dari pokok dan bunga dibuat berdasarkan fakta dan keadaan pada saat pengakuan awal aset.

Persyaratan klasifikasi dan pengukuran PSAK 71 tidak memiliki pengaruh yang signifikan bagi Kelompok Usaha. Kelompok Usaha terus mengukur pada nilai wajar seluruh aset keuangan yang sebelumnya dimiliki pada nilai wajar berdasarkan PSAK 55.

Piutang usaha dan piutang lain-lain yang diklasifikasikan sebagai pinjaman dan piutang pada tanggal 31 Desember 2019 dimiliki untuk mengumpulkan arus kas kontraktual dan menimbulkan arus kas yang hanya mewakili pembayaran pokok dan bunga. Hal ini diklasifikasikan dan diukur sebagai instrumen utang pada biaya perolehan mulai 1 Januari 2020.

Kelompok Usaha tidak menetapkan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi. Tidak ada perubahan dalam klasifikasi dan pengukuran atas liabilitas keuangan Kelompok Usaha.

Pada saat penerapan PSAK 71, Kelompok Usaha mengklasifikasikan investasi pada saham sebagai aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain. Kelompok Usaha mengukur investasi pada saham pada nilai wajar dengan menggunakan metode diskonto arus kas dan mengakui penurunan nilai sebesar Rp11.284 yang dicatat pada akun Komponen Ekuitas Lainnya dan mengakui aset pajak tangguhan sebesar Rp2.821.

Classification and Measurement (continued)

The assessment of the Group's business model was made as of the date of initial application, January 1, 2020. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of PSAK 71 did not have a significant impact to the Group. The Group continued measuring at fair value all financial assets previously held at fair value under PSAK 55.

Trade receivables and other receivables classified as loans and receivables as at December 31, 2019 are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are classified and measured as debt instruments at amortized cost beginning January 1, 2020.

The Group has not designated any financial liabilities as at fair value through profit or loss. There are no changes in classification and measurement for the Group's financial liabilities.

Upon adoption PSAK 71, the Group classified investment in shares as financial assets measured at fair value through other comprehensive income. The Group measures investment in shares using discounted cashflows method and recognized decrease in value amounted to Rp11,284 which recorded in Other Equity Components account and recognized deferred tax assets amounted to Rp2,821.

Penurunan Nilai

Penerapan PSAK 71 telah secara fundamental mengubah akuntansi untuk kerugian penurunan nilai atas aset keuangan dengan mengganti pendekatan kerugian yang terjadi dalam PSAK 55 dengan pendekatan kerugian kredit ekspektasian ("KKE"). PSAK 71 mengharuskan Kelompok Usaha untuk mengakui penyisihan atas KKE untuk seluruh instrumen utang yang tidak dimiliki pada nilai wajar melalui laba rugi dan aset kontrak.

Saat penerapan PSAK 71, Kelompok Usaha mengakui tambahan penurunan nilai atas piutang usaha dan piutang pihak berelasi non-usaha Kelompok Usaha sebesar Rp23.878 dan aset pajak tangguhan sebesar Rp5.970 dan mencatat selisih atas jurnal tersebut diatas ke akun laba di tahan dan kepentingan nonpengendali ("KNP") masing-masing sebesar Rp17.904 dan Rp4.

PSAK 72: Pendapatan dari Kontrak dengan Pelanggan

PSAK 72 menggantikan PSAK 34: Kontrak Konstruksi, PSAK 23: Pendapatan dan Interpretasi terkait dan berlaku, dengan pengecualian terbatas, untuk semua pendapatan yang timbul dari kontrak dengan pelanggan. PSAK 72 menetapkan model lima langkah untuk memperhitungkan pendapatan yang timbul dari kontrak dengan pelanggan dan mensyaratkan bahwa pendapatan diakui pada jumlah yang mencerminkan imbalan yang diperkirakan menjadi hak entitas dalam pertukaran dengan barang atau jasa kepada pelanggan.

Model lima langkah analisis sebagai berikut:

- Step 1: Identifikasi kontrak dengan pelanggan.
- Step 2: Identifikasi kewajiban pelaksanaan dalam kontrak.
- Step 3: Menetapkan harga transaksi
- Step 4: Alokasi harga transaksi ke setiap kewajiban pelaksanaan.
- Step 5: Pengakuan pendapatan ketika (atau saat) kewajiban pelaksanaan telah dipenuhi.

Impairment

The adoption of PSAK 71 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing PSAK 55's incurred loss approach with a forward-looking expected credit loss ("ECL") approach. PSAK 71 requires the Group to recognize an allowance for ECLs for all debt instruments not held at fair value through profit or loss and contract assets.

Upon adoption of PSAK 71 the Group did recognized additional impairment on the Group's trade receivables and due from related parties amounted to Rp23,878 and deferred tax assets amounted to Rp5,970 and charged differences from the above journal to retained earnings and non-controlling interest ("NCI") amounting to Rp17,904 and Rp4, respectively.

PSAK 72: Revenue from Contracts with Customers

PSAK 72 supersedes PSAK 34: Construction Contracts, PSAK 23: Revenue and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. PSAK 72 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The five-step model is as follows:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations.
- Step 5: Recognize revenue when (or as) each performance obligation is satisfied.

PSAK 72: Pendapatan dari Kontrak dengan  
Pelanggan (lanjutan)

PSAK 72 mengharuskan entitas untuk melakukan pertimbangan, dengan mempertimbangkan semua fakta dan keadaan yang relevan ketika menerapkan setiap langkah model untuk membuat kontrak dengan pelanggan mereka. Standar ini juga menetapkan akuntansi untuk biaya tambahan untuk memperoleh kontrak dan biaya yang terkait langsung dengan pemenuhan kontrak. Selain itu, standar tersebut membutuhkan pengungkapan yang ekstensif.

Kelompok Usaha telah menilai dan menyimpulkan bahwa dampak atas penerapan PSAK 72 tidak material terhadap laporan keuangan konsolidasian.

PSAK 73: Sewa

PSAK 73 menggantikan PSAK 30: Sewa, ISAK 8: Penentuan apakah suatu Perjanjian mengandung suatu Sewa, ISAK 23: Sewa Operasi-Insentif dan ISAK 24: Evaluasi Substansi Beberapa Transaksi yang Melibatkan Suatu Bentuk Legal Sewa. Standar tersebut menetapkan prinsip-prinsip untuk pengakuan, pengukuran, penyajian, dan pengungkapan sewa dan mengharuskan penyewa untuk mengakui sebagian besar sewa di laporan posisi keuangan.

Akuntansi lessor berdasarkan PSAK 73 secara substansial tidak berubah dari PSAK 30. Lessor akan terus mengklasifikasikan sewa sebagai sewa operasi atau keuangan dengan menggunakan prinsip yang sama seperti dalam PSAK 30. Oleh karena itu, PSAK 73 tidak berdampak pada sewa di mana Kelompok Usaha adalah lessor.

Kelompok Usaha menerapkan PSAK 73 menggunakan metode penerapan retrospektif yang dimodifikasi dengan tanggal penerapan awal 1 Januari 2020. Berdasarkan metode ini, standar diterapkan secara retrospektif dengan efek kumulatif dari penerapan awal standar yang diakui pada tanggal penerapan awal.

PSAK 72: Revenue from Contracts with  
Customers (continued)

PSAK 72 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group has assessed and concluded that the impact on the application of PSAK 72 is not material to the consolidated financial statements.

PSAK 73: Leases

PSAK 73 supersedes PSAK 30: Leases, ISAK 8: Determining whether an Arrangement contains a Lease, ISAK 23: Operating Leases-Incentives and ISAK 24: Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the statement of financial position.

Lessor accounting under PSAK 73 is substantially unchanged from PSAK 30. Lessors will continue to classify leases as either operating or finance leases using similar principles as in PSAK 30. Therefore, PSAK 73 did not have an impact for leases where the Group is the lessor.

The Group adopted PSAK 73 using the modified retrospective method of adoption with the date of initial application of January 1, 2020. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

PSAK 73: Sewa (lanjutan)

Kelompok Usaha memilih untuk menggunakan cara praktis transisi yang tersedia untuk tidak menilai kembali apakah suatu kontrak adalah, atau berisi sewa pada tanggal 1 Januari 2020. Sebaliknya, Kelompok Usaha menerapkan standar hanya untuk kontrak yang sebelumnya diidentifikasi sebagai sewa dalam penerapan PSAK 30 dan ISAK 8 pada tanggal penerapan awal.

Setelah penerapan PSAK 73, Kelompok Usaha menerapkan pendekatan pengakuan dan pengukuran tunggal untuk semua sewa kecuali untuk sewa jangka pendek dan sewa atas aset bernilai rendah. Lihat Catatan 2m Sewa untuk kebijakan akuntansi yang dimulai pada 1 Januari 2020. Standar ini mengatur persyaratan transisi khusus dan cara praktis yang tersedia, yang telah diterapkan oleh Kelompok Usaha.

Kelompok usaha menerapkan PSAK 73 menggunakan pendekatan retrospektif modifikasi.

Pada saat penerapan PSAK 73, untuk sewa yang sebelumnya diklasifikasikan sebagai sewa operasi pada tanggal 1 Januari 2020, Kelompok Usaha: (i) mengakui aset hak guna usaha, aset pajak tangguhan, liabilitas sewa, liabilitas jangka panjang lainnya dan selisih kurs masing-masing sebesar Rp86.752, Rp714, Rp81.882, Rp1.065 dan Rp22 (ii) mereklasifikasi dari biaya dibayar dimuka, biaya akrual dan akun aset tetap masing-masing sebesar Rp6.738, Rp1 dan Rp338 ke akun aset hak guna usaha, dan (iii) mencatat selisih atas jurnal tersebut diatas ke akun laba di tahan dan KNP masing-masing sebesar Rp2.195 dan Rp1.

PSAK 73: Leases (continued)

The Group elected to use the transition practical expedient to not reassess whether a contract is, or contains a lease at January 1, 2020. Instead, the Group applied the standard only to contracts that were previously identified as leases applying PSAK 30 and ISAK 8 at the date of initial application.

Upon adoption of PSAK 73, the Group applied a single recognition and measurement approach for all leases except for short-term leases and leases of low-value assets. Refer to Note 2m Leases for the accounting policy beginning January 1, 2020. The standard provides specific transition requirements and practical expedients, which have been applied by the Group.

The Group adopted PSAK 73 using modified retrospective approach.

On the adoption of PSAK 73, for leases that previously classified as operating lease as of January 1, 2020, the Group: (i) recognized rights of use assets, deferred tax assets, lease liabilities, other non-current liabilities and foreign exchange amounted to Rp86,752, Rp714, Rp81,882, Rp1,065 and Rp22, respectively, (ii) reclassify from prepaid expenses, accrued expense and fixed assets to rights of use assets amounted to Rp6,738, Rp1 and Rp338, respectively, and (iii) charged differences from the above journal to retained earnings and NCI amounting to Rp2,195 and Rp1, respectively.

Penyewa yang membuat pemilihan ini memperhitungkan setiap perubahan dalam pembayaran sewa yang dihasilkan dari konsesi sewa terkait Covid-19 dengan cara yang sama akan menjelaskan perubahan berdasarkan PSAK 73, jika perubahan tersebut bukan merupakan modifikasi sewa. Amandemen tersebut berlaku untuk periode pelaporan tahunan yang dimulai pada atau setelah 1 Juni 2020. Penerapan lebih dini diizinkan. Amandemen ini tidak berdampak pada laporan keuangan konsolidasian Kelompok Usaha.

