**Scheme Creditors:** This Scheme Document is being sent to Persons who are believed to be Scheme Creditors at the date of this Scheme Document. Scheme Creditors include Persons who hold an economic or beneficial interest as principal in the Existing Notes at the Record Time (collectively, “**Noteholders**”). This Scheme Document is accompanied by an Account Holder Letter, which contains, among other things, voting instructions and elections. It is important that you read this Scheme Document carefully for information about the Scheme and that Noteholders contact their Account Holder to ensure that an Account Holder Letter is completed and returned on their behalf.

**Transfers of Notes:** If you have assigned, sold or otherwise transferred, or assign, sell or otherwise transfer, all of your interests as Scheme Creditor before the Record Time, the Scheme Company requests that you forward a copy of this Scheme Document to the Person or Persons to whom you have assigned, sold or otherwise transferred, or to whom you assign, sell or otherwise transfer, such interests. Thereafter, you need not take any further action with respect to this Scheme Document.

If you have only partially assigned, sold or otherwise transferred such interests, or partially assign, sell or otherwise transfer such interests before the Record Time, the Scheme Company requests that you: (i) read this Scheme Document carefully; (ii) forward a copy of this Scheme Document to the Person or Persons to whom you have assigned, sold or transferred, or to whom you assign, sell or otherwise transfer, such partial interests; and (iii) take such steps as you consider appropriate following consideration of the matters described in this Scheme Document. Copies of this Scheme Document are available from the Information Agent.

**A transferee of an economic or beneficial interest in the Existing Notes after the Record Time will not be entitled to vote at the Scheme Meeting and any such transferee will need to make arrangements with the Person who held such interest at the Record Time to ensure that such Person votes in accordance with the wishes of the transferee.**

A transferee of an economic, beneficial or other proprietary interest in the Existing Notes after the Record Time will, however, be bound by the terms of the Scheme in the event that it becomes effective and any Existing Notes to which such transferee is entitled will be cancelled in accordance with the terms of the Scheme.

**Record Time:** The Record Time for the Scheme will be 5.00 p.m. (Singapore time) on 6 August 2021.

**Scheme Meeting:** A meeting of Scheme Creditors to consider and, if thought fit, approve the Scheme will be held on 11 August 2021, commencing at 10 a.m. (Singapore time) by way of electronic means via the tele and video-conferencing application Zoom. The notice of the Scheme Meeting is set out at Appendix 3. Instructions about actions to be taken by Scheme Creditors prior to the Scheme Meeting are set out in Appendix 1. In the event that the Scheme is approved by the requisite majorities of Scheme Creditors, the Court must then sanction the Scheme at a hearing and an office copy of the order of the Court must be delivered to ACRA in order for the Scheme to become legally binding. All Scheme Creditors will be entitled to attend such hearing before the Court in person or through legal representatives to support or oppose the sanction of the Scheme. It is expected that such sanction hearing will be held in the month of August 2021. The Scheme Company will notify Scheme Creditors of the precise date and location of the sanction hearing (once known) by circulating a notice via the Clearing Systems and by posting a notice on the Information Agent’s website at <https://lynchpinbm.com/bo2021-landing>.

**Reliance:** This Scheme Document has been prepared in connection with a proposed scheme of arrangement under Section 210 of the Act to be made between the Scheme Company and Scheme Creditors. Nothing in this Scheme Document or any other document issued with or appended to it should be relied on for any purpose other than to make a decision about whether to vote in favour of or against the Scheme. In particular and without limitation, nothing contained in this Scheme Document or any other document issued with or appended to it should be relied on in connection with the purchase of any shares, bonds, notes or assets of, or the making of any investment in, any member of the Group.

**Information:** The Scheme Company and the Parent have taken all reasonable steps to ensure that the Scheme Document contains all information reasonably necessary to enable Scheme Creditors to make an informed decision about the effect of the Scheme. To the best of the knowledge and belief of the Scheme Company and the Parent, the information contained in this Scheme Document accords with the facts and does not omit anything likely to affect the importance of such information.

**Date of Statements:** The statements contained in this Scheme Document are made as at the date of this Scheme Document, unless another time is specified in relation to them. Delivery of this Scheme Document shall not give rise to any implication that there has been no change in the facts set out in this Scheme Document since that date. Any material variation of facts will be notified to Scheme Creditors by the Scheme Company prior to the Scheme Meeting.

**No Opinion:** In accordance with normal practice, none of the Scheme Company, the Parent, any other member of the Group, the Existing Trustee or the Information Agent and their respective financial or legal advisers has expressed any opinion as to the merits of the Scheme or with respect to the effect of the Scheme, except as otherwise expressly stated in this Scheme Document.

**Qualified by Reference:** The summary of the principal provisions of the Scheme contained in this Scheme Document is qualified in its entirety by reference to the Scheme. Each Scheme Creditor is advised to read and consider carefully the text of the Scheme in full. The remainder of this Scheme Document and, in particular, the Explanatory Statement (including the Information Memorandum), has been prepared solely to assist Scheme Creditors in respect of voting on the Scheme.

**Class of Creditors:** Scheme Creditors constitute a single class of creditors of the Scheme Company and not the general body of creditors of the Scheme Company as a whole.

**Risk Factors:** There are many factors beyond the control of the Scheme Company and the Parent which may impact upon the Scheme. Scheme Creditors are referred to the information under the heading "Risk Factors" set out in the Information Memorandum.

**Professional Advice:** Scheme Creditors should not construe the contents of this Scheme Document as legal, tax or financial advice, and should consult with their own professional adviser as to each of the matters described in this Scheme Document.

## 2. SECURITIES LAW CONSIDERATIONS

**Investment Decision:** In making any investment decision, Scheme Creditors must rely on their own independent examination of the Scheme in order to satisfy themselves as to the relative merits and risks involved. No federal or state securities commission or other regulatory authority in the United States of America, the Republic of Singapore or any other jurisdiction has confirmed the accuracy or determined the adequacy of this Scheme Document. Any representation or statement to the contrary is a criminal offence.

**Election to be a Rolling Noteholder:** Distribution of this Scheme Document to persons resident in certain jurisdictions will be subject to the limitations described in Appendix 2. In connection with these limitations, each Noteholder will be required to submit a duly completed Account Holder Letter and affirmatively make the appropriate Securities Law Representations in order to be a Rolling Noteholder (should they elect to be a Rolling Noteholder).

The Securities Law Representations may be provided by Noteholders through their Account Holders by way of an Account Holder Letter. If a duly completed Account Holder Letter is not submitted or the appropriate Securities Law Representations are not affirmatively made by either a Noteholder or its Account Holder, such Noteholder cannot elect to be a Rolling Noteholder and will be deemed to be a Tendering Noteholder and receive cash in an amount equal to the Existing Notes Tender Offer Amount on the Settlement Date in exchange for their Existing Notes.

**Securities Law Restrictions:** Noteholders are strongly advised to consult their professional advisers as to whether any laws or regulations which may be applicable to them may give rise to any liability or penalty, or require them to obtain any governmental or other consents or to pay any taxes or duties, as a result of the implementation of the Scheme. None of the Scheme Company, the Parent, any other member of the Group, the Existing Trustee, the Existing Depository, the Information Agent, their respective directors or any other party accepts any responsibility for any liabilities (including but not limited to consequential liabilities) or regulatory, civil or criminal sanctions or penalties incurred by the Scheme Creditors as a result of the implementation of the Scheme in respect of laws or regulations applicable to them.

**IMPORTANT INSTRUCTIONS FOR  
NOTEHOLDERS, ACCOUNT HOLDERS AND INTERMEDIARIES**

You have been sent this Scheme Document because you are thought to be a Scheme Creditor. For the purposes of the Scheme, you will be a Scheme Creditor if (*inter alia*) you have an economic or beneficial interest as principal in the Existing Notes held in global form by a Depositary for the Clearing Systems at the Record Time (being 5.00 p.m. (Singapore time) on 6 August 2021).

Please determine whether you are a Noteholder, an Account Holder or an Intermediary in respect of an interest or interests in the Existing Notes. You may fall within more than one of these capacities depending on the circumstances applying to you. A diagrammatic representation of each of these various capacities is set out on the following page to assist your understanding of the structure of the Existing Notes and the Clearing Systems.

**1. NOTEHOLDER**

You are a Noteholder if you hold or, as the case may be, held an economic or beneficial interest as principal in Existing Notes through the Clearing Systems at the Record Time. Examples of Noteholders include, but are not limited to:

- (a) a Person who holds such an interest for his own account;
- (b) a trustee who is holding such an interest as part of the assets of the trust which he administers; and
- (c) an executor or personal representative where the estate of the deceased contains such an interest which was held for the deceased's own account.

If you are a Noteholder, please read this Scheme Document carefully and follow the instructions set out in Appendix 1.

**2. ACCOUNT HOLDER**

You are an Account Holder in respect of an interest in the Existing Notes held through the Clearing Systems if you are recorded as holding a book-entry interest in the Existing Notes in an account with any of the Clearing Systems or, as the context requires, are or were recorded as holding such an interest in such account at the Record Time. Account Holders consist of those Persons holding securities accounts with Euroclear and/or Clearstream.

If you are an Account Holder, you should promptly forward a copy of this Scheme Document to all Persons on whose behalf you hold an interest in the Existing Notes.

**3. INTERMEDIARY**

You are an Intermediary if you hold an interest in the Existing Notes on behalf of another Person or, as the context requires, if you hold or held such an interest at the Record Time, and in either case you are not or (as appropriate) were not an Account Holder in respect of that interest. Examples of Intermediaries are stockbrokers, investment managers and nominee companies.

If you are an Intermediary, you should promptly forward a copy of this Scheme Document to all Persons on whose behalf you hold an interest in the Existing Notes.

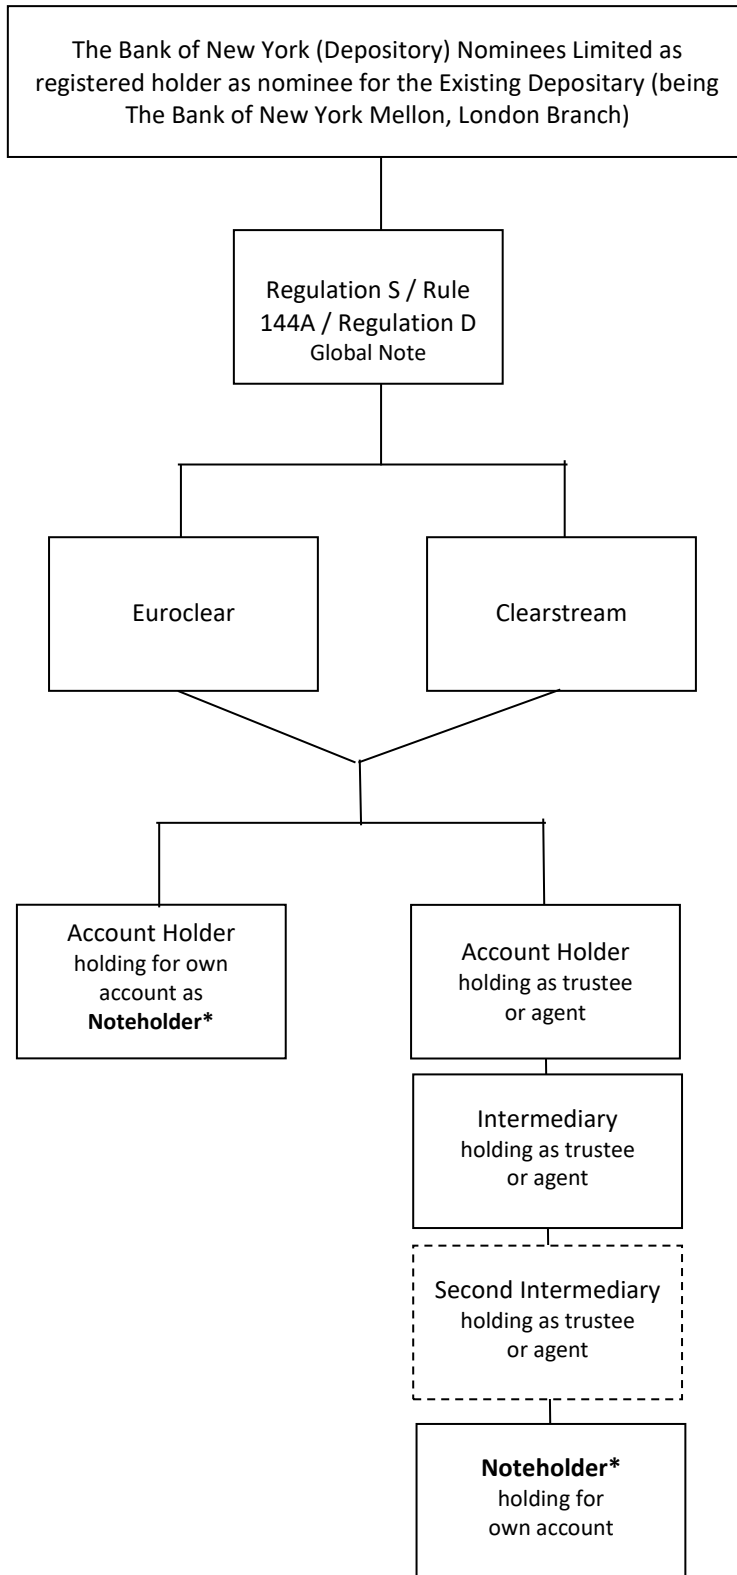

---

**4. TRUSTEE**

Madison Pacific Trust Limited (in its capacity as Existing Trustee for the Existing Notes), The Bank of New York (Depository) Nominees Limited (in its capacity as nominee for The Bank of New York Mellon, London Branch) and The Bank of New York Mellon, London Branch (in its capacity as Existing Depository) have been directed by the Court not to, and accordingly will not, vote in respect of the Existing Notes at the Scheme Meeting to avoid double counting of votes.

## QUESTIONS AND ANSWERS

To assist Noteholders in making a decision to vote either in favour of or against the Scheme, the following Questions and Answers have been prepared. Reading these Questions and Answers is not a substitute for reading the whole of the Scheme Document in full. Capitalised words and phrases used in these Questions and Answers have the meaning provided at pages 4 to 5 of this Scheme Document.

### **What is the purpose of the Scheme Document?**

The purpose is to present information relating to the Scheme, to satisfy the requirements of the Act and applicable securities laws and to enable Noteholders to make an informed decision about the Scheme. The Scheme Document also sets out the expected timetable for implementation of the Scheme.

### **What is a scheme of arrangement?**

A scheme of arrangement is a compromise or arrangement between a company and its creditors (or a class of them) pursuant to Section 210 of the Act. To become legally binding such arrangements must be sanctioned by the Court, and, in addition:

- a simple majority in number (unless the Court orders otherwise) of Scheme Creditors present and voting at the Scheme Meeting in person or by proxy (hereafter, a '**majority in number**'), representing at least three fourths in value of the Scheme Claims of the Scheme Creditors present and voting at the Scheme Meeting in person or by proxy (hereafter, a '**majority in value**') must vote in favour of the Scheme at the Scheme Meeting;
- each and every condition specified by the terms of the arrangement must be satisfied in accordance with the terms of the arrangement; and
- an office copy of the order of the Court sanctioning such arrangement must be lodged with ACRA for registration.

Only if each of these requirements is satisfied will the Scheme become legally binding (as a matter of Singapore law) on: (i) the Scheme Company; and (ii) all Scheme Creditors, regardless of whether such Scheme Creditors attended or voted (in favour or against) or did not vote on the Scheme at the Scheme Meeting.

### **When is a scheme of arrangement used?**

A scheme of arrangement is frequently used as a means of implementing a financial restructuring and as an alternative to the commencement of Insolvency Proceedings.

### **What is the objective of implementing the Scheme?**

The objective of the Scheme is to implement an arrangement and compromise between the Scheme Company and the Scheme Creditors in respect of the Existing Notes, so as to create more favourable trading conditions for the Group to continue to carry on business as a going concern.

### **What arrangement and compromise does the Scheme seek to implement?**

If the Scheme becomes effective, the Existing Notes will be cancelled and discharged in exchange for cash (if a Noteholder elects to be a Tendering Noteholder) or deemed commitments under a Singapore-law governed New Facility Agreement (if a Noteholder elects to be a Rolling Noteholder) on the terms set out in the New Facility Agreement (and summarised in the Description of the New Facility Agreement).

---

## **What will Noteholders receive under the Scheme?**

A Noteholder who elects to be a Tendering Noteholder (and tender all of its Existing Notes in the Existing Notes Tender Offer) will be entitled to receive cash in an amount equal to its Existing Notes Tender Offer Amount on the Settlement Date. Its Existing Notes Tender Offer Amount will be calculated by multiplying the Existing Notes Tender Offer Price (being US\$0.20 or such higher price as may be agreed between the Parent and the Arrangers) and the Outstanding Principal Amount of Existing Notes held by that Tendering Noteholder.

A Noteholder who elects to be a Rolling Noteholder (and exchange all of its Existing Notes in the Existing Notes Exchange Offer) will be deemed to have committed a senior facility A loan in an amount equal to the Rolled Commitment under a Singapore law governed New Facility Agreement. The Rolled Commitment of a Rolling Noteholder will be calculated by multiplying the Exchange Offer Price and the Outstanding Principal Amount of Existing Notes held by that Rolling Noteholder. The Exchange Offer Price ranges from US\$0.35 to US\$0.40 and will be determined based on the proportion of holders who elect to participate in the Existing Notes Exchange Offer. Specifically, the Exchange Offer Price will be:

- (a) US\$0.40, if holders of less than 50% of the Outstanding Principal Amount of the Existing Notes participate in the Existing Notes Exchange Offer;
- (b) US\$0.37, if holders of less than 75% but more than or equal to 50% of the Outstanding Principal Amount of the Existing Notes participate in the Existing Notes Exchange Offer; and
- (c) US\$0.35, if all holders or holders of less than 100% but more than or equal to 75% of the Outstanding Principal Amount of the Existing Notes participate in the Existing Notes Exchange Offer.

In addition, Eligible Consenting Creditors will be entitled to a Consent Fee.

## **If I elect to be a Tendering Noteholder, how do I receive my Existing Notes Tender Offer Amount?**

The Existing Notes Tender Offer Amounts will be transferred to each Tendering Noteholder via the Clearing System account in which that Tendering Noteholder holds its Existing Notes.

## **If I elect to be a Rolling Noteholder, how do I receive my Rolled Commitments?**

The Rolled Commitments will be calculated as soon as reasonably practicable after the Scheme Meeting and Rolling Noteholders will be informed of their Rolled Commitments on the Effective Date. The Rolled Commitment of each Rolling Noteholder will be set out in Part II of Schedule 1 to the New Facility Agreement beside that Rolling Noteholder's name.

A Noteholder who elects to be a Rolling Noteholder must also, by the date of the sanction hearing in respect of the Scheme, supply or procure the supply of, all KYC Documentation. A Noteholder who elects to be a Rolling Noteholder but fails to comply with the New Agent's "know your customer" or similar checks by the date of the sanction hearing in respect of the Scheme will be deemed to be a Tendering Noteholder.

By the date falling one week after the Effective Date, the Scheme Company shall send the execution version of the New Facility Agreement to each Rolling Noteholder together with signing instructions for that Rolling Noteholder. If the Scheme Company does not receive duly signed signature pages from a Rolling Noteholder in accordance with and by the deadline set out in such signing instructions, the Scheme Company will exercise the authority and power granted and conferred on the Scheme Company under Clause 10.3 of the Scheme (which will only take effect on the Effective Date if, among other things, the Scheme is sanctioned by the Court) and enter into, execute and deliver the New Facility Agreement on behalf of that Rolling Noteholder on the Settlement Date.

## **Who is eligible to participate in the Scheme?**

Noteholders who submit a duly completed Account Holder Letter and make affirmative Securities Law Representations may participate in the Scheme. Any Noteholder who does not submit a duly completed Account

---

Holder Letter in respect of its Scheme Claims to the Information Agent on or prior to the Scheme Meeting or cannot make affirmative Securities Law Representations, will be deemed to be a Tendering Noteholder.

Tendering Noteholders will receive an amount in cash equal to the Existing Notes Tender Offer Amount on the Settlement Date in exchange for their Existing Notes.

#### **Who is entitled to an Early Bird Consent Fee?**

Each Eligible Consenting Creditor who:

- became a party to the RSA as a “Consenting Creditor” prior to 5:00 p.m. (Singapore time) on 1 June 2021;
- tendered the Requisite MEBs in connection with the MEB Tender Offer; and
- votes in favour of the Scheme at the Scheme Meeting in accordance with the Scheme Document;

will be entitled to an Early Bird Consent Fee. The Early Bird Consent Fee will be transferred to the relevant Eligible Consenting Creditor via the Clearing System account in which that Eligible Consenting Creditor holds its Existing Notes.

With respect to a Consenting Creditor, its Requisite MEBs means such number of MEBs equal to the lower of: (I) all MEBs held or controlled by it as of 5:00 p.m. (Singapore time) on 1 June 2021; and (II) such number of MEBs equal to the Outstanding Principal Amount of Existing Notes held by that Consenting Creditor divided by US\$100,000, multiplied by 55 and rounded down to the nearest MEB. The MEB Tender Offer will be made by the Scheme Company on or around the date of this Scheme Document.

#### **Who is entitled to a Regular Consent Fee?**

Each Eligible Consenting Creditor who:

- became a party to the RSA as a “Consenting Creditor” prior to 5:00 p.m. (Singapore time) on 27 June 2021; and
- votes in favour of the Scheme at the Scheme Meeting in accordance with the Scheme Document;

will be entitled to a Regular Consent Fee. The Regular Consent Fee will be transferred to the relevant Eligible Consenting Creditor via the Clearing System account in which that Eligible Consenting Creditor holds its Existing Notes.

#### **What are the Conditions and what is their relevance to the Effective Date?**

The Conditions to the Scheme are set out in full at Chapter 4 of the Scheme. The Effective Date of the Scheme only arises once each of the Conditions has been satisfied. The Scheme Company will issue the Completion Notice to the Information Agent (which will circulate the Completion Notice to the Existing Trustee and within the Clearing Systems for the benefit of Scheme Creditors) upon the satisfaction of the Conditions. The Completion Notice will specify the Effective Date of the Scheme and the Settlement Date.

#### **What happens if the Conditions are not satisfied?**

The Scheme will not become effective. If the Scheme is not implemented, significant doubt will be cast on the ability of the Scheme Company and/or the Parent to continue to carry on business as a going concern.

#### **What is the position of the Board with regard to the Scheme?**

The Board, having considered the terms of the Scheme, the opinions expressed by the Financial Adviser, and advice from appropriate legal and financial advisers, considers that the Scheme is in the best interests of the Scheme Company and its shareholders and creditors as a whole. Based on the foregoing, the Board recommends that Scheme Creditors vote in favour of the Scheme at the Scheme Meeting.

---

## **Who is a Scheme Creditor?**

You are a Scheme Creditor if you are a creditor of the Scheme Company in respect of a Scheme Claim. If you hold (or held) an economic or beneficial interest as principal in the Existing Notes at the Record Time, you will be a Scheme Creditor in your capacity as a Noteholder. Noteholders will be entitled to attend and vote in person or by proxy at the Scheme Meeting.

## **How is the majority for the Scheme calculated?**

The Noteholders attending and voting at the Scheme Meeting (in person or by proxy) will be counted for the 'majority in number' requirement, and the Scheme Claims of Noteholders attending and voting at the Scheme Meeting (in person or by proxy) will be counted for the 'majority in value' requirement.

## **I am a Noteholder. How do I cast a vote?**

If you wish to vote at the Scheme Meeting, you should contact your Account Holder (or any Intermediary through which you hold your interest in the Existing Notes) to ensure that an Account Holder Letter is completed on your behalf and submitted to the Information Agent prior to the Record Time.

Before submitting your Account Holder Letter to the Information Agent, your Account Holder should submit Blocking Instructions in respect of your holding in the Existing Notes to Euroclear or Clearstream (as applicable). The Blocking Instruction reference number should be listed in Part 2 of your Account Holder Letter.

Please give ample time to allow your Account Holder and/or Intermediary to process your instructions and submit an Account Holder Letter on your behalf. To ensure timely submission of your Account Holder Letter, please check with your Account Holder for clarification as to the processing time required and deliver the appropriate materials well before that time.

Please note that the Clearing System through which your interest in the Existing Notes is held may impose an earlier deadline for the submission of Blocking Instructions and/or Account Holder Letters. To ensure timely submission of your Blocking Instructions and Account Holder Letter, please ask your Account Holder to check with the relevant Clearing System as to whether any earlier deadline is applicable and ensure your Blocking Instructions and Account Holder Letter are submitted well before any applicable deadlines.

Any Noteholder that fails to submit a duly completed Account Holder Letter in respect of its Scheme Claims to the Information Agent or who fails to make affirmative Securities Law Representations to the Scheme Company prior to the Record Time will not be entitled to vote at the Scheme Meeting. Such Noteholder will, however, be bound by the terms of the Scheme in the event that it becomes effective, and any Existing Notes held by such Noteholder will be cancelled on the Settlement Date in accordance with the terms of the Scheme. Such Noteholders are advised to refer to paragraph 2.5 of the Explanatory Statement for details of how they may nonetheless elect to be either a Rolling Noteholder or a Tendering Noteholder.

## **What are Blocking Instructions and why are they necessary?**

Blocking Instructions are irrevocable instructions which prevent transfers of the Existing Notes until the Settlement Date. These restrictions are necessary to prevent the same holding of Notes being voted more than once.

Blocking Instructions and the undertakings by the Account Holders not to transfer the Existing Notes will be irrevocable after the Record Time unless and until:

- (a) the Scheme is not approved by the requisite statutory majorities at the Scheme Meeting, is withdrawn or is terminated in accordance with its terms;
- (b) the Scheme is not sanctioned by the Court at the hearing scheduled for this purpose (or any adjournment thereof); or

---

(c) the Effective Date does not occur by 16 September 2021.

**What happens if Scheme Creditors do not approve the Scheme?**

If the Scheme is not approved by the majorities required by the Act, the Scheme will not become effective. If the Scheme is not implemented, significant doubt will be cast on the ability of the Scheme Company and/or the Parent to continue to carry on business as a going concern.

**What is the location, date and time of the Scheme Meeting?**

The Scheme Meeting will take place at 11 August 2021 at 10:00 a.m. (Singapore time) by way of electronic means via the tele and video-conferencing application Zoom. The notice which convenes the Scheme Meeting is set out at Appendix 3.

**When do you expect the Scheme to become effective?**

Provided that: (i) the Scheme receives the approval of the requisite majorities of Scheme Creditors at the Scheme Meeting; (ii) the Court grants an order which sanctions the Scheme; and (iii) all other Conditions are satisfied in a timely manner in accordance with the terms of the Scheme, it is expected that the Effective Date will occur on or around the month of August 2021.

**What are the tax consequences of the Scheme?**

Tax considerations may be complex. The tax consequences arising for you as a result of the Scheme becoming effective depend on the facts relating to your own personal situation. It is recommended that you consult with your own tax adviser for a full understanding of any such tax consequences as they may be applicable to you.

**What is the Helpline?**

If you have any questions relating to the Scheme Document or the Account Holder Letter please contact the Information Agent at the Helpline. You may contact the Information Agent by telephone between the hours of 9:30 a.m. and 6:30 p.m. (Hong Kong time) on +852 2526 5406 or by e-mail at [blueoceaninfo@lynchpinbm.com](mailto:blueoceaninfo@lynchpinbm.com). **LETTER FROM THE BOARD OF  
BLUE OCEAN RESOURCES PTE. LTD.**

16 Gemmill Lane  
Singapore 069254

Dear Scheme Creditors,

**1. INTRODUCTION**

This letter is part of an Explanatory Statement which has been sent to you for the reasons set out below. In considering the action to take in relation to the Scheme, you should not rely exclusively on this letter and should also consider the more detailed information contained elsewhere in the Scheme Document. Capitalised words and phrases used in this letter have the meaning provided at pages 4 to 5 of this Scheme Document.

**2. PURPOSE OF THE EXPLANATORY STATEMENT**

The Explanatory Statement, which is provided pursuant to the Act, has been prepared for the purpose of providing you with sufficient information to make an informed decision whether to vote in favour of or against the Scheme.

The principal terms and effects of the Scheme are summarised in the Explanatory Statement. The Scheme itself begins at page 26 of this Scheme Document. You are urged to read the Explanatory Statement (including the Information Memorandum) as well as the Scheme carefully and in their entirety. You should seek and take whatever advice you consider necessary to enable you to make a decision about whether to vote in favour of or against the Scheme.

This letter explains why the Board considers the Scheme is in the best interests of Scheme Creditors, shareholders of the Parent and the Group as a whole. In those circumstances, the Board recommends that you vote in favour of the Scheme at the Scheme Meeting.

**3. BACKGROUND**

The Group is Indonesia's largest producer of aquaculture products, including fish feed, shrimp feed, shrimp fry and seafood-based products. The Group purchases harvested shrimp and fish from the farmers, processes them into various food products and sells them to domestic and export markets. The Group's assets and operations are located in Indonesia.

*The 2013 Restructuring*

In 2013, the Scheme Company proposed a scheme of arrangement in respect of the amounts outstanding under the Original Notes because the decline in production resulting from the impact of the contamination of the Group's shrimp ponds with infectious myonecrosis virus (**IMNV**) and the closure of certain of such ponds as a result of (among other things) social unrest among the local population (including violent protests by local plasma farmers) and the absence of sufficient funding had a material adverse effect on the revenues and profitability of the Group. As a consequence of the scheme of arrangement, the Original Notes were amended and restated as the 2020 Notes.

*The 2018 Restructuring*

Notwithstanding the benefits of the 2013 restructuring of the Original Notes, the Group continued to experience a difficult operating environment, which (in turn) has had an adverse effect on its financial

---

condition. The Group's plasma receivables increased, which resulted in a significant adverse effect on the cashflow of the Group. Such increases in plasma receivables were a result of the unfavourable nucleus-plasma scheme arrangement and the continued declining performance of the plasma farmers. Under the then-existing nucleus-plasma scheme arrangement, the Group was not only required to fund any operational losses incurred by its plasma farmers, but was also required to continue the arrangement regardless of the plasma farmers' performance. In addition, the operating costs incurred by the Group became disproportionately high due to the low harvest and productivity of the plasma farmers.

Although the Group took drastic steps to reduce their cash flow drain and terminated and replaced the nucleus-plasma scheme arrangement with a new operational model designed to reduce the operational risks of any underperforming farms, the financial position of the Group remained precarious and was further exacerbated by:

- (i) obligations to pay severance payments of approximately Rp270 billion as a consequence of the streamlining of operational procedures and an approximately 60% reduction in the Group's headcount;
- (ii) further impairments of plasma receivables as a result of the revision of the nucleus-plasma scheme arrangement; and
- (iii) the Group assuming over US\$ 30 million of loans owed by plasma farmers to various banks in cases where the Group had acted as corporate guarantors.

Accordingly, in 2018, the Scheme Company proposed a scheme of arrangement in respect of the amounts outstanding under the 2020 Notes and as a consequence of that scheme of arrangement, the 2020 Notes were cancelled and the Existing Notes and the MEBs (which are exchangeable for shares in the Parent) were issued.