Amandemen PSAK 1 dan PSAK 25: Definisi

Amandemen ini mengklarifikasi definisi material dengan tujuan menyelaraskan definisi yang digunakan dalam kerangka kerja konseptual dan beberapa PSAK terkait. Amendments to PSAK 73: Covid-19 Related  
Rent Concessions (continued)

As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification.

A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under PSAK 73, if the change were not a lease modification. The amendment applies to annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. This amendment had no impact on the consolidated financial statements of the Group.

Amendments to PSAK 1 and PSAK 25:  
Definition of Material

The amendments provide a new definition of material that states, "information is material if omitting, misstating, or obscuring, it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity".

These amendments clarify the definition of material with aim of harmonizing the definitions used in the conceptual framework and some relevant PSAKs. In addition, it also provides clearer guidance regarding the definition of material in the context of reducing over disclosure due to changes in the threshold of the material definition.

Berdasarkan PSAK 71, instrumen utang dapat diukur pada biaya perolehan diamortisasi atau pada nilai wajar melalui pendapatan komprehensif lain, asalkan arus kas kontraktual adalah hanya pembayaran pokok dan bunga dari jumlah pokok terutang (kriteria SPPI) dan instrumen tersebut diadakan dalam model bisnis yang sesuai untuk klasifikasi tersebut. Amandemen PSAK 71 mengklarifikasi bahwa aset keuangan memenuhi kriteria SPPI terlepas dari peristiwa atau keadaan yang menyebabkan penghentian kontrak lebih awal dan terlepas dari pihak mana yang membayar atau menerima kompensasi yang wajar untuk penghentian kontrak lebih awal. Amandemen ini tidak berdampak pada laporan keuangan Kelompok Usaha.

**b. Prinsip-prinsip Konsolidasian**

Dengan demikian, Kelompok Usaha mengendalikan *investee* jika, dan hanya jika, Kelompok Usaha memiliki seluruh hal berikut ini:

- a. Kekuasaan atas *investee*, yaitu hak yang ada saat ini yang memberi investor kemampuan kini untuk mengarahkan aktivitas relevan dari *investee*;
- b. Eksposur atau hak atas imbal hasil variabel dari keterlibatan Kelompok Usaha dengan *investee*; dan

Amendments to PSAK 71: Prepayment  
Features with Negative Compensation

Under PSAK 71, a debt instrument can be measured at amortized cost or at fair value through other comprehensive income, provided that the contractual cash flows are solely payments of principal and interest on the principal amount outstanding (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PSAK 71 clarify that a financial asset passes the SPPI criterion regardless of an event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. These amendments had no impact on the financial statements of the Group.

**b. Principles of Consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as described in Note 1d.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has all of the following:

- a. Power over the investee that is existing rights that give the Group current ability to direct the relevant activities of the investee;
- b. Exposure, or rights, to variable return from its involvement with the investee; and
- c. The ability to use its power over the investee to affect the Group's returns.

(lanjutan)**

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Umumnya, ada dugaan bahwa mayoritas hak suara menghasilkan kontrol. Untuk mendukung anggapan ini dan bila Kelompok Usaha memiliki kurang dari mayoritas hak suara atau hak serupa dari *investee*, Kelompok Usaha mempertimbangkan semua fakta dan keadaan yang relevan dalam menilai apakah ia memiliki kuasa atas *investee*, termasuk:

- a. pengaturan kontraktual dengan pemegang hak suara lainnya dari *investee*;
- b. hak-hak yang timbul dari pengaturan kontraktual lain; dan
- c. hak suara yang dimiliki Kelompok Usaha dan hak suara potensial.

Kelompok Usaha menilai kembali apakah mengendalikan *investee* jika fakta dan keadaan mengindikasikan bahwa terdapat perubahan dalam satu atau lebih dari tiga elemen pengendalian. Konsolidasi atas entitas anak dimulai sejak tanggal Kelompok Usaha memperoleh pengendalian atas entitas anak dan berakhir ketika Kelompok Usaha kehilangan pengendalian atas entitas anak. Aset, liabilitas, penghasilan dan beban anak perusahaan yang diakuisisi selama periode berjalan termasuk dalam laporan keuangan konsolidasian sejak tanggal Kelompok Usaha memperoleh kendali sampai dengan tanggal Kelompok Usaha tidak lagi mengendalikan anak perusahaan.

Laba rugi dan setiap komponen dari penghasilan komprehensif lain ("OCI") diatribusikan kepada pemilik entitas induk dari Kelompok Usaha dan kepentingan nonpengendali ("KNP"), meskipun hal tersebut mengakibatkan KNP memiliki saldo defisit. Bila dipandang perlu, penyesuaian dilakukan terhadap laporan keuangan entitas anak untuk diselaraskan dengan kebijakan akuntansi Kelompok Usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lain dalam keadaan yang serupa. Jika anggota Kelompok Usaha menggunakan kebijakan akuntansi yang berbeda untuk transaksi dan peristiwa dalam keadaan yang serupa, maka penyesuaian dilakukan atas laporan keuangannya dalam penyusunan laporan keuangan konsolidasian.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**b. Principles of Consolidation (continued)**

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting, or similar, rights of an *investee*, it considers all relevant facts and circumstances in assessing whether it has power over an *investee*, including:

- a. the contractual arrangement(s) with the other vote holders of the *investee*;
- b. rights arising from other contractual arrangements; and
- c. the Group's voting rights and potential voting rights.

The Group reassesses whether it controls an *investee* if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interest ("NCI"), even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses different accounting policies for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in preparing the consolidated financial statements.

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

Seluruh saldo dan transaksi antar perusahaan yang signifikan, termasuk laba atau rugi yang belum direalisasi, jika ada, dieliminasi untuk mencerminkan posisi keuangan dan hasil operasi Kelompok Usaha sebagai satu kesatuan usaha.

Entitas-entitas anak dikonsolidasi secara penuh sejak tanggal akuisisi, yaitu tanggal Perusahaan memperoleh pengendalian, sampai dengan tanggal entitas induk kehilangan pengendalian. Pengendalian dianggap ada ketika Perusahaan memiliki secara langsung atau tidak langsung melalui entitas anak, lebih dari setengah kekuasaan suara entitas.

Perubahan dalam bagian kepemilikan Kelompok Usaha pada suatu entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Bila kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha menghentikan pengakuan atas aset (termasuk *goodwill*), liabilitas, kepentingan nonpengendali ("KNP") dan komponen lain dari ekuitas terkait, dan selisihnya diakui pada laba rugi. Bagian dari investasi yang tersisa diakui pada nilai wajar.

Jika kehilangan pengendalian atas suatu entitas anak, maka Kelompok Usaha:

- menghentikan pengakuan aset (termasuk setiap *goodwill*) dan liabilitas entitas anak Perusahaan;
- menghentikan pengakuan jumlah tercatat setiap KNP;
- menghentikan pengakuan akumulasi selisih penjabaran yang dicatat di ekuitas, bila ada;
- mengakui nilai wajar pembayaran yang diterima;
- mengakui setiap sisa investasi pada nilai wajarnya;
- mengakui setiap perbedaan yang dihasilkan sebagai keuntungan atau kerugian dalam laba rugi; dan
- mereklasifikasi bagian induk atas komponen yang sebelumnya diakui sebagai pendapatan komprehensif lainnya ke laba rugi, atau mengalihkan secara langsung ke saldo laba, sebagaimana mestinya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**b. Principles of Consolidation (continued)**

*All material intercompany account balances and transactions, including any unrealized profit or loss, have been eliminated to reflect the financial position and results of operations of the Group as a single business entity.*

*Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtained control until the date of such control ceases. Control is presumed to exist if the Company owns directly or indirectly through subsidiaries more than half of the voting power of an entity.*

*Changes in the Group's ownership interest in a subsidiary that do not result in loss of control are accounted for as equity transactions. If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest ("NCI") and other components of equity, while the difference is recognized in the profit or loss. Any investment retained is recognized at fair value.*

*If it loses control over a subsidiary, the Group:*

- *derecognizes the assets (including goodwill) and liabilities of the subsidiary;*
- *derecognizes the carrying amount of any NCI;*
- *derecognizes the cumulative translation differences recorded in equity, if any;*
- *recognizes the fair value of the consideration received;*
- *recognizes the fair value of any investment retained;*
- *recognizes any surplus or deficit in profit or loss; and*
- *reclassifies the parent's share of components previously recognized as other comprehensive income to profit or loss or retained earnings, as appropriate.*

**b. Prinsip-prinsip Konsolidasian (lanjutan)**

KNP mencerminkan bagian atas laba atau rugi dan aset neto dari entitas anak yang tidak dapat diatribusikan secara langsung maupun tidak langsung oleh Perusahaan, yang masing-masing disajikan dalam laporan laba rugi komprehensif konsolidasian dan dalam ekuitas pada laporan posisi keuangan konsolidasian, terpisah dari bagian yang dapat diatribusikan kepada pemilik entitas induk.

Untuk tujuan konsolidasi, laporan keuangan entitas anak yang mata uang fungsionalnya adalah selain Rupiah dijabarkan ke dalam Rupiah dengan menggunakan:

<b>Akun/Accounts</b>	<b>Kurs/Exchange Rate</b>
Aset dan liabilitas/ <i>Assets and liabilities</i>	Kurs rata-rata pembelian dan penjualan Bank Indonesia pada akhir periode pelaporan/ <i>Average buying and selling exchange rate of Bank Indonesia at end of reporting period</i>
Pendapatan dan beban/ <i>Revenues and expenses</i>	Rata-rata tertimbang dari kurs tengah Bank Indonesia selama periode dalam laporan laba rugi dan penghasilan komprehensif lain/ <i>Weighted-average middle rate of Bank Indonesia during the period of statement of profit or loss and other comprehensive income</i>

**c. Kombinasi Bisnis**

Kombinasi bisnis dicatat dengan menggunakan metode akuisisi. Biaya perolehan dari sebuah akuisisi disajikan pada nilai agregat imbalan yang dialihkan, disajikan pada nilai wajar pada tanggal akuisisi, dan jumlah setiap KNP pada pihak yang diakuisisi. Untuk setiap kombinasi bisnis, pihak pengakuisisi mengukur KNP pada entitas yang diakuisisi baik pada nilai wajar ataupun pada proporsi kepemilikan KNP atas aset neto yang teridentifikasi dari entitas yang diakuisisi. Biaya-biaya akuisisi yang timbul dibebankan langsung dan disertakan dalam beban administrasi.

Ketika melakukan akuisisi atas sebuah bisnis, Kelompok Usaha mengklasifikasikan dan menentukan aset keuangan yang diperoleh dan liabilitas keuangan yang diambil alih berdasarkan pada persyaratan kontraktual, kondisi ekonomi dan kondisi terkait lain yang ada pada tanggal akuisisi.

*NCI reflects the portion of the profit or loss and net assets of the subsidiaries that is not directly or indirectly attributable to the Company, which are presented in the consolidated statements of comprehensive income and under the equity section of the consolidated statement of financial position, respectively, separately from the portion attributable to owners of the parent entity.*

*For consolidation purposes, the financial statements of subsidiaries with functional currencies other than Rupiah are translated into Rupiah using the following:*

**c. Business Combination**

*Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition-date fair value, and the amount of any NCI in the acquiree. For each business combination, the acquirer measures the NCI in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Transaction costs incurred are directly expensed and included in administrative expenses.*

*When the Group acquires a business, it assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.*

**c. Kombinasi Bisnis (lanjutan)**

Jika proses akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, maka Kelompok Usaha melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangan konsolidasinya. Selama periode pengukuran, Kelompok Usaha menyesuaikan secara retrospektif jumlah sementara yang diakui pada tanggal akuisisi untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, telah berdampak pada pengukuran jumlah yang diakui pada tanggal tersebut.

Periode pengukuran berakhir segera setelah Kelompok Usaha menerima informasi yang dicari tentang fakta dan keadaan yang ada pada tanggal akuisisi atau mempelajari bahwa informasi lebih tidak dapat diperoleh. Namun demikian, periode pengukuran tidak boleh melebihi satu tahun dari tanggal akuisisi.

Dalam suatu kombinasi bisnis yang dilakukan secara bertahap, pihak pengakuisisi mengukur kembali kepentingan ekuitas yang dimiliki sebelumnya pada pihak yang diakuisisi pada nilai wajar tanggal akuisisi dan mengakui keuntungan atau kerugian yang dihasilkan dalam laba rugi.

Imbalan kontinjensi yang akan dialihkan oleh pihak pengakuisisi akan diakui pada nilai wajar pada tanggal akuisisi. Imbalan kontinjensi yang diklasifikasikan sebagai ekuitas tidak diukur kembali dan penyelesaian selanjutnya adalah diperhitungkan dalam ekuitas. Imbalan kontinjensi yang diklasifikasikan sebagai aset atau liabilitas yaitu instrumen keuangan dan dalam lingkup PSAK 55: "Instrumen Keuangan: Pengakuan dan Pengukuran", diukur pada nilai wajar dengan perubahan nilai wajar yang diakui dalam laba rugi sesuai dengan PSAK 55. Imbalan kontinjensi lain yang tidak termasuk dalam PSAK 55 diukur sebesar nilai wajar pada setiap tanggal pelaporan dengan perubahan nilai wajar yang diakui pada laba rugi.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**c. Business Combination (continued)**

*When the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, the Group shall retrospectively adjust the provisional amounts recognised at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognised as of that date.*

*The measurement period ends as soon as the Group receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.*

*If the business combination is carried out in stages, the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.*

*Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PSAK 55: "Financial Instruments: Recognition and Measurement", is measured at fair value with the changes in fair value recognized in the statement of profit or loss in accordance with PSAK 55. Other contingent consideration that is not within the scope of PSAK 55 is measured at fair value at each reporting date with changes in fair value recognized in profit or loss.*

**c. Kombinasi Bisnis (lanjutan)**

*Goodwill* awalnya diukur dengan biaya perolehan yang merupakan selisih lebih nilai agregat dari pertimbangan yang ditransfer dan jumlah yang diakui untuk KNP dan kepentingan sebelumnya yang dimiliki atas identifikasi aset yang diperoleh dan liabilitas yang dapat diasumsikan. Jika nilai wajar aset bersih yang diperoleh melebihi pertimbangan agregat yang ditransfer, Kelompok Usaha akan menilai ulang apakah telah mengidentifikasi dengan benar semua aset yang diperoleh dan semua liabilitas diasumsikan dan menelaah prosedur yang digunakan untuk mengukur jumlah yang diakui pada tanggal akuisisi. Jika penilaian kembali tersebut masih menghasilkan selisih antara nilai wajar aktiva bersih yang diperoleh dengan pertimbangan agregat yang ditransfer, maka keuntungan tersebut diakui dalam laba rugi.

Setelah pengakuan awal, *goodwill* diukur pada jumlah tercatat dikurangi akumulasi kerugian penurunan nilai. Untuk tujuan pengujian penurunan nilai, *goodwill* yang diperoleh dari suatu kombinasi bisnis, sejak tanggal akuisisi dialokasikan kepada setiap Unit Penghasil Kas ("UPK") dari Kelompok Usaha yang diharapkan akan bermanfaat dari sinergi kombinasi tersebut, terlepas dari apakah aset atau liabilitas lain dari pihak yang diakuisisi ditetapkan atas UPK tersebut.

Jika *goodwill* telah dialokasikan pada suatu UPK dan operasi tertentu atas UPK tersebut dihentikan, maka *goodwill* yang diasosiasikan dengan operasi yang dihentikan tersebut termasuk dalam jumlah tercatat operasi tersebut ketika menentukan keuntungan atau kerugian dari pelepasan. *Goodwill* yang dilepaskan tersebut diukur berdasarkan nilai relatif operasi yang dihentikan terhadap bagian dari dan porsi UPK yang ditahan.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**c. Business Combination (continued)**

*Goodwill* is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI and any previous interest held over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, *goodwill* is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, *goodwill* acquired in a business combination is, from the acquisition date, allocated to each of the Group's Cash-Generating Units ("CGU") that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those CGUs.

Where *goodwill* has been allocated to a CGU and part of the operation within that CGU is disposed of, the *goodwill* associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. *Goodwill* disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

(continued)**

All significant transactions and balances with related parties are disclosed in the relevant Notes herein.

**g. Restructuring Transactions of Entities  
under Common Control**

Transfer of business within entities under common control does not result in a change of the economic substance of ownership of the business being transferred and does not result in gain or loss to the group or to the individual entity within the group. Business combinations under common control are accounted for using the pooling-of-interests method, whereby the difference between the considerations transferred and the book value of the net assets of the acquiree is recognized as part of "Additional Paid-in Capital" account in the consolidated statement of financial position.

In applying the said pooling-of-interests method, the components of the financial statements of the combining entities are presented as if the combination has occurred since the beginning of the period of the combining entity become under common control. The difference in value of restructuring transactions of entities under common control based on PSAK 38 (Revised 2004) "Accounting for Restructuring of Entities Under Common Control" on the beginning of the adoption date of PSAK 38 (Revised 2012) was reclassified to "Additional Paid-in Capital" account in the consolidated statement of financial position.

**h. Inventories**

Inventories are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary for a sale to be made. Cost is calculated using weighted-average method.

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomis sebagai berikut:

	<b>Tahun/Year</b>
Prasarana tanah dan bangunan	5 - 20
Bangunan	10 - 20
Mesin dan peralatan	5 - 20
Peralatan transportasi	2 - 10
Peralatan dan perabotan kantor	5
Instalasi listrik dan air	5 - 10
Peralatan laboratorium	5

Jumlah tercatat komponen dari suatu aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat sudah tidak ada lagi manfaat ekonomis masa depan yang diekspektasikan dari penggunaan maupun pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset tersebut (ditentukan sebesar selisih antara jumlah hasil pelepasan neto dan jumlah tercatatnya) dimasukkan ke dalam laba rugi untuk tahun penghentian pengakuan tersebut dilakukan.

Nilai residu, umur manfaat dan metode penyusutan aset dievaluasi setiap akhir tahun dan disesuaikan secara prospektif, jika diperlukan.

Kelompok Usaha memilih untuk menggunakan model revaluasi atas tanah karena Kelompok Usaha meyakini bahwa model revaluasi lebih mencerminkan nilai dari tanah tersebut.

Setelah pengakuan awal, Kelompok Usaha menggunakan model revaluasi dimana tanah diukur pada nilai wajar pada tanggal revaluasi dikurangi akumulasi rugi penurunan nilai berikutnya.

Surplus revaluasi terakumulasi dalam ekuitas pada bagian komponen ekuitas lainnya. Defisit revaluasi diakui dalam laba rugi. Namun penurunan nilai tersebut diakui dalam surplus revaluasi aset tetap sepanjang tidak melebihi saldo surplus revaluasi untuk aset tersebut.

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Bangunan ("HGB") yang dikeluarkan ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi. Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah ditangguhkan dan diamortisasi yang lebih pendek antara umur hukum hak atas tanah dan umur ekonomi tanah, dan disajikan sebagai aset tak berwujud pada laporan posisi keuangan konsolidasian.

Aset tetap dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai dikerjakan dan siap untuk digunakan. **m. Sewa**

**Efektif pada atau Setelah 1 Januari 2020**

Kelompok Usaha menentukan pada permulaan kontrak apakah suatu kontrak adalah sewa, atau mengandung sewa, dengan menilai apakah kontrak mengalihkan hak untuk mengendalikan penggunaan suatu aset teridentifikasi untuk suatu jangka waktu yang ditukar dengan pembayaran.

**Aset hak guna**

Kelompok Usaha mengakui aset hak guna pada tanggal dimulainya sewa (tanggal aset dasar tersedia untuk digunakan). Aset hak guna diukur pada biaya perolehan, dikurangi akumulasi penyusutan dan rugi penurunan nilai, dan disesuaikan untuk setiap pengukuran kembali liabilitas sewa. Biaya aset hak guna termasuk jumlah liabilitas sewa yang diakui, biaya langsung awal yang dikeluarkan, dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai dikurangi insentif sewa yang diterima.

**Liabilitas Sewa - sebagai lessee**

Pada tanggal permulaan sewa, Kelompok Usaha mengakui liabilitas sewa diukur dari nilai sekarang dari pembayaran sewa yang akan dilakukan selama periode sewa. Pembayaran sewa meliputi pembayaran tetap (meliputi substansi pembayaran tetap) dikurangi suatu piutang insentif sewa, pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar atas garansi nilai residu.

Dalam menghitung nilai sekarang dari pembayaran sewa, Kelompok Usaha menggunakan suku bunga pinjaman inkremental pada saat tanggal permulaan sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan dengan mudah. Setelah tanggal permulaan, jumlah liabilitas sewa ditingkatkan untuk merefleksikan pertambahan bunga dan dikurangi untuk pembayaran sewa yang dilakukan. Sebagai tambahan, nilai tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan masa sewa, perubahan pembayaran sewa (misalnya, perubahan pembayaran sewa masa depan sebagai akibat dari perubahan indeks atau suku bunga yang digunakan untuk menentukan pembayaran sewa) atau perubahan dalam penilaian opsi untuk membeli aset mendasar tersebut.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**m. Leases**

**Effective on or After January 1, 2020**

*The Group determines at contract inception whether a contract is, or contains, a lease by assessing whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.*

**Right of use assets**

*The Group recognises right of use assets at the commencement date of the lease (the date the underlying asset is available for use). Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.*

**Lease Liabilities - as lessee**

*At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.*

*In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of the lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments (for example, change in the future lease payments as a result of changes in the index or interest rate used to determine those payments) or a change in the assessment of an option to purchase the underlying asset.*

**Sewa Jangka Pendek dan Sewa atas Aset

**Short-term Leases and Leases of Low-value  
Assets**

Kelompok Usaha menerapkan pengecualian pengakuan sewa jangka pendek untuk sewa jangka pendek (yaitu, sewa yang memiliki jangka waktu sewa 12 bulan atau kurang dari tanggal penerapan awal dan tidak mengandung opsi pembelian). Ini juga berlaku untuk pengecualian pengakuan aset bernilai rendah. Pembayaran sewa untuk sewa jangka pendek dan sewa untuk aset bernilai rendah diakui sebagai beban dengan dasar garis lurus selama masa sewa.

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the leases of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on the straight-line basis over the lease term.

**Efektif Sebelum 1 Januari 2020**

**Effective Before January 1, 2020**

Penentuan apakah suatu perjanjian merupakan, atau mengandung, sewa, adalah berdasarkan substansi dari perjanjian tersebut pada penetapan awal. Perjanjian dievaluasi apakah pemenuhannya tergantung kepada penggunaan aset atau aset-aset tertentu secara spesifik atau perjanjian mengalihkan hak untuk menggunakan aset atau aset-aset, walaupun hak tersebut tidak secara eksplisit disebutkan dalam perjanjian.

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date. The arrangement is assessed for whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

**Sewa Operasi - sebagai lessee**

**Operating Lease - as lessee**

Suatu sewa diklasifikasikan sebagai sewa operasi jika sewa tidak mengalihkan secara substansi seluruh risiko dan manfaat yang terkait dengan kepemilikan aset. Dengan demikian, pembayaran sewa diakui pada laba atau rugi dengan dasar garis lurus (*straight-line basis*) selama masa sewa.