#### *The Deterioration of the Financial Position of the Group*

Notwithstanding the benefits of the 2018 restructuring which resulted in the Existing Notes and MEBs being issued, the Group has continued to experience a difficult operating environment, which (in turn) has had an adverse effect on its financial condition.

The Group had originally planned to raise new funds in 2019 to repay the Existing Notes. However, despite the Group experiencing greater-than-projected revenues since 2017, the Group was unable to meet its EBITDA targets because of shrinking margins due to greater than anticipated per-unit costs as well as the depreciation of the Indonesian Rupiah against the US dollar.

Together with covenant defaults on existing bank loans and a lack of additional collateral that could be provided to banks, this significantly impeded the Group's efforts to raise capital and the Group was unable to raise the new funds that it had planned to.

#### *The Current Financial Position of the Group*

In light of the circumstances described above, the Group is currently unable to service its obligations in respect of the Existing Notes. In this regard, the Group was unable to pay interest due in respect of the Existing Notes on 30 June 2019. Accordingly, an event of default in respect of the Existing Notes has occurred and is continuing.

The Group also expects that its immediate ability to obtain new facilities and/or restructure its existing working capital facilities will be limited. This will, in turn, pose a significant risk to the Group's operations.

Notwithstanding its difficult financial position, the Group has continued to comply with its debt servicing obligations to onshore working capital lenders in the Republic of Indonesia. This reflects the fact that the continued availability of onshore working capital facilities is vital to enable the Group to continue trading. However, onshore lenders have expressed, and continue to express, material concerns over the financial condition of the Group.

---

### *The Restructuring Support Agreement*

Going forward, to rehabilitate the Group's cashflow issues, and in order to avoid further constraints on the Group's operational needs, the Group believes that the obligations of the Scheme Company and of the Guarantors under the Existing Notes must be restructured to ensure the continued viability of the Group as a going concern. Accordingly, the Scheme Company and the Parent engaged in negotiations with the Arrangers regarding the terms of the Existing Notes Exchange Offer and the Existing Notes Tender Offer and the underwriting by the Arrangers of loans as may be necessary to implement the Existing Notes Exchange Offer and Existing Notes Tender Offer pursuant to the Scheme. As a result of the negotiations, a restructuring support agreement was entered into by the Scheme Company, the Parent and the Arrangers on 27 April 2021. Schedule 4 to the RSA contains detailed heads of terms for a restructuring of the Existing Notes through a Scheme under Section 210 of the Act. The restructuring terms form the basis for the terms and conditions of the Existing Notes Exchange Offer and Existing Notes Tender Offer.

The RSA further provides that Noteholders who accede to the RSA prior to 5:00 p.m. (Singapore time) on:

- (i) 1 June 2021 may be eligible to receive an Early Bird Consent Fee if they tender the Requisite MEBs in connection with a tender offer by the Scheme Company for the MEBs on or around the date of this Scheme Document; and
- (ii) 27 June 2021 may be eligible to receive a Regular Consent Fee;

in each case, if they also vote in favour of the Scheme at the Scheme Meeting.

#### **4. REASONS FOR THE PROPOSED SCHEME**

The purpose of the Scheme is to effect an arrangement and compromise in respect of the Existing Notes. This arrangement and compromise will result in the Existing Notes being cancelled and discharged in exchange for cash (if a Noteholder elects to be a Tendering Noteholder) or deemed commitments under a Singapore-law governed New Facility Agreement (if a Noteholder elects to be a Rolling Noteholder) on the terms set out in the New Facility Agreement (and summarised in the Description of the New Facility Agreement).

#### **5. WHY IMPLEMENT THE SCHEME NOW?**

The Board believes that, if the Scheme is not implemented, the Group will be unable to discharge its financial liabilities in full and will therefore be unlikely to be able to continue to operate as a going concern. As set out in this letter and in the Scheme Document itself, the Scheme Company has been unable to discharge its indebtedness under and in respect of the Existing Notes. Moreover, given the existence of the Guarantees granted by the Guarantors, this failure to discharge the underlying primary indebtedness threatens the viability of the Group as a whole.

The uncertainty over the financial viability of the Scheme Company and the Parent has been generally known for a significant period of time. This has put material pressure on the ability of the Group to retain key personnel, suppliers and customers. Furthermore, local creditors of the Group have expressed, and continue to express, material concerns over the financial condition of the Group. If these concerns are not addressed satisfactorily, there is a real risk that financial creditors in the Republic of Indonesia may withdraw or limit the amount of any working capital facilities made available to the Group, which would have a very significant and negative impact on the ability of the Group to continue its operations. These operations are vital to the survival of the Group as a going concern.

Moreover, enforcement proceedings (including applicable Insolvency Proceedings) could be initiated, which would materially and adversely affect the operations of the Group as a whole. In order to avoid such a scenario, the Scheme is intended to create a more stable financial environment whereby the business of the Group can be developed to ensure, among other things, the payment of all working capital facilities of the Group in the ordinary course. In the opinion of the Board and the Parent Board, the implementation of the Scheme would significantly enhance the prospects of avoiding enforcement action and/or Insolvency Proceedings.

---

It is against this difficult background that the Board believes it is imperative that the Scheme be implemented as soon as possible. The survival of the Group is dependent on the successful implementation of the Scheme.

## **6. ALTERNATIVES TO THE PROPOSED SCHEME**

The Scheme Company and the Board have considered various alternative strategies to what is presently proposed. Alternative strategies are necessarily limited but include: (i) a purely consensual arrangement – that is to say, implementing a restructuring of the Existing Notes without the Scheme; and (ii) the commencement of Insolvency Proceedings in respect of the Scheme Company and/or the Guarantors.

### *Consensual Arrangement*

The primary advantage of the Scheme over a consensual arrangement with Scheme Creditors is that, if the Scheme becomes effective in accordance with its terms and the Act, it will be binding on all Scheme Creditors whether they voted in favour of, or against, or did not vote on, the Scheme.

This is particularly important where, as in this matter, economic or beneficial interests in the Existing Global Note is held by many different Persons through the Clearing Systems and it is not possible to identify all of the holders of such economic or beneficial interests. As of the date of this Scheme Document, the Scheme Company and the Parent have successfully identified the holders of approximately ninety two percent (92%) of the Existing Notes as a result of, and in connection with the restructuring negotiations and the circulation of the RSA and presentations regarding the Group's business and performance. However, the holders of approximately eight percent (8%) of the Existing Notes remain unidentified. The failure to identify the holders of a significant portion of the Existing Notes means that the Scheme Company has no option but to seek to effect a restructuring of the Existing Notes via a collective procedure whereby unidentified minority holders can be bound by the terms of a restructuring consented to by the majority. Conversely, any consensual arrangement can only bind those Persons who expressly agree to such an arrangement. The inability to bind all Persons with an interest in the Existing Notes may cause Scheme Creditors to be reluctant to enter into any such arrangements as non-consenting Scheme Creditors may seek to obtain more favourable terms by 'holding-out' from such arrangements. There is also a risk that any dissenting creditors may commence enforcement action or petition for the initiation of Insolvency Proceedings in respect of the Scheme Company and/or the Parent. The issue of ensuring that any dissenting or 'hold-out' Scheme Creditors are bound by the compromise arrangements is the major factor suggesting that implementation of the proposed Scheme is the most efficient and pragmatic means to achieve a restructuring of the Existing Notes.

### *Insolvency Proceedings*

A further alternative to the proposed Scheme is for the Scheme Company to enter into an Insolvency Proceeding in the Republic of Singapore and/or such other jurisdiction (if any) as might have jurisdiction over the affairs of the Scheme Company, and/or for the Parent to file for bankruptcy in Indonesia in accordance with the Indonesian Bankruptcy Law. If the Scheme Company were to enter into Insolvency Proceedings in the Republic of Singapore, the only applicable Insolvency Proceeding would likely be an insolvent liquidation of the Scheme Company.

The Scheme Company has engaged the Financial Advisors on 15 January 2021 to provide an opinion on the fairness of the Scheme. The Financial Adviser Opinions were completed on 10 May 2021 and are exhibited at Appendix 6 of the Scheme Documents.

The Financial Adviser Opinions include estimates of: (a) the value obtainable by the Noteholders upon a liquidation or bankruptcy (as applicable) of the Group (rather than the value obtainable upon a liquidation of the Scheme Company) (subject to the uncertainties and challenges highlighted in Section 8 of the Financial Adviser Opinion); (b) the value obtainable by the Noteholders upon the enforcement of their security in the Existing Notes (subject to the uncertainties and challenges highlighted in Sections 6 and 8 of the Financial Adviser Opinion; and (c) the value of the return to the Noteholders under the terms of the Scheme and the New Facility Agreement and the Existing Notes Tender Offer. Additionally, the Financial Advisors have provided their views on whether the terms of the Scheme are fair to both the Noteholders and the other stakeholders

---

of the Scheme Company in light of the estimated returns to Noteholders in a liquidation scenario, as well as their assessment of the Group's ability to service its debt obligations if the Scheme is implemented.

Subject to the views of the Financial Advisors and based on the information that is currently available to them, the Scheme Company, the Board and the Parent Board have concluded that commencing Insolvency Proceedings in respect of the Scheme Company and/or the Parent would not be in the best interests of the Group, or its creditors and shareholders. Rather, the Scheme Company, the Board and the Parent Board believe the implementation of the Scheme offers the best prospects for the Scheme Company and the Group in the light of prevailing circumstances. Ultimately, the Scheme Company, the Board and the Parent Board believe that the Scheme offers Noteholders the best prospects of allowing the Group to continue to carry on its business as a going concern and of obtaining any reasonable recovery in light of the potential economic consequences of insolvency.

#### **7. THE PROPOSED SCHEME**

Your attention is drawn to the Explanatory Statement, which describes in fuller detail the terms of the Scheme. You are urged to read the Explanatory Statement, the Information Memorandum and the Scheme carefully and in their entirety and to seek and take whatever advice you consider necessary in order to make a decision as to whether to vote in favour of or against the Scheme. The Scheme seeks to implement a cancellation and discharge of the Existing Notes in exchange for cash (if a Noteholder elects to be a Tendering Noteholder) or deemed commitments under a Singapore-law governed New Facility Agreement (if a Noteholder elects to be a Rolling Noteholder) on the terms set out in the New Facility Agreement (and summarised in the Description of the New Facility Agreement).

#### **8. COMPLETION OF THE SCHEME AND SUPPORTING NOTEHOLDER GROUP**

In addition to each of the other Conditions, in order for the Scheme to become effective, it will be necessary, among other things, to secure the requisite support of the Scheme Creditors at the Scheme Meeting (namely, a simple majority in number (unless the Court orders otherwise) representing at least three-fourths by value, as set out above) as well as the sanction of the Court. In this regard, the Board understands that the Consenting Creditors (who collectively have an economic or beneficial interest as principal in approximately ninety two percent (92%) in Outstanding Principal Amount of the Existing Notes, as of the date of the Scheme Document) support the implementation of the Scheme and intend to vote in favour of the Scheme at the Scheme Meeting.

#### **9. RISK FACTORS**

The Group's ability to continue to operate as a going concern and service its obligations under the New Facility Agreement and the other Finance Documents (as defined in the New Facility Agreement) following implementation of the Scheme is subject to certain operating and other risks. You are advised to consider the matters set out in the Explanatory Statement as well as those matters set out under the heading "Risk Factors" in the Information Memorandum.

#### **10. RECOMMENDATION**

The Board, having considered the terms of the Scheme, the opinions expressed by the Financial Adviser, and advice from appropriate legal and financial advisers, considers that the Scheme is in the best interests of the Scheme Company and its shareholders and creditors as a whole. Based on the foregoing, the Board recommends that Scheme Creditors vote in favour of the Scheme at the Scheme Meeting.

Yours faithfully,

.....  
**Mr. Martial Jean Francois Nicolas**  
Director for and on behalf of the Scheme Company  
13 July 2021

## EXPLANATORY STATEMENT

### 1. INTRODUCTION

You have been sent this Scheme Document because the Scheme Company believes that you have an interest in the Existing Notes by virtue of being a Scheme Creditor. The Board strongly recommends that you consider this Scheme Document and the accompanying Information Memorandum, which contains detailed financial, business and other information on the Scheme Company and the remainder of the Group.

For the purposes of complying with the Act, the Scheme will proceed on the basis that Scheme Creditors constitute a single class of creditors of the Scheme Company. The Scheme only applies to Scheme Claims and does not apply to or affect other Persons (including the general body of creditors of the Scheme Company as a whole). Given that the Scheme Company is merely a financing vehicle within the Group, there are only limited other Persons who may have become creditors of the Scheme Company in the ordinary course of business. In this regard, the Parent has financed and will continue to finance Scheme Costs by way of an intercompany loan, which costs shall be Excluded Liabilities.

Your attention is drawn to the letter and recommendation of the Board beginning at page 15 of this Scheme Document. This letter summarises the benefits to Scheme Creditors of the Scheme becoming effective.

### 2. THE SCHEME

#### 2.1 Overview

The Scheme is intended to implement an arrangement and compromise in respect of the Existing Notes. This arrangement and compromise will result in the Existing Notes being cancelled and discharged in exchange for cash (if a Noteholder elects to be a Tendering Noteholder) or deemed commitments under a Singapore-law governed New Facility Agreement (if a Noteholder elects to be a Rolling Noteholder) on the terms set out in the New Facility Agreement (and summarised in the Description of the New Facility Agreement).

The overall objectives of the Scheme are: (i) to maximise recoveries to Persons with a financial interest in the Scheme Company in a fair and equitable way consistent with applicable law and the economic consequences of financial distress; and (ii) to enable the Group as a whole to continue to carry on business as a going concern.

#### 2.2 The Scheme and its Conditions

In order to ensure that the interests of Scheme Creditors are protected, the Scheme does not become legally binding unless and until the Conditions have been satisfied. Each of the Conditions must be satisfied in order for the Effective Date to occur.

Following satisfaction of the Conditions, the Scheme Company shall issue and deliver the Completion Notice to the Information Agent, which will notify the Existing Trustee and circulate the Completion Notice within the Clearing Systems for the benefit of all Scheme Creditors. A list of each of the Conditions is set out in Chapter 4 of the Scheme. The most important Conditions is that the Scheme must be sanctioned by the Court in order to become effective in accordance with the Act.

#### 2.3 Indebtedness of the Scheme Company and the Parent

Details of the existing and projected indebtedness of the Scheme Company and the Parent are set out in the Information Memorandum. Apart from Scheme Claims the Scheme does not seek to vary or compromise any liabilities due to any other Person (including the Parent in respect of the Scheme Costs). All such other liabilities (including Scheme Costs) are Excluded Liabilities which are expected to be paid as and when they become due and payable in the ordinary course of business.

## 2.4 Effectiveness of the Scheme

On the Effective Date, the Scheme will be binding on the Scheme Company and all Scheme Creditors, regardless of whether such Scheme Creditors attended or voted (in favour of or against the Scheme) at the Scheme Meeting.

## 2.5 Elections available under the Scheme

Each Noteholder may elect in the Account Holder Letter submitted by or on behalf of that Noteholder to the Information Agent on or prior to the Scheme Meeting to: (a) be a Tendering Noteholder and participate in the Existing Notes Tender Offer; or (b) be a Rolling Noteholder, participate in the Existing Notes Exchange Offer and be deemed to be a lender under the New Facility Agreement.

A Noteholder who does not submit any elections to participate in the Existing Notes Exchange Offer or Existing Notes Tender Offer to the Information Agent on or prior to the Scheme Meeting in accordance with the terms of the Scheme Document will be deemed to be a Tendering Noteholder.

A Noteholder who is unable to affirmatively make the Securities Law Representations for the benefit of the Scheme Company will be deemed to be a Tendering Noteholder.

A Noteholder who elects to be a Rolling Noteholder but does not, by the date of the sanction hearing in respect of the Scheme, supply or procure the supply of, all KYC Documentation will be deemed to be a Tendering Noteholder.

## 2.6 Summary of the New Facility Agreement

A summary of the terms and conditions of the New Facility Agreement can be found in the Description of the New Facility Agreement. This summary may not include all terms and conditions of the New Facility Agreement which Scheme Creditors may consider relevant in order to make an informed voting decision on the terms of the Scheme and Scheme Creditors are urged to refer to the form of the New Facility Agreement appended hereto at Appendix 7.

## 2.7 Summary of the Existing Notes Tender Offer and Treatment of Tendering Noteholders

Tendering Noteholders will receive cash in an amount equal to the Existing Notes Tender Offer Amount on the Settlement Date in exchange for that Noteholder's Existing Notes.

## 2.8 Tax Treatment of the New Facility Agreement

Subject to the following paragraphs, under Section 12(6) of the Income Tax Act, Chapter 134 of Singapore (the "Income Tax Act") the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to be a resident of Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15.0% final withholding tax described below) to non-resident persons (other than non-resident individuals) is the prevailing corporate tax rate, currently 17.0%. The applicable rate for non-

resident individuals is 22.0%. However, if the payment is derived by a person not resident in Singapore from sources other than its trade, business, profession or vocation carried on or exercised in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15.0%. The rate of 15.0% may be reduced by applicable tax treaties.

Where Singapore withholding tax is required to be deducted, the Borrower will pay an amount of up to a maximum of 8.0% of the relevant withholding tax rate withheld or deducted from that lender's portion of the interest payment. In all other circumstances, any Singapore tax payable on the interest is on the account of the lenders under the Term Loan Facilities.

## 2.9 **Impact on Existing Notes, Existing Guarantees, Existing Onshore Security Documents and Existing Offshore Security Documents and payment of the Consent Fee**

On the Settlement Date:

- (a) the New Facility Agreement will be executed and delivered by the parties thereto and each of the Scheme Company and the Parent shall ensure that the New Facility Agreement reflects that each Rolling Noteholder is deemed to have committed a Facility A Loan in an amount equal to the Rolled Commitment;
- (b) to the extent not already completed prior to the Settlement Date and only if the Underwritten Amount is more than zero, the Arrangers shall transfer the Underwritten Amount to the Scheme Company (in equal shares);
- (c) the Scheme Company shall provide the necessary instructions to the New Agent and all other necessary persons (including, without limitation, the Existing Trustee) to enable the Facility B Loan and the Underwritten Amount (if any) to be applied towards:
  - (i) payment of the Existing Notes Tender Offer Amount to the Tendering Noteholders by way of transfer to the Euroclear and/or Clearstream account in which the Existing Notes were held, free and clear of and without any deduction or withholding for or on account of Tax unless it is required to make such a deduction or withholding, in which case the Existing Notes Tender Offer Amount payable shall be increased to the extent necessary to ensure that the applicable Noteholder receives a sum net of any deduction or withholding equal to the sum which it would have received had no such deduction or withholding been made or required to be made;
  - (ii) funding the Debt Service Account (as defined in the New Facility Agreement) by an amount equal to 8% of the sum of the aggregate Rolled Commitments and the Underwritten Amount (if any);
  - (iii) payment of the Commitment Fees to the Rolling Noteholders and the Arrangers;
  - (iv) payment of the Consent Fee to each Eligible Consenting Creditor by way of transfer to the Euroclear and/or Clearstream account in which the Existing Notes were held, free and clear of and without any deduction or withholding for or on account of Tax unless it is required to make such a deduction or withholding, in which case the Consent Fee payable shall be increased to the extent necessary to ensure that each Eligible Consenting Creditor receives a sum net of any deduction or withholding equal to the sum which it would have received had no such deduction or withholding been made or required to be made;
  - (v) repayment of the Existing Notes held by Noteholders as of the Record Date in an amount equal to the Mandatory Repayment Amount, which payment will be made by way of transfer to the Euroclear and/or Clearstream account in which the

Existing Notes were held such that each Noteholder receives the Mandatory Repayment Amount; and

- (vi) purchase of the MEBs from holders of the MEBs who elected to participate in the MEB Tender Offer in accordance with its terms.
- (d) each of the New Security Documents will be executed and delivered by the parties thereto;
- (e) each Guarantor will execute and deliver a New Guarantee in favour of the Onshore Security Agent;
- (f) the Parent shall execute and deliver the Deed of Appointment; and
- (g) the Scheme Company shall issue irrevocable instructions to transfer to each Rolling Noteholder its MEB Allocation, provided that:
  - (vii) the MEB Allocation will be credited in minimum denominations of 1 MEB;
  - (viii) no fractions of MEBs will be issued;
  - (ix) entitlements of Rolling Noteholders to MEBs will be rounded down to the nearest unit increment of MEBs;
  - (x) no cash adjustment will be payable as a result of the rounding down described in the foregoing paragraph;
  - (xi) a Rolling Noteholder's MEB Allocation will be delivered to the same Clearing System account in which that Rolling Noteholder's Existing Notes were held at the Record Time; and
- (h) the Scheme Company shall issue irrevocable instructions to transfer an amount of MEBs equal to the Tendered MEBs less aggregate MEB Allocations transferred to the Rolling Noteholders to the securities account designated by the Facility B Lender.

On the Settlement Date and conditional on completion of the steps outlined in paragraphs (a) to (h) (inclusive) above:

- (i) all of the rights, title and interest of Scheme Creditors in respect of Scheme Claims and claims against the Guarantors shall be subject to each of the arrangements and compromises set out in this Scheme;
- (j) each of the Scheme Company and the Parent shall ensure that the Existing Global Note representing the Existing Notes is cancelled by the Existing Depository and shall give all such instructions as are required to be given by it to the Existing Trustee and/or the Existing Depository for this purpose;
- (k) the Security created by the Existing Onshore Security Documents and Existing Offshore Security Documents shall be released pursuant to the Onshore Release Documents and the Offshore Release Documents, respectively;
- (l) the Existing Cash Management Agreement will be terminated and the parties thereto shall execute a deed of termination and release; and
- (m) the respective rights and obligations of the Scheme Creditors (including, for the avoidance of doubt, any Person that acquires an interest in the Existing Notes after the Record Time), the Scheme Company, the Guarantors and the Existing Trustee towards one another under the Existing Indenture will terminate.

## 2.10 Meeting of Scheme Creditors

Before the Scheme can become effective and binding on the Scheme Company and the Scheme Creditors, a resolution to approve it must be passed by the statutory majorities prescribed by Section 210(3) of the Act. The statutory majorities are a simple majority in number (unless the Court orders otherwise) of Scheme Creditors present and voting in person or by proxy at the Scheme Meeting (herein, a ‘majority in number’) representing at least three fourths in value of the Scheme Claims of the Scheme Creditors present and voting in person or by proxy at the Scheme Meeting (herein, a ‘majority in value’).

The Scheme Meeting has been summoned by the Court to take place at 10:00 a.m. (Singapore time) on 11 August 2021 by way of electronic means via the tele and video-conferencing application Zoom. A formal notice of the Scheme Meeting is enclosed at Appendix 3. A form of proxy for use at the Scheme Meeting is contained in the Account Holder Letter enclosed at Appendix 4.

## 2.11 Voting

Votes of Noteholders will be admitted at the Scheme Meeting at a value equal to the Outstanding Principal Amount of the Existing Notes in which such Noteholder held an economic or beneficial interest as principal at the Record Time (without double counting). Votes of Noteholders at the Scheme Meeting will be counted for both the ‘majority in number’ and ‘majority in value’ requirements of the Act. Noteholders may cast votes attributable to their interests in the Existing Notes either in Person or by proxy at the Scheme Meeting.

Madison Pacific Trust Limited (in its capacity as Existing Trustee for the Existing Notes), The Bank of New York (Depository) Nominees Limited (in its capacity as nominee for The Bank of New York Mellon, London Branch) and The Bank of New York Mellon, London Branch (in its capacity as Existing Depository) have been directed by the Court not to, and accordingly will not, vote in respect of the Existing Notes at the Scheme Meeting.

## 2.12 Use of Proxy

- (a) the names of all Noteholders on whose behalf an Account Holder Letter has been submitted to the Information Agent;
  - (b) the Outstanding Principal Amount of the Existing Notes in respect of which each such noteholder purports to hold an economic or beneficial interest as principal; and

- (c) the Outstanding Principal Amount of the Existing Notes held by that Noteholder which was admitted for the purpose of voting at the Scheme Meeting and the Outstanding Principal Amount of the Existing Notes purportedly held by that Noteholder which was rejected for the purpose of voting at the Scheme Meeting. Such an updated list will also highlight any differences between the results (if any) between the adjudication by the Chairman provided for in 11.4 above and any adjudication by the Adjudicator provided for in 11.5 above.

- 11.7 Any Person who wishes to file a notice of disagreement under Section 68(10) of the IRDA in relation to the Adjudicator's decision on a Noteholder's interest in the Existing Notes shall file a notice of disagreement, together with a statement of the reasons for the disagreement, at least seven (7) days before the hearing of the application for the Court's approval of the Scheme under Section 210(4) of the Act. The Person filing the notice of disagreement shall send a copy of the notice of disagreement and the accompanying statement mentioned above to: (a) the Scheme Company, unless the notice of disagreement is filed by the Scheme Company; and (b) any Noteholder on whose behalf a duly completed Account Holder Letter was submitted to the Information Agent, upon the request of such a Noteholder.

## **12. SALES, ASSIGNMENTS AND TRANSFERS**

None of the Scheme Company, the Parent or the Information Agent shall recognise any sale, assignment or transfer of any Scheme Claim after the Record Time for purposes of determining entitlement to attend and vote at the Scheme Meeting. A transferee of an economic, beneficial or proprietary interest in the Existing Notes after the Record Time will, however, be bound by the terms of the Scheme in the event that it becomes effective and any Existing Notes to which such transferee is entitled will be cancelled on the Settlement Date in accordance with the terms of the Scheme.

## **13. PROVISION OF INFORMATION**

- 13.1 Account Holder Letters shall provide the Information Agent with all information requested in, and be submitted in accordance with the instructions set out in, the form of Account Holder Letter attached at Appendix 4.

13 July 2021

**APPENDIX 1**  
**INSTRUCTIONS ON HOW TO VOTE**

Scheme Creditors are creditors of the Scheme Company in respect of Scheme Claims and include (for the avoidance of doubt, but without double counting in each case):

- (a) Noteholders;
- (b) the Existing Trustee;
- (c) the Existing Depositary; and
- (d) Account Holders and Intermediaries.

For the purposes of the Scheme you will be a Noteholder if you hold or, as the case may be, held an economic or beneficial interest as principal in the Existing Notes held in global form through the Clearing Systems at the Record Time.

Each Noteholder will need to give instructions to its Account Holders as to voting. These instructions contain important guidance and information which should be carefully considered by Account Holders when completing their Account Holder Letters and by Noteholders when giving instructions to Account Holders to complete such Account Holder Letters.

**Noteholders should immediately contact their Account Holders (through any Intermediaries, if appropriate) to ensure that a valid Account Holder Letter is submitted in respect of their interests in the Existing Notes.**

Noteholders and/or Account Holders that have any questions relating to the Scheme Document or the Account Holder Letter should contact the Information Agent at the Helpline between the hours of 9.30 a.m. and 6.30 p.m. (Hong Kong time) or by e-mail at [blueoceaninfo@lynchpinbm.com](mailto:blueoceaninfo@lynchpinbm.com). The Information Agent cannot and will not provide advice on the merits of the Scheme or give any financial or legal advice, and will under no circumstances be soliciting proxies or votes in respect of the Scheme.

**Requirement for an Account Holder Letter**

A valid Account Holder Letter received prior to the Record Time constitutes an instruction as to voting in respect of the Scheme Meeting.

It will be the responsibility of Account Holders to obtain from the Intermediaries and/or Noteholders on whose behalf they hold interests in the Existing Notes and in accordance with the procedures established between them, whatever information or instructions they may require to submit a duly completed Account Holder Letter in respect of such Notes to the Information Agent. To assist this process, Noteholders (through Intermediaries, if appropriate) are strongly encouraged to contact the Account Holder through which they hold their interest in the Existing Notes to enable that Account Holder to complete an Account Holder Letter and submit such Account Holder Letter to the Information Agent prior to the Record Time.

Valid Account Holder Letters should be delivered to the Information Agent (online, through the online platform accessible at <https://lynchpinbm.com/bo2021-landing>), by no later than the Record Time if the relevant Noteholder wishes to attend and/or vote at the Scheme Meeting. An Account Holder Letter will be deemed delivered when submitted via the e-form available online, through the online platform accessible at <https://lynchpinbm.com/bo2021-landing>, provided that if the Information Agent subsequently identifies any error in the Account Holder Letter or determines that an Account Holder Letter is not valid, such Account Holder Letter will not be deemed delivered until all such errors have been rectified or the Account Holder Letter has been completed to the satisfaction of the Information Agent (which may, if reasonably necessary, request that a new Account Holder Letter be submitted). The Information Agent will confirm receipt of valid Account Holder Letters to Account Holders who submit them. This

confirmation does not imply automatic acceptance of the Account Holder Letter. The Information Agent will only be able to process valid and duly completed Account Holder Letters.

**Voting instructions given in Account Holder Letters submitted after the Record Time will be disregarded for voting purposes at the Scheme Meeting.**

In general, a separate Account Holder Letter must be completed in respect of each separate beneficial holding of Notes. However, Account Holders that hold interests in the Existing Notes on behalf of more than ten (10) Noteholders should contact the Information Agent to discuss the potential for submitting one or more Account Holder Letters in respect of more than one beneficial holding of the Existing Notes.

Account Holders should, prior to delivering an Account Holder Letter to the Information Agent, submit Blocking Instructions in respect of the Existing Notes referred to in the Account Holder Letter to the relevant Clearing System. The Blocking Instruction reference numbers should then be listed in Part 2 of the Account Holder Letter.

The Information Agent will request the relevant Clearing System to confirm to its satisfaction that the Existing Notes that are the subject of the relevant Account Holder Letter have been blocked with effect from or before the date of the relevant Account Holder Letter. In the event that the Clearing System fails to do so, the Information Agent may reject the Account Holder Letter.

### **Instructions Irrevocable**

Blocking Instructions delivered will be irrevocable unless and until:

- (a) the Scheme is not approved by the requisite statutory majorities at the Scheme Meeting, is withdrawn or is terminated in accordance with its terms;
- (b) the Effective Date does not occur by 16 September 2021; or
- (c) the Scheme is not sanctioned by the Court at the hearing scheduled for this purpose (or any adjournment thereof).

### **Confirmations**

By submitting an Account Holder Letter to the Information Agent, an Account Holder:

- (a) confirms to the Scheme Company and the Information Agent that Blocking Instructions in respect of the Existing Notes which are the subject of the Account Holder Letter have been issued to the relevant Clearing System with effect from or before the date of the relevant Account Holder Letter in accordance with the normal procedures of such Clearing System and after taking into account the deadlines imposed by such Clearing System;
- (b) instructs the relevant Clearing System to transmit to the Information Agent the information contained within the Blocking Instructions; and
- (c) gives the other confirmations and representations required by the Account Holder Letter.

### **Voting**

A Noteholder who wishes to attend and vote at the Scheme Meeting should ensure that this is recorded in the Account Holder Letter submitted online on its behalf (at <https://lynchpinbm.com/bo2021-landing>). In order to attend the Scheme Meeting, the Noteholder or, if different, the Person nominated in the Account Holder Letter by such Noteholder, will be required to produce a copy of the Account Holder Letter, evidence of corporate authority (if applicable) and a valid passport prior to being allowed access to the Scheme Meeting.