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of the leased asset. Accordingly, the related lease payments are recognized in profit or loss on a straight-line basis over the lease term.

**n. Penurunan Nilai Aset Non-keuangan**

**n. Impairment of Non-financial Assets**

Pada setiap akhir periode pelaporan, Kelompok Usaha menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian tahunan penurunan nilai aset (yaitu aset takberwujud dengan umur manfaat tidak terbatas, aset takberwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis) diperlukan, maka Kelompok Usaha membuat estimasi formal jumlah terpulihkan aset tersebut.

The Group will assess at each annual reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset (i.e., an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination) is required, the Group makes a formal estimate of the asset's recoverable amount.

**n. Penurunan Nilai Aset Non-keuangan  
(lanjutan)**

Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau UPK dikurangi biaya untuk menjual dengan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain. Jika nilai tercatat aset atau UPK lebih besar daripada jumlah terpulihkannya, maka aset tersebut dipertimbangkan mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar jumlah terpulihkannya.

Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset. Dalam menentukan nilai wajar dikurangi biaya untuk menjual, digunakan harga penawaran pasar terakhir, jika tersedia. Jika tidak terdapat transaksi tersebut, Kelompok Usaha menggunakan model penilaian yang sesuai untuk menentukan nilai wajar aset. Perhitungan-perhitungan ini dikuatkan oleh pengali penilaian atau indikator nilai wajar yang tersedia.

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laba rugi sesuai dengan kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

Penilaian dilakukan pada akhir setiap periode pelaporan tahunan untuk menentukan apakah terdapat indikasi bahwa rugi penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset atau UPK tersebut. Kerugian penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* dibalik hanya jika terdapat perubahan asumsi-asumsi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui.

Pembalikan tersebut dibatasi sehingga jumlah tercatat aset tidak melebihi jumlah terpulihkannya maupun jumlah tercatat, neto setelah penyusutan, seandainya tidak ada rugi penurunan nilai yang telah diakui untuk aset tersebut pada tahun sebelumnya.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (continued)**

**n. Impairment of Non-financial Assets  
(continued)**

*An asset's recoverable amount is the higher of the asset's or CGU's fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.*

*In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if information on such is available. If no such transactions can be identified, the Group uses an appropriate valuation model to determine the fair value of the assets. These calculations are corroborated by valuation multiples or other available fair value indicators.*

*Impairment losses of continuing operations, if any, are recognized in profit or loss under expense categories that are consistent with the functions of the impaired assets.*

*An assessment is made at each annual reporting period as to whether there is any indication that previously recognized impairment losses recognized for an asset other than goodwill may no longer exist or may have decreased. If such indication exists, the Group estimates asset's or CGU's recoverable amount. A previously recognized impairment loss for an asset other than goodwill is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized.*

*The reversal is limited, so that the carrying amount of the assets does not exceed its recoverable amount or the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.*

**n. Penurunan Nilai Aset Non-  
keuangan (lanjutan)**

Pembalikan rugi penurunan nilai diakui dalam laba rugi. Setelah pembalikan tersebut, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan jumlah tercatat aset yang direvisi, dikurangi nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

*Goodwill* diuji untuk penurunan nilai setiap tahun (pada tanggal 31 Desember) dan ketika terdapat suatu indikasi bahwa nilai tercatatnya mengalami penurunan nilai. Penurunan nilai bagi *goodwill* ditetapkan dengan menentukan jumlah terpulihkan tiap UPK (atau kelompok UPK) dimana *goodwill* terkait. Jika jumlah terpulihkan UPK kurang dari jumlah tercatatnya, rugi penurunan nilai diakui. Rugi penurunan nilai terkait *goodwill* tidak dapat dibalik pada periode berikutnya.

Manajemen berpendapat bahwa tidak ada indikasi penurunan nilai pada aset tetap, properti investasi dan aset non-keuangan tidak lancar lainnya yang disajikan dalam laporan posisi keuangan konsolidasian pada tanggal 31 Desember 2020.

**n. Impairment of Non-financial Assets  
(continued)**

*Reversal of an impairment loss is recognized in profit or loss. After such a reversal, the depreciation charge on said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.*

*Goodwill is tested for impairment annually (as of December 31) and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU is less than the carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.*

*Management believes that there is no indication of impairment in values for fixed assets, investment properties and other non-current non-financial assets presented in the consolidated statement of financial position as of December 31, 2020.*

Pada tanggal 1 Januari 2020, Kelompok Usaha menerapkan PSAK 72: Pendapatan dari Kontrak dengan Pelanggan, yang mensyaratkan pengakuan pendapatan untuk memenuhi 5 (lima) langkah analisis sebagai berikut:

*On January 1, 2020, the Group implements PSAK 72: Revenue from Contracts with Customers, which requires revenue recognition to fulfill 5 (five) steps of assessment as follows:*

1. Identifikasi kontrak dengan pelanggan.
2. Identifikasi kewajiban pelaksanaan dalam kontrak. Kewajiban pelaksanaan merupakan janji-janji dalam kontrak untuk menyerahkan barang atau jasa yang memiliki karakteristik berbeda ke pelanggan.
3. Menetapkan harga transaksi, setelah dikurangi diskon, retur, insentif penjualan dan pajak pertambahan nilai, yang berhak diperoleh suatu entitas sebagai kompensasi atas diteruskannya barang atau jasa yang dijanjikan di kontrak.
4. Alokasi harga transaksi ke setiap kewajiban pelaksanaan dengan menggunakan dasar harga jual berdiri sendiri relatif dari setiap barang atau jasa berbeda yang dijanjikan di kontrak. Ketika tidak dapat diamati secara langsung, harga jual berdiri sendiri relatif diperkirakan berdasarkan biaya yang diharapkan ditambah marjin.
5. Pengakuan pendapatan ketika kewajiban pelaksanaan telah dipenuhi dengan menyerahkan barang atau jasa yang dijanjikan ke pelanggan (ketika pelanggan telah memiliki kendali atas barang atau jasa tersebut).

1. *Identify contract(s) with a customer.*
2. *Identify the performance obligations in the contract. Performance obligations are promises in a contract to transfer to a customer goods or services that are distinct.*
3. *Determine the transaction price, net of discounts, returns, sales incentives and value added tax, which an entity expects to be entitled in exchange for transferring the promised goods or services to a customer.*
4. *Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods or services promised in the contract. When these are not directly observable, the relative standalone selling price are estimated based on expected cost plus margin.*

Pendapatan diakui ketika Kelompok Usaha memenuhi kewajiban pelaksanaan dengan mengalihkan barang atau jasa yang dijanjikan kepada pelanggan, yaitu ketika pelanggan memperoleh pengendalian atas barang atau jasa tersebut. Kewajiban pelaksanaan dapat dipenuhi pada waktu tertentu. Jumlah pendapatan yang diakui adalah jumlah yang dialokasikan untuk kewajiban pelaksanaan yang dipenuhi.

(lanjutan)**

**Efektif Sebelum 1 Januari 2020**

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh oleh Kelompok Usaha dan jumlahnya dapat diukur secara andal tanpa memperhitungkan kapan pembayaran dilakukan. Pendapatan diukur pada nilai wajar pembayaran yang diterima, tidak termasuk diskon, rabat dan PPN. Kelompok Usaha menilai pengaturan pendapatannya terhadap kriteria tertentu untuk menentukan apakah ia bertindak sebagai prinsipal atau agen. Kelompok Usaha telah menyimpulkan bahwa ini bertindak sebagai prinsipal dalam semua pengaturan pendapatannya.

Kriteria spesifik berikut juga harus dipenuhi sebelum pendapatan diakui:

**Penjualan Barang**

Pendapatan dari penjualan yang timbul dari pengiriman fisik produk-produk Kelompok Usaha diakui bila risiko dan manfaat yang signifikan telah dipindahkan kepada pembeli, yang pada umumnya bersamaan waktunya dengan pengiriman dan penerimaannya.

**Pendapatan dan Beban Bunga**

Untuk semua instrumen keuangan yang diukur pada biaya perolehan diamortisasi, penghasilan atau beban bunga dicatat dengan menggunakan metode Suku Bunga Efektif ("SBE"), yaitu suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa yang akan datang selama perkiraan umur dari instrumen keuangan, atau jika lebih tepat, selama periode yang lebih singkat, untuk nilai tercatat neto dari aset keuangan atau liabilitas keuangan.

**Beban**

Beban diakui pada saat terjadinya (dasar akrual).

**q. Imbalan Kerja**

Beban atas pemberian imbalan dalam program imbalan manfaat pasti ditentukan dengan metode *Projected Unit Credit*.

**p. Revenue and Expense Recognition  
(continued)**

**Effective Before January 1, 2020**

*Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, rebates and VAT. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in all of its revenue arrangement.*

*The following specific recognition criteria must also be met before revenue is recognized:*

**Sale of Goods**

*Revenue from sales arising from physical delivery of the Group's products are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with their delivery and acceptance.*

**Interest Income and Expense**

*For all financial instruments measured at amortised cost, interest income or expense is recorded using the Effective Interest Rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.*

**Expense**

*Expenses are recognized when incurred (accrual basis).*

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya.

- Tanggal pada saat Kelompok Usaha mengakui biaya restrukturisasi terkait.

Kelompok Usaha mencatat penyisihan imbalan kerja jangka panjang kepada karyawan-karyawan sesuai dengan Undang-undang Ketenagakerjaan No. 13/2003 (Undang-undang Tenaga Kerja).

**i. Aset Keuangan**

Pengakuan dan Pengukuran Awal

Aset keuangan diklasifikasikan, pada pengakuan awal, untuk selanjutnya diukur pada biaya perolehan diamortisasi, nilai wajar melalui OCI dan nilai wajar melalui laba rugi.

Klasifikasi aset keuangan pada pengakuan awal tergantung pada karakteristik arus kas kontraktual aset keuangan dan model bisnis Kelompok Usaha untuk mengelolanya. Dengan pengecualian piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau yang mana Kelompok Usaha telah menerapkan kebijaksanaan praktisnya, Kelompok Usaha pada awalnya mengukur aset keuangan pada nilai wajarnya ditambah biaya transaksi.

- iii. Every change in asset ceiling, excluding the amounts included in net interest on benefits liability (asset).*

*Remeasurement on net defined benefits liability (asset), recognized as other comprehensive income will not be reclassified to profit or loss in the next periods.*

*Past service costs are recognised in profit or loss on the earlier of:*

Initial Recognition and Measurement

*Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through OCI and fair value through profit or loss.*

*The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus transaction costs.*

Piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau yang mana Kelompok Usaha telah menerapkan kebijaksanaan praktis diukur pada harga transaksi yang ditentukan berdasarkan PSAK 72.

*Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PSAK 72.*

Agar aset keuangan diklasifikasikan dan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui OCI, aset keuangan harus menghasilkan arus kas yang mewakili SPPI dari jumlah pokok terutang. Penilaian ini disebut sebagai tes SPPI dan dilakukan pada tingkat instrumen.

*In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are represent SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.*

Model bisnis Kelompok Usaha untuk mengelola aset keuangan mengacu pada bagaimana Kelompok Usaha mengelola aset keuangannya untuk menghasilkan arus kas. Model bisnis menentukan apakah arus kas akan dihasilkan dari pengumpulan arus kas kontraktual, penjualan aset keuangan, atau keduanya.

*The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.*

Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam jangka waktu yang ditetapkan oleh regulasi atau konvensi di pasar (perdagangan reguler) diakui pada tanggal perdagangan, yaitu tanggal Kelompok Usaha berkomitmen untuk membeli atau menjual aset.

*Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.*

**Pengukuran Setelah Pengakuan Awal**

**Subsequent Measurement**

Untuk tujuan pengukuran selanjutnya, aset keuangan diklasifikasikan dalam empat kategori:

*For purposes of subsequent measurement, financial assets are classified in four categories:*

- Aset keuangan pada biaya perolehan diamortisasi (instrumen hutang)
- Aset keuangan pada nilai wajar melalui OCI dengan daur ulang keuntungan dan kerugian kumulatif (instrumen utang)

aset keuangan diklasifikasikan dalam  
empat kategori: (lanjutan)

*For purposes of subsequent  
measurement, financial assets are  
classified in four categories: (continued)*

- Aset keuangan yang ditetapkan pada nilai wajar melalui OCI tanpa daur ulang keuntungan dan kerugian kumulatif setelah penghentian pengakuan (instrumen ekuitas)
- Aset keuangan pada nilai wajar melalui laba rugi

- *Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)*
- *Financial assets at fair value through profit or loss*

**Aset keuangan pada biaya perolehan  
diamortisasi (instrumen utang)**

**Financial assets at amortized cost  
(debt instruments)**

Kategori ini adalah yang paling relevan dengan Kelompok Usaha. Kelompok Usaha mengukur aset keuangan yang diukur dengan biaya perolehan diamortisasi jika kedua kondisi berikut terpenuhi:

*This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:*

- Aset keuangan dimiliki dalam model bisnis dengan tujuan untuk memiliki aset keuangan untuk mengumpulkan arus kas kontraktual;
- Persyaratan kontraktual dari aset keuangan menimbulkan arus kas pada tanggal tertentu yang hanya merupakan pembayaran pokok dan bunga dari jumlah pokok terutang.

- *The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows;*
- *The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.*

Aset keuangan yang diukur dengan biaya perolehan diamortisasi selanjutnya diukur dengan menggunakan metode suku bunga efektif ("SBE") dan mengalami penurunan nilai. Keuntungan dan kerugian diakui dalam laporan laba rugi konsolidasian pada saat aset dihentikan pengakuannya, dimodifikasi atau rusak.

*Financial assets at amortized cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognized in consolidated profit or loss when the asset is derecognized, modified or impaired.*

Aset keuangan Kelompok Usaha pada biaya perolehan diamortisasi termasuk piutang usaha, piutang lain-lain - pihak ketiga dan piutang pihak berelasi non-usaha.

*The Group's financial assets at amortized cost includes trade receivables, other receivables - third parties and due from related parties.*

Klasifikasi ditentukan berdasarkan instrumen per instrumen.

Keuntungan dan kerugian dari aset keuangan ini tidak pernah didaur ulang ke dalam laba rugi. Dividen diakui sebagai pendapatan lain-lain pada laporan laba rugi ketika pembayaran telah ditetapkan, kecuali jika Kelompok Usaha mendapatkan keuntungan dari pembayaran tersebut sebagai pemulihan dari bagian biaya investasi. Instrumen ekuitas yang ditetapkan pada nilai wajar melalui OCI tidak tunduk pada penilaian penurunan nilai.

**Penghentian Pengakuan**

Aset keuangan (atau, jika ada bagian dari aset keuangan atau bagian dari kelompok aset keuangan sejenis) terutama dihentikan pengakuannya (yaitu, dihapus dari laporan posisi keuangan konsolidasian Kelompok Usaha) ketika:

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PSAK 50: Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such payments as a recovery of part cost of investment. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

**Derecognition**

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated financial statement of financial position) when:

Aset keuangan (atau, jika ada bagian dari aset keuangan atau bagian dari kelompok aset keuangan sejenis) terutama dihentikan pengakuannya (yaitu, dihapus dari laporan posisi keuangan konsolidasian Kelompok Usaha) ketika: (lanjutan)

- Kelompok Usaha telah mengalihkan haknya untuk menerima arus kas dari aset atau telah mengasumsikan kewajiban untuk membayar arus kas yang diterima secara penuh tanpa penundaan material kepada pihak ketiga berdasarkan pengaturan 'pass-through'; dan salah satu (a) Kelompok Usaha telah mengalihkan secara substansial semua risiko dan manfaat aset, atau (b) Kelompok Usaha tidak mengalihkan atau memiliki secara substansial seluruh risiko dan manfaat aset, tetapi telah mengalihkan pengendalian aset.

Ketika Kelompok Usaha telah mengalihkan haknya untuk menerima arus kas dari aset atau telah menandatangani perjanjian *pass-through*, Kelompok Usaha mengevaluasi apakah, dan sejauh mana, telah mempertahankan risiko dan manfaat kepemilikan.

Ketika Kelompok Usaha tidak mengalihkan atau mempertahankan secara substansial seluruh risiko dan manfaat dari aset, atau mengalihkan pengendalian atas aset, Kelompok Usaha terus mengakui aset yang ditransfer tersebut sejauh keterlibatannya secara berkelanjutan. Dalam kasus tersebut, Kelompok Usaha juga mengakui liabilitas terkait. Aset alihan dan liabilitas terkait diukur atas dasar yang mencerminkan hak dan kewajiban yang dimiliki Kelompok Usaha. Keterlibatan berkelanjutan dalam bentuk jaminan atas aset yang ditransfer diukur pada nilai yang lebih rendah dari nilai tercatat asli aset dan jumlah maksimum imbalan yang mungkin diminta untuk dibayar kembali oleh Kelompok Usaha.

*When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.*

*When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.*

**Penurunan Nilai**

Kelompok Usaha mengakui penyisihan kerugian kredit ekspektasian ("KKE") untuk semua instrumen utang yang tidak dimiliki pada nilai wajar melalui laporan laba rugi. KKE didasarkan pada perbedaan antara arus kas kontraktual yang jatuh tempo sesuai dengan kontrak dan semua arus kas yang diharapkan akan diterima Kelompok Usaha, didiskontokan dengan perkiraan suku bunga efektif awal. Arus kas yang diharapkan akan mencakup arus kas dari penjualan agunan yang dimiliki atau peningkatan kredit lainnya yang merupakan bagian integral dari persyaratan kontraktual.

KKE dikenali dalam dua tahap. Untuk eksposur kredit yang belum ada peningkatan risiko kredit yang signifikan sejak pengakuan awal, KKE disediakan untuk kerugian kredit yang diakibatkan oleh peristiwa gagal bayar yang mungkin terjadi dalam 12 bulan ke depan (KKE 12 bulan). Untuk eksposur kredit yang telah terjadi peningkatan risiko kredit yang signifikan sejak pengakuan awal, penyisihan kerugian diperlukan untuk kerugian kredit yang diperkirakan selama sisa umur eksposur, terlepas dari waktu *default* (KKE seumur hidup).

Untuk piutang dagang dan aset kontrak, Kelompok Usaha menerapkan pendekatan yang disederhanakan dalam menghitung KKE. Oleh karena itu, Kelompok Usaha tidak melacak perubahan dalam risiko kredit, tetapi mengakui penyisihan kerugian berdasarkan KKE seumur hidup pada setiap tanggal pelaporan. Kelompok Usaha telah menetapkan matriks provisi berdasarkan pengalaman kerugian kredit historisnya, yang disesuaikan dengan faktor-faktor berwawasan ke depan yang spesifik untuk debitur dan lingkungan ekonomi.

**Impairment**

The Group recognizes an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Penurunan Nilai (lanjutan)

Untuk instrumen utang dengan nilai wajar melalui OCI, Kelompok Usaha menerapkan penyederhanaan risiko kredit rendah. Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah instrumen utang tersebut dianggap memiliki risiko kredit rendah dengan menggunakan semua informasi yang wajar dan dapat didukung yang tersedia tanpa biaya atau upaya yang tidak semestinya. Dalam melakukan evaluasi tersebut, Kelompok Usaha menilai kembali peringkat kredit internal dari instrumen utang tersebut. Selain itu, Kelompok Usaha mempertimbangkan bahwa telah terjadi peningkatan risiko kredit yang signifikan jika pembayaran kontraktual telah jatuh tempo lebih dari 120 hari.

Kelompok Usaha menganggap aset keuangan gagal bayar ketika pembayaran kontraktual telah lewat 120 hari. Namun, dalam kasus tertentu, Kelompok Usaha juga dapat mempertimbangkan aset keuangan mengalami gagal bayar ketika informasi internal atau eksternal menunjukkan bahwa Kelompok Usaha tidak mungkin menerima jumlah kontraktual yang terutang secara penuh sebelum memperhitungkan setiap peningkatan kredit yang dimiliki oleh Kelompok Usaha.

Aset keuangan dihapuskan jika tidak ada ekspektasi yang wajar untuk memulihkan arus kas kontraktual.

Impairment (continued)

For debt instruments at fair value through OCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 120 days past due.

The Group considers a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Initial Recognition and Measurement

Before January 1, 2020, the Group classified its financial assets into these categories: (a) financial assets measured at fair value through profit or loss, (b) loans and receivables, (c) financial assets held to maturity, and (d) financial assets available for sale. This classification depends on the purpose of acquiring such financial assets. Management determines the classification of such financial assets at the time of its initial recognition.

(lanjutan)**

**Initial Recognition and Measurement  
(continued)**

Pada saat pengakuan awal, aset keuangan diukur pada nilai wajar, namun dalam hal aset keuangan yang tidak diukur pada nilai wajar melalui laba rugi, maka nilai wajar tersebut ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan aset keuangan tersebut.

At the initial recognition, financial assets are measured at fair value, but in the case of financial assets not at fair value through profit or loss, the related fair values is added with the transactions cost that are directly attributable to the acquisition of financial assets.

**Pengukuran Setelah Pengakuan Awal**

**Subsequent Measurement**

Pengukuran selanjutnya dari aset keuangan tergantung kepada klasifikasi masing-masing seperti berikut ini:

The subsequent measurement of financial assets depends on their classification as described below:

• Pinjaman yang diberikan dan piutang

• Loans and receivables

Pinjaman yang diberikan dan piutang adalah aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan yang tidak memiliki kuotasi di pasar aktif. Setelah pengakuan awal, PSAK No. 55 mensyaratkan aset tersebut dicatat pada biaya perolehan diamortisasi dengan menggunakan metode SBE.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, PSAK No. 55 requires such assets to be carried at amortized cost using the EIR method.

Keuntungan atau kerugian terkait diakui pada laba rugi ketika pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, serta melalui proses amortisasi.

The related gains or losses are recognized in the profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

**Penghentian Pengakuan**

**Derecognition**

Penghentian pengakuan atas suatu aset keuangan, atau, bila dapat diterapkan untuk bagian dari aset keuangan atau bagian dari kelompok aset keuangan serupa, terjadi bila:

A financial asset, or, where applicable a part of a financial asset or part of a group of similar financial assets, is derecognized when: (continued)

ii. Kelompok Usaha mentransfer hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan tersebut atau menanggung kewajiban untuk membayar arus kas yang diterima tersebut tanpa penundaan yang signifikan kepada pihak ketiga melalui suatu kesepakatan penyerahan dan apabila (ii.1) secara substansial mentransfer seluruh risiko dan manfaat atas kepemilikan aset keuangan tersebut, atau (ii.2) secara substansial tidak mentransfer dan tidak mempertahankan seluruh risiko dan manfaat atas kepemilikan aset keuangan tersebut, namun telah mentransfer pengendalian atas aset keuangan tersebut.

ii. the Group has transferred its contractual rights to receive cash flows from the financial asset or has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement and either (ii.1) has transferred substantially all the risks and rewards of the financial asset ownership, or (ii.2) has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred the control of the financial asset.