A Noteholder who wishes to appoint a proxy (other than the Chairman) to attend and vote at the Scheme Meeting on its behalf should ensure that the identity of the relevant proxy and the manner in which the proxy should vote are recorded in its Account Holder Letter by giving appropriate instructions to its Account Holder. The Account Holder Letter will then constitute a proxy in favour of the relevant Person. In order to be allowed access to the Scheme Meeting, the Person appointed as proxy should produce a copy of the Account Holder Letter, evidence of corporate authority (if applicable) and a valid passport. Where the Account Holder Letter can be matched against one of the Account Holder Letters submitted to the Information Agent, the Person appointed as proxy will be admitted to the Scheme Meeting upon presentation of a valid passport as proof of identity.

A Noteholder who does not wish to attend the Scheme Meeting, but who wishes to appoint the Chairman of the Scheme Meeting as his proxy to vote on his behalf at the Scheme Meeting, should ensure that this and the manner in which the Chairman should vote are recorded in its Account Holder Letter. The Account Holder Letter will then constitute a proxy in favour of the Chairman.

The appointment of a proxy by a Noteholder does not prevent that Noteholder from attending and voting at the relevant Scheme Meeting on production of a certified copy of the Account Holder Letter in which it is named as a Noteholder. In such circumstances, the relevant proxy will be deemed revoked.

### **The Information Agent**

The Information Agent will use all reasonable endeavours to assist Account Holders to complete their Account Holder Letters validly. However, failure to submit a valid Account Holder Letter in the manner and within the deadlines referred to above may prejudice voting instructions being counted and/or may delay in the computation of the Rolled Commitments in the case of a Rolling Noteholder, the payment of the Existing Notes Tender Offer Amount in the case of a Tendering Noteholder.

None of the Information Agent, the Scheme Company or any other Person will be responsible for any losses or liabilities incurred by a Noteholder as a result of any determination by the Information Agent that an Account Holder Letter contains an error or is incomplete (even if this is subsequently shown not to have been the case).

---

**APPENDIX 2**  
**EFFECT OF SECURITIES LAW RESTRICTIONS UNDER THE SCHEME**

**General principles of the Scheme**

Noteholders are strongly advised to consult their professional advisers as to whether any laws or regulations which may be applicable to them may give rise to any liability or penalty, or require them to obtain any governmental or other consents or to pay any taxes or duties, as a result of the implementation of the Scheme. None of the Scheme Company, the Parent, any other member of the Group, the Existing Trustee, the Existing Depositary, the Information Agent, their respective directors, agents, advisers or affiliates or any other party accepts any responsibility for any liabilities (including but not limited to consequential liabilities) or regulatory, civil or criminal sanctions or penalties incurred by the Scheme Creditors as a result of the implementation of the Scheme in respect of laws or regulations applicable to them. In particular, Noteholders should be aware that:

**United States of America**

In the event that any Noteholder is resident of the United States of America, the Scheme Document should only be made available solely to a Noteholder that is an institutional “accredited investor” within the meaning of Rule 501(a)(1), (2), (3) or (7) of Regulation D under the US Securities Act or a “qualified institutional buyer” within the meaning of Rule 144A under the US Securities Act.

**NOTICE OF SCHEME MEETING**

**IN THE GENERAL DIVISION OF THE HIGH COURT OF THE REPUBLIC OF SINGAPORE**

**IN THE MATTER OF BLUE OCEAN RESOURCES PTE. LTD.**

and

**IN THE MATTER OF THE COMPANIES ACT (CHAPTER 50; 2006 REVISED EDITION) OF THE REPUBLIC OF SINGAPORE**

**NOTICE IS HEREBY GIVEN** that by an Order dated 7 July 2021 (the "**Order**") made in the above matter, the High Court of the Republic of Singapore (the "**Court**") has granted liberty to convene a meeting of Scheme Creditors (as defined in the Scheme) of the above-named company (hereinafter called the "**Scheme Company**") (the "**Scheme Meeting**") for the purpose of considering and, if thought fit, approving (with or without modification) a scheme of arrangement pursuant to section 210 of the Companies Act (Chapter 50; 2006 Revised Edition) of the Republic of Singapore (the "**Act**") (the "**Scheme**"), proposed to be made between the Scheme Company and the Scheme Creditors and that such Scheme Meeting shall be held at 10 a.m. (Singapore time) on 11 August 2021 by way of electronic means via the tele and vide-conferencing application Zoom (the "**Electronic Meeting Platform**") in the manner set out in the annexures to the Order.

A copy of the Scheme is incorporated in the composite document to be dispatched to Scheme Creditors in respect of the Scheme, which includes an explanatory statement pursuant to Section 211 of the Act (the "**Scheme Document**"). Unless otherwise indicated, capitalised words and phrases used herein have the meaning provided in the Scheme Document.

Copies of the Scheme Document and the Order are available free of charge on request by Scheme Creditors to the Scheme Company or its solicitors, Drew & Napier, and may also be downloaded from the website of the Information Agent at <https://lynchpinbm.com/bo2021-landing> or obtained by email to the Information Agent at [blueoceaninfo@lynchpinbm.com](mailto:blueoceaninfo@lynchpinbm.com). Scheme Creditors that have any questions relating to the Scheme Document should contact the Information Agent at the Helpline between the hours of 9:30 am. and 6:30 p.m. (Hong Kong time).

**VOTING ARRANGEMENTS**

The following is a summary of the arrangements which have been made for the purpose of voting in respect of the Scheme at the Scheme Meeting. Full details of these arrangements, and the action to be taken by Scheme Creditors, are set out in the Scheme Document.

The Court has ordered that the Existing Trustee, Madison Pacific Trust Limited and the Existing Depository, The Bank of New York Mellon (formerly known as the Bank of New York, "**BONY**") shall not be entitled to vote at the Scheme Meeting and accordingly they will not vote at such meeting.

Votes attributable to Notes may be cast by Noteholders by submitting a valid Account Holder Letter in respect of their interests in the Existing Notes. Appendix 4 to the Scheme Document contains detailed instructions in relation to the completion and submission of Account Holder Letters.

By the Order, the Court has appointed Ms Elizabeth Wilson of Lynchpin Bondholder Management or, failing her, any other Director of Lynchpin Bondholder Management, to act as Chairman at the Scheme Meeting, and has directed the Chairman to report the result of the Scheme Meeting to the Court.

---

In the event that the Scheme is approved by Scheme Creditors or Persons voting on their behalf, a hearing before the Court is necessary in order to sanction the Scheme. All Scheme Creditors (other than those directed not to vote, as referred to above) will be entitled to attend the Court hearing in person or through legal representatives to support or oppose the sanctioning of the Scheme. It is expected that the Court hearing will be held at in the Month of August 2021. Full details of the date, time and venue of the hearing will be provided to Scheme Creditors in due course. The Scheme will be subject to the subsequent sanction of the Court.

Each Noteholder will need to give instructions to the relevant Account Holders as to voting. Noteholders should note, however, that unless a valid Account Holder Letter is delivered on or before the Record Time, the voting instructions contained in that Account Holder Letter will be disregarded for the purposes of voting at the Scheme Meeting and the Noteholder will not be able to vote at the Scheme Meeting.

If you are a Noteholder, whether or not you are able to attend the Scheme Meeting or any adjournment thereof, you are strongly urged to complete and sign the form of proxy contained at Part 4 of the Account Holder Letter, in accordance with the instructions printed thereon. It is requested that the completed Account Holder Letter (including the completed proxy form) be submitted online at <https://lynchpinbm.com/bo2021-landing> by no later than the Record Time. However, if a completed Account Holder Letter (including a completed proxy form) is not so submitted, it may be handed to the Chairman at the Scheme Meeting.

## Business and financial overview

- Founded in 1980, CPP is a leading aquaculture company in Indonesia, producing aqua feed and seafood-based food products.
- In recent years, the Company has begun producing pet food, which has seen strong growth in the past 3 years. Additionally, there has been an increased focus on selling its higher margin products such as feed and fry, while reducing the sales of its lower margin products, particularly local food.
- BOR initially issued a USD325 million note in 2007 that was scheduled to mature in 2012. However, the Group's shrimp farms experienced a devastating IMNV outbreak in 2009 which caused the Group to be unable to pay its Original Notes coupon due in December 2009.
- Since then, the Group had underwent 2 Schemes of Arrangements in Singapore to restructure the notes, with the latest one being in 2018.
- The second default on the notes came about primarily as a result of credit obligations arising from the Nucleus-Plasma Partnership. Previously, the Group was providing working capital to the plasma farmers, as well as guaranteeing loans from bank to the farmers. In exchange, the farmers would agree to buy feed from the Group (at a discount) and the Group would purchase shrimp from the farmers. However, the farmers were unable to produce enough to repay their debt to the banks, causing the bank to call on the Group's guarantee, which crystallized the Group's debt obligation. This led to this partnership being cancelled, at a significant cost to the Group.
- The Group has subsequently defaulted on the notes for a third time. Despite greater-than-projected revenue since 2017, the Group was unable to meet its EBITDA targets. The Group had originally projected and sought to raise new funds to help service the 2018 Notes beginning in 2019. However, it was unable to do so, and without the new funds and without sufficient cash from operations, the Group defaulted on its debt payment obligations for a third time, and failed to pay the 2018 Notes interest due on 30 June 2019.
- Subsequently, the Company, as part of its plan to restructure its 2018 Notes via a Scheme of Arrangement in Singapore, has agreed to an RSA with the Arrangers, which the Company believes will help to right-size its outstanding debt. Details of the RSA, which gives 2018 Noteholders the option to either re-participate in a new loan, or to take the cash-out option, are set out on pages 77-84 of this report.

## Headlines (2/3)

## Historical financial performance

- Net sales has grown consistently from FY18-FY20, proving to generally be resilient despite facing viruses in the shrimp farms and the COVID-19 pandemic during that time.
- Gross margins have also remained steady during this time, as the Group has offset declining sales volumes in several product segments by focusing on higher margin products, and also introducing pet food to the market which has shown strong growth.
- During FY20, the Group experienced lower SG&A costs as a result of implementation of new accounting standards (PSAK 72 & PSAK 73), as well as lower travel and marketing expenses as a result of COVID-19. This has led the Group to achieve EBITDA in FY20 that was a 32% improvement over FY19.
- The Group has consistently achieved positive EBITDA for the past three years, increasing from IDR538.9 billion in FY18 to IDR620.8 billion in FY19 to IDR817.2 billion in FY20. This shows that the Group's operational activities remain viable.
- The Group's EBITDA has also stabilized since FY18, which reflects the change in business model to no longer have its own shrimp farming business, which was implemented during the prior restructuring.
- The Group has achieved positive operating cash flows in each of the reviewed years, however this has been mostly been used to fund its non-2018 Note financing activities. After repaying its other debt obligations (principal and interest), the Group has not generated sufficient cashflows to pay the obligations under its 2018 Notes.
- Several working capital facilities have been closed as a result of some banks' desire to no longer have large exposure to the group. Despite this, the Company believes its existing facilities are sufficient to continue to operate the Group in an efficient manner, and will not need additional facilities to fund the growth projected over the next 5 years.
- As result of the reduction in its bank debt, and its overall profits earned from FY18-FY20, the Group has reduced its debt-to-EBITDA ratio from 7.3 times in FY18 to 4.3 times in FY20.
- In FY18, the Group's overall profit and loss was greatly impacted by the gain it recognized as a result of the agreed haircut as part of the 2018 Scheme of Arrangement. Then in FY19, the Group's recorded a large loss when it recognized the entire remaining unamortized cost of the 2018 Notes when it defaulted in June 2019.
- Trade payables were significantly greater in FY18 as the Group postponed payments to suppliers, as a result of the increase in raw material prices and the depreciation of IDR against USD that put pressure on the Group's cashflow. The Group repaid suppliers on normal terms in FY19 when prices and IDR exchange rate had stabilized.
- The Group has also seen its accrued expenses increase significantly in FY19 and FY20 as a result of the accumulating interest and penalties on the 2018 Notes. This is expected to be waived as part of the 2021 Scheme of Arrangement.

## Headlines (3/3)

**Prospective financial information, free cashflow and sustainable debt**

- The Company has prepared consolidated financial projections for the Group for FY20-FY25 on the basis of FY19 projected figures which were based on management’s estimates during the time when the Projections were developed. Thus, the Projections do not take into account the Group’s FY19 or FY20 actual financial performance. The Company has nonetheless requested that its original version of the projections be used for purposes of this report. We have tried to quantify any significant impacts relating to this.
- A simulated profit and loss based on application of the Company’s assumptions to the FY20 actual results are presented on page 51. Had the FY20A numbers been applied, the Group would have projected to generate an additional IDR578 billion in EBITDA from FY21-FY25. This amount should be adjusted by about IDR253 billion (USD16.9 million) in rental expenses as a result of implementation of PSAK 73. Had the Company used FY20A for its projections, an additional amount of at least 50% of the additional EBITDA (and likely the full amount), would be available to the 2021 Tranche A Loan Holders and 2021 Tranche B Loan Holders.
- The Projections have not included the impact from the potential tax arising from gain on restructuring of the 2018 Notes. The Group has appointed Ernst & Young in Singapore and Indonesia who, according to the Company, have advised that this is not taxable in Singapore and Indonesia.
- Based on the Projections, the Group projects to be able to not only settle its obligations as per the RSA, but also to have a cash sweep in each quarter starting in 4Q21.
- As a result, Tranche A is projected to be fully repaid using cash generated from the Group’s operations by December 2025, Tranche A’s maturity date.
- While there are some assumptions that we believe the Company may wish to revisit given the differences between FY20A and FY20P, there is nothing in the current projections, given the expected steady EBITDA levels to be achieved, that would likely prevent the Company from servicing its cash interest and scheduled amortization payments under the proposed terms of the 2021 Tranche A Loan and 2021 Tranche B Loan. The amount of cash sweep projected to be available for Tranche A repayment would likely be positively impacted by the updated projections.

# Business operating model

**Cost structure**

- \$1** The Group purchases from companies that produce shrimp brood stock with more disease-resistant genetics and produces its own shrimp fries.
- \$2** Major cost components are raw materials which are mainly soybean, wheat flour, fishmeal, meat bone meal, and corn from suppliers on page 18.
- \$3** The Group uses 60-70% similar raw materials with shrimp & fish feed, utilizing fish feed mill capacity for pet feed production.
- \$4** Feed is sold via agents in outright sale at a lower price (due to commissions) then directly to cultivators, to whom the Group also regularly assigns technical consultants to provide in-field assistance.
- \$5** The Group purchases shrimp and fish from any party that passes the Group's quality control. This includes purchasing from ex-plasma farmers who also buy feed from the Group. The Group also rented facilities of tolling companies for processing fish products.

**Revenue stream**

- \$1** Shrimp fries are 90% sold to the free market and 10% to ex-plasma farmers, while fish fries are sold 100% to the free market. The Group has no contractual obligations to sell to ex-plasma farmers.
- \$2** Feed is sold directly to cultivators or via agents or sub-agents. As of FY19, the Group had 1,600 agents.
- \$3** The Group sells pet food to retailers in the domestic market.
- \$4** The Group sells frozen shrimp mainly to the export market while fish and surimi products are sold to the domestic market.
- \$5** The Group sells non-core business products such as probiotics to the farmers.

# Suppliers & raw materials

- Primary COGS component is raw material cost, which contributed to 72% of FY20 COGS.
- The Group imported some of its raw materials, which are mainly commodity goods essential for its feed and fry business. This exposed the Group to foreign exchange risk (particularly against USD), and commodity prices fluctuations.
- Due to IDR depreciation against USD in FY20, and gradually increasing raw material prices since late FY19, COGS for feed has increased and GPM dropped as further detailed in pages 20 and 25.
- The Group normally acquired its raw material purchases in the beginning of the year to anticipate higher demand and sales for:
  - Food products during Eid-Al Fitr period, which occurred and will be scheduled to occur in the second quarter during FY18-FY24, while in FY25 it will fall at the end of the first quarter which may require purchases to be made in 4Q24;
  - Feed and fries during rainy seasons, when farmers cultivate more shrimp and fish.

- Fries business**  
 The Group's fries business is only focused on shrimp fries, as fish fries do not contribute a significant amount to the Group's revenue.  
  
 Shrimp fries recorded a significant decrease in revenue in FY19 but started to recover in FY20. Despite decreasing sales volume, net sales managed to climb after the drop in FY19 as a result of the disease explained on page 19, due to increasing ASP as the Group started selling its more disease-resistant breed.
- Others**  
 Other sales only consists of probiotics in FY20. Net sales declined mainly due to the Group stopping its sales of electricity to the ex-plasma farmers in June 2019. In FY18, management informed that electricity sales comprised 35% of others sales, but was sold at a negative margin which brought down the average margin to 11%.

# Market overview

**Sales info**

- Shrimp and fish feed, as well as fry are 100% sold to the domestic market.
- 75%- 80% of food products, mainly shrimp, are sold to the export market, mainly to Europe, USA, and Japan.
- Local food products sales are mainly fish based food products.
- The Group's top 10 customers in FY20 accounted for about 14% of total sales (IDR 1.1 trillion), with the largest customer accounting for 2% of total sales.

- Feed is the core business of the Group, contributing 79% of FY20 revenue. This is primarily because Indonesia is geographically suitable for year round farming of fish and shrimp, and thus has become a strong base for this sector. Its increasing population and economic growth also provides strong and increasing demand.
- The Group acquired several certifications (refer to page 14) in order to export food products overseas, while domestic demand has increased for surimi and processed fish products.
- The Group is able to charge a premium for its new, more disease-resistant breed. For food and feed products, the Group generally follows global and domestic market prices.

**Due to COVID-19, Management informed that:**

- Demand for local shrimp and surimi products in FY20 declined due to social restrictions affecting the Group's main customers in the Hotel, Restaurant & Café (HORECA) industry. This is expected to recover gradually in FY21.
- Global shrimp supply decreased as COVID-19 affected major-shrimp producing countries, increasing the ASP for shrimp food products in FY20.

Overall GPM has remained stable across FY18-FY20 at 17%-19% despite some fluctuations in several business segments.

- Gross profit for feeds business accounted for 83% of the Group's gross profit from FY18-FY20. In FY20, GPM for feeds decreased by 2% compared to FY19, which was mainly driven by increased COGS by 7% which was primarily due to gradual increases in raw material prices since late FY19. Additionally, as the Group imported some of its raw materials (as explained in page 18), COGS in IDR terms also increased due to a higher average forex rate in FY20, including a significant spike around the end of 1Q20. Normally, the Group would just adjust the selling price to maintain its gross margin, however the Indonesian government restricted feed industry players from raising prices during the initial COVID-19 outbreak in Indonesia.

Increases in COGS were partially offset by increase in sales which were mainly driven by increased volume, particularly from pet food, as this is a new segment which has shown rapid growth due to increasing pet ownership in line with rising income and middle class population. Meanwhile fish and shrimp feed sales declined, mainly due to the drought in FY19 as explained on page 19 that disrupted water supply and caused farmers to delay the shrimp and fish cultivation process.

- Food products contributed to 11% of the Group's gross profit from FY18-FY20, mainly due to increase in sales for export frozen shrimp products driven by global shrimp supply shortage as an effect from COVID-19 pandemic, as explained in page 22. Domestic food products gross profit also slightly increased due to the lower production of low margin fish fillet products (as explained in page 19), despite sales decrease due to lower demand from HORECA customers as explained on page 22, and lower fish fillet sales.

(cont.)

- Fries accounted for 5% of the Group's total gross profit from FY18-FY20, and comprised of mostly shrimp fries. In FY20, GPM of fries increased by 19% or IDR52.2 billion to almost reach its FY18 level at 33%, mainly driven by ASP increase as the Group started selling its more disease-resistant shrimp fries, which it is able to do so at a premium. This increased net sales of shrimp fries by IDR9.3 billion compared to FY19 despite lower volume sold. COGS was also reduced by 19% mainly due to increasing survival rate ratio of the fries as a result of the Group's initiatives to procure special more disease-resistant brood stock.

**B** Selling expenses significantly decreased by 32% in FY20. This was mainly due to IDR84.3 billion lower sales incentive due to PSAK 72 and IDR8.0 billion reduced rental expense (net of right of use depreciation) due to PSAK 73 implementation, and IDR10.8 billion reduced transportation and travelling expenses following limited travelling activities as government imposed social restrictions due to COVID-19. Management informed that future levels of travelling and transportation expenses related to marketing activities will be determined by the Indonesian government's progress in successfully mitigating the COVID-19 pandemic. However, management expects that future actual amounts will not be as high as in previous years due to new tools implemented during the pandemic such as online video conference platform.

**C** G&A expenses slightly decreased in FY20 primarily as a result of reduced rental expense (net of right of use depreciation) by IDR6.9 billion following PSAK 73 implementation, and decrease in transportation and traveling expense amounting to IDR10.1 billion following social restrictions due to COVID-19.

**D** Other operating income in FY20 mainly comprised of insurance claims amounting to IDR57.8 billion mainly relating to the fire accident in the Sidoarjo warehouse. The losses were reflected in other operating expenses in FY20, which mainly comprised of write-off of inventory and fixed asset due to the fire amounting to IDR90.6 billion and IDR13.0 billion, respectively. The remaining expenses were IDR25.6 billion loss on foreign exchange, allowance for doubtful debts amounting to IDR5.7 billion (please refer to page 28) and for impairment losses on finished goods in inventory amounting to IDR4.2 billion.

**E** Finance costs are mainly comprised of bonds interest expense and penalty and bank loan interest expense. Bank loan interest expense declined 32% from IDR173.4 billion in FY19 to IDR131.3 billion in FY20, in line with the closure of long-term bank loan facilities and decrease in working capital facilities (see page 41 and Appendix 3). The decrease was offset by increase in bonds interest expense from IDR190.3 billion in FY19 to IDR222.8 billion in FY20 due to additional penalty on bond principal and unpaid interest in FY20.

**F** The Group defaulted on its 2018 Notes interest and principal payments in FY19, and thus charged the unamortized difference between initial amount and amount at maturity amounting to IDR449.4 billion in FY19. As this was fully recognized in FY19, there was no recorded amortization in FY20.

**G** The Group recognized a foreign exchange loss in FY20 amounting to IDR33.1 billion as the IDR depreciated against the USD in FY20. The Group's primary USD exposure is on its debt, both bank loans and 2018 Notes, while the substantial majority of its operations are conducted in IDR.

**H** EBITDA increased by 32% from FY19 to FY20. This was mainly driven by the lower costs in SG&A expenses mainly due to lower rental expense prior to the PSAK 73 implementation and lower travel expenses arising from larger scale social restrictions caused by COVID-19. From FY18 to FY20, the Group has recorded positive EBITDA, increasing each year in the historical period, which shows the Group's operations are viable.

**A** Greater-than-budgeted CCE was primarily due to increases in net cashflow provided from operating activities (please refer to page 36), the decrease in working capital facilities (refer to page 41 and Appendix 3) which lead to more cash released from the restricted accounts due to reduced cash margin requirements, and partially offset by payment for term loan facilities as explained on page 32 and 41.

**B** Trade receivables declined despite the Group recording increasing sales revenue from FY19 to FY20. Please refer to page 28 for further analysis on trade receivables.

**C** Inventory declined from FY19 to FY20 as a result of decreasing turnover days and write-offs as explained on page 29. Please refer to page 29 for further analysis on inventory.

**D** The Group recorded an increase in supplier advances mainly due to increase purchase of raw materials, while increase in prepaid taxes was mainly due to CPB prepaid VAT in relation with the closure of bonded zone.

**E** The Group advised that the increase in deferred tax assets mainly arose from the fiscal loss that was recorded as a result of the write-off of CPB's plasma loan receivables amounting to a total of IDR795.1 billion as of FY20 (please refer to page 28 for more details).

**F** The Company advised that under the implementation of PSAK 73, leases are now recorded as right of use assets and lease liabilities. The Company recorded leases amounting to IDR83.5 billion at the beginning of FY20, which mainly comprised of leases related to buildings and transportation equipment amounting to IDR37.2 billion and IDR33.8 billion, respectively. As at the end of FY20, the balance has decreased to IDR53.6 billion mainly due to depreciation expense recorded on the relevant leases.

IDR68.9 billion was overdue by greater than 180 days. IDR34.8 billion of this amount has been reserved as allowance for impairment as of 31 December 2020.

### Overview

Most of the Group's terms of payment from customers are around 30 days. The Group informed that FY18 turnover days of 34 days was the basis of its assumptions in developing TR projected turnover days of 35 days (refer to page 70). TR turnover days were faster during FY19 and FY20 of 26 and 24 days. The Group informed that this was the result of its initiative to become more selective by selling to customers with a track record of on time payments.

The non-current trade receivables resulting from the previous Nucleus – Plasma Partnerships amounting to IDR1,160.5 billion from the ex-plasma farmers had been fully reserved for impairment since 2016. As of FY20, we note that IDR795.1 billion of this amount has been written-off.

The Group's net trade receivables contributed to 9% and 8% to total assets in FY19 and FY20, respectively. In FY20, the Group has reserved an additional IDR5.7 billion of allowance for TR impairment (see page 26). During FY20, the Group recovered just IDR0.9 billion of the amount that was more than 180 days past due as at 31 December 2019.

We noted that the Group only reserved IDR34.8 billion or only about half of its overdue more than 180 days outstanding TR as of 31 December 2020. Management is of the view that allowance for impairment is sufficient to cover the risk of uncollectible TR in the future. For purposes of the working capital calculation, we have added an additional IDR34.0 billion in impairment, which represents the entire remaining balance in the over 180 days bucket, as "other items to consider" in the net working capital calculations to capture the risk arising from the remaining long overdue TR. Refer to page 38.

Due to the nature explained above, TR is included in our net working capital calculations on page 38.

### Overview

Inventory, which primarily comprised of finished goods and raw materials, are pledged as collateral to DBSi, LPEI, QNBI, CIMB Niaga and BRI Agroniaga (see Appendix 3). The Group provides an allowance based on the net realizable value ("NRV") of inventories based on periodic reviews of the physical condition of the inventory.

Based on the review of the inventories' NRV and physical condition at the end of the year, management believes that the allowances for decline in value of inventory and inventory obsolescence are adequate to cover possible losses arising in the future.

During FY19, the Group wrote-off expired food products inventory amounting to IDR9.6 billion.

On 28 April 2020, a fire damaged CPP's and CWS's inventories and fixed assets in Sidoarjo amounting to IDR87.0 billion and IDR13.0 billion, respectively. The Group informed that it immediately wrote-off the affected inventory balance and so it is not recognized it as an allowance for impairment. This write-off was reflected under other operating expense in profit and loss statement for FY20 on page 26 amounting to IDR90.6 billion for inventories (with the IDR3.6 billion difference due to write-off not attributed to the fire) and IDR13.0 billion for fixed assets.

The Company has reduced its inventory turnover days from 52 days in FY18 to 41 days in FY20, which helps to reduce the risk of holding onto obsolete inventory.

### Advances

This line item is primarily comprised of advance payments for raw materials and management has informed that the level of ending balance would be relative to the sales volume in a particular year.

Due to the nature of advances as explained above, we are in the same view with management to include advances in the net working capital calculations on page 38.

### Prepaid taxes

This mainly consists of value added tax amounting to IDR0.8 billion in FY19 and IDR7.5 billion in FY20. The significant increase in FY20 was driven by CPB's prepaid VAT, which related to the closure of the "bonded zone" (a VAT-free zone) and thus, removing the previous VAT-free status.

Due to the nature of prepaid taxes as explained above, we are in the same view with management to include prepaid taxes in the net working capital calculations on page 38.

### Prepaid expenses

This mainly comprises of operational prepayments such as prepaid rent and insurance. These prepayments are recurring each year which impact the Group's short-term cash flows and thus, we are in the same view with management to include prepaid expenses in the net working capital calculations on page 38.

As the nature above resulted from discontinued practice, other receivables are not considered net working capital items.

### Restricted financial assets

This line item is the restricted cash in the Group's lenders which are ranging from cash collateral of the working capital and long-term bank loans facilities as well as the indemnity reserve accounts of BOR.

The nature of restricted financial assets is not related to the normal business operation and hence, it is not included as net working capital items.

### Note:

In relation to CPP and CWS' inventories and fixed assets which caught fire as explained on pages 26 and 29, management informed that the Group claimed the losses to insurance. The Group has received claims amounting to a total IDR57.8 billion in FY20 as recorded in other operating income on page 26, with IDR56.4 billion related to fire losses and the remaining from CPP Lampung. **A** The Group recorded lower overall bank loans in FY20 mainly due to decrease in working capital facilities (refer to Appendix 3) and repayment of term loan installments as explained on page 41.

**B** Trade payables increased from FY19 to FY20 in line with increases in revenue and COGS (please refer to pages 25 and 26). We note that FY20 TP turnover days of 35 days was faster than the 36 days recorded in FY19. Please refer to page 33 for further analysis on trade payables.

**C** Taxes payable increased significantly in FY20 by 264% to IDR55.3 billion. Please refer to page 35 for more details.

**D** This item mainly relates to the 2018 Notes accruals. In FY20, this mainly comprised of accrued interest from January 2019 to December 2020 which is equivalent to IDR366.7 billion and accrued penalty for unpaid principal and interest equivalent to IDR38.6 billion.

**E** The Group recorded lower deferred tax liability in FY20 mainly due to CPB moving from a deferred tax liability position to an asset position after the write-off of ex-plasma farmer loan receivables explained on point E on page 27.

### Overview

The Company informed us that most of the Group's payment terms from suppliers are typically 30 days, but some have 60 day terms.

During FY18, the Group's average TP turnover days was 59 days, as the Group stretched its payments to suppliers as a result of pressure on its cashflow resulting from an increase in raw material prices and the depreciation of IDR against USD (please refer to page 18).

The Group then repaid suppliers on more typical terms in FY19 when prices and the IDR exchange rate stabilized which caused the trade payables balance to decrease dramatically in FY19.

As explained on page 25, raw material prices gradually started to increase again starting in late FY19. However, the Company advises that, because the IDR only slightly depreciated against the USD by the end of FY20, the effect on the Group's cashflows was not significant, and therefore the Group did not renegotiate its payment terms with its suppliers. We note however, that the group had insufficient cash flow during this period to pay its outstanding 2018 Notes.

Due to the nature explained above, TP is included in our net working capital calculations on page 38.

The Company advises that the Group does not maintain any TP aging data as it pays all of its payables on or before the invoice due date.

**A** The Group generated positive cash flows from operations, with higher cash generated in FY20 mainly due to:

- IDR268.8 billion higher receipts from customers as a result of increased net sales and lower turnover days;
- Lower payments for operating expenses driven by lower marketing and travelling expenses due to COVID-19 as explained on page 26; and
- Payment of lease related to PSAK 73 implementation amounting to IDR45.4 billion, which was previously an operating cashflows item, was moved to financing cashflows in FY20 as stated in point F.