Ketika Kelompok Usaha mentransfer hak untuk menerima arus kas yang berasal dari aset keuangan atau mengadakan kesepakatan penyerahan, atau tidak mentransfer maupun tidak mempertahankan secara substansi seluruh risiko dan manfaat atas aset keuangan tersebut namun telah mentransfer pengendalian atas aset keuangan tersebut, maka suatu aset keuangan baru diakui oleh Kelompok Usaha sebesar keterlibatannya yang berkelanjutan dengan aset keuangan tersebut.

When the Group has transferred its rights to receive cash flows from a financial asset or has entered into a pass-through arrangement, or has neither transferred nor retained substantially all the risks and rewards of the financial asset but has transferred control of the financial asset, a new financial asset is recognized to the extent of the Group's continuing involvement in the asset.

Keterlibatan berkelanjutan yang berbentuk pemberian jaminan atas aset yang ditransfer diukur sebesar jumlah terendah antara nilai tercatat aset yang ditransfer dan nilai maksimal pembayaran yang diterima yang mungkin harus dibayar kembali oleh Kelompok Usaha.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration received that the Group could be required to repay.

Dalam hal ini, Kelompok Usaha juga mengakui liabilitas terkait. Aset yang ditransfer diukur atas dasar yang merefleksikan hak dan kewajiban Kelompok Usaha yang ditahan.

*In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.*

Pada saat penghentian pengakuan atas aset keuangan secara keseluruhan, maka selisih antara nilai tercatat dan jumlah dari (i) pembayaran yang diterima, termasuk aset baru yang diperoleh dikurangi dengan liabilitas baru yang ditanggung; dan (ii) keuntungan atau kerugian kumulatif yang telah diakui secara langsung dalam ekuitas, harus diakui pada laba rugi.

*On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of (i) the consideration received, including any new asset obtained less any new liability assumed; and (ii) any cumulative gain or loss that has been recognized directly in equity, is recognized in the profit or loss.*

**Penurunan Nilai**

**Impairment**

Aset keuangan, selain aset keuangan yang diukur pada nilai wajar melalui laba rugi, dievaluasi terhadap indikator penurunan nilai pada setiap akhir periode pelaporan. Aset keuangan diturunkan nilainya bila terdapat bukti objektif, sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset keuangan, dan peristiwa yang merugikan tersebut berdampak pada estimasi arus kas masa depan atas aset keuangan yang dapat diestimasi secara andal.

*Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting date. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.*

Penerapan PSAK 71 "Instrumen Keuangan" telah mengubah metode perhitungan kerugian penurunan nilai dari pendekatan kerugian yang telah terjadi (*incurred loss*) sesuai PSAK 55 "Instrumen Keuangan Pengakuan dan Pengukuran" dengan pendekatan KKE. Perusahaan menerapkan pendekatan yang disederhanakan (*simplified*) dalam menghitung kerugian kredit ekspektasian yaitu kerugian kredit ekspektasian sepanjang umur (*lifetime*).

*The adoption of PSAK 71 "Financial Instrument" changed the method of calculating impairment from incurred loss in accordance with PSAK 55 "Financial Instrument: Recognition and Measurement" to ECL. The Company adopted the simplified expected credit loss approach which is using lifetime expected credit loss.*

**Penurunan Nilai (lanjutan)**

**Impairment (continued)**

Sebelum 1 Januari 2020, bukti penurunan nilai dapat meliputi indikasi pihak peminjam atau kelompok peminjam mengalami kesulitan keuangan signifikan, wanprestasi atau tunggakan pembayaran bunga atau pokok, terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya dan pada saat data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang, seperti meningkatnya tunggakan atau kondisi ekonomi yang berkorelasi dengan wanprestasi.

Before January 1, 2020, evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and when observable data indicates that there is a measurable decrease in estimated future cash flows, such as increase in arrears or economic conditions that correlate with defaults.

Untuk aset keuangan yang diukur pada biaya perolehan diamortisasi, jumlah kerugian penurunan nilai merupakan selisih antara jumlah tercatat aset keuangan dengan nilai kini dari estimasi arus kas masa depan yang didiskontokan menggunakan suku bunga efektif awal dari aset keuangan.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

Jumlah tercatat aset keuangan tersebut dikurangi dengan kerugian penurunan nilai secara langsung atas seluruh aset keuangan, kecuali piutang yang jumlah tercatatnya dikurangi melalui penggunaan akun cadangan piutang. Jika piutang tidak tertagih, piutang tersebut dihapuskan melalui akun cadangan piutang. Pemulihan kemudian dari jumlah yang sebelumnya telah dihapuskan dikreditkan terhadap akun cadangan. Perubahan jumlah tercatat akun cadangan piutang diakui dalam laba rugi.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of receivables, where the carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

**x. Penentuan Nilai Wajar (lanjutan)**

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar berdasarkan asumsi bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- di pasar utama untuk aset dan/atau liabilitas tersebut; atau
- dalam hal tidak terdapat pasar utama, maka pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Kelompok Usaha harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan tersebut.

Nilai wajar aset dan liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar dari suatu aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomi dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut pada penggunaan tertinggi dan terbaiknya.

Kelompok Usaha menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan *input* yang dapat diobservasi yang relevan dan meminimalkan penggunaan *input* yang tidak dapat diobservasi.

Semua aset dan liabilitas yang nilai wajarnya diukur atau diungkapkan dalam laporan keuangan konsolidasian dikelompokkan dalam hierarki nilai wajar berdasarkan tingkatan level *input* yang terendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan sebagai berikut:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik.

**x. Determination of Fair Value (continued)**

*Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:*

- *in the principal market for the asset and/or liability; or*
- *in the absence of a principal market, in the most advantageous market for the asset or liability.*

*The principal or the most advantageous market must be accessible by the Group.*

*The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.*

*A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.*

*The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.*

*All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:*

- *Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.*

Cadangan atas Penurunan Nilai Piutang

Kelompok Usaha mengevaluasi akun tertentu jika terdapat informasi bahwa pelanggan yang bersangkutan tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Kelompok Usaha mempertimbangkan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga dan faktor pasar yang telah diketahui, untuk mencatat provisi spesifik atas jumlah piutang pelanggan guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Allowance for Impairment of Receivables

The Group evaluates specific accounts where it has information that certain customers are unable to meet their financial obligations. In these cases, the Group exercises its judgment, based on the available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific provisions for customers against amounts due in an effort to reduce the receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted if additional information received affects the amounts of allowance for expected credit losses ("ECL") of receivable.

The carrying amount of the Group's trade receivables before allowance for impairment as of December 31, 2020 and 2019 amounted to Rp894,344 and Rp1,713,098, respectively. Further details are disclosed in Note 5.

The carrying amount of the Group's other receivables - third parties before allowance for impairment as of December 31, 2020 and 2019 amounted to Rp60,906 and Rp596,575, respectively. Further details are disclosed in Note 6.

Biological assets

The Group adopts market approach by applying the estimated product volume with the estimated market value at the reporting date based on the present value of net future cash flows that are expected to measure the fair value of shrimp broodstock, shrimp and fish fries.

The amount of changes in fair values of these biological assets would differ if there are changes to the inputs used, and would affect the Group's profit or loss and equity. The carrying amount of the Group's biological assets as of December 31, 2020 and 2019 amounted to Rp18,370 and Rp17,074, respectively. Further details are disclosed in Note 8.

Imbalan Kerja

Penentuan liabilitas dan biaya imbalan kerja jangka panjang Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Keuntungan atau kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial diakui secara langsung pada laporan posisi keuangan konsolidasian dengan debit atau kredit ke saldo laba melalui penghasilan komprehensif lainnya dalam tahun terjadinya.

Walaupun Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas diestimasi atas imbalan kerja dan beban imbalan kerja jangka panjang.

Penyusutan dan Penurunan Nilai Aset Tetap

Biaya perolehan aset tetap, kecuali tanah, disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya dengan memperhitungkan taksiran nilai residu sebesar persentase tertentu dari nilai tercatat, kecuali untuk prasarana tanah yang tidak diperhitungkan nilai residunya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara 2 sampai dengan 20 tahun. Ini adalah umur yang secara umum diharapkan dalam industri di mana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

Penelaahan atas penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai aset tertentu. Penentuan nilai wajar aset membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut.

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and Assumptions (continued)**

Employee Benefits

The determination of the Group's obligations and long-term employee benefits expense is dependent on its selection of certain assumptions used by independent actuary in calculating such amounts. Those assumptions include discount rates, future annual salary increase, annual employee turnover rate, disability rate, retirement age and mortality rate. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income the year in which they occur.

While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's results or significant changes in the Group's assumptions may materially affect its estimated liabilities for employee benefits and long-term employee benefits expense.

The carrying amounts of the Group's long-term employee benefits liability as of December 31, 2020 and 2019 amounted to Rp297,284 and Rp288,505, respectively. Further details are disclosed in Note 33.

Depreciation and Impairment of Fixed Assets

The costs of fixed assets, except land, are depreciated on a straight-line basis over their estimated useful lives after taking into account the residual values at a certain percentage of the carrying values, except for land improvements which have no residual value. Management estimates the useful lives of such fixed assets to be from 2 to 20 years. These are common life expectancies applied in the industries where the Group conducts its businesses. Changes in the expected level of usage and technological developments could affect the economic useful lives and the residual values of these assets, necessitating revision of future depreciation charges.

Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets.

**Estimasi dan Asumsi (lanjutan)**

Sewa - Estimasi tingkat suku bunga inkremental

Kelompok Usaha tidak dapat menentukan secara langsung tingkat bunga implisit dalam sewa, oleh karena itu, Kelompok Usaha menggunakan suku bunga inkremental (IBR) untuk mengukur liabilitas sewa. IBR adalah tingkat bunga yang harus dibayar oleh Kelompok Usaha untuk meminjam, dengan jangka waktu serta jaminan serupa, dana yang diperlukan untuk memperoleh aset dengan nilai yang serupa dengan nilai aset hak pakai dalam lingkungan ekonomi yang serupa. Oleh karena itu, IBR mencerminkan apa yang 'harus dibayar' oleh Kelompok Usaha, dimana diperlukan suatu estimasi ketika tingkat bunga yang dapat diobservasi tidak tersedia (seperti ketika anak perusahaan yang tidak memiliki transaksi pembiayaan) atau ketika tingkat bunga tersebut perlu disesuaikan untuk mencerminkan syarat dan ketentuan sewa (misalnya, ketika sewa tidak dalam mata uang fungsional anak perusahaan). Kelompok Usaha mengestimasi IBR menggunakan input yang dapat diamati (seperti suku bunga pasar) jika tersedia dan diharuskan untuk membuat estimasi spesifik entitas tertentu (seperti peringkat kredit dari anak perusahaan itu sendiri).

**3. SIGNIFICANT ACCOUNTING JUDGMENTS,  
ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and Assumptions (continued)**

Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

**5. PIUTANG USAHA (lanjutan)**

**Piutang Plasma**

Piutang plasma timbul dari penjualan tambak udang, pakan udang, benur, obat-obatan dan bahan kimia, listrik dan air, serta perlengkapan tambak lainnya kepada plasma. Piutang plasma juga termasuk pemberian pinjaman oleh Perusahaan dan CPB kepada plasma untuk biaya hidup, revitalisasi tambak dan operasional plasma.

Pembiayaan untuk budi daya udang ini diperoleh dari pinjaman bank. Plasma berkewajiban untuk menjual seluruh hasil panen udang pada Perusahaan dan CPB.

Hasil panen tersebut akan digunakan untuk melunasi kewajiban (pokok dan bunga) kepada bank terlebih dahulu dan sisanya digunakan untuk melunasi utang kepada Perusahaan dan CPB. Satu periode masa budi daya udang memerlukan waktu berkisar antara 4 sampai dengan 6 bulan.

Perusahaan dan CPB juga memberikan pinjaman kepada plasma untuk membayar angsuran pinjaman dan beban bunga yang timbul dari pinjaman bank karena hasil panen belum cukup untuk membiayai pengeluaran-pengeluaran tersebut diatas. Pinjaman tersebut akan dilunasi oleh masing-masing plasma pada saat hasil panen mereka sudah menghasilkan arus kas neto yang positif.

Efektif 17 Oktober 2016, CPB dan plasma telah setuju untuk mengakhiri Skema Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR) dan plasma akan menjalankan Skema Operasi Budidaya Mandiri. Akibat perubahan ini CPB telah mencadangkan seluruh piutang plasma.

Pada tanggal 7 Desember 2020, CPB telah mendapatkan surat pernyataan dari petambak plasma menegaskan saldo nilai hutang petambak terhadap CPB merupakan benar dan kedua belah pihak telah sepakat untuk menyatakan utang piutang tersebut telah lunas sesuai dengan "Berita Acara Kesepakatan Bersama Antara Perwakilan Perusahaan Inti dengan Perwakilan Petambak Plasma tentang Pengakhiran Hubungan Kerjasama Kemitraan Inti-Plasma dalam Rangka Memandirikan dan Menjaga Kelangsungan Usaha Budidaya Petambak Plasma". CPB menghapus sebagian piutang usaha tidak lancar plasma sejumlah Rp795.035 dimana CPB telah membentuk cadangan atas seluruh piutang usaha tidak lancar plasma tersebut. Penghapusan piutang plasma tersebut mempengaruhi estimasi CPB atas rugi pajak yang dapat diutilisasi di masa depan.

**5. TRADE RECEIVABLES (continued)**

**Farmers Receivables**

*Farmers receivables arose from sales of shrimp ponds, shrimp feeds, shrimp fries, medicines and chemical goods, electricity and water, and other shrimp ponds supplies to farmers. Farmers receivables also include loans given by the Company and CPB to farmers for their cost of living, shrimp farms revitalization and operations.*

*The financing of these shrimp farmings are provided by banks. The farmers are obliged to sell all the harvest to the Company and CPB.*

*The proceeds from harvests shall be used to repay the obligations (principal and interest) to the banks first and the remaining will be used to settle amounts due to the Company and CPB. One cycle of shrimp farming is about 4 to 6 months.*

*The Company and CPB also provide loan to farmers to repay loan installments and its interest charges to banks, since the result from the harvests are still not sufficient to cover the above-mentioned expenditures. This loan will be repaid by each farmer once their harvests are already providing positive net cash flows.*

*Effective October 17, 2016, CPB and the farmers agreed to end "Perjanjian Kerjasama Kemitraan Usaha Perikanan dengan Pola Tambak Inti Rakyat (TIR)" Scheme and the farmers will continue operating under "Operasi Budidaya Mandiri" Scheme. Due to this change, CPB has provided full allowance for farmers' trade receivables.*

*On December 7, 2020, CPB has obtained statement letters from the plasma farmer confirming that balance of the farmer's debt to CPB are correct and both parties have agreed related debt and receivables has been paid off in accordance with "Berita Acara Kesepakatan Bersama Antara Perwakilan Perusahaan Inti dengan Perwakilan Petambak Plasma tentang Pengakhiran Hubungan Kerjasama Kemitraan Inti-Plasma dalam Rangka Memandirikan dan Menjaga Kelangsungan Usaha Budidaya Petambak Plasma". CPB write-off part of farmers non-current trade receivables totaling to Rp795,035 where CPB has provided allowance of all of the farmers non-current trade receivable. The write-off of this plasma receivables affects future usable tax losses of CPB.*

**32. PERPAJAKAN (lanjutan)**

- g. Untuk tujuan penyajian dalam laporan posisi keuangan konsolidasian, klasifikasi aset atau liabilitas pajak tangguhan untuk setiap perbedaan temporer di atas ditentukan berdasarkan posisi pajak tangguhan neto (aset neto atau liabilitas neto) setiap entitas.

Perusahaan menyampaikan pajak tahunan atas dasar perhitungan sendiri. Sesuai dengan perubahan terakhir atas Undang-undang Ketentuan Umum dan Tata Cara Perpajakan yang berlaku mulai tanggal 1 Januari 2008, Kantor Pajak dapat menetapkan atau mengubah besarnya kewajiban pajak dalam batas waktu 5 tahun sejak tanggal terutangnya pajak, sedang untuk tahun pajak 2008 dan sebelumnya, pajak dapat ditetapkan paling lambat pada akhir tahun 2014.

- h. Tarif pajak penghasilan badan

Pada 31 Maret 2020, Presiden Republik Indonesia menandatangani Perpu No. 1/2020 tentang "Kebijakan Keuangan Negara dan Stabilitas Sistem Keuangan untuk Penanganan Pandemi *Corona Virus Disease* 2019 (Covid-19) dan/atau Dalam Rangka Menghadapi Ancaman yang Membahayakan Perekonomian Nasional dan/atau Stabilitas Sistem Keuangan", yang mengatur penyesuaian tarif PPh badan sebagai berikut:

- sebesar 22% yang berlaku pada Tahun Pajak 2020 dan 2021;
- sebesar 20% yang mulai berlaku pada Tahun Pajak 2022; dan
- Perusahaan Terbuka dalam negeri dengan jumlah keseluruhan saham yang disetor diperdagangkan pada bursa efek di Indonesia paling sedikit 40% dan memenuhi persyaratan tertentu sesuai dengan peraturan pemerintah, dapat memperoleh tarif sebesar 3% lebih rendah dari tarif pada butir a dan b di atas.

Perusahaan tidak menerapkan penurunan tarif pajak tersebut dalam perhitungan beban PPh badan seperti diungkapkan pada butir c di atas karena tidak dapat memenuhi seluruh persyaratan di dalamnya. Namun Perusahaan telah menggunakan tarif pajak penghasilan tunggal sesuai butir a di atas untuk tahun pajak 2020 sebesar 22% (2019: 25%).

**32. TAXATION (continued)**

- g. For purposes of presentation in the consolidated statement of financial position, the asset or liability classification of the deferred tax effect of each of the above temporary differences is determined based on the net deferred tax position (net assets or net liabilities) per entity basis.

The Company submits its tax returns on the basis of self-assessment. In accordance with the latest amendments of the General Taxation and Procedural Law which become effective on January 1, 2008, the Tax Office may assess or amend taxes within 5 years from the date the tax becomes payable, while for fiscal year 2008 and earlier, the tax can be assessed at the latest by the end of 2014.

- h. Corporate income tax rate

On March 31, 2020, the President of the Republic of Indonesia signed Perpu No. 1/2020 regarding "State Financial Policy and Financial System Stability of Handling *Corona Virus Disease* 2019 (Covid-19) and/or in Order to Face Threats to Harm the National Economy and/or Financial System Stability", which regulates the adjustment of corporate income tax rate as follows:

- 22% effective starting Fiscal Year 2020 and 2021;
- 20% effective starting Fiscal Year 2022; and
- Resident publicly-listed companies in Indonesia whose at least 40% or more of the total paid-up shares or other equity instruments are listed for trading in the Indonesia stock exchanges and meet certain requirements in accordance with the government regulations, can earn a tariff of 3% lower than tariff as stated in point a and b above.

The Company does not apply the said reduction of tax rates in the computation of corporate income tax as disclosed in point c above since it cannot fulfill all the requirements set forth therein. Thus, the Company has applied as single tax rate as disclosed in point a above for the fiscal year 2020 of 22% (2019: 25%).

**38. NILAI WAJAR DARI INSTRUMEN KEUANGAN  
(lanjutan)**

Pada tanggal 31 Desember 2020 dan 2019, nilai tercatat instrumen keuangan yang disajikan dalam laporan posisi keuangan konsolidasian kurang lebih sebesar nilai wajarnya sebagai berikut: (lanjutan)

- **Investasi pada saham**  
Nilai wajar investasi pada saham ditentukan dengan menggunakan pendekatan pendapatan (*income approach*) berdasarkan metode arus kas terdiskonto selama masing-masing 10 tahun dan 5 tahun, ditambah nilai terminal setelah periode tersebut.
- **Utang obligasi**  
Utang obligasi disajikan dalam biaya perolehan diamortisasi dengan menggunakan metode SBE. Biaya perolehan diamortisasi ditentukan dengan memperhitungkan diskonto atau premi atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE.

**Hierarki Nilai Wajar**

Aset dan liabilitas keuangan diklasifikasikan secara keseluruhan berdasarkan tingkat terendah dari masukan (*input*) yang signifikan terhadap pengukuran nilai wajar. Penilaian dampak signifikan dari suatu *input* tertentu terhadap pengukuran nilai wajar membutuhkan pertimbangan dan dapat mempengaruhi penilaian dari aset dan liabilitas yang diukur dan penempatannya dalam hierarki nilai wajar.

Bukti terbaik dari nilai wajar adalah harga yang dikuotasikan (*quoted prices*) dalam sebuah pasar yang aktif. Jika pasar untuk sebuah instrumen keuangan tidak aktif, entitas menetapkan nilai wajar dengan menggunakan metode penilaian. Tujuan dari penggunaan metode penilaian adalah untuk menetapkan harga transaksi yang terbentuk pada tanggal pengukuran dalam sebuah transaksi pertukaran yang wajar dengan pertimbangan bisnis normal.

Metode penilaian termasuk penggunaan harga dalam transaksi pasar yang wajar (*arm's length*) terakhir antara pihak-pihak yang memahami dan berkeinginan, jika tersedia, referensi kepada nilai wajar terkini dari instrumen lain yang secara substansial sama, analisa arus kas yang didiskontokan.

**38. FAIR VALUE OF FINANCIAL INSTRUMENTS  
(continued)**

As of December 31, 2020 and 2019, the carrying values of financial instruments presented in the consolidated statement of financial position approximate their fair value as follows: (continued)

- **Investment in shares**  
The fair value of investment in shares was estimated using income approach based on discounted cash flows for 10 years and 5 years, respectively, plus terminal value after the forecast period.
- **Bonds payable**  
The bonds payable are carried at amortized costs using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the EIR.

**Fair Value Hierarchy**

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The assessment of the significance of a particular input to the fair value measurements requires judgement, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis.

**Hierarki Nilai Wajar (lanjutan)**

Jika terdapat metode penilaian yang biasa digunakan oleh para peserta pasar untuk menentukan harga dari instrumen dan metode tersebut telah didemonstrasikan untuk menyediakan estimasi yang andal atas harga yang diperoleh dari transaksi pasar yang aktual, entitas harus menggunakan metode tersebut. Metode penilaian yang dipilih membuat penggunaan maksimum dari input pasar dan bergantung sedikit mungkin atas input yang spesifik untuk entitas (*entity-specific input*). Metode tersebut memperhitungkan semua faktor yang akan dipertimbangkan oleh peserta pasar dalam menentukan sebuah harga dan selaras dengan metode ekonomis untuk penilaian sebuah instrumen keuangan.

Secara berkala, Kelompok Usaha menelaah metode penilaian dan mengujinya untuk validitas dengan menggunakan harga dari transaksi pasar terkini yang dapat diobservasi untuk instrumen yang sama (yaitu tanpa modifikasi dan pengemasan kembali) atau berdasarkan data pasar yang tersedia dan dapat diobservasi.

Hierarki nilai wajar Kelompok Usaha pada tanggal 31 Desember 2020 dan 2019 adalah sebagai berikut:

**Fair Value Hierarchy (continued)**

If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.

Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on any available observable market data.

The Group's fair values hierarchy as of December 31, 2020 and 2019 is as follows:

**39. TUJUAN DAN KEBIJAKAN MANAJEMEN  
RISIKO KEUANGAN**

**a. Manajemen Risiko**

Risiko utama dari instrumen keuangan Kelompok Usaha adalah risiko kredit, risiko likuiditas, risiko pasar (termasuk risiko nilai tukar mata uang asing dan risiko harga komoditas) dan risiko suku bunga. Penelaahan Direksi dan kebijakan yang disetujui untuk mengelola risiko-risiko dirangkum sebagai berikut:

**Risiko Kredit**

Risiko kredit timbul sebagai akibat dari penjualan produk kepada pelanggan. Kelompok Usaha mengelola dan mengendalikan risiko ini dengan menetapkan batasan risiko yang dapat diterima dan memantau eksposur terkait dengan batasan-batasan tersebut.

Risiko kredit adalah risiko bahwa Kelompok Usaha akan mengalami kerugian yang timbul dari pelanggan, klien atau pihak lawan yang gagal memenuhi kewajiban kontraktual mereka. Tidak ada risiko kredit yang terpusat secara signifikan.

Kelompok Usaha menetapkan sejumlah kebijakan sebelum memberikan kredit kepada pelanggan baru, antara lain dengan melakukan survei atas pelanggan tersebut dan memberikan kredit limit yang terbatas. Kesepakatan dengan pelanggan ini dituangkan dalam suatu surat yang disebut KUL (Kondisi Untuk Langgan) dan Surat Perjanjian Jual Beli. Kelompok Usaha juga menetapkan kebijakan jangka waktu kredit yang relatif pendek, yaitu 30 sampai dengan 60 hari. Peningkatan kredit limit dan perpanjangan jangka waktu kredit akan diberikan setelah melalui proses verifikasi. Atas piutang yang telah jatuh tempo, akan dipantau secara terus menerus dan sedapat mungkin akan dimintakan jaminan dan menghentikan penyaluran kredit kepada pelanggan tersebut dan hanya melakukan transaksi penjualan secara kas. Tergantung pada penilaian Kelompok Usaha, cadangan khusus mungkin dibuat jika piutang dianggap tidak tertagih.

Dalam mengelola risiko likuiditas, manajemen selalu menjaga tingkat kas dan setara kas yang dianggap memadai untuk membiayai operasional Kelompok Usaha, sedangkan untuk mengatasi dampak dari fluktuasi arus kas, diatasi dengan ketersediaan fasilitas utang bank.

Kelompok Usaha secara rutin mengevaluasi proyeksi arus kas termasuk jadwal jatuh tempo jangka panjang dan terus menelaah kondisi pasar keuangan untuk inisiasi penggalangan dana baik melalui pinjaman bank maupun pasar modal.

AND POLICIES (continued)**

**a. Risk Management (continued)**

**Credit Risk (continued)**

The following table sets out the Group's credit risk based on evaluation of impairment as of December 31, 2020 and 2019:

**Liquidity Risk**

Liquidity risk is the risk that occurs when the cash flows position indicates that short-term revenue is insufficient to cover short-term expenditure.

The liquidity requirements of the Group have historically arisen from the need for investment funding and capital expenditure, while operational expenses can be met from the Group's cash flows. In handling liquidity risk, management always maintains cash and cash equivalents at adequate levels to finance the operations of the Group, while the effects of cash flow fluctuation can be overcome by the availability of bank loan facilities.

The Group evaluates its cash flow projections regularly including the long-term maturity schedule and continuously assesses the condition of financial markets for opportunities to pursue fund raising initiatives, either through bank loans or the capital market.

Selain itu Kelompok Usaha juga berencana untuk meminta perpanjangan atas fasilitas utang bank jangka pendek ketika jangka waktu fasilitas tersebut telah habis.

Berdasarkan proyeksi keuangan yang disiapkan oleh Kelompok Usaha, Kelompok Usaha mengasumsikan proposal restrukturisasi telah disetujui oleh pemegang obligasi, mendapatkan pembiayaan untuk melaksanakan restrukturisasi utang obligasi serta mendapatkan persetujuan perpanjangan kembali atas kewajiban utang bank jangka pendek. Keberhasilan mendapatkan persetujuan pemegang obligasi atas proposal restrukturisasi, mendapatkan pembiayaan untuk pelaksanaan restrukturisasi utang obligasi serta persetujuan perpanjangan kembali atas kewajiban utang bank jangka pendek akan mempengaruhi kemampuan Kelompok Usaha untuk memenuhi kewajibannya.

Sampai dengan tanggal laporan keuangan konsolidasian ini diselesaikan dan diotorisasi untuk diterbitkan, Kelompok Usaha masih dalam proses penyelesaian dan pembiayaan untuk restrukturisasi utang obligasi tersebut. Kelompok Usaha juga perlu untuk memperpanjang jangka waktu fasilitas utang bank jangka pendeknya ketika telah habis sesuai dengan proyeksi keuangan yang telah disiapkan.

Oleh karena Kelompok Usaha belum dapat melaksanakan semua aksi dan rencana tersebut diatas akibat adanya beberapa faktor yang berada diluar kuasa Kelompok Usaha, hal-hal ini dapat mempengaruhi secara signifikan kondisi keuangan dan kinerja Kelompok Usaha, sehingga mengindikasikan adanya suatu ketidakpastian material yang dapat menyebabkan keraguan signifikan atas kemampuan Kelompok Usaha untuk mempertahankan kelangsungan usahanya.

**41. GOING CONCERN (continued)**

*The Group have received waivers from Indonesia Eximbank, Bank Niaga, DBS and QNB for the non-compliance with the required financial ratios as of December 31, 2020 and also has obtained approvals on extension of its short-term bank loans, as disclosed in Note 45a. In relation with the abovementioned matter, the Group plans to request waiver from banks in case the Group is not able to comply with the required financial ratios and covenants as stated in the bank loan agreements in the future. Further, the Group also plans to obtain extension on its short-term bank loans when they fall due.*

*Based on the financial projection prepared by the Group, the Group assumed that the restructuring proposal will be approved by the bondholders, will be able to obtain financing for the bond payable restructuring, and will be able to obtain approval for extension of its short-term bank loans. The success of obtaining approvals from the bondholders on the restructuring proposal, obtaining financing for the bond payables restructuring, and extension on its short-term bank loans will affect the Group's ability to fulfill its obligation.*

*As of the date the consolidated financial statements were completed and authorized for issuance, the Group is still in the process for completion and financing for the bonds payables restructuring. The Group will also need to further extend its short-term bank loan facilities when they fall due in accordance with its prepared financial projection.*

*Since the Group has not been able to execute all of the above actions and plans due to several factors which are beyond its control, these matters may significantly affect the Group's financial conditions and performance and therefore, indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.*

DITERBITKAN NAMUN BELUM BERLAKU  
EFEKTIF**

Berikut ini adalah beberapa standar akuntansi yang telah disahkan oleh DSAK yang dipandang relevan terhadap pelaporan keuangan Kelompok Usaha namun belum berlaku efektif untuk laporan keuangan tahun 2020:

**Mulai efektif pada atau setelah 1 Januari 2021**

Amandemen PSAK 22: Definisi Bisnis

Amandemen PSAK 22 Kombinasi Bisnis menjelaskan bahwa untuk dianggap sebagai suatu bisnis, rangkaian aktivitas dan aset yang terintegrasi harus mencakup, minimal, suatu *input* dan proses substantif yang, bersama-sama, secara signifikan berkontribusi pada kemampuan untuk menghasilkan *output*. Lebih jauh, ini menjelaskan bahwa bisnis dapat eksis tanpa menyertakan semua *input* dan proses yang diperlukan untuk menciptakan *output*.

Amandemen PSAK 71: Instrumen Keuangan,  
Amandemen PSAK 55: Instrumen Keuangan:  
Pengakuan dan Pengukuran, Amandemen PSAK  
60: Instrumen Keuangan: Pengungkapan,  
Amandemen PSAK 62: Kontrak Asuransi dan  
Amandemen PSAK 73: Sewa tentang Reformasi  
Acuan Suku Bunga - Tahap 2

Amandemen PSAK 71, Amandemen PSAK 55, Amandemen PSAK 60, Amandemen PSAK 62 dan Amandemen PSAK 73 tentang Reformasi Acuan Suku Bunga - Tahap 2 diadopsi dari IFRS tentang Reformasi Acuan Suku Bunga - Tahap 2.

Reformasi acuan suku bunga tersebut mengacu pada reformasi global yang menyepakati penggantian IBOR dengan acuan suku bunga alternatif. Adapun isu akuntansi yang timbul dari penggantian IBOR dibagi menjadi dua tahap yaitu:

1. Tahap 1 (*pre-replacement issues*)

Merupakan isu atas ketidakpastian yang muncul menjelang periode transisi yang mempengaruhi pelaporan keuangan pada periode sebelum penggantian acuan suku bunga. Untuk mengatasi isu tersebut IASB telah mengeluarkan Amandemen Reformasi Acuan Suku Bunga dalam IFRS 9, IAS 39 and IFRS 7 pada tahun 2019 yang telah diadopsi dan disahkan oleh DSAK IAI menjadi Amandemen PSAK 71: Instrumen Keuangan, Amandemen PSAK 55: Instrumen Keuangan: Pengakuan dan Pengukuran dan Amandemen PSAK 60: Instrumen Keuangan: Pengungkapan tentang Reformasi Acuan Suku Bunga.

**Effective beginning on or after January 1, 2021**

Amendments to PSAK 22: Definition of a Business

The amendment to PSAK 22 Business Combinations clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs.

Amendments to PSAK 71: Financial Instruments,  
Amendments to PSAK 55: Financial Instruments:  
Recognition and Measurement, Amendments to  
PSAK 60: Financial Instruments: Disclosures,

Is an issue of uncertainty that arises before the transition period that affects financial reporting in the period before the replacement of the reference interest rate. To overcome this issue the IASB has issued Interest Rate Benchmark Reform Amendments to IFRS 9, IAS 39 and IFRS 7 in 2019 which have been adopted and ratified by DSAK IAI to become Amendments to PSAK 71: Financial Instruments, Amendments to PSAK 55: Financial Instruments: Recognition and Measurement and Amendments to PSAK 60: Financial Instruments: Disclosures on Interest Rate Reference Reforms.

Amandemen PSAK 1: Penyajian Laporan Keuangan tentang Klasifikasi Liabilitas sebagai Jangka Pendek atau Jangka Panjang efektif 1 Januari 2023, dan penerapan lebih awal diizinkan

Amandemen menentukan persyaratan untuk mengklasifikasikan kewajiban sebagai lancar atau tidak lancar. Amandemen tersebut menjelaskan:

- Apa yang dimaksud dengan hak untuk menunda penyelesaian
- Bahwa hak untuk menunda harus ada pada akhir periode pelaporan
- Klasifikasi tersebut tidak terpengaruh oleh kemungkinan bahwa entitas akan menggunakan hak penangguhannya
- Bahwa hanya jika derivatif melekat dalam liabilitas konversi itu sendiri merupakan instrumen ekuitas, ketentuan liabilitas tidak akan memengaruhi klasifikasinya

Amandemen tersebut berlaku efektif untuk periode pelaporan tahunan yang dimulai pada atau setelah 1 Januari 2023 dan harus diterapkan secara retrospektif. Kelompok Usaha saat ini sedang menilai dampak amandemen terhadap praktik saat ini dan apakah perjanjian pinjaman yang ada mungkin memerlukan negosiasi ulang.

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.