**B** Payments for interest expense decreased mainly due to the Group having steadily reduced the balance on, and ultimately closing, several of its long-term bank facilities as and when payments came due, as well as reducing several of its working capital facilities (please refer to page 41).

**C** The Group received claims amounting to a total IDR57.8 billion in FY20, with IDR56.4 billion due to a fire accident on 28 April 2020 as explained on page 29, which impacted the Company's and CWS's inventories and fixed assets in Sidoarjo; and the remaining from CPP Lampung.

**D** In FY19, the Group recorded IDR43.4 billion in Capex for maintenance, such as for office renovations and maintenance of hatcheries. In FY20, the Group paid IDR119.3 billion comprising of IDR31.5 billion for maintenance and IDR87.8 billion for expansion which mainly comprised of:

- Additional extruders mainly for the pet food business amounting to IDR36.7 billion;
- Warehouse replacement cost due to the fire amounting to IDR 30.9 billion; and
- New warehouse construction amounting to IDR8.6 billion.

**E** The Group recorded net repayment of bank loans in FY19, FY20, amounting to IDR308.8 billion and IDR475.3 billion, respectively as the Group repaid several term loan installments and decreased its working capital facilities as stated in Appendix 3 and page 41 for more details. This closure has also resulted in cash being released from the restricted accounts as explained in point A on page 27.

**F** As a result of PSAK 73 implementation in FY20, payments for rental expense was recorded as cash outflow for financing activities.

### Potential adjustments

Based on our analysis on the preceding pages, we have made several adjustments to include accounts that relate to normal business operations and which changes result in changes in short-term cashflows, as potential adjustments:

- A. **Accrued expenses** amounting to IDR43.4 billion in FY20;
- B. **Advances from customers** amounting to IDR13.9 billion in FY20;
- C. **Taxes payable** amounting to IDR55.3 billion in FY20.

### Other items to consider

D. **Allowance for TR:** As explained on page 28, the Group has only reserved half of total TR with more than 180 days of overdue. As this amount has a high risk in terms of collectability, thus the remaining amount could be considered to be included as additional allowance for TR.

### Level of working capital and sources of funding

Based on the beside table, it can be observed that during FY19 and FY20, adjusted working capital requirements ranged between IDR642.1 billion to IDR726.4 billion or slightly lower than the Group's calculations excluding adjustment items and other items to consider which ranged between IDR668.0 billion to IDR784.3 billion.

We note that adjusted cash and cash equivalents as the available funding source of working capital only covers 18% and 49% of working capital requirements in FY19 and FY20, respectively.

### Cash conversion cycle

In FY18-FY20, TR turnover days ranged between 24 to 34 days, in line with the average terms of customer payments of 30 days (see page 28).

Inventories and biological assets turnover days consistently decreased from 52 to 41 days, reducing the risk of inventory obsolescence over the last three years.

While advances and prepaid expenses turnover days slightly decreased from 6 to 4 days, TP turnover days recorded significant change from 59 days in FY18 to 35 days in FY20, indicating faster payments to suppliers.

Average cash conversion cycle of 37 days resulted from combination of faster TR and inventories & biological assets turnover days and offset by significantly faster TP turnover days. If the Group could re-negotiate the terms of payment to its suppliers or pay longer within the normal terms of payment of 30-60 days, the average cash conversion days could be lowered, increasing short-term free cash.

#### Overview

The Group recognizes loans from several related parties, including PT Charoen Pokphand Indonesia, PT Sinar Hidup Satwa, PT Sumber Hidup Satwa, PT Kalma Prima Jaya, and others. All of these loans are to help fund the Group's operations and will be repaid as and when these come due, except for the loan from PT Charoen Pokphand Indonesia Tbk, which was due to a restructuring of the business that occurred during 2006 - 2007.

Related party loans comprise 3% of the Group's total liabilities in FY18, and have increased to 4% of the Group's liabilities in FY19 and FY20.

The Group has confirmed that no interest is charged on any of these loans and therefore, no extra burden from these loans in terms of interest expense.

### Overview

The Group had outstanding bank loans as of 31 December 2020 amounting to IDR1,222.9 billion, of which the majority (94%) were short-term.

As of FY20, the Group was indebted to LPEI (46% of outstanding loan), DBSi (20%), CIMB Niaga (14%), BRI Agroniaga (16%), and QNB (3%). For these facilities, the loan to value was within the range of 26%-55%. For details regarding the assets pledged to each bank, please refer to Appendix 3.

A These facilities were liabilities which resulted from the crystallization of ex-plasma farmers loan for which the Group had provided guarantees.

Note: 1) Net book value as of 31 October 2020, 2) Market value based on the latest valuation reports provided as per listing on Appendix 3.

Since FY18, the Group has closed 8 long-term and 2 short-term bank loan facilities. Among these, only two long-term facilities were for investment purposes, which were the BRI Agroniaga and LPEI investment loans intended for CPyP and CPB and were closed as the Group has made the final instalments.

The remaining facilities were originally for working capital which were closed as the banks assumed lower working capital required by the Group resulting from the Nucleus – Plasma Partnership termination. Upon agreement following the banks' request for closure, 6 working capital facilities were converted to term loans with a fixed repayment schedule and were subsequently reclassified as long-term loans. For more details regarding the facilities that were closed, please refer to Appendix 3 on page 107. Based on its financial projections, the Company believes the current working capital facilities are sufficient to finance the Group's future working capital requirements.

Total assets amounting to a total net book value of IDR381.6 billion previously pledged to BRI, are no longer encumbered as a result of the closure of BRI facilities and no more outstanding amount remained. However, management informed that these assets are not attractive as security to banks when seeking new loan facilities, as banks find the location of the assets to be secluded and difficult to enforce on. A listing of the Group's pledged assets is set out in Appendix 3.

### Overview

The Group issued the 2018 Notes in 26 July 2018 in exchange for the 2013 Notes, as part of the 2018 Scheme of Arrangement. The 2018 Notes were scheduled to mature on 31 December 2021, with repayment schedule as follows:

#### Interest

- FY17: 1% cash interest and 7% to be capitalized to the principal,
- FY18: 4% cash interest and 4% capitalized,
- FY19 until maturity: 8% cash interest paid semi-annually on June 30 and December 31

#### Principal

- 2.5% paid semi-annually starting 30 June 2019 until 30 June 2021 and the remaining balance on maturity date

On June 2018, the Group made payment for interest which was due on 30 June 2017, 31 December 2017, 30 June 2018, and penalty for late interest payment amounting to USD4.7 million. This was all paid at once as a result of the timing of the completion of the restructuring of the 2013 Notes. In December 2018, the Group paid bond interest due 31 December 2018 amounted to USD3.2 million. However, we note that the Group did not make semi-annual bond interest due 30 June 2019 onwards with total outstanding coupons amounting to IDR366.7 billion. This resulted in penalties amounting to IDR38.6 billion. In the RSA, the outstanding coupons and penalties are proposed to be waived.

Note: \* Industry average number were taken from 5 competitors of relatively similar nature as detailed on Appendix 4

Set out above are key financial ratios in FY18, FY19, and FY20 for the Group's compared to the industry average. We enclosed each of the competitors' ratios and description that made up the industry average figure in Appendix 4.

- **Liquidity ratios:** Overall results of below 1 indicate a low level of liquidity to cover the Group's current obligations. Significant decrease from FY18 to FY19 was driven by the default on the 2018 Notes during FY19 which resulted in cross-defaults on the bank loans causing the 2018 Notes and the bank loans to be reclassified to current liabilities. We note that the Group's ratios were below the industry average each year, which may indicate higher working capital requirement compared to its industry peers.
- **Capital structure and long term solvency ratios:**
  - Debt to equity and gearing ratios decreased significantly from FY19 to FY20. The decrease was primarily driven by the closure of some of its working capital facilities and long-term bank loans repayment (refer to Appendix 3) as well as greater net income which results in an increase in equity. Despite the improvement, the ratios indicate that the Group still has a highly leveraged balance sheet, especially when compared to the industry average with debt to equity ratio of less than 1.5 and gearing ratio less than 1. This was mainly due to the Group having a substantial amount of bank loans and notes outstanding as compared to the industry average.

### Capital structure and long term solvency ratios (cont.):

- Interest coverage, debt service coverage and total borrowings to EBITDA have all improved in FY20 primarily as a result of improvements in EBITDA/profitability. Compared to the industry average, the Group recorded worse results within the last three years, primarily driven by the larger amount of bank loans and notes payable reported on its balance sheet.
- **Return on investment ratios:** Increased return on investment ratios in FY20 were largely due to improvements in the Group's financial performance as it recorded net income in FY20 as compared in FY19 where the Group had reported net loss. The Group also recorded higher return than industry average, which was at 5% and 2-4% for return on equity and asset, respectively.
- **Profitability ratios:**
  - Net profit margin increased due to lower SG&A and other operating expenses in FY20, as well as the absence of the amortization expense on the 2018 Notes in FY20, as explained on page 26. Net profit margin at 4% was higher than the industry at 2% in FY20.
  - Gross margin has remained relatively stable across FY19 – FY20 and greater than the industry average.
  - Through FY18-FY20, EBITDA margin has also increased which shows the Group's operations remain viable.

# Projected financial performance

# Basis of preparation

# Basis of preparations

The Company has prepared financial projections for FY20-FY25 on the basis of FY19 projected figures where were based on management's estimates during the time when the Projections was developed. Thus, the projection do not take into account FY19 nor FY20 actual financial performance of the Group.

We have simulated the projections based on application of the Company's assumptions to the FY20 actual results. The results of this simulation are presented on page 52 of this report.

The Company has requested that its original version of the projections be used for purposes of this report, as this is the version upon which the term sheet and RSA were developed.

## Basis of preparations of the Financial Projections

As the Group is currently aiming to restructure the 2018 Notes as a Scheme of Arrangement in Singapore, the Financial Projections was prepared pursuant to the proposed 2021 Scheme.

The Projections, which set out a 6-year time frame (2020 – 2025) and underpinned by the 2019 (projected) as its base year, and has been broken down into quarterly periods, in line with the payment periods proposed in the RSA. The 2019 projected figures are based on the Company's projections for the full year, based on its results through the second quarter of 2019.

Management has explained that the Projections were prepared in 3Q19 in relation to initial discussion for restructuring the 2018 Notes. The FY19P figures were based on management's estimate. The signed Term Sheet and RSA were developed based on these projections.

The assumptions used and the calculations made in the model were developed by the management of the Group.

Revenue projections have been prepared in a "bottom-up" approach in which revenue calculation is a function of sales volume multiplied by ASP. This approach does not include the Group's market share as parts of its projected revenue driver. Instead, revenue, like most of the other line items in the projections, is projected by the Company to grow in a linear manner across the Projected Period.

## KPMG comments

- The Company has not provided updated projections which take into account the FY19 and FY20 actual figures To mitigate and quantify this gap, KPMG has simulated the projections during the Projected Period based on FY20 actual results. A table setting out the impact to the projections is set out on page 52 of this report.
- As the FY19P numbers were based on management's best estimate during 3Q19 when the Projections were being developed, these base year numbers do not represent actual achievements and conditions during FY19A.
- The Company's projections are created based on each of its individual product segments. However, at the request of the Company, for purposes of this report, these have been aggregated into segments in line with what is presented in the Group's financial statements due to concerns around disclosing market sensitive information.
- We also found many inconsistencies in the formulas used to generate the FY20P numbers arising from some numbers were calculated based on their expected relationship to the FY19P numbers and others were hardcoded numbers based on management's best estimate of the 2020 performance. The Company has provided explanations for these differences which we detail in the assumptions section.
- We noted that the Group has historically produced below its installed capacity and thus, it has the ability to increase its production volume for most of its products, namely shrimp feed, food products and shrimp fries. We have provided our commentaries on projected sales volumes and its reasonableness based on historical production and available capacity in the assumptions section on pages 54 to 57.
- As the quarter-to-quarter fluctuations are typically not significant, our analysis is focused on the annual Projections as the starting point. Further analysis on the quarterly projections are set out in Appendix 1.

Note: The FY20A simulation was done by changing the assumptions in the Financial Projections using the actual results of FY20A. We did not change any other non-profit and loss assumptions, formula calculations, or logical integrity used in the Projections.

As the Financial Projections used the FY19P as its base year, we have done a simulation to see the impact on the Projections had the FY20A results been used as the baseline figures while keeping all other assumptions, including working capital levels, the same. Even though the default base year (FY19P) assumptions result in greater forecasted revenue, the forecasted EBITDA would be substantially better had the FY20A figures been used. This was partly due to the default base year had not taken into account items which drove SG&A expenses lower in FY20 actual, including (i) the implementation of PSAK 73 in FY20 which resulted in IDR45.0 billion in annual rental expenses no longer being recorded in the profit and loss and (ii) lower travelling expenses arising from large scale social restrictions in regards to the COVID-19 pandemic, thus actual EBITDA in future years might be greater than projected. We note that the RSA's definition of EBITDA allows for an exception for differences caused by PSAK 73.

We note that, had the FY20A numbers been applied, the Group would have projected to generate an additional IDR578 billion in EBITDA from FY21-FY25. This amount should be adjusted by about IDR253.5 billion (USD16.9 million) in rental expenses as a result of implementation of PSAK 73, in line with the with the RSA's definition of EBITDA. As the Cash Sweep is EBITDA based, this potential increase in EBITDA represents a significant potential upside for the Noteholders. We have set out a sensitized Cash Sweep on page 50 which shows the projected repayment schedule, had FY20A been used as a baseline. Had the Company used FY20A for its projections, an additional amount of at least 50% of the additional EBITDA (and likely the full marginal increase), would be available to the 2021 Tranche A Loan Holders and 2021 Tranche B Loan Holders. In this scenario, 20201 Tranche A Loan is repaid by Dec 2024, a full year before the proposed 2021 Tranche A Loan maturity date. This also has the potential to increase the Group's sustainable debt, allowing the 2021 Tranche A Loan outstanding to increase, assuming the projections are met or exceeded.

As presented above, the cumulative surplus available from the waterfall is projected to be USD32.3 million which is more than double the amount as compared to the projections which use FY19P as the base line of USD15.4 million (see page 79). Using these projections results in repayment of the 2021 Tranche A Loan by the end of 4Q24 in this scenario, which shows there could be a significant buffer available to ensure timely repayment of the 2021 Tranche A Loan.

The detailed analysis later in this section focuses on the underlying revenue assumptions which are a functions of sales volume and ASP.

Gross profit is projected by setting targeted gross profit margins to be achieved by each product.

The Projections do not make assumptions on the detailed nature of the underlying expenses.

The Projections do not make any assumptions on these line items as they relate to non-recurring operational activities, and are typically non-recurring in nature.

Finance income was assumed at a 1.0%-2.0% of average cash balance.

Instead of applying Indonesia's applicable CIT rate, the Projections assume annual growth based on FY20P figure, while attempting to capture the utilization of available tax losses of the Company and CPB which could be carried forward to FY22. The hardcoded numbers in FY23-FY25 represent tax rates that get closer to assumed 25% CIT rate in Indonesia.

# Overview: Revenue

Source: Management information, Financial Projections. We have not adjusted for rounding differences.  
 Note: Please refer to Appendix 1 for quarterly figures

**Overview:**

- 1) Revenue is projected based on the Company’s estimated sales volumes and ASP for each of its different product segments.
- 2) The biggest revenue contributor is the feeds segment, which projects to account for about 79% of total annual sales each year. This is followed by food products (about 17% of projected annual sales) and shrimp fries (about 4% of projected annual sales). These proportions are approximately in line with the product mix in FY20.
- 3) From FY20-FY25, revenue is projected to grow at a CAGR of 4%. This is greater than the overall sales CAGR from FY18-FY20 of 1%.
- 4) Please refer to pages 54-58 for the detailed assumptions for sales volume and ASP.

*Note: The Company’s financial projections are based on product groupings that differ from the segment reporting in the audited financial statements. In the projections fish fries are included in under others with probiotics, while in the financial statements, fish fries are grouped together under the fries segment. As fish fries and others contribute an insignificant amount to the Group’s revenue, there is minimal impact to this difference in classification.*

Production utilization across these years has averaged around 86% at FY20.</p> <p>The flat volume sales growth projected in FY23 is due to the expected prolonged drought caused by El Nino, which is in line with historical drought seasons, which have proven to disrupt the fish cultivation process and to lower the demand for fish feed, as explained on page 19.</p> <p>However, because feed sales have declined since FY18 the Group will actually need to achieve a 6% volume increase in FY21 from the actual 610.3k tons achieved in FY20A. Achieving only 3.2% FY21 growth instead of 6% would cause the Group's gross profit to be lower by IDR34.8 billion in FY21 assuming no change in projected gross margin, a large portion of which would impact the Group's EBITDA. Based on the Group's annual growth rate assumption, failure to achieve 6% growth in FY21 could have a compounding effect on future results.</p>	Yearly growth	FY18A	FY19A	FY20A	CAGR	Feeds		-4%	2%		Food products		-4%	-15%		Shrimp fries		-28%	-3%		tons	FY18A	FY19A	FY20A	CAGR	Feeds	617,465.9	595,647.3	610,319.3	-1%	Food products	13,278.9	12,771.8	10,883.8	-9%	Shrimp fries (mn fries)	8,225.6	5,912.0	5,722.4	-17%	<b>Total sales volume</b>	<b>638,970.4</b>	<b>614,331.1</b>	<b>626,925.6</b>	<b>-1%</b>	Metric tons	Actual volume produced			Production capacity			Production utilization			FY18	FY19	FY20	FY18	FY19	FY20	FY18	FY19	FY20	Feeds <sup>1</sup>	508,330.7	530,424.2	549,465.3	632,130.0	640,151.0	642,648.0	80%	83%	86%	Food products	20,902.8	15,652.4	14,878.8	24,682.5	25,069.9	22,866.4	85%	62%	65%	Shrimp fries (million pcs)	11,167.4	8,668.8	7,865.1	13,932.0	14,919.0	10,080.0	80%	58%	78%

This was driven by a combination of shifting products in FY19, and the adverse impact on local demand caused by COVID-19 in FY20, as explained on pages 19 and 22 as well as lower supply of fresh shrimp for exporting in FY19 which has gradually recovered by the end of FY20.                      The projected 5.3% yearly growth in FY21 means that the Group would actually need to achieve 32% or 3.5k tons greater than FY20 actual sales volume. Potential impact to GPM in FY21 from achieving only 5.3% growth instead of 32% would be about IDR28.7 billion, which could have a compounding effect in the future.                      Current installed capacity of 22.9k tons p.a. will be sufficient to support projected sales volume that will peak at around 70% utilization in FY25.</p>	Historical sales volume					Yearly growth	FY18A	FY19A	FY20A	CAGR	Feeds		-4%	2%		Food products		-4%	-15%		Shrimp fries		-28%	-3%		tons					Feeds	617,465.9	595,647.3	610,319.3	-1%	Food products	13,278.9	12,771.8	10,883.8	-9%	Shrimp fries (mn fries)	8,225.6	5,912.0	5,722.4	-17%	<b>Total sales volume</b>	<b>638,970.4</b>	<b>614,331.1</b>	<b>626,925.6</b>	<b>-1%</b>	Historical production utilization									Metric tons	Actual volume produced			Production capacity			Production utilization		FY18	FY19	FY20	FY18	FY19	FY20	FY18	FY19	Feeds <sup>1</sup>	508,330.7	530,424.2	549,465.3	632,130.0	640,151.0	642,648.0	80%	83%	Food products	20,902.8	15,652.4	14,878.8	24,682.5	25,069.9	22,866.4	85%	62%	Shrimp fries (million pcs)	11,167.4	8,668.8	7,665.1	13,932.0	14,919.0	10,080.0	80%	58%

	<p>Estimated sales volume is based on yearly growth rates which range between 1.5% - 2.5%, depending on the particular product. With the exception of FY21P where; (i) feeds volume are projected to grow by 3.2% mainly driven by the Group's initiative to focus on the economical pet food segment which projects to increase the sales volume substantially, and (ii) food products volume is forecasted to grow 5.3% which is primarily driven by Group's shifting strategy to selling surimi and processed food products in line with the increasing demand in the local market.</p> <p>In FY23P, the Company assume there will be a drought in line with typical drought cycles, which resulting in flat growth in fish feed products in that year.</p> <p>All assumed production volume is considered to be fully sold or equal to volume sold. This is in line with the Company having minimal inventory write-offs historically, and the annual sales growth of 1.5%-2.5% is not expected to cause a significant difference between production and sales volume. The Group projects it will resume its normal seasonality across the Projected Period.</p> <p><b>Feeds</b></p> <p>Fish and shrimp feed sales are likely to be impacted by weather and cultivation season. As explained on page 19, the Company informed that peak dry season will have adverse impact on fish cultivation activities. On the other hand, during peak rainy seasons the shrimp cultivation activities will decrease. This resulted in lower demand for feed in the first and third quarters of the year, while the second and fourth quarters of the year will see an increase in demand. The quarterly projected sales volume reflect this rationale.</p> <p>Meanwhile, the pet food segment projects to continue its historical trend with the later quarters of the year having higher sales compared to earlier quarters.</p> <p><b>Food products</b></p> <p>Food products is anticipated to have its sales volume peak in the second quarter as the Group assumes that food products' sales volumes will spike around the Eid al-Fitr celebrations and continue to be stable throughout the remaining quarters of the year. Eid al-Fitr is projected to occur in the second quarter of the year for FY21-FY24, and in the first quarter of FY25.</p> <p><b>Shrimp fries</b></p> <p>Shrimp fries sales are likely to be impacted by weather and cultivation season (see above explanation about feeds segment).</p> <p><b>Further analysis on the quarterly projections can be found in Appendix 1.</b></p>

Projected 1.5% yearly growth of feeds' ASP appears reasonable to achieve in line with its current trend.</p> <p><b>Food products</b></p> <p>Food products' ASP has substantially increased the last two years at a 8% CAGR, primarily resulting from a combination of the Group's focus on greater margin products and increases in export food products' ASP driven by a global supply shortage arising from the COVID-19 pandemic in FY20, as explained on page 20.</p> <p>As actual ASP achieved in FY20 was 23% greater per kg than the FY21P, should the Group continue to be able to achieve the FY20A ASP, it would result in additional IDR39.8 billion of gross profit from FY21-FY25.</p> <p>The Company projects a jump in ASP yearly growth to 1.8% in FY23 which is driven by an assumed shift in product mix to focus on a more premium segment (such as live harvest) and high value added food products. The Group informed that the premium live harvest shrimp products require different harvesting techniques compared to the current product line-up (raw, breaded, and cooked as explained on page 17).</p>	Historical ASP					Yearly growth	FY18A	FY19A	FY20A	CAGR	Feeds		5.8%	1.6%		Food products		-13.8%	34.6%		Shrimp fries		3.0%	7.1%		IDR/ kg	FY18A	FY19A	FY20A	CAGR	Feeds	9,095.0	9,624.4	9,782.8	4%	Food products	103,019.9	88,762.7	119,473.0	8%	Shrimp fries (IDR/ fry)	41.6	42.8	45.9	5%

# Overview: COGS & Gross margin

Projected gross margins (IDR billion, otherwise stated)

Source: Management information, Financial Projections. We have not adjusted for rounding differences.  
 Note: Please refer to Appendix 1 for quarterly figures

**Overview:**

- 1) The Group forecasted to achieve overall stable gross margin of approximately 18% across the Projected Period.
- 2) All of the Group's product margins were projected to be in line with historical achievements
- 3) Please refer to page 60 for the detailed gross margin assumptions.

*Note: The Company's financial projections are based on product groupings that differ from the segment reporting in the audited financial statements. In the projections fish fries are included in under others with probiotics, while in the financial statements, fish fries are grouped together under the fries segment. As fish fries and others contribute an insignificant amount to the Group's revenue, there is minimal impact to this difference in classification.*

# Overview: SG&A expenses

## Projected SG&A (IDR billion, otherwise stated)

The Projections did not incorporate the impact of PSAK 72 & 73 implementation in FY20 which resulted in lowering sales incentives and rental expense under SG&A line item, respectively, as the Projections was developed during 3Q19 or the period prior to the PSAK 73 implementation.

Source: Management information, Financial Projections. We have not adjusted for rounding differences. Note: Please refer to Appendix 1 for quarterly figures

## SG&A compositions

Source: Management information, Financial Projections. We have not adjusted for rounding differences. Note: 1) Due to the implementation of PSAK 72 in FY20, this line item only comprise of advertising and promotion expense or the sales incentives expense was no longer included under this line item.

## Overview:

- 1) SG&A expenses is primarily made up of employee related cost, which is projected to accounts for roughly 40% of total expense. However changes in projected total costs were mainly driven by freight out costs, sales incentives, and advertising whereby these costs are projected to be sensitive to the projected sales volume.
- 2) Other SG&A expenses are projected to increase by 4% – 5% p.a.
- 3) The Group informed that COVID-19 pandemic in FY20 significantly reduced SG&A due to less travelling activities and delayed marketing events as social restrictions were imposed by many countries as explained on page 26. The projected figures do not represent the COVID-19 pandemic impact as the Projections were developed during the start of restructuring discussions in 3Q19 or prior to the pandemic.
- 4) Please refer to the assumptions section on pages 62 - 63 for the details of SG&A key driver assumptions.

# Overview: Profitability measurements

Source: Management information, Financial Projections. We have not adjusted for rounding differences. Note: Please refer to Appendix 1 for quarterly figures

**Overview**

**Gross margin**

Projected gross margin of 18% is consistent with the historical gross margins achieved during FY19 and FY20, which ranged between 18% - 19%. As the Company's underlying assumption is a specific percentage of revenue across each of its products, the resulting gross margins are fixed across the Projected Period. Refer to gross margin section on page 60.

**Operating margin**

The operating margins are projected to be roughly stable at around 6% - 7% across the Projected Period. The variations are due to some projected fixed expenses based on assumed growth rate that are not sensitive to sales activity, for instance employee related expenses and other fixed SG&A expenses.

**Net profit margin**

While the projected margins are stable between 2% - 3%, the Group's historical net profit margins have ranged between negative 5% in FY19 to positive 23% in FY20

**Overview (cont.)**

**Net profit margin (cont.)**

This was mainly driven by (i) lower SG&A expenses due to COVID-19 pandemic social restrictions in FY20, (ii) lower operating expenses in FY20 as the Group booked additional impairment losses, and (iii) recognition of the amortization expense on the 2018 Notes unamortized valuations difference in FY19 as the Notes defaulted in FY19. Please refer to ratio analysis on page 45 for further information on the historical net profit margin.

Projected figures are a result of adjusting the operating margin by finance income, finance cost and amortization of 2021 Tranche A Loan and 2021 Tranche B Loan valuations.

**EBITDA margin**

Projected EBITDA margins are stable in line with the other explanation provided on this page.

# Overview: Working capital

Projected working capital (IDR billion)

Source: Management information, Financial Projections. We have not adjusted for rounding differences.

**Overview:**

- 1) Working capital items are projected based on the Group’s estimated turnover days and will be remaining stable each year, across the Projected Period.
- 2) Significant increase in FY21P net working capital as the base year in the Projections was FY19P and does not take into account the actual FY20 results.
- 3) Primary items in working capital are inventory and biological assets, which account for about 93% of projected net working capital, and followed by TR (86% of net working capital) and TP (80% of net working capital). These proportions are approximately in line with the net working capital composition in FY18 – FY20.
- 4) Based on the figure above, the Group recorded its lowest net working capital requirements in FY20 primarily driven by it tightening its controls over inventory and AR primarily driven by the COVID-19 pandemic. This has resulted in significant projected net working capital growth in FY21 by 45% as the Projections were developed after the default on the 2018 Notes, but prior to the Group tightening its AR and inventory controls. Starting from FY22, yearly net working capital is projected to grow by roughly 4% each year throughout Projected Period, except in FY23 where the Group assumed no sales growth in fish feed products due to drought season cyclicity caused by El Nino (see page 54).
- 5) Please refer to the assumptions section on pages 54-58 for the details of sales volume and ASP key driver assumptions.

# Working capital: Assumptions

Key assumptions and comments on Financial Projections																																																														
Area	Assumptions								KPMG comments																																																					
<b>Working capital</b>	Working capital items are assumed based on the following turnover days:								<p>We note that the projected working capital turnover days are generally longer in the projections than the historical turnover days.</p> <p>The projected 46 cash conversion cycle days is longer than the recent historical 33 – 43 days. This is primarily driven by longer TR days assumed in the Projections than the average historical TR days. As explained on page 28, most of the Group’s terms of payment from customers are around 30 days. The Group informed that FY18 turnover days of 34 days was the basis of its assumption in developing TR projected turnover days of 35 days.</p>

# Working capital: Seasonality

Projected working capital seasonality (IDR billion)

Overview:

- 1) Based on the above figures, significant increase in 1Q21P net working capital as the base year in the Projections was FY19P and does not take into account the actual FY20 results.
- 2) The projected quarterly net working capital will peak during the first quarter (greater by almost 20% as compared to the rest quarters) before falling back and remaining flat throughout the rest of the quarters in the year. This is driven by the assumed quarterly sales volume which is projected to peak during the second quarter of the year and therefore, the Group is expecting to prepare for this by stocking up on its inventory during the first quarter. This, however, is in not in line with FY19A and FY20A where the greatest net working capital was in the third quarter, as driven by (i) prolonged drought season and virus outbreak in FY19, thus lowering the feed demand and forcing the inventory to bulk up during 2Q19 and 3Q19, and (ii) COVID-19 pandemic during FY20 which results in demand recovery to start in 3Q20.
- 3) The Group informed us that the seasonality in the projected sales volume is driven by weather conditions, whereby farmers cultivate more fish during rainy season, thus increasing the demand of fish feed, and Eid Al-Fitr month which boosts the sale of food products, as explained on pages 18 and 57 and Appendix 1.

# Overview: Fixed assets and capital expenditures

Source: Management information, Financial Projections. We have not adjusted for rounding differences.

**Overview:**

- 1) Capex is projected based on the Group's long-term infrastructure investment plan, categorized as maintenance and expansion (for each of product segments) Capex.
- 2) The biggest contributor is maintenance Capex, which is projected to account for about 50% - 70% of annual Capex each year, except for FY22 where substantial amount of Capex is contributed by expansion on food and feed segment. This composition is in line with the Capex in FY18 and FY19, while in contrary to the FY20 Capex, which was dominated by expansion Capex (see point D on page 36).
- 3) Please refer to the assumptions section on page 73 for the details of Capex key driver assumptions.

# Capex: Assumptions

Key assumptions and comments on Financial Projections										
Area	Assumptions								KPMG comments	
<b>Capex</b>	<ul style="list-style-type: none"> <li>Capex schedule is assumed based on projected long-term Capex schedule which based on management's view during 3Q19.</li> </ul>								<p>Substantial expenditures of expansion Capex are expected to incur during FY22P for food and feed segments amounting to IDR61.0 billion and IDR35.0 billion, respectively.</p> <p><b>Capex on food segment</b></p> <p>Currently, the Group is renting its local food production facilities. Based on the view that this segment has high growth potential, the Group intends to build its own facilities in FY22 in order to produce local food products. The estimated additional capacity (beyond the rented facilities' capacity) is 3.9k tons/ year beyond the current running capacities at the rented facilities.</p> <p><b>Capex on feed segment</b></p> <p>A substantial amount of Capex is planned to be spent during FY22 to add another feed mill, which will generate additional production on top of its current capacity. The Group intends to buy additional machineries which could yield 40.0k tons p.a. of additional production on top of its current capacity.</p> <p>The Company also confirmed that it has spent substantial Capex on adding feedmill production facilities that will yield an additional 40.0k tons p.a. Thus, the current actual installed capacity since the beginning of FY21 is around 682.7k tons p.a.</p> <p><b>Capex on hatchery</b></p> <p>Hatchery production capacity has been declining due to low density farming, as explained on page 19. However, the Group projected to build hatcheries in areas with high growth potential near to the market (cultivation centers), which would result in lower transportation costs and increase shrimp fries survival ratio.</p>

Overview: Bank loans (1/2)

As the Projections assumed its base year to be the FY19P numbers which were no longer relevant with the FY20A numbers, thus resulting in a gap between the actual outstanding bank loans as of FY20A and the FY20P. Set out below the projected bank loans with actual outstanding as of 31 December 2020 as the comparable baseline:

## Overview: Bank loans (2/2)

**Overview:**

- No repayment is forecast to be made for its existing short-term bank loans as these loans are mainly working capital facilities comprised of revolving loans and L/C or SKBDN (“local L/C”) facilities, as these loans will have continuous utilization and repayment throughout the Projected Period based on the Group’s operational requirements. Based on the latest maturity dates as of 31 December 2020, these facilities are expected to mature at various points during the Projected Period. The Company is of the view that these facilities will be extended.
- The Projections assume an additional drawdown on its existing working capital loans during the first quarter every year amounting to USD10.0 million (equal to IDR150.0 billion) and for this amount to be immediately repaid during the second quarter. The Company informed us that this additional drawdown will be made through its existing working capital facilities and not new lenders or new facilities. This is to support the projected negative net operating cashflows during the first quarter, as the Projections assumed the Group would stock up on inventory during the beginning of the year (see Appendix 2), and will then increase its sales in the second quarter, allowing it to repay the additional working capital facilities.
- The only repayments made will only be for the long-term bank loans facilities from PT Bank QNB Indonesia Tbk and PT Bank KEB Hana Indonesia. As the Projections were developed based on the 2018 actual bank loans outstanding, the Group anticipates differences between the Projections and actual loan repayments schedule.
- Please refer to page 76 for the bank loans key driver assumptions.

# The 2021 Scheme

# Restructuring of 2018 Notes - Scheme

The Company and the Arrangers have come to an agreement on the RSA. The restructuring of the 2018 Notes is expected to be completed under a Scheme of Arrangement in Singapore. The restructuring provided for in the 2021 Scheme has 2 different options – the **Re-participation Option** and the **Cash-out Option**. If the Scheme is approved, any 2018 Noteholders that do not vote in favor of the Scheme, would be included in the Re-participation Option. The only way to participate in the Cash-out Option is to vote for this option in the 2021 Scheme.

Set out below the key repayment terms which should be serviced by the Group's EBITDA, summarized from the 2021 Scheme:

A key feature of the 2021 Tranche A Loan is the Cash Sweep, under which a minimum amount of Group's cash in excess of an agreed amount (and more if the Company so elects) will be paid through an agreed cash distribution waterfall to amortize amounts owing Tranche A, and if sufficient, to amortize amounts owing under Tranche A and Tranche B.

The relevant provision of the RSA, Section Cash Sweep in Part II Schedule 4, provides that "On each Quarter Date falling on or after 31 December 2021, the Parent shall apply an amount of cash that is not less than 50% of the Group's EBITDA for the fiscal quarter ending on the immediately preceding Quarter Date in accordance with and in the order set out below (the "Cash Sweep"):

1. *first*, in payment of cash interest accrued on the Tranche A Loan and falling due on or prior to that date;
2. *second*, in payment of scheduled amortisations in respect of the Tranche A Loan falling due on or prior to that date;
3. *third*, in payment of PIK interest accrued on the Tranche A Loan and to be and/or which have been capitalised on or before that date;
4. *fourth*, of the cash remaining after payment of the items set out above
  - a. 70% shall be applied in prepayment of the principal outstanding under the Tranche A Loan falling due after that date but prior to the Tranche A Facility Maturity Date (in inverse chronological order); and
  - b. provided that there are no events of default continuing under the Term Loan Facilities, 30% shall be applied in accordance with and in the order set out below:
    - i. first, in payment of PIK interest accrued on the Tranche B Loan and to be capitalised on that date; and
    - ii. second, repayment of the Tranche B Loan.

If there are events of default continuing under the Term Loan Facilities, the 30% should also be applied in prepayment of scheduled amortisations in respect of the Tranche A Loan falling due after that date but prior to the Tranche A Facility Maturity Date (in inverse chronological order)."

# Restructuring of 2018 Notes - Cash Sweep (1/3)

The Financial Projections set out the Cash Sweep calculations which were used during the discussion with the Arrangers. We have recalculated the Cash Sweep based on our understanding of the RSA and is the foundation of our Cash Sweep analysis. Output results, such as EBITDA, net working capital, Forex rate, etc., are based on the Financial Projections output. Set out below the Cash Sweep calculation with the scenario of 100% re-participation rate of 2018 Noteholders (see Assumptions section on pages 82 – 84 for further information):

Had the cash sweep started prior to 4Q21P, the 2021 Tranche A Loan Holders and 2021 Tranche B Loan Holders would have had an opportunity to be repaid up to IDR221.9 billion (eq. to USD15.4 million). However, as per the terms of the RSA, the accelerated repayment (without prepayment penalties) will only begin on 31 December 2021 and thus, the surplus available during 1Q21 – 3Q21 will add to the Group's ending cash and might be partially used for accelerated repayment on 31 December 2021.

Note: Financial Projections. We have not adjusted for rounding differences.

Based on the projected cash balance noted above, the Company projects to have sufficient cash to pay more than the required 50% of each quarter's EBITDA that it has agreed to in the Cash Sweep in the RSA. Building up its cash balance to such levels would be an inefficient use of cash, and further repayment of the 2021 Tranche A Loan and 2021 Tranche B Loan would likely be a more efficient use of its cash

Restructuring of 2018 Notes	<p>The Company and the Arrangers have come to an agreement on the RSA. The restructuring of the 2018 Notes is expected to be completed under a Scheme of Arrangement in Singapore. The Projections for repayment of the 2021 Tranche A Loan and 2021 Tranche B Loan is based on the RSA.</p> <p>The Projections are comprised of the following Re-participation Option key terms which affect the Group's cashflows:</p> <ul style="list-style-type: none"> <li>The assumed participation rate of 2018 Noteholders is 100% and the rest of the terms are in line with the RSA.</li> <li>Term Loan Facilities will be comprised of 2021 Tranche A Loan and 2021 Tranche B Loan, <b>amounting to USD54.6 million and USD25.0 million</b>, respectively, based on the following:</li> </ul>	<p>We noted that based on the RSA, the Rolled Commitments is USD56.9 million (considering that if 100% of 2018 Noteholders elected to choose the Re-participation option and thus, 35% of 2018 Notes principal amounting to USD162.5 million). However, as total New Money Amount required is USD79.6 million and Tranche B Loan commitment is fixed at USD25.0 million, the resulting Tranche A Commitment will be USD54.6 million.</p> <p>To bridge the gap between USD56.9 million and USD54.6 million, the USD2.3 million will be considered as a prepayment by the Group to the 2021 Tranche A Loan Holders.</p> <p>(Please refer to pages 79 – 81 for further information on the Cash Sweep calculation).</p>

The Projections forecasted a declining yearly trend in interest expense payment, primarily driven by the repayment of Tranche A and B principal starting from 4Q21.

However, in FY21 there will be a PIK coupon capitalization to Tranche B principal amounting to a total of USD1.8 billion (eq. to IDR26.6 billion) and therefore, out of IDR303.4 billion of interest expense (see page 52), only IDR276.8 billion will be paid in FY21.

Thus, this resulted in nearly no difference in amount of interest paid in FY21 and FY22.

Financial ratios (1/3)

Specific ratio required by the RSA – Leverage<sup>1)</sup> (times)

**Overview:**  
Declining projected Leverage follows the assumptions that the 2021 Tranche A Loan and 2021 Tranche B Loan will be gradually repaid, while the Group's EBITDA gradually improves. Based on the Financial Projections, the Group will comply all of the RSA requirement starting from 3Q21P.

■ RSA requirement (shall not be more than)  
— Leverage

Specific ratio required by the RSA – Debt Service Cover<sup>2)</sup> (times)

**Overview:**  
Increasing projected Debt Service Cover ratio is driven by combined gradually improved projected EBITDA and 2021 Tranche A Loan repayments which reduced the loan outstanding throughout Projected Period. Based on the Financial Projections, the Group will comply all of the RSA requirement starting from 3Q21P.

■ RSA requirement (shall not be less than)  
— Debt Service Cover

Note:  
1) Leverage = Net Debt/ EBITDA, whereby Net Debt defined as all liabilities which would in accordance with Indonesian GAAP be classified as interest-bearing liabilities minus (a) cash (b) cash equivalents and (c) any other restricted financial assets.  
2) Debt Service Cover = EBITDA to Debt Service in respect of any Relevant Period, where Debt Service as defined in the RSA. The ratio excludes bank charges and withholding tax resulting from interest payments.

Gradually increased Interest Cover throughout the Projected Period was in line with the gradual repayment of the 2021 Tranche A Loan and long-term bank loans outstanding principal. Based on the Financial Projections, the Group will comply all of the RSA requirement starting from 3Q21P.

Liquidity (times)

**Overview:**  
Based on the above figures, significant increase in 1Q21P is due to the restructuring of the 2018 Notes has been assumed to be finalized in the Projections. Subsequently, both ratios are projected to result in stable numbers across Projected Period.

Note:  
1) Interest Cover = ratio of EBITDA to Finance Charges in respect of any Relevant Period, where Finance Charges as defined in the RSA. The ratio excludes bank charges and withholding tax resulting from interest payments.

2) Quick ratio = Cash and cash equivalents + TR / Current liabilities

# Quarterly sales volume

Source: Management information, Financial Projections. We have not adjusted for rounding differences.

Quarterly sales volume is projected to increase gradually based on the assumed yearly growth rate of each products as mentioned on pages 54-57.

Historically, the Group managed to achieve the greatest volume sold in second quarter during FY19, while in FY20, the second quarter was overturned to the quarter with lowest volume sold, as driven by early period of social restrictions imposed by the Government due to COVID-19 pandemic.

In overall, most of the products are projected to be sold in the second quarter of year, and continue to fall in the third quarter before starting to raise by the end of the last quarter. As explained on page 57, this is largely driven by the rationale:

- Feeds sales are likely to be impacted by weather and cultivation season. The Company informed that peak dry season will have adverse impact on fish cultivation activities. On the other hand, during peak rainy seasons the shrimp cultivation activities will decrease. This resulted in lower demand for feed in the first and third quarters of the year, while the second and fourth quarters of the year will see an increase in demand. The quarterly projected sales volume reflect this rationale; and
- Food products sales which is anticipated to peak in the second quarter, assuming Eid al-Fitr season occurred in such quarter. As FY25 Eid Al-Fitr is projected to occur in the first quarter, increased volume sold might be faster than what have been projected.
- Shrimp fries sales are likely to be impacted by weather and cultivation season (see above explanation about feeds segment).

Quarterly ASP is projected to increase based on yearly assumed growth rate as set out on page 58 for each products, with every quarter to have equal ASP.

Note: 1) The presented yearly ASP is to simplify the presentation of equal quarterly ASP as assumes in the Projections.

# Quarterly gross margin

Source: Management information, Financial Projections. We have not adjusted for rounding differences.

The Group forecasted to achieve flat gross margins for each of its products across all of the projected quarters, in line with the assumed yearly fixed gross margins assumptions in the Projections.

Please refer to page 60 for further details on gross margins.

# Quarterly SG&A expenses

## Projected SG&A (IDR billion, otherwise stated)

The Projections did not assume the impact of PSAK 72 & 73 implementation which resulting in lowering sales incentives and rental expense under SG&A line item, respectively, as the Projections was developed during 3Q19 or the period prior to the PSAK 73 implementation.

CAGR FY20 – FY25 → 1Q:11%, 2Q:9%, 3Q:9%, 4Q:9%

Source: Management information, Financial Projections. We have not adjusted for rounding differences.

The second quarter of each year is projected to result in the greatest quarterly SG&A expense, which is consistent with the projected sales activity of the Group (refer to projected sales volume on page 95).

While in line with FY19A, SG&A projections are not in line with FY20 results. The COVID-19 pandemic in FY20 significantly reduced SG&A due to fewer travelling activities and delayed marketing events as social restrictions were imposed by many countries. Additionally, the implementation of PSAK 73 reduced the Group's rental expenses. The projected figures do not take into account these items.

Please refer to the assumptions section on pages 62-63 for the details of SG&A key driver assumptions.

Note: 1) Due to the implementation of PSAK 72 in FY20, this line item only comprise of advertising and promotion expense or the sales incentives expense was no longer included under this line item.

# Quarterly profitability measures

**Gross margin**

Projected quarterly gross margin of 18% is consistent with the historical quarterly gross margins, which have ranged between 16% and 21%. However, as the Company’s underlying basis of assumptions are specific percentage of revenue across products, this resulted in fixed projected margins across the Projected Period.

**Operating margin**

The operating margins are projected to be stable at around 6% - 7% every quarter. The variations are due to some projected fixed expenses based on assumed growth rate that are not sensitive to sales activity, for instance employee related expenses and other fixed SG&A expenses.

**Net profit margin**

While the projected margins are considered to be low between 2% - 3%, historical Group’s net profit margins were significantly oscillated between FY19 and FY20, ranging from the lowest of negative 5% to positive 23%.

High net profit margins during 2Q20A and 4Q20A primarily resulted from gains on foreign exchange on the 2018 Notes due to IDR appreciation against the USD, while significant net losses booked during 1Q20A resulted from IDR depreciation against the USD which led to a significant loss on foreign exchange on the 2018 Notes.

In 2Q19A, when the Group defaulted on the 2018 Notes interest and principal scheduled payments, the entire unamortized cost of the 2018 Notes was charged to 1Q19 and 2Q19 profit and loss. Total amount charged in FY19 was IDR449.4 billion.

**EBITDA margin**

The stability of projected quarterly EBITDA margins were in line with operating margins trend as the Group did not take into account the lower SG&A caused by COVID-19 pandemic during FY20A.

# Quarterly working capital: turnover days

**Overview**

Overall cash conversion cycle days will be greatest during the first quarter and will reduce gradually each subsequent quarter. As the Projections expected the increase in sales volume during the second quarter every year, it then assumed to anticipate the second quarter rising sales volume by assuming to bulk up on inventory and biological assets, including purchasing the supplies needed for its production process thus, increasing advances and prepayments, as well as trade payables during the beginning quarter of the year.

The longest cash conversion cycle is projected to be 50 days, which is in line with to the longest conversion cycle achieved by the Group during 3Q19A and 4Q19A of 50 and 51 days. Meanwhile, the projected conversion days to be achieved is 44 days, which is expected to be realized during 1Q21A, which is slower than the Group’s best conversion cycle of 34 days in 1Q19A.

**Notes to be read in conjunction with this report**

This report has been prepared based on information provided by the Company as annexed in Appendix 17 and the representations and clarifications obtained from the Directors and management of the Company. We have not sought, and will not seek, to establish the reliability of those sources.

The Company has provided its comments and confirmed the factual accuracy of the content and supporting documents of this report and KPMG does not accept responsibility for the accuracy of such information, which remains the responsibility of the Directors and management of the Company.

**1. Executive Summary**

- 1.1 Following its default on the Original Notes in 2009 which were originally scheduled to mature in June 2012, the Company had undergone two restructurings through the 2013 and 2018 Scheme of Arrangement.
- 1.2 The latest 2018 Scheme of Arrangement dictates the maturity date of the 2018 Notes on 31 December 2021, bearing interest at 8.0% interest p.a., with PIK interest of 7.0% and 4.0% in 2017 and 2018, respectively. Amortization amounting to 2.5% would be paid semi-annually beginning in June 2019, and the remaining to be repaid by December 2021.
- 1.3 The Group defaulted on its 2018 Notes in 2019 as it did not possess sufficient cash from operations and financing activities. The Company failed to secure new funds which were intended to refinance the 2018 Notes as and when they came due and has also, despite greater-than-projected revenue since 2017, seen its margins continue to decline as unit costs rose above expectations and the IDR depreciated against USD.
- 1.4 The Company has come to a tentative agreement with the Arrangers and aim to restructure the 2018 Notes as a Scheme of Arrangement in Singapore. KPMG has been engaged to assess the estimated returns under the 2021 Scheme, which consists of the Re-participation Option and the Cash-out Option, and compare the returns under two alternatives which may take place if the restructuring is not approved – enforcement of share pledges provided as 2018 Noteholders’ security, and a liquidation scenario.
- 1.5 We have estimated the recoveries under the 2021 Scheme options and pledged share enforcement scenario under the DCF model by applying a discount rate of 16.6% which is based on an average of CCC and CCC- bonds , while the liquidation scenario follows the IDR risk-free rate at 6.3%. Sensitized scenarios involving different costs of debt have also been prepared.
- 1.6 The Re-participation Option of the 2021 Scheme was calculated under the base assumption of 100% of 2018 Noteholders vote for the Re-participation Option, which would lead to the 2021 Tranche A Loan being issued at 35% base consideration of the outstanding 2018 Notes (in addition to various fees and other payments which are in aggregate 5% of the 2018 Notes plus 2% of the Tranche A Facility amount), and with a Base Interest Rate of 10.0%. p.a. We have also set up scenarios where different re-participation rates take place, as well as a scenario with no acceleration of amortization payments through the Cash Sweep.
- 1.7 The options available to 2018 Noteholders, and the corresponding estimated recovery, is summarized in the following table:

Noteholder decision matrix		Existing management continues?	
		Yes	No
Continuing exposure to the Company?	Yes	Re-participation Option*	37.6% - 40.8%
	No	Cash-out Option	25.0%
		Enforcement of pledged shares - uncertain**	20.7%
		Liquidation of Group	20.7%

\*Re-participation Option recovery will vary depending on the option selected for MEBs

\*\*The Company has advised that the estimated recovery from the enforcement of pledged shares would be unquantifiable based on available information. This is detailed further in section 6 of this report.

- 1.8 The above table shows the best overall return to the 2018 Noteholders is the Re-participation Option with an estimated return between 37.6% and 40.8% depending on the option selected for Requisite

MEB holdings. This option is estimated to provide returns that are greater than both the Cash-out Option (25.0% estimated return), and the liquidation option (20.7% estimated return). It is noteworthy that the estimated return for the Re-participation Option is also greater than the option of enforcing on the pledged shares. Enforcement of pledged shares would also expose the 2018 Noteholders to the various issues raised in sections 6 and 8. We also note the pledged shares are also part of the proposed security package on the 2021 Tranche A Loan, which would allow the 2021 Tranche A Loan Holders to maintain the flexibility of pursuing this option going forward. The worst overall return is estimated to be the liquidation option, which would cut-off exposure to the Group (and its management) and would also bring about the challenges laid out in section 8. Should the 2018 Noteholders wish to cut off their exposure to the Company, they would likely be better served taking the Cash-out Option, which is estimated to provide a return of 4.3% greater than the liquidation option, and avoids all of the challenges that would come with liquidating the Group.

## **2. Background**

### **2.1 Events leading to 2013 Scheme of Arrangement**

- (a) Historically CPB and WM (both shrimp farms) were the major revenue contributors of the Group. In 2009, a devastating outbreak of IMNV at the shrimp farms caused a severe decrease of about 37% in shrimp yield during the year and resulted in a corresponding decrease in revenue during the year of about 34% from the processing of the shrimp. Due to the negative impact on the overall financial results the Group was unable to meet the Original Note coupon payment due in December 2009.
- (b) Subsequently, the Group entered into restructuring discussions with the Original Noteholders and the Original Notes were restructured through a Scheme of Arrangement sanctioned by the High Court of Singapore on 14 May 2013. The Original Notes were originally scheduled to mature in June 2012 and bore interest at a rate of 11% p.a. payable semi-annually in June and December. Pursuant to such Scheme of Arrangement, on 17 June 2013 the Issuer issued the 2013 Notes. The maturity date of the 2013 Notes is 31 December 2020 and the 2013 Notes bear interest at a step-up rate, as follows: 2.0% p.a. in 2013 and 2014, 4.0% p.a. in 2015, 2016 and 2017, 6.0% p.a. in 2018 and 8.0% p.a. in 2019 and 2020. The principal amortization schedule provided in the Original Notes was deferred such that 5.0% of the 2013 Notes' outstanding principal would be paid semi-annually beginning in June 2018, with the balance to be repaid by December 2020.

### **2.2 Events leading to 2018 Scheme of Arrangement**

- (a) However, due to several factors that were unforeseen at the time the 2013 Scheme of Arrangement was proposed, including the continued underperforming integrated shrimp farming business, the Group determined that a change in business strategy was required. The Group decided to discontinue its material reliance on numerous Nucleus-Plasma Partnerships, until then a central feature of the Group's business model and strategy, and to focus instead on the free market system. Management believed this approach was required to stop the cash drainage caused by the unfavorable Nucleus-Plasma Partnerships arrangements, pursuant to which the Group was required to provide working capital, such as shrimp fry, shrimp feed and electricity, to plasma farmers even if the farmers were underperforming and were unlikely to generate future returns sufficient to repay such working capital advances. The Group's management concluded the Nucleus-Plasma Partnerships were no longer sustainable, and the Group's write-off of the plasma

receivables and crystallization of Group-guaranteed plasma loans were direct effects of this decision to discontinue its Nucleus-Plasma Partnerships (see paragraph 2.2.(b) below for further details). The considerable adverse financial impact that these events had on the Group affected BOR's ability to fulfil its obligations under the 2013 Notes, and consequently BOR defaulted on the payment of 2013 Notes cash interest payable on 30 June 2017.

- (b) The Group subsequently consistently underperformed expectations, primarily as a result of it not being able to achieve the projected levels of shrimp production, as well as other cash flow issues including the Nucleus-Plasma Partnership scheme which required the Group to provide working capital to the plasma farmers for each shrimp production cycle (about 4-5 months including preparation time) despite the underperformance causing the farmers to be unable to generate sufficient cash flows to repay the working capital provided by the Group, guarantees on bank loans to WM and CPB farmers crystallizing and retrenchment of approximately 3,700 employees and termination costs amounting to IDR300 billion (equal to about USD22 million).
- (c) In Q4 2016 the Group decided to shift its strategy from one focused on integrated shrimp farming, an approach that relied on Nucleus-Plasma Partnerships, to one focusing only on the Free Market shrimp and fish feed businesses. The objective of this was to provide the Group with a less volatile income stream. As a result of this decision, the Parent has ended the Nucleus-Plasma Partnership scheme with the farmers of CPB in November 2016, and in May 2017, following which the Group has significantly reduced the amount of working capital provided to the WM farmers, thus effectively ending the Nucleus-Plasma Partnership scheme. These decisions have resulted in i) CPB and WM having to write-off all receivables from the farmers of about USD138 million, and ii) acceleration of repayment of approximately USD30 million due on bank loans provided to the farmers under the Nucleus-Plasma Partnership agreements relating to the ponds operated by these two companies. These accelerated bank loans were guaranteed by CPB and the Parent, and acceleration of the loans to farmers triggered farmer repayment defaults and claims by bank lenders of the guaranteed provided by CPB and the Parent. The combined impact of these write-offs and guaranty payment demands resulted-in an accumulated loss of USD168 million recognized by the Group up to 30 June 2017, putting further pressure on the cash flows of the Group.
- (d) As a result, the Group could once again not pay the 2013 Notes' scheduled coupon payment due in respect of the 2013 Notes in June 2017. The Group and the 2013 Noteholders entered into discussions on how to restructure the 2013 Notes, and the 2013 Notes were restructured through a Scheme of Arrangement sanctioned by the High Court of Singapore on 21 May 2018. Pursuant to such Scheme of Arrangement, on 26 July 2018 the Issuer issued the 2018 Notes. The maturity date of the 2018 Notes is 31 December 2021 and bear interest at 8.0% interest p.a., with PIK interest of 7.0% in 2017 and PIK interest of 4.0% in 2018. All other interest is to be paid in cash on the Interest Payment Date. The amortization was pushed back such that 2.5% would be paid semi-annually beginning in June 2019, with the balance to be repaid by December 2021.

### 2.3 Events leading to 2021 Scheme of Arrangement

Despite greater-than-projected revenue since 2017, the Group was unable to meet its EBITDA targets as a result of shrinking margins due to greater than anticipated per-unit costs, and IDR depreciation against the USD. This, along with covenant defaults on the existing bank loans, and a lack of additional collateral to give to banks, impeded the Group's efforts to raise new borrowings, which were unsuccessful. The Group had originally planned to raise new funds to service the 2018 Notes beginning in 2019. Without the new funds it had projected to raise in order to repay the 2018 Notes, and without

sufficient cash from operations, the Group defaulted on its debt payment obligations for a third time, and failed to pay 2018 Notes interest due on 30 June 2019.

### 3. Key terms of this report

3.1 The Company and the Arrangers have come to an agreement on the RSA. The restructuring of the 2018 Notes is expected to be completed under a Scheme of Arrangement in Singapore. As part of the restructuring, the Issuer has engaged KPMG, to assess the expected returns anticipated by the 2021 Scheme, as compared to enforcement of the share pledge, and a liquidation scenario of the Group (being the likely alternative if the restructuring is not implemented). KPMG was appointed by the Issuer on 12 January 2021 to provide this Statement of Estimated Outcome under the terms of the 2021 Scheme. The scope of this report, which has been confirmed with the Parent and the Arrangers, is to provide an estimate of:

- 2021 Scheme Scenario 1: DCF model for the Re-participation Option
- 2021 Scheme Scenario 2: DCF model for the Cash-out Option
- Alternative option 1: Pledged shares scenario
- Alternative option 2: Liquidation (Bankruptcy) scenario, which include existing security arrangements and the resulting estimated outcome on a per entity basis
- Challenges that may impede enforcement actions for the alternative options

3.2 The restructuring provided for in the 2021 Scheme has 2 different options – the Re-participation Option and the Cash-out Option. If the Scheme is approved, any 2018 Noteholders that do not vote in favor of the Scheme, would be included in the Cash-out Option. The only way to participate in the Re-participation Option is to vote for this option in the 2021 Scheme.

3.3 Our analysis of the estimated value of the return to holders of the 2021 Tranche A Loan is based on the 2021 Scheme and Heads of Terms in the RSA. Our analysis will calculate the NPV for each of these components for each option, and then sum up their respective NPVs to arrive at the total estimated return under the 2021 Scheme. We have not considered any transactions performed outside of the 2021 Scheme that 2018 Noteholders may complete (including purchasing or selling 2018 Notes, and purchasing, selling, or transferring MEBs), in our analysis of the estimated returns.

We have not considered the returns from 2021 Tranche B Loan, as this will be a separate, funded transaction that does not provide any direct returns to the 2018 Noteholders. We have however considered the proposed 2021 Tranche B Loan payment terms, as this will have an impact on the amount of funds available to pay 2021 Tranche A Loan through the Cash Sweep. Please refer to section 4 for further details.

3.4 In this report, based on the Group's cost of debt, we used the discount rate of 16.6% for the calculation of the NPV under the DCF model and for the estimated value of pledged shares, which is one of the alternative options to the 2021 Scheme of Arrangement. Please refer to Appendix 1 for the basis of the rate used and the range of potential costs of debts to be applied, which is based on similar, non-investment grade, USD denominated corporate bonds (Source: Bloomberg). Please also refer to Appendix 2 for additional scenarios within the range of costs of debts.

3.5 For the calculation of NPV recovery under the liquidation scenario, considering that the risks associated with realizing the liquidation value of the assets should already have been considered, we are of the

view that the discount rate applied should be the corresponding Indonesian Rupiah risk-free rate (taking into consideration only time value of money). Based on the Indonesian sovereign yield curve extracted from Bloomberg, we have obtained a risk-free rate of 6.3%.

- 3.6 It should be noted that we have not performed any analysis of the viability of the operations of the Group, nor have we tested the likelihood of the Group to be able to service the debt obligations of the 2021 Tranche A Loan. Our analysis in this report relates strictly to the estimated NPV of the 2021 Tranche A Loan under the assumption that they are able to be fully repaid in line with the terms laid out in section 4. As such, we do not make any claims or recommendations as to the expected value of the 2021 Tranche A Loan.

#### 4. 2021 Scheme Scenario: DCF model for the Re-participation Option

4.1 The Re-participation Option has 3 main components – 2021 Tranche A Loan, fees (including Upfront Fees, Early Bird Consent Fee, and Regular Consent Fee) and other payments, and MEBs.

##### 4.2 2021 Tranche A Loan

(a) Assumption - Re-participation percentage

- i. The exact amount of the Re-participation Option's base consideration will be determined based on the percentage of 2018 Noteholders (by value) who ultimately elect this option. The key terms, for purposes of calculating the NPV of the Re-participation Option, are as follows:

Percentage of 2018 Noteholders who elect to roll their 2018 Notes	Reparticipation percentage (of the outstanding 2021 Notes)	Components of Re-participation Option	Base Interest Rate
Less than 50%	45%	- 40% base consideration - 1% Early Bird Consent Fee - 0.5% Regular Consent Fee - 3.5% Mandatory Repayment of Existing Notes - 2% Upfront Fees (of Tranche A Facility) - MEBs	14%
More than or equal to 50% but less than 75%	42%	- 37% base consideration - 0.5% Regular Consent Fee - 3.5% Mandatory Repayment of Existing Notes - 2% Upfront Fees (of Tranche A Facility) - MEBs	12%
More than or equal to 75% but less than 100%	40%	- 35% base consideration - 0.5% Regular Consent Fee - 3.5% Mandatory Repayment of Existing Notes - 2% Upfront Fees (of Tranche A Facility) - MEBs	10%

- ii. Based on the above table, as and when higher re-participation thresholds are achieved, the base consideration and Base Interest Rate decrease. For all of the different re-participation percentages, Early Bird Consent Fee, Regular Consent Fee, and Upfront Fees will be calculated at the same percentages.

- iii. For purposes of this report, we will assume 100% of existing 2018 Noteholders elect the Re-participation Option, as this would result in the largest number of 2018 Noteholders participating in the Re-participation Option and correspondingly would yield the lowest return per 2018 Notes. Based on 100% participation in this option, and thus a 35% base consideration, the quantum of funds available to pay 2021 Tranche A Loan to be issued to 100% of the 2018 Noteholders would be equivalent to USD56.9 million (USD54.6 million Tranche A Facility and USD2.3 million prepayment).

Should less than 75% of 2018 Noteholders (by value) elect this option, those 2018 Noteholders that do elect this option would enjoy greater returns. We have set out the estimated NPV for the other percentage aggregations of 2018 Noteholders electing this option in Appendix 4.

(b) Assumption – Cash Sweep

- i. A key feature of the 2021 Tranche A Loan is the Cash Sweep, under which a minimum amount of Group's cash in excess of an agreed amount (and more if the Company so elects) will be paid through an agreed cash distribution waterfall to amortize amounts owing Tranche A, and if sufficient, to amortize amounts owing under Tranche A and Tranche B.
- ii. The relevant provision of the RSA, Section Cash Sweep in Part II Schedule 4, provides that "every quarter ending on or after December 31, 2021, Available Cash Flow (defined as at least 50.0% of CPP's EBITDA in the preceding fiscal quarter, taking into account that CPP may use the remaining EBITDA for working capital and tax payments) shall be applied in accordance with and in the order set out below:

- 1. Cash interests payable on 2021 Tranche A Loan;
- 2. Scheduled principal amortizations to 2021 Tranche A Loan (if applicable);
- 3. PIK interests payable on 2021 Tranche A Loan, which may include PIK amounts accrued for the current and previous interest periods;

The key residual amount of Available Cash Flow, after netting off items 1 to 3 above, shall be applied for the following items in accordance with the stated ratios:

- 4. 70% towards payment of accelerated principal amortization to 2021 Tranche A Loan;
- 5. 30% towards payment of PIK interests on 2021 Tranche B Loan and accelerated principal amortization of 2021 Tranche B Loan."

- iii. Based on CPP cash flows projected by CPP over the tenor of the 2021 Tranche A Loan in the Cash Flow/ Financial Projections, we have assumed exactly 50.0% of each relevant quarter's EBITDA (calculated as the annual projected EBITDA for that year divided by 4) would be included in the Available Cash Flow.

Should CPP elect that greater than 50.0% of the quarterly EBITDA be included in the Available Cash Flow, debt amortization payments on the 2021 Tranche A Loan would be further accelerated, and the 2021 Tranche A Loan NPV would be greater. We have prepared a sensitized version of the 2021 Tranche A Loan NPV that includes only cash interest and scheduled amortization payments and excludes any additional prepayments to be made under the Cash Sweep (number 3-5 in point ii above) in Appendix 3. Please refer to section 3.6 and 4.2.(e) for limitations on the work done with regards to the Financial Projections of the Group.

- iv. The key contractual payment terms of 2021 Tranche A Loan and 2021 Tranche B Loan are laid out in Appendix 5.
- (c) From the above calculation, the combined NPV of the 2021 Tranche A Loan is estimated to be USD49.9 million as set out in the table below:

- (d) As per the RSA, due to the fixed amount of 2021 Tranche B Loan, at 100% re-participation, there is an immediate prepayment on the 2021 Tranche A Loan amounting to USD2.3 million, for which we have not applied any discount factor. The Upfront Fees will only be applied based on the Tranche A Facility. This amount of immediate prepayment will gradually be reduced until re-participation decreases below about 93%, after which the funding required will exceed the USD25.0 million promised from 2021 Tranche B Loan Holders, and there would no longer be any prepayment. The differential will then be absorbed by the Arrangers, who have agreed to backstop any excess funding requirements.
- (e) It should be noted that we have not performed any analysis of the viability of the operations of the Group, nor have we tested the likelihood of the Group to be able to service the debt obligations of the 2021 Tranche A Loan. Our analysis above relates strictly to the estimated NPV of the 2021 Tranche A Loan under the assumption that they are able to be fully repaid in line with the terms laid out in section 4. As such, we do not make any claims or recommendations as to the expected value of the 2021 Tranche A Loan.

#### 4.3 Fees and other payments

- (a) Upon completion of the 2021 Scheme, the 2018 Noteholders will be eligible to receive the following fees and other payments:

Fees and other payments	Benchmark fees and other payment are based on	Percentage	Benchmark amount	Amount
Upfront Fees	Tranche A Facility	2%	54.6	1.1
Early Bird Consent Fee	Outstanding Principal Amount (and subject to selling all Requisite MEBs held through the MEB Tender Offer)	1%	162.5	1.6
Regular Consent Fee	Outstanding Principal Amount	0.5%	162.5	0.8
Mandatory Repayment of Existing Notes	Outstanding Principal Amount	3.5%	162.5	5.7
			<b>Total</b>	<b>9.2</b>

- (b) Payment of any Early Bird Consent Fee, Regular Consent Fee, or Mandatory Repayment of Existing Notes amounts is dependent upon the 2021 Scheme being approved, while payment of the Early Bird Consent Fee and the Regular Consent Fee to 2018 Noteholders is also dependent upon that 2018 Noteholder voting in favor of the 2021 Scheme. The Early Bird Consent Fee requires the 2018 Noteholders both to sign on to the 2021 Scheme within 4 weeks of the date the RSA is circulated to the 2018 Noteholders and to tender their Requisite MEBs through the MEB Tender Mechanism (see 4.4.(a).i below).
- (c) For purposes of this report, we have assumed that all 2018 Noteholders will commit to supporting the 2021 Scheme on a timely basis such that they will be able to participate in all available fees and other payments.
- (d) As all the fees and the Mandatory Repayment of Existing Notes are expected to be paid shortly after the effective date of the 2021 Scheme, it is assumed that no discount rate needs to be applied. Therefore, the NPV of the fees and Mandatory Repayment of Existing Notes is USD9.2 million.

#### **4.4 MEBs – Redistribution of existing MEBs**

- (a) As part of the 2021 Scheme, the Company has agreed that all current 2018 Noteholders who also hold MEBs issued as part of the 2018 Scheme have an option to sell these MEBs back to the Issuer through the MEB Tender Offer. The 2021 Scheme also requires all Requisite MEBs held by 2018 Noteholders as of the Early Bird Consent Fee Deadline (i.e., excluding all MEBs any non-Initial Consenting Creditor 2018 Noteholder has sold or otherwise transferred prior to the Early Bird Consent Fee Deadline) to be sold through the MEB Tender Offer in order to qualify for the Early Bird Consent Fee. All MEBs purchased through the MEB Tender Offer will then be redistributed to the 2021 Tranche A Loan Holders (45%) and 2021 Tranche B Loan Holders (55%). We note that the conditions precedent in the RSA require the Initial Consenting Creditors to tender their Requisite MEBs, which are equal to about 72.0% of the outstanding MEBs.
- (b) Any balance of MEBs not yet exchanged at the MEB maturity date shall be mandatorily exchanged into shares of the Parent at the MEB maturity date.
- (c) We have run three scenarios relating to the MEB Tender Offer:
  - i. None of the non-Initial Consenting Creditor MEB holders tender their Requisite MEBs through the MEB Tender Offer and therefore the incremental return will be based on the value of 45% of the Initial Consenting Creditors' MEBs they would receive in return for voting for the Re-participation Option, but would not include the Early Bird Consent Fee for which they would not qualify ("Scenario 1"). We have valued the MEBs in this scenario on the assumption that the CPP share price remains at IDR50, which has been the traded price for approximately the last 4 years (and which is also the minimum share price under the listing rules of the Indonesia Stock Exchange). Any increase in share price would represent further upside for the 2021 Tranche A Loan Holders.
  - ii. All of the non-Initial Consenting Creditor MEB holders tender their Requisite MEBs through the MEB Tender Offer and receive their proportion of the USD1.6 million Early Bird Consent Fee (see 4.3.b above) plus their proportion of the USD2.0 million from the MEB Tender Offer, for a total of USD3.6 million. We have assumed the value of the 55% of MEBs that are being re-distributed from the 2018 Noteholders to the 2021 Tranche B Loan Holders to be equal to the cash value received. This implies a maximum share price of IDR7. We have

placed no value on the 45% MEBs redistributed back to the 2021 Tranche A Loan Holders as this has no incremental value over the 2018 Noteholders current position ("Scenario 2").

- iii. All of the non-Initial Consenting Creditor MEB holders have sold, transferred or otherwise are no longer in possession of MEBs at the Early Bird Consent Fee Deadline, such that they are eligible to receive their proportion of both the USD1.6 million Early Bird Consent Fee (see 4.3.b above) and the 45% redistribution of MEBs without having to tender its MEBs, and therefore exchange 55% of its MEBs for its proportion of USD2.0 million ("Scenario 3").

As per the RSA, non-Initial Consenting Creditor 2018 Noteholders, unlike the Initial Consenting Creditors, are not contractually obligated under the MEB Tender Offer to tender to the Company for its purchase any fixed number of Requisite MEBs, and each of the non-Initial Consenting Creditor 2018 Noteholders may elect to sell or otherwise transfer all or part of the MEBs held by it before the Early Bird Consent Fee Date and still qualify to receive from the Company both the Early Bird Consent Fee and tendered Requisite MEBs that are subsequently redistributed to 2018 Noteholders.

- (d) The MEB maturity date on which exchange into shares of the Parent is mandatory is 31 December 2022. Given the Company's low historical trading volumes, and the minimum price as regulated by IDX, we assume it is unlikely all the shares could be sold to willing buyers at that time. We have therefore, in 4.4.c.ii and 4.4.c.iii above, assumed a further discount would need to be applied to transfer these shares on that date. Given that the 2021 Tranche A Loan is projected to be repaid in 2025, we have assumed the shares would only be able to be sold at that time. We have therefore used 31 December 2025 as the date on which a 2021 Noteholder can monetize value in Parent shares into which MEBs are exchanged.
- (e) As the MEBs are equity instruments, the appropriate discount rate should be the issuer's cost of equity. However, given that noteholders, as creditors, have priority over equity holders in a liquidation, the cost of equity of a company should at least be equal to or higher than its cost of debt. For the purposes of calculating the estimated NPV of the MEBs tabled below, we have used the cost of debt of 16.6% as the discount rate, as referred to in section 3.(4).
- (f) The MEBs are therefore estimated to have a value of (i) USD7.1 million in Scenario 1 and Scenario 3, and (ii) USD3.6 million in Scenario 2, as calculated below.

<b>MEB NPV Calculation</b>		
	<b>Scenarios 1 and 3</b>	<b>Scenario 2</b>

(g) The issuance, repurchase and redistribution of MEBs are subject to legal and regulatory compliance requirements which we have assume have been and will be satisfied.

4.5 Aggregating all of the above components (section 4.2, 4.3, and 4.4), the estimated NPV of the consideration to be issued to the holders of the 2018 Notes under the terms of the 2021 Scheme's Re-participation Option ranges from 37.6% to 40.8% depending on the option selected for Requisite MEBs as set out in the table below.

<b>Estimated recovery for Re-participation Option</b>			
<b>USD million</b>	<b>Scenario 1</b>	<b>Scenario 2</b>	<b>Scenario 3</b>
<b>Reparticipation Option - 35% base scenario</b>			
2021 Tranche A Loan NPV	49.9	49.9	49.9
Upfront Fees	1.1	1.1	1.1
Early Bird Consent Fee	-	1.6	1.6
Regular Consent Fee	0.8	0.8	0.8
Mandatory Repayment of Existing Notes	5.7	5.7	5.7
MEBs	7.1	2.0	7.1
<b>Total recovery under Reparticipation Option [A]</b>	<b>64.6</b>	<b>61.1</b>	<b>66.2</b>
<b>2021 Notes outstanding amount [B]</b>	<b>162.5</b>	<b>162.5</b>	<b>162.5</b>
<b>Recovery % [A]/[B]</b>	<b>39.8%</b>	<b>37.6%</b>	<b>40.8%</b>

It should be noted that Scenario 2, which includes tendering Requisite MEBs, represents the lowest estimated return under the Re-participation Option, 2018 Noteholders, while greater estimated returns result from not tendering Requisite MEBs.

**5. 2021 Scheme Scenario: DCF model for the Cash-out Option**

5.1 The Cash-out Option has 2 components – Base Consideration, and fees (Early Bird Consent Fee, and Regular Consent Fee) and other payments. This is the default option, so those that will receive the Cash-out Option include 2018 Noteholders who vote in favor of this option, and assuming the 2021 Scheme is sanctioned by the High Court of Singapore, those 2018 Noteholders who voted against the 2021 Scheme, abstained from voting for any option, or were absent from voting.

The base consideration is fixed at 20% as per the RSA, while Early Bird Consent Fee and Regular Consent Fee are 1% and 0.5% respectively, equal to that in the Re-participation Option in section 4.3.

As all the fees and the Mandatory Repayment of Existing Notes are expected to be paid shortly after the effective date of the 2021 Scheme, it is assumed that no discount rate needs to be applied.

5.2 Therefore, the estimated NPV of the consideration to be issued to the holders of the 2018 Notes under the terms of the 2021 Scheme Cash-out Option is USD40.6 million, which represents a recovery of 25.0% of the total outstanding 2018 Notes, as set out in the table below.

<b>Estimated recovery for Cash-Out Option</b>				
	<b>Benchmark are based on</b>	<b>Percentage</b>	<b>Benchmark amount</b>	<b>Amount</b>
Cash-Out option	Outstanding Principal Amount	20%	162.5	32.5
Early Bird Consent Fee	Outstanding Principal Amount (and subject to selling all Requisite MEBs held through the MEB Tender Offer)	1%	162.5	1.6
Regular Consent Fee	Outstanding Principal Amount	0.5%	162.5	0.8
Mandatory Repayment of Existing Notes	Outstanding Principal Amount	3.5%	162.5	5.7
			<b>Total [A]</b>	<b>40.6</b>
2021 Notes [B]				162.5
<b>Recovery % [A]/[B]</b>				<b>25.0%</b>

5.3 The recovery percentage of 25.0% will be constant across the different cost of debt scenarios as presented in Appendix 2.

**6. Alternative option 1: Estimated value of pledged shares**

6.1 Shares in the Issuer and the Subsidiary Guarantors have been pledged as security for the 2018 Notes. We have estimated the value of these 5 individual entities’ shares via a DCF model.

6.2 The Company has provided us with separate projections for the Issuer and Subsidiary Guarantors for purposes of the pledged share valuation, which assumes that the 2018 Noteholders enforce their collateral and CPP is no longer the parent company. These projections show upon enforcement of the share pledges, the value of the pledged shares of the Issuer and Subsidiary Guarantors would see a large deterioration in value as compared to their value were they to remain subsidiaries of CPP. It should be noted that we have not performed any analysis of the viability of the operations of the Issuer and Subsidiary Guarantors in this scenario that the Issuer and Subsidiary Guarantors are not longer part of and supported by the Company due to transfer of their ownership outside of the Group on share pledge enforcement, nor have we reviewed the reasonableness and robustness of these projections.

A key assumption in these projections is the ability of the new shareholders to act as, or to locate and compensate a capable third party to act as, the operator (and if relevant supplier, marketer, financier, and support services provider) of each of the Issue and Subsidiary Guarantors.

Please refer to section 3.6 for limitations on the work done with regards to the Financial Projections of the Group.

6.3 The Company has quantified the impact in the projections on the operations and sales of Subsidiary Guarantors were, on share pledge enforcement, the Subsidiary Guarantors to no longer belong to the Group by making the following changes to its Financial Projections:

- i. For CWS, the production of pet food currently uses CPP's fish feed facility in Sepanjang. Hence, in the event of enforcement of the pledged shares, CWS' operations would be disrupted until it is able to build its own facility in order to continue its production of pet food. The Company projects this would be only be able to be completed by the last quarter of 2022.
- ii. CPgP currently sells approximately 220k tons of fish feed per year, but CPgP only has production capacity on its own of approximately 120k tons per year. Excess sales over CPgP production capacity resulted from CPgP selling CPP's products. In the event of enforcement of pledged shares, CPgP's sales volume will be limited to its 120k tons per annum capacity, which will reduce CPgP's sales volume by about 100k tons per year.

6.4 We have made the following assumptions in our calculation of the NPV of these 5 individual entities:

- i. A discount rate of 16.6% as explained in section 3.4 of this report; and
- ii. A terminal growth rate of 1.0% in line with the growth rate most commonly used in the Financial Projections.

6.5 Set out below is a summary of the estimated value of the pledged shares, based on the unlevered cash flows of the individual entities.

Recovery % [A]/[B]								33.5%

6.6 Based on the above table, total estimated NPV under the pledged share scenario will be USD54.5 million with an estimated recovery of 33.5%.

6.7 The Company has also informed us the following, while unquantifiable, would also negatively impact the Issuer's and Subsidiary Guarantors' value:

- i. The Group buys its raw materials collectively for all of its feed manufacturing needs. As CPP holds approximately 65% of all of the working capital facilities, it is also the entity that executes the majority of the bulk purchasing. As a result of its ability to buy raw materials in larger quantities, the Group can collectively achieve more efficient raw material prices vis a vis each individual manufacturing subsidiary purchasing independently on their own.
- ii. Working capital facilities could be cancelled as a result of change in ownership. It is also questionable whether subsidiaries can obtain loan facilities sufficient for their working capital requirements without the support from CPP. Most of Issuer and the Subsidiary Guarantors' bank loan facilities are cross-collateralized using CPP and other subsidiary assets.
- iii. The Issuer and Subsidiary Guarantors also use CPP's support services including providing various technical support on an ongoing basis. i.e. IT Support, SAP, ERP, etc. Hence, in the event of liquidation, the Issuer and Subsidiary Guarantors' operations would be disrupted until it is able to develop its own supporting services.
- iv. Change in ownership may also trigger additional staff expenses, including potential severance payments.

Additional, more general challenges that may impede enforcement actions are detailed in section 8 below.

6.8 It should also be noted that the 2021 Tranche A Loan will include a pledge over the shares of these same entities, and therefore enforcement of the shares would remain an option in the future should the 2021 Scheme be sanctioned.

## **7. Alternative option 2: Liquidation Scenario**

7.1 In this scenario, we assume the Group will be put into bankruptcy as the alternative scenario if the restructuring of the 2018 Notes is not successful, and will be wound up in the respective jurisdictions where the entities of the Group are incorporated.

7.2 We have assumed that the value of the shares pledged to the 2018 Noteholders in a liquidation scenario would be zero, as the claims of the unsecured creditors would rank ahead of the equity holders.

7.3 For purposes of this analysis, we have applied the following assumptions on a consistent basis across all entities:

### **(a) Encumbered assets**

- i. For all encumbered PPE, we have used the liquidation values provided by the relevant KJPP as the ERV in a liquidation.
- ii. The Group is unable to identify and provide details of the inventories pledged to specific banks. Hence, inventory amount will be shared with the relevant banks on a pari-passu basis. The ERV between 0% - 30% is assumed based on the nature of the inventories. Finished goods, raw materials, premix & remix and raw materials in transit are assumed to have 30% ERV, while work-in-progress, factory and office supplies and other inventories are assumed to have 0% of ERV.

### **(b) Un-encumbered assets**

- i. Cash and cash equivalents are assumed to be zero, as it will likely to be depleted when the winding-up order is granted.
  - ii. Related party receivables and payables within the Group will be net-off. The estimated recoveries for related party receivables are based on the paying entity's ERV% to unsecured creditors.
  - iii. Un-encumbered land (*Hak Pakai* – right to use land) is assumed to have an ERV of 0% of the NBV as this land is required by law to be returned to the government in a liquidation.
  - iv. Un-encumbered land (non-*Hak Pakai*) is assumed to have ERVs of 50% or based on liquidation values provided by the relevant KJPP.
  - v. Other PPE, such as furniture & equipment is assumed to have an ERV of 5%.
  - vi. Accounts receivable is assumed to have an ERV based on its aging days as the following: (i) less than 30 days is 70%, (ii) 30 – 60 days is 50%, (iii) 60 – 90 days is 30% and (iv) above 90 days is 0%.
  - vii. Other assets, for instance, other receivables, investment properties, claims for tax refunds, are assumed to have 50% recoverable amount. Meanwhile, deferred tax assets, prepaid expenses, and advance payment from customers and investment in shares of stock are assumed to have 0% of ERV.
  - viii. We have used the total amount due to 2018 Noteholders as at 30 June 2019 in our liquidation analysis for the relevant entities.
  - ix. All liabilities are assumed to be fully owed and this includes amount owed to the Noteholders, bank loans and related party payables.
- (c) We have been provided with the 31 October 2020 audited accounts and we have not performed any work to verify the accuracy or validity on the amounts stated in the accounts of the Group..
- (d) We have assumed that the liquidation of all relevant entities will be completed in 5 years, due to the challenges described in section 8 of this report, which challenges have the potential to cause lengthy delays in the completion of the liquidation.
- (e) We have not considered any additional interest that may be charged on the 2018 Notes and any remaining banks loans, as these claims may not be allowed by a liquidator. Should these interest charges be accepted by the liquidator, the overall recoveries to all unsecured creditors would decrease as there would be a greater amount of overall claims, but the 2018 Noteholders, as the primary interest-bearing unsecured creditors, would benefit overall as their proportion of the unsecured claims would increase.
- (f) We have assumed the costs related to liquidation are 15.0% of the remaining assets after secured creditors have been paid the proceeds from their security.
- (g) Secured creditors, preferential creditors (employee benefit obligations and tax payable) and costs related to the liquidation will be paid in priority to the unsecured creditors.

(h) We have used a discount rate of 6.3% to calculate the NPV under a liquidation scenario, with the assumption as explained in section 3.6.

7.4 The recoveries to 2018 Noteholders are set out below. The approximate NPV under the liquidation scenario is USD33.7 million which is approximately a recovery of 20.7%.

7.5 The liquidation analysis of each entity under the Group is set out in the Appendices 6 to 15.

## 8. Challenges that may impede enforcement actions for the alternative options

8.1 Enforcement of security is likely to be a time consuming, costly, complex and uncertain process.

8.2 Liquidation of assets through Indonesian enforcement procedures generally assumes sale of assets through public auction. Although this can in theory be achieved without a court order, in practice a court order may be required, and subject to uncertain outcomes, costs and timing

8.3 The public auction procedure may be frustrated, and if successful may yield poor value realization and may prove difficult, costly and time-consuming. This is due to challenges that may be brought by one or more stakeholders. These challenges may include the finality of judgment, disputing the amount of defaulted debt, disputes over enforcement methodology, and uncertainty in the legal process due to a lack of binding precedential judgment

8.4 Stakeholders who may take actions that complicate, delay or prevent liquidation include the debtor, a competing creditor or a third party seeking to control (or prevent another party's control) of the asset. Issues that have arisen in the past include:

- Lack of auction interest sufficient to generate competitive bids, which might make it less likely to achieve liquidation value for the asset
- Concern that bids originate with the debtor or its allies, discouraging the third party interest that would support realization of asset liquidation values

- Legal challenges by the debtor, another creditor or a third party to delay or frustrate the liquidation process, including through lawsuits, police reports to initiate criminal proceedings, land office blocking notices to prevent title transfer registration and regulatory challenges

8.5 Recent developments in Indonesian court cases and judicial guidelines affecting liquidation through either security enforcement or bankruptcy procedures may further complicated issues arising from attempts by creditors to liquidate assets. Noteholders may wish to speak to their legal counsel to better understand the impact these cases and rules may have on any attempts to enforce security or otherwise liquidate the assets of the Group

8.6 Further, the Issuer is a special purpose vehicle incorporated in Singapore, while the majority of the security relates to pledged shares in Indonesian based entities. Given the differences in laws and regulations between the two countries, cross-border enforcement is likely to add a layer of difficulty to the recovery process.

8.7 The Parent and/or its subsidiaries could also seek protection from the Indonesian Court via a PKPU debt moratorium and could potentially delay the Noteholders' recovery process.

8.8 If the Noteholders were to consider enforcing on the security, this may also create social unrest among the farmers and other employees of the Group and consequently the realization of the security could be more challenging and therefore may cause the value of the security to erode.

8.9 The above challenges should be taken into consideration if the enforcement route is contemplated.

## 9. Conclusion

9.1 The options available to 2018 Noteholders, and the corresponding estimated recovery, is summarized in the following table:

Noteholder decision matrix		Existing management continues?	
		Yes	No
Continuing exposure to the Company?	Yes	Re-participation Option*	37.6% - 40.8%
	No	Cash-out Option	25.0%
		Enforcement of pledged shares - uncertain**	
		Liquidation of Group	20.7%

\*Re-participation Option recovery will vary depending on the option selected for Requisite MEBs

\*\*The Company has advised that the estimated recovery from the enforcement of pledged shares would be unquantifiable based on available information. This is detailed further in section 6 of this report.

9.2 The above table shows the best overall return to the 2018 Noteholders is the Re-participation Option with an estimated return of between 37.6% and 40.8% depending on the option selected for Requisite MEB holdings. This option is estimated to provide returns that are greater than both the Cash-out Option (25.0% estimated return), and the liquidation option (20.7% estimated return). It is noteworthy that the estimated return for the Re-participation Option is also greater than the option of enforcing on the pledged shares. Enforcement of pledged shares would also expose the 2018 Noteholders to the various issues raised in sections 6 and 8. We also note the pledged shares are also part of the proposed security package on the 2021 Tranche A Loan, which would allow the 2021 Tranche A Loan Holders to maintain the flexibility of pursuing this option going forward. The worst overall return is estimated to be the liquidation option, which would cut-off exposure to the Group (and its management) and would also bring about the challenges laid out in section 8. Should the 2018 Noteholders wish to cut off their exposure to the Company, they would likely be better served taking the Cash-out Option, which is estimated to provide a return of 4.3% greater than the liquidation option, and avoids all of the challenges that would come with liquidating the Group.

### **Appendix 1 - Discount rate applicable for 2021 Scheme instruments**

- As the 2018 Notes are a debt instrument, in our view, the appropriate discount rate should be the current cost of debt.
- The cost of debt is determined based on interest spreads of non-investment grade corporate bonds sourced from Bloomberg as at Valuation Date. We have screened for two sets of USD-denominated corporate bonds.
  - The first set comprises bonds which are considered by rating agencies to be either defaulted, or default imminent with little prospect of recovery, i.e. corporate bonds with Moody's rating of Caa3 and below; S&P ratings of CCC- and below; or Fitch rating to be CCC- and below. We have applied a more stringent criteria by excluding bonds which have been assigned a rating of CCC and above by any of the three rating agencies.
  - The second set comprises bonds which are considered by rating agencies to be extremely speculative where the issuer is dependent upon favorable business, financial, and economic conditions to meet its financial commitments, i.e. corporate bonds with Moody's rating of Caa2; S&P ratings of CCC; or Fitch rating to be CCC. We have excluded bonds which have been assigned ratings of CCC+/Caa1 and above by any of the three rating agencies.
- We note that the spreads on the CCC bonds proxies the cost of debt of BOR in an optimistic post-recovery scenario, which assumes that the bonds are restructured, and the business is able to turnaround from its current position and generate sufficient cashflows to support the restructured interest expenses. Given that there are still substantial uncertainties relating to BOR's bond restructuring and business recovery, we are of the view that BOR's cost of debt should be higher than the cost of debt of other comparable CCC rated bonds.
- We further note that the spreads on the CCC- and below bonds proxies the pre-restructuring cost of debt of a company. Given that BOR is currently in the process of restructuring its debt, we are of the view that BOR's cost of debt should be lower than the cost of debt of other comparable CCC- and below rated bonds.
- Based on the above, we have estimated the cost of debt to be between 11.6% to 21.6%, based on the median cost of debt implied by the CCC rated bonds and the CCC- and below rated bonds.
- Details of our calculations are presented in the tables below.

- For companies which have multiple bonds of similar ratings, we have selected the bond which have the closest maturity date as the 2021 Tranche A Loan which is March 2026. Based on the above, we have shortlisted 25 comparable bonds which are CCC rated and 38 comparable bonds rated CCC and below for our review purposes.
- Subsequently, we have estimated the credit spreads of the shortlisted bonds in the priority of i) Options-Adjusted Spread; ii) Z-Spread; and iii) G-Spread, whenever information is available from Bloomberg.
- The low and high range of the credit spread is based on the median credit spreads of the two sets of bonds. The credit spread of the 2021 Tranche A Loan should lie within this indicative credit spread range considering that the company is currently in default and upon restructuring would be at risk of

default and is dependent on favorable business, financial, and economic conditions to meet its financial commitments and expectations. We are unable to assess and make specific adjustments to the credit spreads of comparable bonds relative to the 2021 Tranche A Loan due to the lack of publicly available data.

- The cost of debt is estimated by adding the risk free rate of 0.4% to the credit spread. The risk free rate applied corresponds to the 5-year remaining useful life of the 2021 Tranche A Loan and is based on the US sovereign yield curve, sourced from the US Department of Treasury website as at 31 December 2020 ("Valuation Date").
- Accordingly, the resultant cost of debt range is between 11.6% and 21.6%. For purposes of this report, we have used a cost of debt of 16.6%.

- (b) The Facility A Loans may only be prepaid prior to 30 June 2022 if the Borrower pays to the Agent (for the account of the Facility A Lenders) a prepayment interest equal to 3% of the Facility A Loans being prepaid. ## 13. TAX GROSS-UP AND INDEMNITIES

### 13.1 Definitions

In this Agreement:

“**Tax Credit**” means a credit against, relief or remission for, or repayment of, any Tax.

“**Tax Deduction**” means a deduction or withholding for or on account of Tax from a payment under a Finance Document, other than a FATCA Deduction.

“**Tax Payment**” means either the increase in a payment made by an Obligor to a Finance Party under Clause 13.2 (*Tax gross-up*) or a payment under Clause 13.3 (*Tax indemnity*).

Unless a contrary indication appears, in this Clause 13 a reference to “**determines**” or “**determined**” means a determination made in the absolute discretion of the person making the determination.

## 13.2 Tax gross-up

- (a) Each Obligor shall make all payments to be made by it to any Finance Party under the Finance Documents without any Tax Deduction, unless a Tax Deduction is required by law.
- (b) The Parent shall promptly upon becoming aware that an Obligor must make a Tax Deduction (or that there is any change in the rate or the basis of a Tax Deduction) notify the Agent accordingly. Similarly, a Lender shall notify the Agent on becoming so aware in respect of a payment payable to that Lender. If the Agent receives such notification from a Lender it shall notify the Parent and that Obligor.
- (c) The Borrower shall at any time be entitled to assume that a Lender is not a tax resident of Singapore unless the Borrower is provided with evidence (such as, by way of example only, a certificate of tax residence issued by the applicable tax authorities) by such Lender as to where it is a tax resident at that time. If a Tax Deduction is required by law to be made by the Borrower, the amount of the payment due from the Borrower shall be increased to an amount which (after making any Tax Deduction) leaves an amount equal to the payment which would have been due if no Tax Deduction had been required, provided that:
  - (i) the increased payment due from the Borrower shall not exceed 1.08696 multiplied by the amount due if no Tax Deduction had been required; and
  - (ii) such increase will only be made in respect of amounts payable to a Lender who has provided reasonable evidence to the Borrower to demonstrate that during the relevant tax year in which such payment was made, it was not a tax resident of Singapore (including, by way of example only, a certificate of tax residence issued by applicable tax authorities).

For the avoidance of doubt:

- (iii) if a Tax Deduction is required by law to be made by the Borrower, the amount of payment due from the Borrower will be increased in accordance with the foregoing but the payment made by the Borrower to that Lender shall nevertheless be subject to the applicable Tax Deduction; and
  - (iv) if a payment is due from a Borrower to a Lender, the Borrower is not required to gross up the amount of that payment if that Lender has not, by the date falling 10 Business Days prior to such payment being due and payable, provided any evidence to the Borrower as to where it is a tax resident for year in which that payment is to be made.
- (d) If a Tax Deduction is required by law to be made by an Obligor other than the Borrower, the amount of the payment due from that Obligor shall be increased to an amount such

that the net amount received by the Lenders is the same as if such payment had been made by the Borrower in accordance with the foregoing paragraph.

- (e) If an Obligor is required to make a Tax Deduction, that Obligor shall make that Tax Deduction and any payment required in connection with that Tax Deduction within the time allowed and in the minimum amount required by law.
- (f) Within thirty days of making either a Tax Deduction or any payment required in connection with that Tax Deduction, the Obligor making that Tax Deduction shall deliver to the Agent for the Finance Party entitled to the payment evidence reasonably satisfactory to that Finance Party that the Tax Deduction has been made or (as applicable) any appropriate payment paid to the relevant taxing authority.

### 13.3 Tax indemnity

- (a) Subject to Clause 13.2 (*Tax gross-up*), if any Finance Party is required to make any payment on account of Tax or in relation to any sum received or receivable under the Finance Documents (including any sum deemed for the purposes of Tax to be received or receivable by such Finance Party whether or not actually received or receivable) or if any liability in respect of any such payment is asserted, imposed, levied or assessed against any Finance Party, the Borrower shall, within three Business Days of demand of the Agent, promptly indemnify the Finance Party which suffers a loss or liability as a result against such payment or liability, together with any interest, penalties, costs and expenses payable or incurred in connection therewith, **provided that** this Clause 13.3 shall not apply to:
  - (i) any Tax imposed on and calculated by reference to the net income actually received or receivable by such Finance Party (but, for the avoidance of doubt, not including any sum deemed for the purposes of Tax to be received or receivable by such Finance Party but not actually receivable) by the jurisdiction in which such Finance Party is incorporated;
  - (ii) any Tax imposed on and calculated by reference to the net income of the Facility Office of such Finance Party actually received or receivable by such Finance Party (but, for the avoidance of doubt, not including any sum deemed for the purposes of Tax to be received or receivable by such Finance Party but not actually receivable) by the jurisdiction in which its Facility Office is located; or
  - (iii) a FATCA Deduction required to be made by a Party.
- (b) A Finance Party making, or intending to make a claim under paragraph (a) above shall promptly notify the Agent of the event which will give, or has given, rise to the claim, following which the Agent shall notify the Parent.
- (c) A Finance Party shall, on receiving a payment from an Obligor under this Clause 13.3, notify the Agent.

### 13.4 Tax Credit

If an Obligor makes a Tax Payment and the relevant Finance Party determines that:

- (a) a Tax Credit is attributable to an increased payment of which that Tax Payment forms part, to that Tax Payment or to a Tax Deduction in consequence of which that Tax Payment was required; and

- (b) that Finance Party has obtained and utilised that Tax Credit,

the Finance Party shall pay an amount to the Obligor which that Finance Party determines will leave it (after that payment) in the same after-Tax position as it would have been in had the Tax Payment not been required to be made by the Obligor.

### 13.5 Stamp taxes

The Borrower shall pay and, within three Business Days of demand, indemnify each Finance Party, Receiver and Delegate against any cost, loss or liability that Finance Party, Receiver or Delegate (as the case may be) incurs in relation to all stamp duty, registration and other similar Taxes payable in respect of any Finance Document.

### 13.6 Indirect Tax

- (a) All amounts set out or expressed in a Finance Document to be payable by any Party to a Finance Party shall be deemed to be exclusive of any Indirect Tax. If any Indirect Tax is chargeable on any supply made by any Finance Party to any Party in connection with a Finance Document, that Party shall pay to the Finance Party (in addition to and at the same time as paying the consideration for that supply) an amount equal to the amount of the Indirect Tax.
- (b) Where a Finance Document requires any Party to reimburse or indemnify a Finance Party for any costs or expenses, that Party shall also at the same time pay and indemnify the Finance Party against all Indirect Tax incurred by that Finance Party in respect of the costs or expenses to the extent that the Finance Party reasonably determines that it is not entitled to credit or repayment in respect of the Indirect Tax.

### 13.7 FATCA information

- (a) Subject to paragraph (c) below, each Party shall, within [ten] Business Days of a reasonable request by another Party:
- (i) confirm to that other Party whether it is:
- (A) a FATCA Exempt Party; or
- (B) not a FATCA Exempt Party;
- (ii) supply to that other Party such forms, documentation and other information relating to its status under FATCA as that other Party reasonably requests for the purposes of that other Party's compliance with FATCA; and
- (iii) supply to that other Party such forms, documentation and other information relating to its status as that other Party reasonably requests for the purposes of that other Party's compliance with any other law, regulation, or exchange of information regime.
- (b) If a Party confirms to another Party pursuant to paragraph (a)(i) above that it is a FATCA Exempt Party and it subsequently becomes aware that it is not or has ceased to be a FATCA Exempt Party, that Party shall notify that other Party reasonably promptly.

- (c) Paragraph (a) above shall not oblige any Finance Party to do anything, and paragraph (a)(iii) above shall not oblige any other Party to do anything, which would or might in its reasonable opinion constitute a breach of:
  - (i) any law or regulation;
  - (ii) any fiduciary duty; or
  - (iii) any duty of confidentiality.
- (d) If a Party fails to confirm whether or not it is a FATCA Exempt Party or to supply forms, documentation or other information requested in accordance with paragraph (a)(i) or (a)(ii) above (including, for the avoidance of doubt, where paragraph (c) above applies), then such Party shall be treated for the purposes of the Finance Documents (and payments under them) as if it is not a FATCA Exempt Party until such time as the Party in question provides the requested confirmation, forms, documentation or other information.

### 13.8 FATCA Deduction

- (a) Each Party may make any FATCA Deduction it is required to make by FATCA, and any payment required in connection with that FATCA Deduction, and no Party shall be required to increase any payment in respect of which it makes such a FATCA Deduction or otherwise compensate the recipient of the payment for that FATCA Deduction.
- (b) Each Party shall promptly, upon becoming aware that it must make a FATCA Deduction (or that there is any change in the rate or the basis of such FATCA Deduction), notify the Party to whom it is making the payment and, in addition, shall notify the Parent and the Agent and the Agent shall notify the other Finance Parties.

## 14. OTHER INDEMNITIES

### 14.1 Currency indemnity

- (a) If any sum due from an Obligor under the Finance Documents (a “**Sum**”), or any order, judgment or award given or made in relation to a Sum, has to be converted from the currency (the “**First Currency**”) in which that Sum is payable into another currency (the “**Second Currency**”) for the purpose of:
  - (i) making or filing a claim or proof against that Obligor; or
  - (ii) obtaining or enforcing an order, judgment or award in relation to any litigation or arbitration proceedings,

that Obligor shall as an independent obligation, within three Business Days of demand, indemnify each Finance Party, Receiver and Delegate to whom that Sum is due against any cost, loss or liability arising out of or as a result of the conversion including any discrepancy between (A) the rate of exchange used to convert that Sum from the First Currency into the Second Currency and (B) the rate or rates of exchange available to that person at the time of its receipt of that Sum.

#### 14.4 **Indemnity to each Security Agent**

- (a) Each Obligor jointly and severally shall promptly indemnify each Security Agent and every Receiver and Delegate against any cost, loss or liability incurred by any of them as a result of:

- (b) Each Security Agent and every Receiver and Delegate may, in priority to any payment to the Secured Parties, indemnify itself out of the Security Property in respect of, and pay and retain, all sums necessary to give effect to the indemnity in this Clause 14.4 and shall have a lien on the Transaction Security and the proceeds of the enforcement of the Transaction Security for all moneys payable to it.

## 15. MITIGATION BY THE LENDERS

### 15.1 Mitigation

- (a) Each Finance Party shall, in consultation with the Parent, take all reasonable steps to mitigate any circumstances which arise and which would result in any Facility ceasing to be available or any amount becoming payable under or pursuant to any of Clause 7.1 (*Illegality*) or Clause 13 (*Tax gross-up and indemnities*) or including (but not limited to) transferring its rights and obligations under the Finance Documents to another Affiliate or Facility Office.

The amount payable by a Guarantor under this indemnity will not exceed the amount it would have had to pay under this Clause 17 if the amount claimed had been recoverable on the basis of a guarantee.

#### **17.2 Continuing guarantee**

This guarantee is a continuing guarantee and will extend to the ultimate balance of sums payable by any Obligor under the Finance Documents, regardless of any intermediate payment or discharge in whole or in part.

#### **17.3 Reinstatement**

If any discharge, release or arrangement (whether in respect of the obligations of any Obligor or any security for those obligations or otherwise) is made by a Finance Party in whole or in part on the basis of any payment, security or other disposition which is avoided or must be restored in insolvency, liquidation, administration or otherwise, without limitation, then the liability of each Guarantor under this Clause 17 will continue or be reinstated as if the discharge, release or arrangement had not occurred.

- (b) the release of any other Obligor or any other person under the terms of any composition or arrangement with any creditor of any member of the Group;

Each Guarantor waives any right it may have of first requiring any Finance Party (or any trustee or agent on its behalf) to proceed against or enforce any other rights or security or claim payment from any person before claiming from that Guarantor under this Clause 17. This waiver applies irrespective of any law or any provision of a Finance Document to the contrary. For this purpose, each Guarantor incorporated in Indonesia agrees to waive and renounce the benefits of prior exhaustion of remedies against each other Obligor and of the Indonesian Civil Code including but not limited to the right to invoke the provisions of Articles 1402, 1430, 1831, 1833, 1837, 1838, 1843, 1847, 1848, 1849 and 1850 of the Indonesian Civil Code. - (b) hold in an interest-bearing suspense account any moneys received from any Guarantor or on account of any Guarantor's liability under this Clause 17.

- (f) to claim or prove as a creditor of any Obligor in competition with any Finance Party.

If a Guarantor receives any benefit, payment or distribution in relation to such rights it shall hold that benefit, payment or distribution to the extent necessary to enable all amounts which may be or become payable to the Finance Parties by the Obligors under or in connection with the Finance Documents to be repaid in full on trust for the Finance Parties and shall promptly pay or transfer the same to the Agent or as the Agent may direct for application in accordance with Clause 33 (*Payment mechanics*).

- (d) If the Agent wishes to resign because (acting reasonably) it has concluded that it is no longer appropriate for it to remain as agent and the Agent is entitled to appoint a successor Agent under paragraph (c) above, the Agent may (if it concludes (acting reasonably) that it is necessary to do so in order to persuade the proposed successor Agent to become a party to this Agreement as Agent) agree with the proposed successor Agent amendments to this Clause 25 consistent with then current market practice for the appointment and protection of corporate trustees together with any reasonable amendments to the agency fee payable under this Agreement which are consistent with the successor Agent's normal fee rates and those amendments will bind the Parties.

  - (ii) the information supplied by the Agent pursuant to Clause 13.7 (*FATCA information*) indicates that the Agent will not be (or will have ceased to be) a FATCA Exempt Party on or after that FATCA Application Date; or
  - (iii) the Agent notifies the Parent and the Lenders that the Agent will not be (or will have ceased to be) a FATCA Exempt Party on or after that FATCA Application Date;

and (in each case) a Lender reasonably believes that a Party will be required to make a FATCA Deduction that would not be required if the Agent were a FATCA Exempt Party, and Lender, by notice to the Agent, requires it to resign.

- (d) take, or to require any Obligor to take, any step to perfect its title to any of the Security Property or to render the Transaction Security effective or to secure the creation of any ancillary Security under the laws of any jurisdiction; or

- (e) require any further assurances in relation to any of the Transaction Security Documents.

#### **26.12 Insurance by Security Agents**

No Security Agent will be responsible for any loss which may be suffered by any person as a result of the lack of or inadequacy of any such insurance.
- (b) Where a Security Agent is named on any insurance policy as an insured party, it will not be responsible for any loss which may be suffered by reason of, directly or indirectly, its failure to notify the insurers of any material fact relating to the risk assumed by such insurers or any other information of any kind, unless the Agent (acting on the instructions of Majority Facility A Lenders) has requested it to do so in writing and the relevant Security Agent has failed to do so within 14 days after receipt of that request.

#### **26.13 Custodians and nominees**

Each Security Agent may appoint and pay any person to act as a custodian or nominee on any terms in relation to any assets of the trust as the relevant Security Agent may determine, including for the purpose of depositing with a custodian this Agreement or any document relating to the trust created under this Agreement and no Security Agent will be responsible for any loss, liability, expense, demand, cost, claim or proceedings incurred by reason of the misconduct, omission or default on the part of any person appointed by it under this Agreement or be bound to supervise the proceedings or acts of any person.

#### **26.14 Acceptance of title**

Each Security Agent is entitled to accept without enquiry, and will not be obliged to investigate, any right and title that any Obligor may have to any of the Security Property and will not be liable for or bound to require any Obligor to remedy any defect in its right or title.

#### **26.15 Refrain from illegality**

Notwithstanding anything to the contrary expressed or implied in the Finance Documents, any Security Agent may refrain from doing anything which in its opinion will or may be contrary to any relevant law, directive or regulation of any jurisdiction and each Security Agent may do anything which is, in its opinion, necessary to comply with any such law, directive or regulation.

#### **26.16 Business with the Obligors**

Each Security Agent may accept deposits from, lend money to, and generally engage in any kind of banking or other business with any Obligor.

#### **26.17 Winding up of trust**

If the Offshore Security Agent, with the approval of the Agent (on the instructions of the Majority Facility A Lenders), determines that:

- (a) all of the Secured Liabilities and all other obligations secured by the Transaction Security Documents have been fully and finally discharged; and

- (b) none of the Secured Parties is under any commitment, obligation or liability (actual or contingent) to make advances or provide other financial accommodation to any Obligor pursuant to the Finance Documents;

the trusts set out in this Agreement will be wound up and the Offshore Security Agent will release, without recourse or warranty, all of the Transaction Security and the rights of the Offshore Security Agent under each of the Transaction Security Documents and any Retiring Security Agent will release, without recourse or warranty, all of its rights under each of the Transaction Security Documents.

#### **26.18 Security Agent separate**

- (a) In acting as trustee or, as the case may be, security agent for the Secured Parties, each Security Agent will be regarded as acting through its trustee or, as the case may be, agency division which will be treated as a separate entity from any of its other divisions or departments.
- (b) If information is received by another division or department of any Security Agent, it may be treated as confidential to that division or department and the relevant Security Agent will not be deemed to have notice of it.

#### **26.19 Approval**

Each Facility A Lender and the Agent:

- (a) confirms its approval of each Transaction Security Document; and
- (b) authorises and directs each Security Agent (by itself or by such person(s) as it may nominate) to enter into and enforce the Transaction Security Documents as trustee (or agent) or as otherwise provided (and whether or not expressly in the names of the Secured Parties) on its behalf.

#### **26.20 Conflict with Transaction Security Documents**

If there is any conflict between this Agreement and any Transaction Security Document with regard to instructions to, or other matters affecting, any Security Agent, this Agreement will prevail.

#### **26.21 Release of Security**

- (a) If a disposal of any asset subject to any Transaction Security is made in the following circumstances:
  - (i) the Majority Facility A Lenders agree to the disposal;
  - (ii) the disposal is allowed by the terms of the Finance Documents and will not result or could not reasonably be expected to result in any Default;
  - (iii) the disposal is being made at the request of a Security Agent in circumstances where any Security created by any Transaction Security Document to which it is party has become enforceable; or
  - (iv) the disposal is being effected by enforcement of a Transaction Security Document;

the relevant Security Agent is irrevocably authorised to release the asset(s) being disposed of from the Transaction Security. However, the proceeds of any disposal (or an amount corresponding to them) must be applied in accordance with the requirements of the Finance Documents (if any).

- (b) Any release under this Clause will not become effective until the date of the relevant disposal or otherwise in accordance with the consent of the Majority Facility A Lenders.
- (c) If a disposal is not made, then any release relating to that disposal will have no effect, and the obligations of the Obligors under the Finance Documents will continue in full force and effect.
- (d) If the relevant Security Agent is satisfied that a release is allowed under this Clause, (at the request and expense of the relevant Obligor) each Secured Party must enter into any document and do all such other things which are reasonably required to achieve that release. Each Secured Party irrevocably authorises the relevant Security Agent to enter into any such document on its behalf. Any release will not affect the obligations of the Obligors under the Finance Documents.

#### **26.22 Lenders' indemnity**

Each Facility A Lender must (in the proportion that the Secured Liabilities due to it bears to the aggregate of the Secured Liabilities due to all the Facility A Lenders for the time being (or, if the Secured Liabilities due to each of those Facility A Lenders is zero, immediately prior to their being reduced to zero)), indemnify each Security Agent and every Receiver and every Delegate, within three Business Days of demand, against any cost, loss or liability reasonably incurred by any of them (otherwise than by reason of the relevant Security Agent's, Receiver's or Delegate's gross negligence or wilful misconduct) in acting as a Security Agent, Receiver or Delegate under, or exercising any authority conferred under, the Finance Documents including any FATCA related liability (unless the relevant Security Agent, Receiver or Delegate has been reimbursed by the Borrower pursuant to a Finance Document) and the Borrower must indemnify each Facility A Lender against any payment made by it under this Clause.

#### **26.23 Consequential loss and special damages**

Notwithstanding any other term or provision of this Agreement to the contrary, a Security Agent shall not be liable under any circumstances for special, punitive, indirect or consequential loss or damage of any kind whatsoever including but not limited to loss of profits, whether or not foreseeable, even if a Security Agent is actually aware of or has been advised of the likelihood of such loss or damage and regardless of whether the claim for such loss or damage is made in negligence, for breach of contract, breach of trust, breach of fiduciary obligation or otherwise. The provisions of this Clause shall survive the termination or expiry of this Agreement or the removal or resignation of a Security Agent.

#### **26.24 Force majeure**

No Security Agent shall be liable for (in each case and without limitation) such damages, costs, losses, diminution in value or liability arising as a result of:

- (c) If the Majority Facility A Lenders have not appointed a successor Security Agent in accordance with paragraph (b) above within 30 days after the notice of resignation was given, the relevant Security Agent (after consultation with the Agent) may appoint a successor Security Agent.
- (d) The retiring Security Agent (the “**Retiring Security Agent**”) must make available to the successor Security Agent, at the Retiring Security Agent’s own cost and expense, such documents and records and provide such assistance as the successor Security Agent may reasonably require for the purposes of performing its functions as Security Agent under the Finance Documents.
- (e) The Retiring Security Agent's resignation notice will only take effect upon: (i) the appointment of a successor; and (ii) the transfer of all of the Security Property (including the taking of all steps as may be necessary for the perfection, protection or maintenance of any Security conferred or intended to be conferred by or pursuant to the Transaction Security Documents) to that successor.
- (f) Upon the appointment of a successor, the Retiring Security Agent will be discharged from any further obligation in respect of the Finance Documents (other than its obligations under Clause (*Winding up of trust*) and under paragraph (d) above) but will, in respect of any act or omission by it whilst it was the Security Agent, remain entitled to the benefit of Clauses 26 (*The Security Agents*), 14.4 (*Indemnity to the Security Agent*) and 26.22 (*Lenders’ indemnity*). Its successor and each of the other Parties will have the same rights and obligations amongst themselves as they would have had if that successor had been an original Party.
- (g) The Majority Facility A Lenders may, by notice to any Security Agent, require it to resign in accordance with paragraph (b) above. In this event, the relevant Security Agent must resign in accordance with paragraph (b) above but the cost referred to in paragraph (d) above will be for the account of the Borrower.

- (b) That delegation may be made upon any terms and conditions (including the power to sub-delegate) and subject to any restrictions that the relevant Security Agent and Agent, that Receiver or that Delegate (as the case may be) may, in its discretion, think fit in the interests of the Secured Parties and it will not be bound to supervise, or be in any way responsible for any loss incurred by reason for any misconduct or default on the part of any such delegate or sub-delegate.

### 27.3 **Additional Security Agents**

- (a) Any Security Agent may at any time appoint (and subsequently remove) any person to act as a separate trustee or as a co-trustee jointly with it (i) if it considers that appointment to be in the interests of the Secured Parties (or (ii) for the purposes of conforming to any legal requirements, restrictions or condition which that Security Agent deems to be relevant or (iii) for obtaining or enforcing any judgment in any jurisdiction, and that Security Agent must give prior notice to the Borrower and the Agent of that appointment.
- (b) Any person so appointed will have the rights, powers and discretions (not exceeding those conferred on the relevant Security Agent by this Agreement) and the duties and obligations that are conferred or imposed by the instrument of appointment.
- (c) The remuneration that the relevant Security Agent may pay to that person, and any costs and expenses (together with any applicable Indirect Tax or any other tax of a similar nature) incurred by that person in performing its functions pursuant to that appointment will, for the purposes of this Agreement, be treated as costs and expense incurred by the Security Agent.

### 28.3 **Waiver of rights**

To the extent permitted under applicable law and subject to Clause 28.1 (*Enforcement instructions*), Clause 28.2 (*Manner of enforcement*) and Clause 29 (*Application of proceeds*), each of the Secured Parties and each Obligor waives all rights it may otherwise have to require that the Transaction Security be enforced in any particular order or manner or at any particular time or that any amount received or recovered from any person, or by virtue of the enforcement of any of the Transaction Security or any other security interest, which is capable of being applied in or towards discharge of any of the Secured Liabilities is so applied.

## 29. **APPLICATION OF PROCEEDS**

### 29.1 **Order of application**

- (c) For the purposes of this Clause 29.4, "**Security Agent's Spot Rate of Exchange**" means in respect of the conversion of one currency by any Security Agent (the "**First Currency**") into another currency by that Security Agent (the "**Second Currency**") that Security Agent's prevailing rate of exchange for the purchase of the Second Currency with the First Currency (i) in respect of the Offshore Security Agent, in the Hong Kong foreign exchange market at or about 11.00 a.m. (Hong Kong time) on a particular day; and (ii) in respect of the Onshore Security Agent, in the Jakarta foreign exchange market at or about 11.00 a.m. (Jakarta time) on a particular day.

### 29.5 **Permitted deductions**

### 29.6 **Good discharge**

- (a) Any distribution or payment to be made in respect of the Secured Liabilities by any Security Agent may be made to the Agent on behalf of the Lenders and any payment made in that way will be a good discharge, to the extent of that payment or distribution by that Security Agent.
- (b) No Security Agent is under any obligation to make the payments to the Agent under paragraph (a) above in the same currency as that in which the Secured Liabilities owing to the relevant Finance Party are denominated pursuant to the relevant Finance Document.

For the purpose of calculating any person's share of any amount payable to or by it, each Security Agent will be entitled to:

- (a) notionally convert the Secured Liabilities owed to any person into a common base currency (decided in its discretion by the relevant Security Agent), that notional conversion to be made at the spot rate at which that Security Agent is able to purchase the notional base currency with the actual currency of the Secured Liabilities owed to that person at the time at which that calculation is to be made; and
- (b) assume that all amounts received or recovered as a result of the enforcement or realization of the Security Proper are applied in discharge of the Secured Liabilities in accordance with the terms of the Finance Documents under which those Secured Liabilities have arisen.

- (b) Each Security Agent must apply distributions paid to it under paragraph (a) above in accordance with Clause 29 (*Application of Proceeds*).

### 30.2 Set-off

To the extent that any Secured Liabilities are discharged by way of set-off (mandatory or otherwise) after the occurrence of an Insolvency Event in relation to that Obligor, any Lender which benefited from that set-off must pay an amount equal to the amount of the Secured Liabilities owed to it which are discharged by set-off to the Offshore Security Agent for application in accordance with Clause 29 (*Application of Proceeds*).

### 30.3 Non-cash distributions

If a Security Agent or any other Secured Party receives a distribution in a form other than in cash in respect of any of the Secured Liabilities, the Secured Liabilities will not be reduced by that distribution until and except to the extent that the realization proceeds are actually applied towards the Secured Liabilities.

### 30.4 Filing of claims

After the occurrence of an Insolvency Event in relation to an Obligor, each Lender irrevocably authorizes each Security Agent, on its behalf, to:

### 30.6 **Security Agent instructions**

For the purposes of Clause 30.1 (*Payment of distributions*), Clause 30.4 (*Filing of claims*) and Clause 30.5 (*Creditor's actions*), each Security Agent must act:

  - (i) the Recovering Finance Party shall, within three Business Days, notify details of the receipt or recovery, to the Agent;
  - (ii) the Agent shall determine whether the receipt or recovery is in excess of the amount the Recovering Finance Party would have been paid had the receipt or recovery been received or made by the Agent and distributed in accordance with Clause 33 (*Payment mechanics*), without taking account of any Tax which would be imposed on the Agent in relation to the receipt, recovery or distribution; and
  - (iii) the Recovering Finance Party shall, within three Business Days of demand by the Agent, pay to the Agent an amount (the “**Sharing Payment**”) equal to such receipt or recovery less any amount which the Agent determines may be retained by the Recovering Finance Party as its share of any payment to be made, in accordance with Clause 33.5 (*Partial payments*).

### 32.2 Redistribution of payments

The Agent shall treat the Sharing Payment as if it had been paid by the relevant Obligor and distribute it between the Finance Parties (other than the Recovering Finance Party) (the “**Sharing Finance Parties**”) in accordance with Clause 33.5 (*Partial payments*) towards the obligations of that Obligor to the Sharing Finance Parties.

### 32.3 Recovering Finance Party’s rights

On a distribution by the Agent under Clause 32.2 (*Redistribution of payments*) of a payment received by a Recovering Finance Party from an Obligor, as between the relevant Obligor and the Recovering Finance Party, an amount of the Recovered Amount equal to the Sharing Payment will be treated as not having been paid by that Obligor.

### 32.4 Reversal of redistribution

If any part of the Sharing Payment received or recovered by a Recovering Finance Party becomes repayable and is repaid by that Recovering Finance Party, then:

- (a) each Sharing Finance Party shall, upon request of the Agent, pay to the Agent for the account of that Recovering Finance Party an amount equal to the appropriate part of its share of the Sharing Payment (together with an amount as is necessary to reimburse that Recovering Finance Party for its proportion of any interest on the Sharing Payment

which that Recovering Finance Party is required to pay) (the “**Redistributed Amount**”); and

- (b) as between the relevant Obligor and each relevant Sharing Finance Party, an amount equal to the relevant Redistributed Amount will be treated as not having been paid by that Obligor.

### 32.5 **Exceptions**

- (b) A Recovering Finance Party is not obliged to share with any other Finance Party any amount which the Recovering Finance Party has received or recovered as a result of taking legal or arbitration proceedings, if:
  - (i) it notified the other Finance Party of the legal or arbitration proceedings; and

**33.4 Clawback and pre-funding**

- (a) Where a sum is to be paid to the Agent under the Finance Documents for another Party, the Agent is not obliged to pay that sum to that other Party (or to enter into or perform any related exchange contract) until it has been able to establish to its satisfaction that it has actually received that sum.
- (b) Unless paragraph (c) below applies, if the Agent pays an amount to another Party and it proves to be the case that the Agent had not actually received that amount, then the Party to whom that amount (or the proceeds of any related exchange contract) was paid by the Agent shall on demand refund the same to the Agent together with interest on that amount from the date of payment to the date of receipt by the Agent, calculated by the Agent to reflect its cost of funds.
- (c) If the Agent has notified the Lenders that it is willing to make available amounts for the account of the Borrower before receiving funds from the Lenders then if and to the extent that the Agent does so but it proves to be the case that it does not then receive funds from a Lender in respect of a sum which it paid to the Borrower:
  - (i) the Agent shall notify the Parent of that Lender's identity and the Borrower to whom that sum was made available shall on demand refund it to the Agent; and

- (ii) the Lender by whom those funds should have been made available or, if that Lender fails to do so, the Borrower to whom that sum was made available, shall on demand pay to the Agent the amount (as certified by the Agent) which will indemnify the Agent against any funding cost incurred by it as a result of paying out that sum before receiving those funds from that Lender.

### 33.5 Partial payments

- (a) If the Agent receives a payment for application against amounts due in respect of any Finance Documents that is insufficient to discharge all the amounts then due and payable by an Obligor under those Finance Documents, the Agent shall apply that payment towards the obligations of that Obligor under the Finance Documents in the following order:
  - (i) **first**, in or towards payment *pro rata* of any unpaid fees, costs and expenses of the Administrative Parties under the Finance Documents;

- (b) The Agent shall, if so directed by the Majority Lenders, vary the order set out in paragraphs (a)(i) to (a)(iv) above.
- (c) Paragraphs (a) and (b) above will override any appropriation made by an Obligor.

### 33.6 No Set-off by Obligors

### 33.7 Business Days

- 6.1.5 There are no agreements in force or corporate resolutions passed which require or might require the present or future issue or allotment of any share capital of the Company (including any option or right of pre-emption, conversion or exchange), other than any such agreements or corporate resolutions as are contemplated by the Scheme and Finance Documents.

- 6.1.13 The Shares are not the subject of and are not involved in any dispute or legal action of any nature whatsoever, other than any matter contemplated by or in connection with the Scheme.
- 6.1.14 The Chargor is not, and will not whilst the Secured Liabilities remain outstanding, become a party to or otherwise bound by any agreement, other than any such agreements or restrictions as are contemplated by the Scheme and the Finance Documents, which restricts in any manner the rights of any present or future holder of any of the Shares.
- 6.1.15 The Chargor is not insolvent or unable to pay its debts as they fall due. No order has been made, petition presented or resolution passed for the winding up of the Chargor. No administrator or receiver or manager has been appointed by any person in respect of the Chargor or all or any of its assets and no steps have been taken to initiate any such appointment and no voluntary arrangement has been proposed, other than any such arrangements as are contemplated by the Scheme. ## **7. ENFORCEMENT**

### **7.1 When Enforceable**

The Security created by or pursuant to this Deed shall become immediately enforceable upon the occurrence of an Event of Default which is continuing and from such date the Chargee may, and shall if so instructed by the Minority Facility A Lenders, or the Agent (acting on the instructions of such Lender(s)) without notice to the Chargor or prior authorisation from any court, take any action it, in its sole and absolute discretion, deems necessary to protect and/or enforce its rights hereunder including, without limitation:

- 7.1.1 enforcing all or any part of the Charges created by this Deed (at the times and in the manner and on the terms it thinks fit) and taking possession of and holding or disposing of all or any part of the Charged Assets; and
- 7.1.2 whether or not it has appointed a Receiver, exercising all or any of the powers, authorities and discretions conferred by the Property Act (as varied or extended by this Deed) on mortgagees, and by this Deed on any Receiver, or otherwise conferred by law on mortgagees or Receivers.

The Chargee shall not be bound to take any such actions unless it has been indemnified and/or secured to its satisfaction.

### **7.2 Power of Sale**

The statutory powers of sale, of appointing a Receiver and the other statutory powers conferred on mortgagees by Sections 24 and 29 of the Property Act and any similar provisions of any equivalent law as varied and extended by this Deed shall arise on the date of this Deed and may be exercised by the Chargee free from the restrictions imposed by any statutory provisions relating to the exercise of any power of sale.

### **7.3 Consolidation**

Section 21 of the Property Act shall not apply to the Security created by this Deed.

## **8. APPOINTMENT AND RIGHTS OF RECEIVERS**

### **8.1 Appointment of Receivers**

If:

- 8.1.1 requested by the Chargor; or
- 8.1.2 any corporate action, legal proceedings or other procedure or step is taken in relation to the initiation of any insolvency proceedings in respect of the Chargor; or
- 8.1.3 any Event of Default has occurred and is continuing (and whether or not the Chargee has taken possession of the Charged Assets);

then without any notice or further notice, the Chargee may, by deed, or otherwise in writing signed by any officer or manager of the Chargee or any person authorised for this purpose by the Chargee, appoint one or more persons to be a Receiver of the whole or any part of the Charged Assets. Subject to the provisions of the IRDA, the Chargee may similarly remove (so far as it is lawfully able to) any Receiver and appoint any person in place of any Receiver. If

the Chargee appoints more than one person as Receiver, the Chargee may give those persons power to act either jointly or severally. The provisions of Section 29 of the Property Act (excluding the restrictions in Sections 29(6), 29(7) and 29(8)) and any similar provision of any equivalent law (as varied and/or extended by this Deed) shall apply to any appointment made pursuant to this Deed.

## **8.2 Scope of Appointment**

Any Receiver may be appointed Receiver of all of the Charged Assets or Receiver of a part of the Charged Assets specified in the appointment. In the latter case, the rights conferred on a Receiver as set out in Schedule 1 (*Rights of Receivers*) shall have effect as though every reference in Schedule 1 (*Rights of Receivers*) to any Charged Assets were a reference to the part of those assets so specified or any part of those assets.

## **8.3 Rights of Receivers**

Any Receiver appointed pursuant to this Clause 8 shall have the rights, powers, privileges and immunities conferred by the Acts on: (a) mortgagees; (b) mortgagees in possession; and (c) receivers duly appointed under the Acts; and shall also have the rights set out in Schedule 1 (*Rights of Receivers*). The Receiver shall in exercise of the Receiver's powers, authorities and discretions conform to the directions and regulations from time to time given or made by the Chargee.

## **8.4 Agent of Chargor**

Any Receiver shall be the agent of the Chargor for all purposes. The Chargor alone shall be responsible for the Receiver's contracts, engagements, acts, omissions, defaults and losses and for liabilities incurred by the Receiver.

## **8.5 Remuneration**

The Chargee may determine the remuneration of any Receiver (without being limited to the maximum rate specified in Section 29(6) of the Property Act) and direct payment of that remuneration out of moneys it receives as Receiver. The Chargor alone shall be liable for the remuneration and all other costs, losses, liabilities and expenses of the Receiver.

## **8.6 No Liability for Exercise of Powers**

Neither the Chargee nor the Receiver shall be liable for any action taken or omitted or for any losses, involuntary or otherwise, resulting from its actions or its performance or non-performance of its duties hereunder, except for those caused by their own fraud, gross negligence, willful misconduct or wilful default. Any Receiver appointed under this Deed may enjoy the benefit of or enforce the terms of this Clause 8 in accordance with the provisions of the Contracts (Right of Third Parties) Act, Chapter 53B of Singapore.

# **9. CHARGEES' RIGHTS**

## **9.1 Charge Protections**

All rights, powers, benefits and protections (including without limitation all forms of indemnities) made available to the Chargee in and as described in the Facilities Agreement shall apply to the Chargee in this Deed, *mutatis mutandis*. If there are any conflicts between the provisions in the Facilities Agreement in connection therewith and those in this Deed, the provisions in the Facilities Agreement shall prevail (but only to the extent that the validity and

enforceability of the rights of the Chargee pursuant to this Deed are not detrimentally affected as a result of such prevalence).

## **9.2 Same Rights as Receiver**

Any rights conferred by this Deed upon a Receiver may be exercised by the Chargee after the Charges become enforceable, whether or not the Chargee shall have taken possession or appointed a Receiver of the Charged Assets.

## **9.3 Delegation**

The Chargee may perform any of its duties or execute any of its powers hereunder directly or through its agents or delegates. Such appointments or delegation may be made upon such terms as the Chargee may think fit, provided that if such appointment or delegation is made with due care, the Chargee shall be under no obligation to supervise the proceedings or acts of such agent or delegate, and the Chargee shall not be liable for the acts or omissions of such agent or delegate.

## **9.4 Realisation**

9.4.1 If the Chargee or any Receiver exercises the rights conferred on it by paragraph (b) (*Deal with Charged Assets*) of Schedule 1 (*Rights of Receivers*) the same shall not be treated as an absolute appropriation of or foreclosure on the Charged Assets to the exclusion of the Chargor and in extinguishment of its interests therein, unless the Chargee or the Receiver shall otherwise notify the Chargor (whether before or after the relevant appropriation or foreclosure has been effected), in which latter event any such appropriation or foreclosure shall be treated as a sale of the Charged Assets at a fair market value and the Secured Liabilities shall be reduced by an equivalent amount.

9.4.2 In any disposal pursuant to paragraph (b) (*Deal with Charged Assets*) of Schedule 1 (*Rights of Receivers*), the Chargee may, provided that it shall first have used reasonable efforts to dispose of the relevant Charged Assets or rights to third parties and subject to compliance with any rules or regulations laid down by any governmental or other agency or authority, itself purchase at a fair market value the whole or any part of the Charged Assets or rights disposed of free from any rights of redemption on the part of the Chargor which are hereby waived and released.

## **9.5 No Obligation to Monitor**

The Chargee shall be under no obligation to monitor or supervise the functions of any other person under this Deed or any other agreement or document relating to the transactions herein or therein contemplated and shall be entitled, in the absence of actual knowledge of a breach of obligation, to assume that each such person is properly performing and complying with its obligations.

## **9.6 Transactions with Company**

Nothing herein shall prevent the Chargee from entering into financial transactions with the Company or a Guarantor or any Subsidiaries of the Company or a Guarantor and it shall not be under any obligation to account to any Secured Party with respect to any profits derived therefrom.

## **9.7 Information**

So far as permitted by applicable law, the Chargor shall give or procure to be given to the Chargee such opinions, certificates, information and evidence as it shall require and in such form as it shall require for the purpose of the discharge or exercise of the duties, trusts, powers, authorities and discretions vested in it under this Deed or by operation of law.

#### **9.8 Certificate Signed by Directors**

Any certificate or report of the Company, any Guarantor or any other person called for by or provided to the Chargee (whether or not addressed to the Chargee) in accordance with or for the purposes of this Deed may be relied upon by the Chargee as sufficient evidence of the facts stated therein. The Chargee need not call for further evidence and will not be responsible for any loss occasioned by acting on such a certificate.

#### **9.9 Investment**

Moneys held by the Chargee pursuant to this Deed may, in the Chargee's absolute discretion, be invested in its name or under its control in any investments or other assets anywhere whether or not they produce income or deposited in its name or under its control at such bank or other financial institution in such currency as the Chargee may, in its absolute discretion, think fit and the Chargee may at any time vary or transfer any of such investments for or into other such investments or convert any money so deposited into any other currency. If that bank or institution is the Chargee or a subsidiary, holding or associated company of the Chargee, it need only account for an amount of interest calculated by reference to the standard rate of interest which at the relevant time would be payable by it on such a deposit to an independent customer. The Chargee may at any time vary or transpose any such investments or assets or convert any moneys so deposited into any other currency, and will not be responsible for any resulting loss, whether by depreciation in value, change in exchange rates or otherwise.

#### **9.10 Resignation**

The Chargee may retire from its role as Offshore Security Agent for the Secured Parties in accordance with the terms of the Facilities Agreement; provided that the retirement of the Offshore Security Agent will not become effective until a successor Offshore Security Agent is appointed in accordance with the terms of the Facilities Agreement. Upon the appointment of a successor, the successor Offshore Security Agent shall succeed to and become vested with the rights, powers, duties and discretions of the retiring Offshore Security Agent and the retiring Offshore Security Agent shall be discharged from any further duties and obligations hereunder. The Parties agree to execute whatever documents may be necessary to effect such a change of Offshore Security Agent.

#### **9.11 Scope of Duties**

The Chargee shall only be obliged to perform such duties as are specifically set forth herein and no duties, obligations or responsibilities shall be otherwise implied. Except as specifically provided for in the Finance Documents, nothing in the Finance Documents makes the Chargee a trustee or fiduciary of any party or any other person.

#### **9.12 Email Indemnity**

If the Chargee receives information or instructions delivered by facsimile, electronic mail, other electronic method or other unsecured method of communication, the Chargee shall have: (i) no duty or obligation to verify or confirm that the person who sent such instructions is in fact a person authorized to give instructions or directions on behalf of the Chargor; and (ii) no liability for any losses, liabilities, costs or expenses incurred or sustained by any party as a result of such reliance on or compliance with such information or instructions.

### **9.13 Reliance**

The Chargee may rely on information, reports and certificates provided by the Chargor and shall not be liable for acting or refraining from acting in reliance on such.

### **9.14 Nothing Illegal**

The Chargee may refrain from doing anything in any jurisdiction if doing the relevant thing in that jurisdiction would, in its opinion (which may be based upon legal advice in the relevant jurisdiction), be contrary to any law of that jurisdiction or, to the extent applicable, of Indonesia or Singapore, or would otherwise render it liable to any person in that jurisdiction or Indonesia or Singapore or if, in its opinion based upon such legal advice, it would not have power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or in Indonesia or Singapore or if it is determined by any court or other competent authority in that jurisdiction or in Indonesia or Singapore that it does not have such power.

## **10. CHARGEES' RESPONSIBILITIES**

### **10.1 Chargee Not Responsible**

The Chargee shall not be responsible for:

- 10.1.1 the execution, delivery, legality, effectiveness, adequacy, genuineness, validity, performance, enforceability, sufficiency or admissibility in evidence of this Deed or any other document relating or expressed to be supplemental hereto and shall not be liable for any failure to obtain any licence, consent or other authority for the execution, delivery, legality, effectiveness, adequacy, genuineness, validity, or the performance, enforceability, sufficiency or admissibility in evidence of this Deed or any other document relating or expressed to be supplemental hereto;
- 10.1.2 the investigation of any matter which is the subject of any recital, statement, representation, warranty or covenant of any person contained in this Deed or any other agreement or document relating to the transactions contemplated in this Deed or under such other agreement or document; and
- 10.1.3 the validity, enforceability or sufficiency of this Deed, any other agreement or document relating to the transactions contemplated in this Deed or any Security delivered thereunder, or for the value or collectability of any instrument, if any, so delivered, or for any representations made or obligations assumed by any party other than the Chargee. The Chargee shall not be bound to examine or inquire into or be liable for any defect or failure in the right or title of the Chargor to all or any of the assets whether such defect or failure was known to the Chargee or might have been discovered upon examination or inquiry and whether capable of remedy or not.

### **10.2 Advice**

The Chargee may, when it deems necessary, engage lawyers or other experts and obtain advice from them, and rely on any advice so obtained and shall be protected and shall incur no liability whatsoever in respect of any action taken or omitted to be taken in accordance with such advice, save where the same results from the gross negligence, willful misconduct, wilful default or fraud of the Chargee in the selection of such lawyers or other experts. The Chargor shall bear any expenses incurred by the Chargee in engaging any such lawyer or other experts as aforesaid.

Any advice may be sent or obtained by letter, electronic mail or facsimile and the Chargee shall not be liable for acting on any such advice.

### **10.3 Chargee to Assume Due Performance**

The Chargee may assume that the Chargor is performing all its obligations under this Deed.

### **10.4 Chargee's Funds**

Nothing in this Deed shall require the Chargee to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties or the exercise of any rights, powers, authorities or discretions hereunder.

### **10.5 No Liability for Losses**

Notwithstanding any provision of this Deed to the contrary, the Chargee shall not be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to lost profits), whether or not foreseeable, even if it has been advised of the likelihood of any such loss or damage and regardless of whether the claim for loss or damage is made in negligence, for breach of contract or otherwise.

### **10.6 Not Responsible for Error of Judgment**

The Chargee shall not be liable for any error of judgment made in good faith by a responsible officer or responsible officers of the Chargee.

### **10.7 Information**

The Chargee may require the Chargor to give or procure to be given to the Chargee such opinions, certificates, information and evidence in such form as the Chargee requires for the purpose of the discharge or exercise of the duties, trusts, powers, authorities and discretions vested in it under this Deed or by operation of law.

## **11. REMUNERATION AND INDEMNIFICATION OF THE CHARGEES**

### **11.1 Normal Remuneration**

The Chargor will pay the Chargee remuneration for its services in accordance with the terms of the Facilities Agreement and all such remuneration shall be paid to the Chargee for its own account free and clear of deduction, set-off, counterclaim and withholding on account of any taxation.

### **11.2 Extra Remuneration**

If the Chargee finds it expedient or necessary or is requested by the Chargor to undertake duties which they both agree to be of an exceptional nature or otherwise outside the scope of the Chargee's normal duties under this Deed, the Chargor will pay such additional remuneration as they may agree or, failing agreement as to any of the matters in this Clause (or as to such sums referred to in Clause 11.1), as determined by an Independent Financial Institution (acting as an expert) selected by the Chargee and approved by the Chargor or, failing such approval, nominated by the President for the time being of The Law Society of Singapore. The expenses involved in such nomination and such Independent Financial Institution's fee will be paid by the Chargor, which sums, for the avoidance of doubt, shall be paid free and clear of deduction

and withholding on account of taxation. The determination of such Independent Financial Institution will be conclusive and binding on the Chargor, the Chargee and the Secured Parties.

### **11.3 Expenses**

The Chargor will on demand by the Chargee pay or discharge all costs, internal management time fees, charges, liabilities and expenses properly incurred by the Chargee in the preparation and execution of this Deed and the performance of its functions under, and in any other manner in relation to, this Deed including, but not limited to, expenses incurred seeking legal or financial advice to discharge its duties in accordance with this Deed, legal and travelling expenses, any stamp, documentary or other taxes or duties paid or payable by the Chargee in connection with any action or legal proceedings brought or contemplated by the Chargee against the Chargor to enforce any provision of this Deed. If the Chargor fails to pay any amount payable by it under this Deed on its due date, interest shall accrue on such unpaid amounts from the due date to the date of actual payment (both before and after judgment) at the rate determined in accordance with, and otherwise in the manner set out in, clause 10.3 (*Default Interest*) of the Facilities Agreement, and any interest accruing under this Clause shall be immediately payable by the Chargor on demand by the Chargee.

For the avoidance of doubt, the Chargee is not obliged to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties, obligations or responsibilities or the exercise of any right, power, authority or discretion if it has grounds for believing the repayment of such funds or adequate indemnity against, or security for (including payment in advance), such risk or liability is not reasonably assured to it.

### **11.4 Value Added Tax**

The Chargor shall in addition pay to the Chargee an amount equal to the amount of any value added tax or similar tax chargeable in respect of its remuneration under this Deed.

### **11.5 Indemnity**

The Chargor will indemnify the Chargee, each Finance Party, Receiver and Delegate in respect of all liabilities, expenses paid or incurred by them or by anyone appointed by them to whom any of their functions may be delegated by them in the carrying out of their functions and against any loss, liability, cost, claim, action, demand or expense (including, but not limited to, all costs, charges and expenses paid or incurred in disputing or defending any of the foregoing) which any of them may pay or incur or which may be made against any of them arising out of or in relation to or in connection with, its appointment or the exercise of its functions pursuant to any Finance Document. The Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore applies to this Clause 11.5. Subject to Clause 18.3 (*FATCA Deduction*), all payments by the Chargor under this Clause 11.5 will be made without withholding or deduction for any taxes including any value added tax or similar tax, duties, or other charges of whatever nature imposed, levied, collected, withheld or assessed by or within Indonesia, Singapore or any other jurisdiction or any political subdivision or authority thereof or therein having power to tax. Subject to Clause 18.3 (*FATCA Deduction*), if any withholding or deduction is required by law in respect of payments made by the Chargor to the Chargee under this Clause 11.5, the Chargor shall pay additional amounts as may be necessary in order that the net amounts received by the Chargee after such deduction or withholding shall equal the amounts which would have been receivable by the Chargee had no such deduction or withholding been required. The Chargor shall obtain the relevant tax certificate(s) evidencing payment of tax on behalf of the Chargee and will forward the tax certificate(s) to the Chargee to enable the Chargee to claim relief in its country against payment of double taxation on its income from payment of tax in Indonesia, Singapore or any such other jurisdiction.

## **11.6 Continuing Effect**

Clause 11.5 (*Indemnity*) will continue in full force and effect as regards the Chargee after termination of this Deed.

## **12. ORDER OF DISTRIBUTIONS**

### **12.1 Application**

All amounts received or recovered by the Chargee or any Receiver or Delegate in exercise of their rights under this Deed shall, subject to the rights of any creditors having priority under Section 26 of the Property Act and any similar provision of any equivalent law and subject to Clause 16.5 (*Appropriations*), be applied in accordance with clause 29 (*Application of Proceeds*) of the Facilities Agreement.

## **13. LIABILITY OF CHARGE, RECEIVERS AND DELEGATES**

### **13.1 Possession**

If the Chargee, any Receiver or any Delegate takes possession of the Charged Assets, it may at any time relinquish possession. Without prejudice to Clause 13.2 (*Chargee's Liability*), the Chargee shall not be liable as a mortgagee in possession by reason of viewing or repairing any of the present or future assets of the Chargor.

### **13.2 Chargee's Liability**

Neither the Chargee nor any Receiver or Delegate shall (either by reason of taking possession of the Charged Assets or for any other reason and whether as mortgagee in possession or otherwise) be liable to the Chargor, the Chargee or any other person for any costs, losses, liabilities or expenses relating to the realisation of any Charged Assets or from any act, default, omission or misconduct of the Chargee, any Receiver, any Delegate or their respective officers, employees or agents in relation to the Charged Assets or in connection with this Deed, except to the extent caused by its or his own fraud, gross negligence, willful default or wilful misconduct. Any third party referred to in this Clause 13 may enjoy the benefit or enforce the terms of this Clause in accordance with the provisions of the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore.

## **14. POWER OF ATTORNEY**

### **14.1 Appointment**

The Chargor, by way of security, irrevocably appoints the Chargee, every Receiver and every Delegate severally as its attorney (with full power of substitution), on its behalf and in its name or otherwise, at such time and in such manner as the attorney thinks fit:

14.1.1 to do anything which the Chargor is obliged to do (but has not done) under this Deed (including to execute charges over, transfers, conveyances, assignments and assurances of, and other instruments, notices, orders and directions relating to, the Charged Assets); and

14.1.2 to exercise any of the rights conferred on the Chargee, any Receiver or any Delegate in relation to the Charged Assets or under this Deed, either of the Acts, generally under Singapore law or any other applicable law.

## **14.2 Ratification**

The Chargor ratifies and confirms and agrees to ratify and confirm whatever any such attorney shall do in the exercise or purported exercise of the power of attorney granted by it in Clause 14.1 (*Appointment*). Any third party referred to in this Clause 14 may enjoy the benefit or enforce the terms of this Clause 14 in accordance with the provisions of the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore.

## **15. PROTECTION OF THIRD PARTIES**

### **15.1 No Duty to Enquire**

No person dealing with the Chargee, any Receiver or any Delegate shall be concerned to enquire:

15.1.1 whether the rights conferred by or pursuant to the Finance Documents are exercisable;

15.1.2 whether any consents, regulations, restrictions or directions relating to such rights have been obtained or complied with;

15.1.3 otherwise as to the propriety or regularity of acts purporting or intended to be in exercise of any such rights (including whether or not any delegation shall have lapsed for any reason or has been revoked); or

15.1.4 as to the application of any money borrowed or raised.

### **15.2 Protection to Purchasers**

Subject to the provisions of this Deed, all the protection to purchasers contained in Section 26 of the Property Act or in any similar provision of any equivalent law shall apply to any person purchasing from or dealing with the Chargee, any Receiver or any Delegate.

## **16. SAVING PROVISIONS**

### **16.1 Continuing Security**

Subject to Clause 17 (*Discharge of Security*), the Charges are continuing security and will extend to the ultimate balance of the Secured Liabilities, regardless of any intermediate payment or discharge in whole or in part.

### **16.2 Reinstatement**

If any payment by the Chargor or any discharge given by the Chargee (whether in respect of the obligations of any Obligor or any security for those obligations or otherwise) is avoided or reduced (whether in whole or in part) for any reason including, without limitation, as a result of insolvency, breach of fiduciary or statutory duties or any other reason:

16.2.1 the liability of the Chargor under this Deed and the Charges shall continue as if the payment, discharge, avoidance or reduction had not occurred; and

16.2.2 the Chargee shall be entitled to recover the value or amount of that Security or payment from the Chargor, as if the payment, discharge, avoidance or reduction had not occurred.

### **16.3 Waiver of Defences**

Neither the obligations of the Chargor under this Deed nor the Charges will be affected by an act, omission, matter or thing which, but for this Clause, would reduce, release or prejudice any of its obligations under any of the Charges (without limitation and whether or not known to it or the Chargee) including:

- 16.3.1 any time, waiver or consent granted to, or composition with, any Obligor or other person;
- 16.3.2 the release of any Obligor or any other person under the terms of any composition or arrangement with any creditor or any other person;
- 16.3.3 the taking, variation, compromise, exchange, renewal or release of, or refusal or neglect to perfect, take up or enforce any rights against, or Security over assets of, any Obligor or other person or any non-presentation or non-observance of any formality or other requirement in respect of any instrument or any failure to realise the full value of any Security;
- 16.3.4 any incapacity or lack of power, authority or legal personality of or dissolution or change in the members or status of an Obligor or any other person;
- 16.3.5 any amendment (however fundamental), novation, supplement, restatement (however fundamental) or replacement of the Finance Documents;
- 16.3.6 any unenforceability, illegality or invalidity of any obligation of any person under the Finance Documents;
- 16.3.7 any insolvency, reorganisation, winding-up, or composition or adjustment of debts, compromise, appointment of judicial manager or similar proceedings;
- 16.3.8 any of the Finance Documents not being executed by, or not being binding upon, any Obligor; or
- 16.3.9 postponement, discharge, reduction, non-provability or other similar circumstance affecting any obligation of any Obligor or other person under the Finance Documents resulting from any insolvency, liquidation or dissolution proceedings or from any law, regulation or order.

#### **16.4 Immediate Recourse**

The Chargor waives any right it may have of first requiring the Chargee (or any trustee or agent on its behalf) to proceed against or enforce any other rights or Security or to claim payment from any other person before claiming from the Chargor under this Deed. This waiver applies irrespective of any law or any provision of a Finance Document to the contrary.

#### **16.5 Appropriations**

Until all Secured Liabilities have been irrevocably paid in full, and all obligations that give rise to Secured Liabilities have terminated, the Chargee (or any trustee or agent on its behalf) may without affecting the liability of the Chargor under this Deed:

- 16.5.1 refrain from applying or enforcing any other moneys, Security or rights held or received by the Chargee (or any trustee or agent on its behalf) in respect of those amounts, or apply and enforce the same in such manner and order as it sees fit (whether against those amounts or otherwise) and the Chargor shall not be entitled to the benefit of the same; and

16.5.2 hold in an interest-bearing suspense account any moneys received from the Chargor or on account of the Chargor's liability under this Deed.

## **16.6 Deferral of Chargor's Rights**

Until all Secured Liabilities have been irrevocably paid in full, and all obligations that give rise to Secured Liabilities have terminated, and unless the Chargee otherwise directs, the Chargor will not exercise any rights which it may have by reason of performance by it of its obligations under the Finance Documents:

16.6.1 to be indemnified by an Obligor or other person;

16.6.2 to claim any contribution from any other Obligor or any other guarantor for any Obligor's obligations under the Finance Documents; and/or

16.6.3 to take the benefit (in whole or in part and whether by way of subrogation or otherwise) of any rights of the Chargee under the Finance Documents or of any guarantee or other Security taken pursuant to, or in connection with, the Finance Documents by the Chargee.

## **16.7 Additional Security**

The Charges are in addition to and are not in any way prejudiced by any other guarantees or Security now or subsequently held by the Chargee.

## **17. DISCHARGE OF SECURITY**

### **17.1 Final Redemption**

Subject to Clause 17.2 (*Retention of Security*) and Clause 12 (*Order of Distributions*), if the Chargee is satisfied that all Secured Liabilities have been irrevocably paid in full, and all obligations that give rise to Secured Liabilities have terminated, the Chargee shall at the cost of the Chargor release, reassign or discharge (as appropriate) the Charged Assets from the Charges. For the avoidance of doubt, the Chargee shall release or discharge (as appropriate) the Charged Assets from the Charges pursuant to this Clause 17.1 (*Final Redemption*) notwithstanding that any and all monies, indebtedness, obligations and liabilities of any kind (including the Facility B Loan) at any time due, owing or incurred by the Company to the Facility B Lender under or in connection with any Finance Document have not been paid in full.

### **17.2 Retention of Security**

If the Chargee considers that any amount paid or credited to the Chargee under the Finance Documents is capable of being avoided or otherwise set aside, that amount shall not be considered to have been paid for the purposes of determining whether all Secured Liabilities have been irrevocably paid.

### **17.3 Consolidation**

Any restrictions on the consolidation of Security, whether under Section 21 of the Property Act or otherwise, shall be excluded to the fullest extent permitted by law and the Chargee shall, so far as it is lawful and subject to other provisions of this Deed, be entitled to consolidate all or any of the Charges with any other Security whether in existence on the date of this Deed or in the future.

## **18. ENFORCEMENT EXPENSES**

### **18.1 Enforcement Costs**

The Chargor shall, within three (3) Business Days of written demand, pay to the Chargee the amount of all costs, losses, liabilities and expenses (including legal fees) incurred by the Chargee, any Receiver or any Delegate in relation to this Deed (including, without limitation, the administration, protection, realisation, enforcement or preservation of any rights under or in connection with this Deed, or any consideration by the Chargee as to whether to realise or enforce the same, and/or any amendment, waiver, consent or release of the Finance Documents and/or any other document referred to in this Deed).

### **18.2 Indirect Tax**

The Chargor shall, within three (3) Business Days of written demand, pay to the Chargee:

18.2.1 the amount of all costs, losses or liabilities incurred by the Chargee, any Receiver or any Delegate in relation to all stamp duty, registration and other similar taxes payable in respect of this Deed; and

18.2.2 any goods and services, value-added or similar tax payable in respect of any amount payable by the Chargor to the Chargee under this Deed.

### **18.3 FATCA Deduction**

Notwithstanding anything to the contrary under this Deed or otherwise, in respect of any payment or amount due or payable under or pursuant to this Deed:-

- (a) each Party may make any FATCA Deduction it is required to make by FATCA, and any payment required in connection with that FATCA Deduction, and no Party shall be required to increase any payment in respect of which it makes such a FATCA Deduction or otherwise compensate the recipient of the payment for that FATCA Deduction;
- (b) each Party shall promptly, upon becoming aware that it must make a FATCA Deduction (or that there is any change in the rate or the basis of such FATCA Deduction), notify the other Party to whom it is making the payment and, in addition, shall notify the Parent and the Agent and the Chargee shall notify the other Finance Parties.

## **19. PAYMENTS**

### **19.1 Demands**

Any demand for payment made by the Chargee shall be valid and effective even if it contains no statement of the relevant Secured Liabilities or an inaccurate or incomplete statement of them.

### **19.2 Payments**

All payments by the Chargor under this Deed (including damages for its breach) shall be made in the Currency of Account and to such account, with such financial institution and in such other manner as the Chargee may reasonably direct.

## **20. RIGHTS, WAIVERS AND DETERMINATIONS**

## **20.1 Ambiguity**

Where there is any ambiguity or conflict between the rights conferred by law and those conferred by or pursuant to this Deed, the terms of this Deed shall prevail.

## **20.2 Exercise of Rights**

No failure to exercise, nor any delay in exercising, on the part of the Chargee, Receiver or Delegate, any right or remedy under this Deed shall operate as a waiver, nor shall any single or partial exercise of any right or remedy prevent any further or other exercise or the exercise of any other right or remedy. The rights and remedies provided in this Deed are cumulative and not exclusive of any rights or remedies provided by law.

## **20.3 Determinations**

Any certification or determination by the Chargee or any Receiver or Delegate under this Deed is, in the absence of manifest error, conclusive evidence of the matters to which it relates.

## **21. SEPARATE AND INDEPENDENT OBLIGATIONS**

The Security created by the Chargor by or in connection with this Deed is separate from and independent of the Security created or intended to be created by any other Obligor by or in connection with the Finance Documents.

## **22. BENEFIT OF SECURITY**

### **22.1 Benefit and Burden**

This Deed shall be binding upon and enure to the benefit of the Parties, their respective assignees and successors. Any reference in this Deed to any Party shall be construed accordingly.

### **22.2 The Chargor**

The Chargor may not assign and/or transfer any of its rights or obligations under this Deed.

### **22.3 The Chargee**

The Chargee may assign and/or transfer all or any part of its rights and/or obligations under or in respect of this Deed to any person from time to time in accordance with the Finance Documents and the Chargor agrees to execute all documents and take all action that may be required by the Chargee in respect of any assignment or transfer, or proposed assignment or transfer. Any such assignee or transferee shall be and be treated as a Party for all purposes of this Deed and shall be entitled to the full benefit of this Deed to the same extent as if it were an original party in respect of the rights or obligations assigned or transferred to it.

## **23. NOTICES**

Any communication to be made under or in connection with this Deed shall be made in accordance with the Facilities Agreement.

## **24. COUNTERPARTS**

This Deed may be executed in any number of counterparts, and this has the same effect as if the signatures on the counterparts were on a single copy of this Deed.

## **25. GOVERNING LAW**

This Deed shall be governed by and construed in accordance with Singapore law.

## **26. ENFORCEMENT**

### **26.1 Jurisdiction**

26.1.1 The courts of Singapore have exclusive jurisdiction to settle any dispute arising out of or in connection with this Deed (including a dispute regarding the existence, validity or termination of this Deed) (a “Dispute”).

26.1.2 The Chargor agrees that the courts of Singapore are the most appropriate and convenient courts to settle Disputes and accordingly it will not argue to the contrary.

26.1.3 This Clause 26.1 is for the benefit of the Chargee only. As a result, the Chargee shall not be prevented from taking proceedings relating to a Dispute in any other court in Singapore or any other country having jurisdiction over the Chargor’s property. To the extent allowed by law, the Chargee may take concurrent proceedings in any number of jurisdictions.

### **26.2 Consent to Enforcement etc.**

The Chargor irrevocably and generally consents in respect of any proceedings anywhere in connection with this Deed to the giving of any relief or the issue of any process in connection with those proceedings including, without limitation, the making, enforcement or execution against any assets whatsoever (irrespective of their use or intended use) of any order or judgment which may be made or given in those proceedings.

### **26.3 Waiver of Immunity**

The Chargor irrevocably agrees that, should the Chargee take any proceedings anywhere (whether for an injunction, specific performance, damages or otherwise) in connection with this Deed, no immunity (to the extent that it may at any time exist, whether on the grounds of sovereignty or otherwise) from those proceedings, from attachment (whether in aid of execution, before judgment or otherwise) of its assets or from execution of judgment shall be claimed by it or with respect to its assets, any such immunity being irrevocably waived. The Chargor irrevocably agrees that it and its assets are, and shall be, subject to such proceedings, attachment or execution in respect of its obligations under this Deed.
